Briefing on How To Use the Federal Register
For information on a briefing in Atlanta, GA, see
announcement on the inside cover of this issue.

Federal Register

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for \$340 per year in paper form; \$195 per year in microfiche form; or \$37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is \$1.50 for each issue, or \$1.50 for each group of pages as actually bound, or \$175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 57 FR 12345.

THE FEDERAL REGISTER WHAT IT IS AND HOW TO USE IT

- FOR:** Any person who uses the Federal Register and Code of Federal Regulations.
- WHO:** The Office of the Federal Register.
- WHAT:** Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
 2. The relationship between the Federal Register and Code of Federal Regulations.
 3. The important elements of typical Federal Register documents.
 4. An introduction to the finding aids of the FR/CFR system.
- WHY:** To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

ATLANTA, GA

- WHEN:** September 17, at 9:00 a.m.
- WHERE:** Centers for Disease Control
1600 Clinton Rd., NE.
Auditorium A
Atlanta, GA (Parking available)
- RESERVATIONS:** [404-639-3528 (Atlanta area)]
1-800-347-1997 (outside Atlanta area)

Rules and Regulations

Federal Register

Vol. 57, No. 164

Monday, August 24, 1992

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

FARM CREDIT ADMINISTRATION

12 CFR Parts 614 and 619

RIN 3052-AB13

Loan Policies and Operations; Definitions; Lending Authorities and Purchase and Sale of Interests in Loans

AGENCY: Farm Credit Administration.

ACTION: Final rule.

SUMMARY: The Farm Credit Administration (FCA), by the Farm Credit Administration Board (Board), adopts final regulations that amend parts 614 and 619 of FCA regulations governing the lending, loan sale and purchase, and loan participation authorities of Farm Credit System (FCS or System) institutions. The FCA originally proposed to amend these regulations on November 3, 1988, 53 FR 44438. In response to comments, the FCA repropose amendments to certain regulations on January 23, 1991, 56 FR 2452. Pursuant to the Agricultural Credit Act of 1987 (1987 Act),¹ which amended the Farm Credit Act of 1971 (Act), the final regulations reconcile the loan-related authorities of FCS institutions that are created either by mergers or the transfer of long-term lending authorities from a bank to an association. These final regulations also implement provisions in the Act that authorize FCS institutions to sell and purchase non-participation interests in loans. The FCA has eliminated from the final regulations existing requirements that the agency give prior approval to loan purchase and sale transactions by FCS institutions. The final regulations also address the sale of loans to a pooler certified by the Federal Agricultural Mortgage Corporation (Farmer Mac) and lenders that are not FCS institutions.

EFFECTIVE DATE: The regulations shall become effective upon the expiration of 30 days after publication during which either or both Houses of Congress are in session. Notice of the effective date will be published in the Federal Register.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

I. General

A. Historical Background

Proposed amendments pertaining to appraisal standards, lending limits, and loan participations were originally part of the eligibility/lending authorities regulations that the FCA proposed on November 3, 1988, 53 FR 44438. The appraisal standards, lending limits, and loan participation regulations were separated from the original proposal, and subsequently repropose on January 23, 1991, 56 FR 2452. The comment period for the repropose regulations expired on March 25, 1991. The FCA received approximately 430 comment letters about the repropose appraisal standards, lending limits, and loan participations regulations. Most of these comments addressed FCA's proposed amendments to the lending limits and appraisal standards regulations.

As a result of these comments, the FCA published a Notice of Public Hearing on May 10, 1991, 56 FR 21637, so that System institutions, their borrowers, and other interested parties would be afforded another opportunity to express their concerns about these repropose regulations, and to offer constructive suggestions about the content of the final regulations. The Notice of Public Hearings solicited public comments on specific topics. Testimony was presented by 121 individuals during the 4 days of the public hearings. Testimony on regulations relating to loan

participations and loan sale and purchase authorities was confined to their interface with lending limits.

After carefully considering all comments, testimony, and documents received from the public, the FCA has adopted final regulations amending subparts A and H of part 614, which pertain to lending authorities, loan participations, and loan purchase and sale transactions. As explained in greater detail elsewhere in this preamble, the FCA incorporated many of the commenters' substantive and technical recommendations into the final regulations and declined to adopt others. The appraisal and lending limit regulations will be addressed separately at a future date.

B. Economic Impact

On January 30, 1992, the President of the United States unveiled an initiative for economic growth.² The President's initiative requires Federal agencies to review their regulations in order to: (1) identify those regulations that impede economic growth; and (2) accelerate action on those regulations that promote growth. The President's initiative establishes five criteria for evaluating the impact of a regulation on economic growth. First, the expected benefits of the regulation to society should clearly outweigh its costs. Second, the regulation should be fashioned to maximize the net benefits to society. Third, the regulation should rely, to the maximum extent possible, on performance standards instead of prescriptive command-and-control requirements. Fourth, the regulation should, to the maximum extent possible, rely upon market mechanisms. Finally, the regulation should be expressed with clarity and certainty to guide regulated entities, and it should be designed to avoid needless litigation.

The FCA has decided to promulgate these regulations at this time because they promote economic growth. For the first time, the regulations in subpart A of part 614 specifically address the loan sale and purchase authorities of Farm Credit Banks (FCBs), agricultural credit banks (ACBs), Federal land credit associations (FLCAs), production credit

² Presidential Memorandum dated January 28, 1992, addressed to certain Department and Agency Heads. The subject of the memorandum was "Reducing the Burden of Government Regulation."

¹ Public Law No. 100-233, 101 Stat. 1568 (1988).

associations (PCAs), and agricultural credit associations (ACAs). As a result, FCS institutions will be able to exercise their authorities to the maximum extent allowed by law. For example, these regulations authorize FLCAs and ACAs to make, sell, or purchase, long-term loans that are statutorily permissible for the transferring FCB or ACB. Additionally, the FCA has liberally reconciled the residual powers of FCBs and ACBs so that they remain a source of credit for America's farmers, ranchers, and aquatic producers and harvesters, after their long-term lending authorities have been transferred to direct lender associations. The final regulations also facilitate the sale of loans to Farmer Mac and non-System lenders by clarifying regulatory treatment of such sales.

As a result, the FCA concludes that these regulations satisfy the criteria of the President's economic initiative because: (1) The benefits of these regulations clearly outweigh their costs; and (2) these regulations maximize net benefits to society. These regulations also rely, to the maximum extent permitted by the Act, on market mechanisms by enhancing the authorities of the FCS to participate in the secondary markets. With the enhancement of the System's authorities to purchase and sell loans, including participations and secondary market transactions, the FCS institutions will be provided additional avenues through which they can better manage their loan portfolios and the associated risk and income streams.

Finally, the FCA has eliminated from these regulations the requirement that the agency give prior approval to loan sale and purchase transactions. As a result, FCA will no longer exercise control over market transactions of System institutions. Prior approval of loan sales and purchase created delays and increased costs for FCS institutions.

II. Subpart A—Lending Authorities

A. General Authorities

The FCA adopts final regulations that amend subpart A concerning lending authorities. Comments concerning lending authorities were received from the Farm Credit Council (FCC), two FCBs, and two ACAs.

All commenters opined that the repropoed regulations unduly restricted the lending authorities of FCS institutions. These commenters suggested that the repropoed regulation would prohibit FCS institutions from purchasing non-participation interests in loans from financial institutions outside the System for purposes other than

Farmer Mac pooling. According to these commenters, this prohibition would place FCS institutions at a competitive disadvantage with commercial banks. These commenters also expressed concern that the repropoed regulation would also prevent a FCS institution from purchasing loans to sell to other secondary markets such as the Federal National Mortgage Corporation (Fannie Mae) or the Federal Home Loan Mortgage Corporation (Freddie Mac).

In response, the FCA notes that no provision of the Act authorizes System institutions to purchase from non-FCS institutions interests in loans, other than participations, except for Farmer Mac pooling. The proposed regulations in subpart A, §§ 614.4000(e)(3), 614.4010(f)(3), 614.4030(c)(3), 614.4040(d)(2), 614.4050(d)(3), 614.4325(b), and 614.4325(c)(1) reflect these statutory restrictions on the purchase of non-participation interests in loans from non-FCS institutions. Although all System commenters denied that the Act prohibits FCS institutions from purchasing such interests in loans from financial institutions outside the System for purposes other than Farmer Mac pooling, no commenter supplied any legal support for this position. After a careful review of the Act and its legislative history, the FCA reaffirms its legal conclusion that FCS institutions are not authorized to purchase non-participation interests in loans from non-FCS institutions for purposes other than for Farmer Mac pooling.

As noted earlier, these commenters expressed concern that the regulation does not allow FCS institutions to purchase loans for sale to other secondary markets, such as Fannie Mae and Freddie Mac. The FCS institutions do not have the statutory authority to purchase loans from non-FCS institutions for the purpose of pooling such loans for any secondary market, except Farmer Mac. Section II E of this preamble addresses the authorities of FCS institutions to sell loans to other secondary market entities such as Fannie Mae and Freddie Mac.

B. Affiliate Authorities

The FCC and a FCB suggested that the FCA amend the regulation in subpart A to clarify that FCBs, ACBs, PCAs, FLCAs, and ACAs are authorized to purchase or sell interests in loans through subsidiaries chartered under section 4.25 of the Act, or affiliates chartered under section 8.5(e)(1) of the Act.

The FCA recognizes that the Act authorizes FCS institutions to exercise certain of their functions through subsidiaries. The authorities of a

subsidiary derives from the authorities of its parent(s). The derivative authority of the subsidiary is generally reflected in its charter, rather than in regulations.

A new § 614.4060 has been added to the final regulation, however, which generally describes the authorities of FCS affiliates that pool and securitize loans under title VIII of the Act. Section 8.5(e)(1) of the Act impliedly amended section 4.25 of the Act so that associations, as well as banks, could organize affiliates that operate as poolers in the Farmer Mac program. Section 614.4060 clarifies that a FCS pooler affiliate is authorized to purchase loans from both FCS and non-System institutions that its parent is not authorized to make. Although the lending authorities of Farm Credit banks and associations are not expanded by provisions in the Act authorizing FCS institutions to operate as a certified agricultural mortgage marketing facility for the Farmer Mac program, title VIII of the Act permits certified agricultural mortgage marketing facilities to purchase, pool, and securitize any loan that complies with Farmer Mac's underwriting standards.

Two commenters asserted that System banks are statutorily authorized to sell or purchase interests in loans through existing subsidiaries that were organized under section 4.25 of the Act. The authority of a section 4.25 subsidiary to engage in such transactions would depend on its Articles of Incorporation. Accordingly, the authority of existing section 4.25 subsidiaries to sell or purchase interests in loans on behalf of their parent banks is determined on a case-by-case basis by reference to its Articles of Incorporation. Outside of the Farmer Mac context, the purchase of an interest in a loan may, in certain circumstances, be construed as an extension of credit to a borrower, and such activities cannot be legally conducted through a section 4.25 subsidiary. FCBs and ACBs should consult with the FCA before they conduct any loan sale or purchase activities through an existing section 4.25 subsidiary.

C. Loan Purchase and Sale Authorities

The FCC suggested that the FCA amend § 614.4040(d)(2) to authorize PCAs to sell interests in loans to non-FCS institutions for pooling and securitizing such loans pursuant to title VIII of the Act. The repropoed regulations in subpart A of part 614 only authorized PCAs and other FCS institutions to purchase non-participation interests in loans from non-FCS institutions for Farmer Mac

pooling and securitization. These repropounded regulations did not reflect the statutory authority of FCS institutions to sell interests in loan to non-FCS institutions that are certified agricultural mortgage marketing facilities under title VIII of the Act. Sections 1.5(24) and 2.2(21) of the Act authorize Farm Credit banks and associations to originate loans that are subsequently sold to a Farmer Mac pooler. Therefore, the FCA amends §§ 614.4000(e)(1), 614.4010(f)(1), 614.4030(c)(1), 614.4040(d)(1), and 614.4050(d)(1) to reflect the statutory authority of FCS institutions to sell non-participation interests in loans to non-FCS institutions that operate as certified agricultural mortgage marketing facilities under title VIII of the Act.

Neither the Act or the final regulation authorizes FCS institutions to purchase or originate loans that they have no statutory authority to originate, for the purpose of selling them to a Farmer Mac pooler. For example, a PCA could not originate 30-year mortgage loans even though it intended to sell such loans to a Farmer Mac pooler. A PCA has no statutory authority to hold these loans on its books prior to a sale to a Farmer Mac pooler. Furthermore, the PCA would be illegally holding long-term loans if the pooler were to reject these loans because they do not qualify with Farmer Mac's underwriting standards. However, a FCS institution certified by Farmer Mac as a certified agricultural mortgage marketing facility may purchase such loans in its capacity as a pooler.

The FCA has also amended §§ 614.4000(e)(3), 614.4010(f)(3), 614.4030(c)(3), 614.4040(d)(3), and 614.4050(d)(3) to clarify that FCS institutions are authorized to purchase non-participation interests in loans from non-System institutions only in their capacity as certified agricultural mortgage marketing facilities under title VIII of the Act. Sections 1.5(24) and 2.2(21) of the Act authorizes FCS institutions to become certified agricultural mortgage marketing facilities for Farmer Mac. In their capacity as Farmer Mac poolers, FCS institutions are authorized to engage in activities that may not be authorized under their other statutory power. For example, a PCA that is acting in its capacity as a certified agricultural mortgage marketing facility is authorized to purchase long-term real estate loans that it can neither make under § 614.4040(a), nor purchase in other circumstances under § 614.4040(d)(2).

The FCA expects FCS institutions certified as agricultural marketing facilities to maintain a separation between their Farmer Mac pooling activities and their other operations. The FCA intends to exercise its examination and enforcement powers to ensure that such a separation is maintained.

An ACA recommended that the FCA amend §§ 614.4030 and 614.4050 to allow FLCAs and ACAs to sell or purchase non-participation interests in loans from other associations in the System. The repropounded regulation only authorized FLCAs and ACAs to engage in such transactions with FCBs, ACBs, or banks for cooperatives.

Section 1.5(16) of the Act authorizes FCBs to: (1) Sell interests in loans to non-FCS financial institutions; and (2) sell and purchase interests in loans to other FCS institutions. Section 7.6(a) of the Act enables a FCB to transfer its authority to "make and participate in long-term real estate mortgage loans" to an ACA or a FLCA, while section 7.6(c) of the Act requires the FCA to issue regulations governing the transfer of powers from the bank to an association. Sections 614.4030(c)(1) and 614.4050(d)(1) of the repropounded regulations reflect the FCA's determination that a FCB's powers to sell interests in long-term real estate loans to non-FCS institutions under section 1.5(16) of the Act can be transferred to FLCAs and ACAs.

The FCA non concludes that ACAs and FLCAs also inherit the authority of the FCB under section 1.5(16) of the Act to buy from or sell to other FCS institutions interests in long-term loans. Accordingly, §§ 614.4030(c) and 614.4050(d) of the final regulations authorize transferee FLCAs and ACAs to buy from or sell to other FCS institutions interests in long-term real estate loans.

The FCA emphasizes that the authority of ACAs to sell interests in loans to non-System institutions, and to sell to or purchase from FCS associations such loan interests applies only to lending authorities that are derived from the FCB, not from a PCA. Since section 2.2(11) of the Act restricts the authority of PCAs to sell or purchase interests in short- and intermediate-term loans to Farm Credit banks, § 614.4050(d) does not authorize ACAs to purchase or sell non-participation interests in short- and intermediate-term loans with institutions that are not Farm Credit banks. The FCA has amended final § 614.4050 to clearly distinguish the purchase and sale authorities of ACAs with respect to long-term and short-term loans.

D. Residual Authorities

The FCC requested that the FCA clarify in the regulation whether a FCB retains residual authority to participate loans with non-FCS lenders after the bank transfers its lending authority to an association. Section 7.6(c) of the Act requires the FCA to issue regulations that reconcile the authorities of FCS institutions after a bank transfers its lending authority to an association. In the preamble to the repropounded regulation, the FCA adopted the position that the transfer of lending authority to an association does not deplete the loan-related authorities of the FCB. The FCA also recognized the need to reconcile these authorities in a manner that best serves the credit needs of farmers, ranchers, and aquatic producers and harvesters. See 56 FR 2457 (January 23, 1991).

Pursuant to its powers under section 7.6 of the Act, the FCA determines that FCBs and ACBs that have transferred their lending authority to an ACA or a FLCA retain residual powers to: (1) Participate in loans with FCS and non-FCS lenders; (2) purchase or sell other interests in loans in accordance with these regulations; and (3) make loans in territories of the Farm Credit district where no active association operates. Accordingly, the FCA has added new §§ 614.4000(f) and 614.4010(g) to the final regulation to clarify the residual powers of FCBs and ACBs after they transfer their lending authority to an association. The lending authorities of the FCBs in territories served by FLBAs are, of course, continue and are unaffected by these provisions.

E. Loan Sales to Other Lenders

The FCC requested that the phrase "other lending institution" in §§ 614.4000(e)(1), 614.4010(f)(1), 614.4030(c)(1), and 614.4050(d)(1) be changed to "other financial institutions." This commenter asserted that although the statute allows FCS institutions to sell interests in loans to "other lenders," Congress intended to include "other financial institutions such as insurance companies and financial intermediaries that are in the business of purchasing loans."

The FCA agrees with the commenter that the statute authorizes FCBs, ACBs, FLCAs, and ACAs to sell their loans to a broad spectrum of purchasers. However, instead of following the FCC's recommendation, the FCA has decided to change the term "other lending institutions" in §§ 614.4000(e)(1), 614.4010(f)(1), 614.4030(c)(1), and 614.4050(d)(1) to "other lenders." As a

result of this change, the language of the final regulation and the Act is identical. After carefully reviewing the legislative history of section 1.5(16) of the Act, the FCA interprets the term "other lenders" to mean parties that extend credit in the ordinary course of their business. In this context, the term "lenders" includes commercial banks, savings associations, credit unions, insurance companies, trust companies, agricultural credit corporations, incorporated livestock loan companies, and other financial intermediaries that extend credit as a regular part of their business. In response to two comments, the FCA concludes that §§ 614.4000(e)(1), 614.4010(f)(1), 614.4030(c)(1), and 614.4050(d)(1) authorize FCS institutions to sell their loans to other secondary markets such as Fannie Mae and Freddie Mac.

The FCA emphasizes that System institutions are required to comply with the borrower rights regulation, § 614.4336, when loans are sold to purchasers that are not System institutions.

F. Purchases of Interests in Farmer Mac Pools

The FCC requested that the FCA amend § 614.4000(e)(4) so that FCBs and ACBs that act in the capacity of a certified agricultural mortgage marketing facility under title VIII of the Act would be able to purchase an interest in a pool of subordinated participation interests where the pool had been assembled solely from loans purchased from other entities. The FCA rejects this suggestion because the risk is increased where the institution is exposed to the first risk of loss on loans in the pool, none of which it originated. The institution would be unable to determine whether any of the loans underlying the securities meet Farmer Mac underwriting standards and would have no control over the loan servicing. The FCA's position is consistent with the regulatory policy of the Office of the Comptroller of the Currency (OCC), which prohibits a national bank from acquiring a direct subordinated interest in loans sold by other lenders into the Farmer Mac program. See OCC BC-248 (October 24, 1990).

III. Subpart H—Purchase and Sale of Interests in Loans

The FCA now adopts as final regulation amendments to subpart H pertaining to loan participation transactions, and the sale and purchase of other (non-participation) interests in loans. This regulation also addresses the treatment of loan participations and other interests in loans that are sold by

FCS institutions to certified Farmer Mac poolers. As discussed in further detail, the FCA, in some instances, amended the repropoed regulation to incorporate suggestions of the commenters.

A. Definitions

The FCC and a FCB commented that the definition of "interests in loans" in repropoed § 614.4325(a)(1) restricts the authority of FCS institutions to negotiate for the purchase of "any aspect" of a loan transaction from non-FCS institutions. These commenters suggested that the FCA revise § 614.4325(a)(1) to clarify that the lender's rights in collateral are included in the definition of "interest in loans."

The FCA declines to make the changes suggested by the commenters. The FCA's approach provides FCS institutions with a sufficient degree of flexibility in structuring agreements to reach interests in collateral in appropriate circumstances. In certain situations, rights in a loan may not extend to collateral because the FCS institution acquires an unsecured interest in a loan. Additionally, rights in collateral and other aspects of the transaction derive from the agreement between the parties.

The FCC, a FCB, several associations, and an individual suggested that the FCA amend § 614.4325(a)(4) to indicate that loan participations are a subcategory of interests in loans. These commenters argue that the Act authorizes FCS institutions to purchase non-participation interests in loans from non-System institutions because loan participations are a subcategory of interests in loans. The FCA disagrees with this rationale because it does not follow the plain language of the Act. Under the Act, the authority of FCS institutions to participate in loans is separate and distinct from their authority to purchase or sell other interests in loans. While the Act authorizes FCS institutions to participate in loans with non-System institutions, the statute does not allow FCS institutions to purchase other interests in loans from non-System institutions.

The FCC also recommended that the FCA revise the definition of a participation interest in § 614.4325(a)(4) to encompass interest payments and collateral security.

From the perspective of the FCA, repropoed § 614.4325(a)(4) provides System institutions with sufficient flexibility to structure participation agreements to encompass interest payments and collateral security. Under the FCA's approach, an institution's fractional undivided interest in the

principal is not required to be equal to its share of the collateral or interest payments. For this reason, the FCA declines to adopt the commenter's recommendation.

Several commenters suggested that the FCA revise § 614.4325(a)(4) and (a)(5) by changing "fractional undivided interest" to "undivided fractional interest" in order to clarify that the fractional interest is undivided. The FCA declines to accept this suggestion because "fractional undivided interest" more clearly communicates the FCA's intention that all rights of ownership in the entire loan be shared on a pro rata basis. An "undivided fractional interest" can be interpreted to mean that the institution assumes all risks inherent in the fraction of the loan it purchases, instead of assuming all of the risks in the entire loan interest in an amount proportional to its fractional interest in the loan. The revision suggested by the commenters would significantly expand the types of transactions in which FCS institutions can engage. The FCA believes that the regulation allows FCS institutions reasonable flexibility in structuring loan participations, while retaining adequate standards for excluding loan participations sold from lending limit calculations.

A FCB and its related associations commented that "lead lender" is a very broad definition that does not take into account subparticipations that may be sold by a "first tier" participant. The commenter suggested that "lead lender" be changed to "financial institution." The repropoed regulation allows FCS institutions to purchase or sell participations when they are not lead lenders; however, prudent business practices require the agreement to extend to a lead lender who is responsible for servicing the loan or collecting payments. Therefore, the references to "lead lender" contained in §§ 614.4330(a)(1) and 614.4325(a)(4) remain unchanged.

B. Prior Approvals, Lending Limits Exclusions, Purchase and Sale Agreements

1. Prior Approvals and Lending Authorities

The repropoed regulation would eliminate the existing requirement that the FCA prior approve loan purchase and sale agreements by FCS institutions. The FCA received no comments about this proposed revision and the proposed position is adopted unchanged.

The FCC objected to repropoed § 614.4325(b), which would only enable FCS institutions to purchase or sell

interests in loans pursuant to their lending authorities in subpart A of these regulations and the requirements of proposed § 614.4330. The commenter asserts that the proposed regulation is too narrowly drafted with regard to the authority of FCS institutions to purchase interests in loans from non-FCS institutions. Accordingly, the FCC requests that the FCA delete such restrictions from subpart A and § 614.4325(b). As an alternative, the FCC suggests that the FCA "grandfather" purchases of loans from non-FCS institutions that do not conform with the final regulations.

As explained in this preamble to subpart A, these regulations reflect the FCA's view that FCS institutions are not authorized to purchase non-participation interests in loans from non-FCS institutions except pursuant to their authority to act as certified agricultural mortgage marketing facilities under title VIII of the Act. For this reason, the final regulation retains this prohibition. Because the purchase of such loan interests is without statutory authority, the FCA has no authority to "grandfather" the purchase of such loan interests.

2. Exclusion From Lending Limits and Capital Requirements

The FCC, a FCB, several associations, and an individual commenter suggested that the FCA revise § 614.4325(a)(6) to exclude situations where a seller retains some risk of loss from a "sale with recourse." The FCB recommended that the definition of "sale with recourse" loans should not cover circumstances where servicing rights and other aspects of the loan are retained.

In response, the proposed regulation did not treat the retention of servicing rights alone as a sale with recourse. Nonetheless, the FCA amends § 614.4325(a)(6) so that the final regulation explicitly states that the retention of servicing rights alone does not constitute recourse.

Two System commenters suggested that the FCA modify proposed § 614.4325(g)(1) in order to clarify that an undivided interest in the loan must extend to the same percentage of collateral securing the loan if the seller is to be allowed to exclude the portion of the loan sold from its lending limit. The FCA has modified § 614.4325(g)(1) in order to address the commenters' concerns.

The American Bankers Association (ABA) commented that national banks are subject to additional limitations that the FCA does not impose on FCS institutions. The commenter complained that the OCC limits the amount of

subordinated loan participations and subordinated securities that national banks can hold in Farmer Mac to 25 percent of capital. The ABA urges the FCA to impose this same restriction on FCS institutions. The FCA rejects this suggestion because this OCC policy is not suitable for the System, which was established to serve as a primary source of credit for American agriculture. Since Farmer Mac is a FCS institution, the FCA chooses not to impose a limit at this time on the subordinated loan participations or subordinated securities that other FCS institutions may purchase. However, the FCA interprets § 614.4325 as requiring each FCS institution to establish internal policies that limit the amount of subordinated securities that it shall purchase in total or from one pooler.

3. Purchase and Sale Agreements

The FCA received three comments proposing minor modifications of proposed § 614.4330, which pertains to sale or purchase of participation interests in loans. Several FCS commenters sought clarification as to whether or not § 614.4330(b) requires a non-FCS institution to hold the lesser of a 10-percent interest in the principal amount of the loan, or its lending limit, whenever it sells loan participation to a System institution but retains servicing rights. The ABA supported the easing of the retention requirements on loan participations sold by commercial banks. Accordingly, the agency has modified the language of § 614.4330(b) in order to clarify the retention requirements imposed on non-FCS institutions.

Several System commenters also suggested that the FCA modify the terminology in § 614.4330(a)(9) to eliminate any confusion about the certificates required to evidence an undivided interest in a loan. The proposed regulation referred to "participation certificates," which is also the term for nonvoting stock in FCS institutions. The FCA has adjusted the language in final § 614.4330(a)(9) to avoid potential confusion.

C. Independent Credit Judgment

The FCA adopts § 614.4325(e), which requires each FCS institution to exercise independent credit judgment on every interest in a loan that it purchases. From the perspective of the FCA, FCS institutions may be engaging in unsafe and unsound lending practices whenever they purchase a participation or other interest in a loan without performing an independent credit analysis and exercising independent judgment concerning the

creditworthiness of the borrower or the quality of the asset. Additionally, a FCS institution that purchases an interest in a loan without the servicing rights incurs considerable risk in relying upon the lead lender to discharge its servicing responsibilities under the agreement. The purchasing institution must have sufficient capital to absorb any risk associated with the purchased interest, especially risks resulting from the failure of the lead lender to perform certain duties. Fraudulent activity, ineffective servicing, or the insolvency of the lead lender can result in loss to the participant, which in turn adversely affects its capital position. In order to reduce this exposure, the final regulation requires each FCS institution to conduct an independent credit analysis sufficient for it to exercise independent judgment when it purchases a loan or any interest therein. Independent credit judgment requires the purchaser to consider the creditworthiness of the borrower as well as the financial stability and servicing capacity of the lead lender.

The FCA received comments from the FCC, the FCB of Baltimore, associations in the Second Farm Credit District, and an individual concerning proposed § 614.4325(e), which requires each FCS institution to exercise independent credit judgment prior to purchasing any interest in or agreeing to taking any servicing action on a loan that alters the terms of the original agreement. The FCC and the FCB suggested that the FCA insert the word "material" into the final regulation in order to describe the types of servicing actions where the participant is expected to exercise independent judgment. These commenters stated that it is customary for a participating lender to contractually delegate certain discretionary authority to the servicing lender where such decisions will not materially alter the credit risk on the loan. Most commenters expressed concern that proposed § 614.4325(e) would cause unwarranted delays and "decision gridlock" in servicing actions on loans since all participants would need to concur in any servicing action. These commenters also suggested that the independent credit judgment requirement would increase the costs of participation arrangements. One commenter opined that the proposed regulation would offer no protection to a lead lender where participants unnecessarily delay any decision. All commenters from the Second Farm Credit District inquired whether the proposed regulation would authorize an agent to make certain decisions and take certain actions on behalf of

participants or purchasers of interests in a loan. These commenters cited certain precedents within the FCS where similar arrangements were used. The FCA also received comments noting that commercial lenders are more frequently allowing servicing decisions to be vested in a few participants, who in effect assume a controlling interest in the loan. Questions were also raised about whether the repropounded regulation required two FCS institutions to exercise absolute independence in their credit judgment, in situations where both institutions share a common director or voting interest, or when one institution exercises supervisory authority over another institution.

The final regulation grants the participants some discretion to delegate, by contract, certain judgments or servicing actions to either the lead lender or an agent. The final regulation does not require all participants in a loan to review decisions on non-substantive matters. The FCA considers certain servicing actions, such as granting time extensions for certain reporting requirements, releasing non-material portions of collateral, or granting a reasonable forbearance for meeting defined financial covenants, as non-substantive in nature. Although final § 614.4325(e) requires that the participating institution perform an independent credit analysis and exercise independent judgment with respect to each interest purchased, the participants may rely on an agent to assist in such functions as analyzing the creditworthiness of the borrower, determining the appropriateness of any proposed servicing action, and monitoring the performance of both the borrower and the lead lender under the terms of the contracts. Nevertheless, the FCA continues to believe that each participant must independently review and agree to any action which substantively alters either the terms of the loan or the participant's interest therein.

Although § 614.4325(e) may cause some delays in originating and servicing loans, the FCA does not believe that these inconveniences offset the need for each participant to independently analyze the creditworthiness of the borrower or the appropriateness of any substantive servicing action. Failure to assess the risks involved in these actions independently could result in material loss to the FCS participant.

Other alternatives exist to avert problems posed by decision gridlock. For example, participation agreements may contain provisions that require each participant to acquiesce in the

decision of the other participants if it fails to make its decision within a prescribed period of time. Additionally, arrangements can be made to substitute participants.

The final regulation reaffirms the FCA's position that an institution's directors cannot delegate basic decisions inherent to its operation to an agent. An institution's directors are responsible for ensuring that assets are purchased and recorded at their proper value, and that the institution is not exposed to unnecessary risks. The final regulation requires that a FCS institution exercise credit judgment and analysis independently of the originating or lead lender and any intermediary seller or broker.

Furthermore, § 614.4325(e) requires that the independent credit analysis be performed by employees of the participating institution who are directly accountable to the board of directors. Additionally, the final regulation prohibits an employee who performed an appraisal of real estate supporting the loan decision from participating in the decision to purchase a loan. Some commenters noted that, in the past, one or more FCS institutions have delegated the decision to participate in certain loans to another body. In response, the FCA notes that those arrangements resulted from the seller's need for financial assistance from the participants. Moreover, such decisions were duly adopted by a body representative of all participants.

Section 614.4325(e) does not prohibit a FCS institution that participates in a loan from considering the analysis of the originating or lead lender. The final regulation does not require the FCS participant to gather information independently. However, the FCS institution purchasing a loan interest would be required to obtain such information if the originating lender does not provide the necessary information to support the purchasing institution's decision. It is the responsibility of the purchasing FCS institution to ensure that information furnished by the originating or selling institution meets the standards necessary to support the loan participation decision.

Final § 614.4325(e) now explicitly states that information such as appraisals of collateral and inspection reports can be accepted and utilized by the purchasing institutions. Section 614.4325(e) does not require the participating institution to prepare a lengthy analysis or to compile separate documentation from the originating or lead lender. However, § 614.4325(e)

requires the purchasing institution to perform an objective, independent, and thorough analysis when it makes a loan decision. The regulation prohibits a participating institution from relying upon the analysis and judgment of the originating or selling institution when reaching its own credit judgment. The final regulation contemplates that the participation agreement will require the originating or selling institution to provide the participating FCS institution with all necessary information for assessing and monitoring risk in the loan on a timely and continuing basis. When the lead lender is a FCS institution, that information would include the credit and performance classification of the asset.

Although the final regulation permits the board of directors to delegate to institution employees functional or ministerial responsibilities, the board cannot delegate its fiduciary duties. Furthermore, the board must exercise appropriate oversight over employees who perform delegated responsibilities. While an agent may perform certain administrative and operational functions pertaining to credit analysis under the final regulation, the agency relationship must be structured to preserve the institution's responsibility to conduct an independent analysis and reach an independent, objective credit decision. Where a funding bank acts as agent, § 614.4325(e) requires that the association have sufficient independence under the agreement to disagree with the bank's analysis, refuse to participate in a loan, and cancel the contract, in its entirety or on an individual loan, without fear of reprisal. The FCA considers these requirements necessary for the board to effectively discharge its fiduciary responsibility to the institution's stockholders. The regulation will require that adequate internal controls be in place to safeguard the institution's assets.

The FCC also inquired whether a FCS institution that purchases an interest in a pool of subordinated participation interests pursuant to title VIII of the Act is required to exercise its independent credit judgment. An interest in a pool of subordinated participation interests enables a FCS institution to exchange the risk of a subordinated participation interest in a particular loan for the risk that is dispersed throughout a pool of subordinated participation interests. In these situations, subordinated participation interests in loans originated by the FCS institution must be included in the pool of subordinated participation interests. In such a transaction, the purchaser of

subordinated participation interests relies on: (1) Pooler compliance with the underwriting standards of Farmer Mac; and (2) Farmer Mac enforcement of its certification requirements. The purchaser should exercise the same credit judgment that is expected of a prudent investor in such investments.

The FCC questioned whether proposed § 614.4325(e) applied to: (1) Transfers of direct lending authority from FCBs to associations; or (2) territorial adjustments pursuant to § 611.1124 of this chapter. The FCA emphasizes that the agency still retains prior approval authority for loan sales or purchases resulting from: (1) Merger of two or more FCS institutions; (2) adjustments to the chartered territory of a FCS institution; (3) the transfer of direct lending authority from a bank to an association; or (4) financial assistance. In these four situations, the prior approval authority of the FCA emanates from other provisions of the Act and separate regulations.

Independent credit judgment is required in situations where the acquirer may refuse to purchase any loan or interest therein. The FCA envisions that FCS institutions that acquire loans or interests therein as a means of rendering financial assistance to another FCS institution shall exercise independent credit judgment. Additionally, the FCA interprets § 614.4325(e) as applying to the transfer of direct lending authority if the transfer agreement allows the transferee institution to refuse loans originated by the bank prior to the time of transfer. Where the institution is required to accept all assets, the regulation does not impose an independent credit judgment requirement on specific loans. However, in these situations, the institution would not be relieved of its responsibility to exercise due diligence over the entire transaction, and shareholder approval is required.

D. Borrower Rights

The repropose regulations would address the impact of the sale of a loan or an interest therein on the borrower's rights under title IV of the Act. Section 614.4336(a) of the repropose regulation would require a FCS institution that sells an interest in a loan to either: (1) Obtain the borrower's consent to the sale, including the relinquishment of the statutory borrower rights; or (2) incorporate the statutory borrower rights into the loan contract so that the purchaser of the loan would continue to afford these statutory rights to the borrower. Under the repropose regulation, the relinquishment of borrower rights would take effect at the

time the loan is sold, and would remain in effect only so long as the loan is not reflected on the books of a FCS institution. In the event that the originating institution or another FCS direct lender repurchases the loan, statutory borrower rights would reattach under the repropose regulation.

The FCA received comments about repropose § 614.4336 from the FCC, a FCB, and an ACA. All commenters interpreted the repropose regulation as applying to all loan sales by FCS institutions. All three commenters suggested that repropose § 614.4336(a) would conflict with section 8.9(b) of the Act if the repropose regulation applied to loans that were sold to Farmer Mac. The ACA expressed concern that repropose § 614.4336(a) would extend to loan sales with other FCS institutions, including situations where a FCB sold its loan portfolio to a transferee ACA or FLCA. The FCB commented upon the impact of the repropose regulation on loan sales to non-FCS institutions which are not Farmer Mac poolers.

These comments indicate that repropose § 614.4336 created significant confusion in the System about the treatment of borrower rights when loans are sold to different types of purchasers. The commenters indicated that the repropose regulation did not clearly distinguish the treatment of borrower rights when loans are sold to: (1) A Farmer Mac pooler under title VIII of the Act; (2) non-FCS institutions that are not Farmer Mac poolers; or (3) FCS institutions. The FCA is now amending § 614.4336 so that the final regulation will clearly distinguish the application of borrower rights in these three situations. The final regulation clarifies that FCS lenders will be required to incorporate the statutory borrower rights into the contract, or obtain the borrower's consent to the sale subject to the relinquishment of borrower rights, whenever loans are sold to non-FCS institutions which are not Farmer Mac poolers.

Final § 614.4336 requires a FCS institution to comply with the borrower rights notification requirements of § 614.4367(b) whenever it sells a loan to a Farmer Mac pooler pursuant to title VIII of the Act. This approach is consistent with section 8.9(b) of the Act which requires a FCS institution that sells a loan to a Farmer Mac pooler to: (1) Notify the borrower that the statutory borrower rights will no longer apply once the loan is sold into the agricultural mortgage secondary market under title VIII of the Act; and (2) inform the borrower that he or she has the right to not have the loan pooled. Section

8.9(b) of the Act and § 614.4367(b) also enable borrowers to retain their statutory borrower rights by refusing to allow the System lender to pool the loan.

The FCA never intended for repropose § 614.4336 to apply to the sale of loans within the System. As noted elsewhere in the preamble, borrower rights continue to apply when a loan is sold within the System because all System lenders are "qualified lenders" as described in section 4.14A(a)(6) of the Act. The final regulation clearly establishes that the borrower rights provisions of § 614.4336 do not apply to such sales.

The FCA's decision to impose the requirements in repropose § 614.4336(a) on loan sales to non-FCS institutions (that are not Farmer Mac poolers) proved controversial. A FCB argued that the borrower rights requirements in repropose § 614.4336(a) violate the Act when applied to loans that are sold to such non-FCS institutions. The commenter asserts that section 4.14A(a)(6) of the Act only requires FCS institutions and OFIs within the meaning of section 1.7(b)(1) of the Act to comply with the borrower rights provisions in title IV of the statute. This commenter also opines that the statutory authority to sell interests in loans to non-FCS institutions predates, and thus supersedes, the borrower rights provisions in title IV of the Act. In the alternative, the commenter argues that Congress would have written the statute differently if it had intended for non-System purchasers of FCS loans to adhere to these statutory borrower rights requirements. This commenter further argues that the borrower rights are automatically extinguished when a loan is sold to a non-FCS institution (that is not a Farmer Mac pooler) because these rights are created by statute, not contract.

All commenters advanced several non-legal arguments against the borrower rights requirements in repropose § 614.4336. The FCC claimed that most prospective purchasers would decline to buy loans that incorporated these borrower rights provisions. Another commenter opined that a non-System purchaser would face numerous impracticalities in administering borrower rights that were incorporated into the loan contract because it would be unfamiliar with FCA regulations, policies, procedures, and interpretations. These commenters also complained that the alternative of requiring a borrower both to consent to the sale and to relinquish the statutory borrower rights effectively enables borrowers to veto

loan sales, thus defeating the statutory rights of the FCS institutions to sell loans.

After careful consideration of these comments, the FCA has decided to retain the requirements that a FCS lender either incorporate the statutory borrower rights into a contract to which the borrower is a signatory or obtain the borrower's signed, written consent to the sale, including the relinquishment of borrower rights, whenever the loan is sold to a non-FCS lender that is not a Farmer Mac pooler. The FCA rejects the arguments that the regulation violates the statute. The FCA concludes that the regulation implements the Act by balancing the authority of FCS institutions to sell loans in the secondary market with the borrower rights provisions in title IV of the Act. The FCA finds no support in either the Act or its legislative history for the claim that the authority of the FCS to sell loans to non-FCS lenders is superior to borrower rights provisions in title IV of the Act.

The claim that borrower rights are automatically extinguished whenever a FCS institution sells a loan to a non-FCS institution denies borrowers those rights and benefits that Congress enacted into law. In fact, a FCS institution could face significant litigation liability that could potentially undermine its solvency if the issue of borrower rights is left unresolved at the time the loan is sold to a non-FCS institution. Section 614.4336 reduces this litigation risk by compelling the seller to obtain either the purchaser's assumption of borrower rights, or the borrower's consent to the sale with the relinquishment of borrower rights.

The FCA acknowledges that borrower rights are established by statute and that section 4.14A(a)(6) of the Act only imposes these borrower rights requirements on the System and OFIs. However, title IV of the Act neither prohibits a FCS lender from incorporating the statutory borrower rights into the loan contract nor prevents a non-FCS institution from voluntarily assuming borrower rights obligations. The claim that many potential purchasers would decline to buy a loan containing borrower rights provisions does not provide a sufficient reason for deleting this provision from the final regulation. From the perspective of the FCA, the regulation provides FCS institutions with two options for resolving borrower rights issues when loans are sold outside the System to parties who are not Farmer Mac poolers. Although non-FCS institutions may experience difficulties

with borrower rights requirements, these non-FCS institutions have voluntarily and knowingly assumed these obligations with any attendant problems.

In order to provide greater flexibility to FCS institutions that choose this option, the FCA modifies § 614.4336(a)(2)(i) to allow the borrower rights to be incorporated into either the original loan contract or a subsequent modification agreement that is signed by the borrower. This approach does not require a FCS institution to incorporate borrower rights into the contract until such time as it sells the loan to a non-FCS lender that is not a Farmer Mac pooler.

The FCA also declines to delete the alternative requirement that the borrower consent to the loan sale and relinquish the statutory borrower rights. As stated earlier, the FCA rejects the argument that the statutory lending authorities of FCS institutions supersede the borrower rights provisions in title IV of the Act. Borrower rights are a unique feature of FCS loans which may enhance the competitiveness of the System in agricultural credit markets.

The approach advocated by the commenters would allow FCS institutions to unilaterally deprive borrowers of their rights without their consent. As a result, the FCS institution and the non-System purchaser would profit from the sale of the loan at the expense of the borrower, who is denied any voice in the matter. The borrower receives no consideration for involuntarily forfeiting borrower rights. From the perspective of the FCA, such an approach is inherently unfair to System borrowers. The regulation maintains the balance of power that title IV of the Act establishes between FCS lenders and borrowers. The FCA believes that borrowers should be afforded an ability to consent to relinquishment of their borrower rights. Furthermore, the FCA is modifying the language of the regulation to reflect more accurately the fact that the borrower is consenting to the loan sale and relinquishing borrower rights.

At this juncture, the FCA emphasizes that section 4.14A(a)(5) of the Act only extends borrower rights to loans made to farmers, ranchers, and aquatic producers and harvesters for any agricultural or aquatic purpose and other credit needs of such borrowers. Therefore, § 614.4336 applies only if the borrower is a farmer, rancher, or aquatic producer or harvester, and the loan is sold to either a certified Farmer Mac pooler or a non-System institution. Section 614.4336(a), however, would not

apply when a FCS lender sold to a non-System institution a rural housing loan made under either section 1.11(b) or 2.4(b) of the Act to a borrower who is not a farmer, rancher, or aquatic producer or harvester for residential property that could not produce agricultural products for sale on a sustained basis.

E. Borrower Stock

Section 614.4335 of the repropoed regulations reflects the statutory requirement that a borrower, as a condition of obtaining a loan from or through a Farm Credit bank or association, purchase an amount of stock that is not less than the lower of \$1,000 or 2 percent of the loan amount. Additionally, the Act contemplates that individual institutions may need to require a higher minimum stock purchase in order to adequately capitalize the institution. The repropoed regulation would require a FCS institution to impose the institution's minimum stock purchase requirement upon all borrowers, whether or not the loan is made for the purpose of sale. Accordingly, repropoed § 614.4335 would not allow an institution to retire stock below its minimum stock purchase requirement for the entire loan whenever: (1) A subordinated participation interest is retained; (2) an interest in a pool of subordinated participation interests is purchased; or (3) a contribution to a cash reserve is made to satisfy the requirements of title VIII of the Act.

The regulation that was repropoed on January 23, 1991, would allow an institution to retire a portion of the borrower's stock investment when it sells a fractional interest in the principal amount of a loan that qualifies for exclusion from capital computations. In such situations, repropoed § 614.4335 allows an institution, in its discretion, to retire a proportionate share of the borrower stock, provided that after the stock is retired the institution would: (1) Continue to comply with its minimum permanent capital standards; and (2) retain adequate capital to cover the risk in its portfolio. Since the repropoed regulation would grant FCS institutions discretion concerning stock retirements in such circumstances, the FCA encourages all institutions to carefully evaluate both their present and future capital needs before deciding whether to retire the borrower's stock. In addition, the FCS institutions must maintain a minimum borrower stock requirement to support the statutory requirements of institution membership where a loan to a borrower is held outstanding.

The FCA received comments on proposed § 614.4335(a) from the FCC, two FCBs, a PCA, and a Federal land bank association (FLBA) regarding the requirement that FCS institutions require their borrowers to purchase stock on loans originated for future sale into the secondary market. One commenter suggested that the FCA require the borrower to purchase stock in the FCS institution if the loan is not sold into the secondary market within a reasonable period of time. The FCC asserted that the stock purchase requirement places FCS institutions at a competitive disadvantage with other lenders who originate loans for sale to the secondary market. More specifically, the commenter argued that the borrower stock requirement increases the cost of the loan for the borrower and poses marketing difficulties for a FCS institution. The FCC also argued that the proposed regulation focuses on capitalization of an individual loan rather than the institution.

The FCC transmitted to the FCA an opinion of counsel to bolster its position on borrower stock. The opinion concludes that the FCA has discretion to waive the borrower stock requirement for loans that FCS institutions contemplate selling into the secondary market. The opinion states that the primary purposes of the stock purchase requirement are: (1) To furnish at least a portion of the capital that the bank or association must hold to support the loan as an asset; and (2) to implement the cooperative principle that each FCS institution is owned by its borrowers. Accordingly, the FCC's legal counsel concludes that the reasons behind the borrower stock requirements no longer apply when a loan is sold into the secondary market because the loan is no longer an asset of the bank or association.

In response, the FCA believes that the stock purchase requirement should be imposed on all borrowers, even if the institution contemplates selling their loans on the secondary market. First, the possibility that a loan or an interest therein may be subsequently sold does not negate the requirement of the Act that borrowers, who are farmers, ranchers, or aquatic producers and harvesters, purchase voting stock in the institution. The potential sale of a loan on the secondary market does not relieve the FCS institution of its legal obligation to sell stock to the borrower, especially where the FCS institution is likely to retain servicing rights or a subordinated participation interest in the loan. Second, the possible future sale of a loan or an interest therein is

not a certainty at the time a loan is made. Loans contemplated for sale on the secondary market must meet the underwriting criteria of the secondary market and exhibit characteristics desired by potential purchasers. Although the lender, at the time the loan is originated, may contemplate selling it on the secondary market, such a sale may never occur. Third, the FCA believes that as long as the institution retains a portion of the loan as an asset, the statute requires the borrower to hold stock in the institution. The regulation provides FCS institutions with latitude to set a minimum stock purchase requirement. In exercising its authority to set a minimum stock requirement, each institution should balance its need to attract potential borrowers with its responsibility to be viable and adequately capitalized. For the same reasons, § 614.4335 also requires the borrower to repurchase stock or participation certificates equal to the institution's minimum stock purchase requirement whenever the institution repurchases the loan.

The FCA is persuaded that the regulation should provide as much flexibility as the law allows to facilitate the sale of loans into the Farmer Mac program, and that the statutory stock requirement only applies when a portion of the borrower's loan is retained as a loan asset. Consequently, the final regulation allows a FCS institution to retire borrower stock when the entire loan is sold to a Farmer Mac pooler. The stock requirement emanates from a membership requirement rather than as a means of capitalizing an individual loan. In addition, if a loan is sold to another lender outside of the Farmer Mac secondary market and a portion of the loan, or recourse to the selling institution is retained, then the institution would be required to retain the borrower stock as if the entire loan had not been sold.

Therefore, the FCA revises § 614.4335 so that the final regulation provides a FCS institution with latitude to retire the full amount of the borrower's stock where the entire loan has been transferred from the institution's books through the sale of the loan even if an interest in a pool of subordinated interests is purchased to satisfy statutory requirements. However, for other regulatory purposes, the purchased interest is treated like any loan sale where a portion of the loan and/or associated risk is retained. The institution will still be required to comply with the capital requirements and disclosure requirements as

described in parts 615 and 620, respectively, of this chapter.

These commenters also expressed concerns about proposed § 614.4335(b), which requires a borrower to repurchase stock in the event that the institution subsequently repurchases the loan. All commenters asserted that such a requirement was impractical, and that there may be no legal or business basis for requiring the borrower to repurchase stock in a FCS institution. The FCC asserted that Congress did not intend to cripple FCS institutions through the use of such restrictions as stock repurchase requirements.

In response to comments on proposed § 614.4335(b), the FCA continues to believe that borrowers whose loans are repurchased should be required to repurchase stock in the institution. FCS institutions have discretion to set minimum stock purchase requirements at a level where no additional stock purchase will be needed in the event a loan is repurchased. FCS institutions that contemplate selling loans on the secondary market should insert provisions into membership contracts that require the borrower to repurchase stock in the event that the institution reacquires the loan. Any disclosures about potential retirement of stock on the sale of a loan should also notify the borrower that the stock cannot be retired if the institution is not in compliance with minimum permanent capital standards, or its capital is not adequate to support the risk in its loan operations.

As noted in the preamble to subpart A of part 614 of these regulations, §§ 614.4030(c) and 614.4050(d) of the final regulation allows FLCAs and ACAs to sell loans to FCS institutions other than banks. The FCA believes that the final regulations should address the borrower stock requirement in such situations. The FCA anticipates that, in most situations, the selling FCS institution will retain servicing rights but will sell the loan without recourse to another System institution. In some instances, the purchasing institution may be located far from the borrower.

The Act requires farmers, ranchers, and aquatic producers or harvesters who borrow from the FCS to hold stock in a System institution. A loan sale within the FCS does not negate statutory requirements concerning borrower rights and borrower stock. The FCA believes that the borrower should be afforded the opportunity to elect whether to hold stock in the selling or purchasing FCS institution. Since the borrower has an established relationship with the local FCS institution that originated his or her

loan, the FCA expects that many borrowers will elect to remain a member of that institution. For these reasons, the FCA has added a new § 614.4335(d), which allows the borrower to choose membership in either the selling or purchasing FCS institution. The FCA concludes that the cooperative principles of the FCS would be violated if such borrowers did not retain stock in either the originating or purchasing FCS institution.

F. Disclosure to Borrowers

The FCA received four comments about repropoed § 614.4337, concerning disclosures to borrowers. All of the commenters indicated that the repropoed regulation would apply to loans that were sold "without" servicing rights. The FCA corrects this inadvertent error, and the final § 614.4337 applies to loans that are sold with servicing rights.

Some commenters expressed the opinion that repropoed § 614.4337 (a)(3) and (a)(4) should be deleted because they duplicate the requirements of § 614.4336(b). These provisions are not redundant because they address different issues. Accordingly, the FCA declines to delete § 614.4336 (a)(3) and (a)(4).

Conversely, some commenters argued that § 614.4337(b) should be deleted because it duplicates the requirements of § 614.4337(a). As noted in the preamble to the repropoed regulation, § 614.4337(b) was added in order to address concerns in a recent General Accounting Office (GAO) study about damage to borrowers caused by the transfer of servicing rights. Accordingly, the FCA declines to delete § 614.4337(b). The FCA, however, clarifies that § 614.4337(b) only applies to situations where a FCS institution purchases the loan or an interest therein.

Finally, one commenter suggested the repropoed § 614.4337(a)(3) would require FCS institutions to give legal advice to their borrowers. The FCA modified the language of this provision to address the commenter's concern.

IV. Part 619—Definitions

The final regulation reflects a definition of "loan participation" consistent with its meaning in part 614, subpart H. The comments received on the proposed change have been addressed elsewhere in this preamble.

List of Subjects

12 CFR Part 614

Agriculture, Banks, Banking, Foreign trade, Reporting and recordkeeping requirements, Rural areas.

12 CFR Part 619

Agriculture, Banks, Banking, Rural areas.

For reasons stated in the preamble, parts 614 and 619 of chapter VI, title 12 of the Code of Federal Regulation are amended as follows:

PART 614—LOAN POLICIES AND OPERATIONS

1. The authority citation for part 614 is revised to read as follows:

Authority: Secs. 1.3, 1.5, 1.6, 1.7, 1.9, 1.10, 2.0, 2.2, 2.3, 2.4, 2.10, 2.12, 2.13, 2.15, 3.0, 3.1, 3.3, 3.7, 3.8, 3.10, 3.20, 3.28, 4.12, 4.12A, 4.13, 4.13B, 4.14, 4.14A, 4.14C, 4.14D, 4.14E, 4.18, 4.19, 4.36, 4.37, 5.9, 5.10, 5.17, 7.0, 7.2, 7.6, 7.7, 7.8, 7.12, 7.13, 8.0, 8.5 of the Farm Credit Act; 12 U.S.C. 2011, 2013, 2014, 2015, 2017, 2018, 2071, 2073, 2074, 2075, 2091, 2093, 2094, 2096, 2121, 2122, 2124, 2128, 2129, 2131, 2141, 2149, 2183, 2184, 2199, 2201, 2202, 2202a, 2202c, 2202d, 2202e, 2206, 2207, 2219a, 2219b, 2243, 2244, 2252, 2279a, 2279b-2, 2279b, 2279b-1, 2279b-2, 2279f, 2279f-1, 2279aa, 2279aa-5; sec. 413 of Pub. L. 100-233, 101 Stat. 1568, 1639

Subpart A—Lending Authorities

2. Section 614.4000 is amended by adding new paragraphs (e) and (f) to read as follows:

§ 614.4000 Farm Credit Banks.

(e) *Other interests in loans.* (1) Subjects to the requirements of subpart H of this part, Farm Credit Banks may sell interests in loans only to:

- (i) Farm Credit System institutions authorized to purchase such interests;
- (ii) Other lenders that are not Farm Credit System institutions; and
- (iii) Any certified agricultural mortgage marketing facility, as defined by section 8.0(3) of the Act, for the purpose of pooling and securitizing such loans under title VIII of the Act.

(2) Subject to the requirements of subpart H of this part, Farm Credit Banks may purchase interests other than participation interests in loans and nonvoting stock from other Farm Credit System institutions.

(3) Farm Credit Banks, in their capacity as certified agricultural mortgage marketing facilities under title VIII of the Act, may purchase interests in loans (other than participation interests authorized in paragraph (d) of this section) from institutions other than Farm Credit System institutions only for the purpose of pooling and securitizing such loans under title VIII of the Act.

(4) A Farm Credit Bank may purchase an interest in a pool of subordinated participation interests that contains a subordinated participation interest in a loan it has originated to satisfy the

requirements of title VIII of the Act with respect to such loans.

(f) *Residual powers after the transfer of lending authority to an association.* After transferring its authority to make and participate in long-term real estate loans to an agricultural credit association of a Federal land credit association pursuant to section 7.6(a) of the Act and subpart E of part 611 of these regulations, a Farm Credit Bank retains residual authority to:

- (1) Enter into loan participation agreements pursuant to paragraph (d) of this section;
- (2) Purchase or sell other interests in loans in accordance with paragraph (e) of this section; and
- (3) Make long-term real estate loans in accordance with paragraph (a) of this section in areas of its chartered territory where no active association operates.

3. Section 614.4010 is amended by adding new paragraphs (f) and (g) to read as follows:

§ 614.4010 Agricultural credit banks.

(f) *Other interest in loans.* (1) Subject to the requirements of subpart H of this part, agricultural credit banks may sell interests in loans, except those originated under paragraph (d) of this section, only to:

- (i) Farm Credit System institutions authorized to purchase such interests;
- (ii) Other lenders that are not Farm Credit System institutions; and
- (iii) Any certified agricultural mortgage marketing facility, as defined by section 8.0(3) of the Act, for the purpose of pooling and securitizing such loans under title VIII of the Act.

(2) Subject to the requirements of subpart H of this part, agricultural credit banks may purchase interests other than participation interests in loans and nonvoting stock from other Farm Credit System institutions.

(3) Agricultural credit banks, in their capacity as certified agricultural mortgage marketing facilities under title VIII of the Act, may purchase interests in loans (other than participation interests authorized in paragraph (e) of this section) from institutions other than Farm Credit System institutions only for the purpose of pooling and securitizing such loans under title VIII of the Act.

(4) An agricultural credit bank may purchase an interest in a pool of subordinated participation interests that contains a subordinated participation interest in a loan it has originated, to satisfy the requirements of title VIII of the Act with respect to such loans.

(g) *Residual powers after the transfer of lending authority to an association.*

After transferring its authority to make and participate in long-term real estate loans to an agricultural credit association or a Federal land credit association pursuant to section 7.6(a) of the Act and subpart E of part 611 of these regulations, an agricultural credit bank retains residual authority to:

(1) Enter into loan participation agreements pursuant to paragraph (e) of this section;

(2) Purchase or sell other interests in loans in accordance with paragraph (f) of this section; and

(3) Make long-term real estate loans in accordance with paragraph (a) of this section in areas of its chartered territory where not active association operates.

4. Section 614.4030 is amended by adding a new paragraph (c) to read as follows:

§ 614.4030 Federal land credit associations.

(c) *Other interests in loans.* (1) Subject to the requirements of subpart H of this part and the supervision of their respective funding banks, Federal land credit associations may sell interests in loans made under paragraph (a) of this section only to:

(i) Farm Credit System institutions, as authorized by their respective funding banks;

(ii) Other lenders that are not Farm Credit System institutions, as authorized by their respective funding banks; and

(iii) Any certified agricultural mortgage marketing facility, as defined by section 8.0(3) of the Act, for the purpose of pooling and securitizing such loans under title VIII of the Act.

(2) Subject to the requirements of subpart H of this part, Federal land credit associations may purchase interests in loans that comply with the requirements of paragraph (a) of this section and nonvoting stock from Farm Credit System institutions.

(3) Federal land credit associations, in their capacity as certified agricultural mortgage marketing facilities under title VIII of the Act, may purchase interests in loans (other than participation interests under paragraph (b) of this section) from institutions other than Farm Credit System institutions for the purpose of pooling and securitizing such loans under title VIII of the Act.

(4) A Federal land credit association may purchase an interest in a pool of subordinated participation interests that contains a subordinated participation interest in a loan it has originated, to satisfy the requirements in title VIII of the Act.

5. Section 614.4040 is amended by adding a new paragraph (d) to read as follows:

§ 614.4040 Production credit associations.

(d) *Other interests in loans.* (1) Subject to the requirements of subpart H of this part and the supervision of their respective funding banks, production credit associations may sell interests in loans that are made under paragraph (a) of this section to:

(i) Banks of the Farm Credit System, as authorized by their respective funding banks; and

(ii) Any certified agricultural mortgage marketing facility, as defined by section 8.0(3) of the Act, for the purpose of pooling and securitizing such loans under title VIII of the Act.

(2) Subject to the requirements of subpart H of this part, production credit associations, as authorized by their respective funding banks, may purchase interests in loans that comply with the requirements of paragraph (a) of this section and nonvoting stock from banks of the Farm Credit System.

(3) Production credit associations, in their capacity as certified mortgage marketing facilities under title VIII of the Act, may purchase from Farm Credit System institutions and institutions that are not Farm Credit System institutions interests in loans (other than participation interests authorized by paragraph (c) of this section) for the purpose of pooling and securitizing such loans under title VIII of the Act.

(4) A production credit association may purchase an interest in a pool of subordinated participation interests that contains a subordinated participation interest in a loan it has originated, to satisfy the requirements of title VIII of the Act.

6. Section 614.4050 is amended by adding a new paragraph (d) to read as follows:

§ 614.4050 Agricultural credit associations.

(d) *Other interests in loans.* (1) Subject to the requirements of subpart H of this part and the supervision of their respective funding banks, agricultural credit associations may sell:

(i) Interests in loans made under paragraph (a) of this section only to:

(A) Farm Credit System institutions, as authorized by their respective funding banks;

(B) Lenders that are not Farm Credit System institutions, as authorized by their respective funding banks; and

(C) Any certified agricultural mortgage marketing facility, as defined

by section 8.0(3) of the Act, for the purpose of pooling and securitizing such loans under title VIII of the Act.

(ii) Interests in loans made under paragraph (b) of this part only to:

(A) Banks of the Farm Credit System, as authorized by their respective funding banks; and

(B) Any certified agricultural mortgage marketing facility, as defined by section 8.0(3) of the Act, for the purpose of pooling and securitizing such loans under title VIII of the Act.

(2) Subject to the requirements of subpart H of this part, agricultural credit associations may purchase:

(i) Interests in loans that comply with the requirements in paragraph (a) of this section from institutions of the Farm Credit System;

(ii) Interests in loans that comply with the requirements of paragraph (b) of this section from banks of the Farm Credit System; and

(iii) Nonvoting stock from institutions of the Farm Credit System.

(3) Agricultural credit associations, in their capacity as certified agricultural mortgage marketing facilities under title VIII of the Act, may purchase interests in loans, other than participation interests authorized by paragraph (c) of this section, from institutions other than Farm Credit System institutions for the purpose of pooling and securitizing such loans under title VIII of the Act.

(4) An agricultural credit association may purchase an interest in a pool of subordinated participation interests that contains a subordinated participation interest in a loan it has originated, to satisfy the requirements in title VIII of the Act.

7. A new § 614.4060 is added to read as follows:

§ 614.4060 Affiliates established pursuant to section 8.5(e)(1) of the Farm Credit Act of 1971.

An affiliate established by one or more Farm Credit System institutions pursuant to section 8.5(e)(1) of the Act and § 611.1137 of this chapter, as a certified agricultural mortgage marketing facility, may purchase loans from Farm Credit System institutions and institutions other than Farm Credit System institutions in accordance with title VIII of the Act and any applicable regulation promulgated thereunder.

8. Subpart H is revised to read as follows:

Subpart H—Loan Purchases and Sales

Sec.

614.4325 Purchase and sale of interests in loans.

614.4330 Loan participations.

614.4335 Borrower stock requirements.

Sec.
614.4336 Borrower rights.
614.4337 Disclosure to borrowers.

Subpart H—Loan Purchases and Sales

§ 614.4325 Purchase and sale of interests in loans.

(a) *Definitions.* For the purposes of this subpart, the following definitions shall apply:

(1) *Interests in loans* means ownership interests in the principal amount, interest payments, or any aspect of a loan transaction, including servicing rights.

(2) *Lead lender* means a lending institution having a direct contractual relationship with a borrower to advance funds, which institution sells or assigns an interest or interests in such loan to one or more other lenders.

(3) *Loan* means any extension of credit or similar financial assistance of the type authorized under the Act, such as leases, guarantees, letters of credit, and other similar transactions.

(4) *Loan participation* means a fractional undivided interest in the principal amount of a loan that is sold by a lead lender to a participating institution in accordance with the requirements of § 614.4330 of this subpart. The term "loan participation" does not include a subordinated participation interest.

(5) *Participating institution* means an institution that purchases a fractional undivided interest in the principal amount of a loan originated by another lender.

(6) *Sale with recourse* means a sale of a loan or an interest in a loan in which the seller:

(i) Retains some risk of loss from the transferred asset for any cause except the seller's breach of usual and customary warranties or representations designed to protect the purchaser against fraud or misrepresentation; or

(ii) Has an obligation to make payments of principal or interest to any party resulting from:

(A) Default on the payment of principal or interest on the loan by the borrower or guarantor or any other deficiencies in the obligor's performance;

(B) Changes in the market value of the assets after transfer;

(C) Any contractual relationship between the seller and purchaser incident to the transfer that, by its terms, could continue even after final payment, default, or other termination of the assets transferred; or

(D) Any other cause, except the retention at servicing rights alone shall not constitute recourse.

(7) *Subordinated participation interest* means an interest in a loan that bears the first risk of loss, including the retention of such an interest when a loan is sold to a pooler certified by the Federal Agricultural Mortgage Corporation pursuant to title VIII of the Act, or an interest in a pool of subordinated participation interests purchased to satisfy the requirements of title VIII of the Act with respect to a loan sold to such a certified pooler.

(b) *Authority to purchase and sell interests in loans.*

Loans and interests in loans may only be sold in accordance with each institution's lending authorities, as set forth in subpart A of this part. No Farm Credit System institution may purchase from an institution that is not a Farm Credit System institution any interest in a loan, except for the purpose of pooling and securitizing such loans under title VIII of the Act, unless such an interest is a participation interest that qualifies under the institution's lending authority, as set forth in subpart A of this part, and meets the requirements of § 614.4330 of this subpart.

(c) *Policies.* Each Farm Credit System institution that is authorized to sell or purchase interests in loans under subpart A of this part shall exercise that authority in accordance with a policy adopted by its board of directors that addresses the following matters:

(1) The types of purchasers to which the institution is authorized to sell interests in loans;

(2) The types of loans in which the institution may purchase or sell an interest and the types of interests which may be purchased or sold;

(3) The underwriting standards to be applied in the purchase of interests in loans;

(4) Such limitations on the aggregate principal amount of interests in loans that the institution may purchase from a single institution as are necessary to diversify risk, and such limitations on the aggregate amount the institution may purchase from all institutions as are necessary to assure that service to the territory is not impeded;

(5) Provision for the identification and reporting of loans in which interests are sold or purchased;

(6) Requirements for providing and securing in a timely manner adequate credit and other information needed to make an independent credit judgment; and

(7) Any limitations or conditions to which sales or purchases are subject that the board deems appropriate, including arbitration.

(d) *Purchase and sale agreements.*

Agreements to purchase or sell an interest in a loan shall, at a minimum:

(1) Identify the particular loan(s) to be covered by the agreement;

(2) Provide for the transfer of credit and other borrower information on a timely and continuing basis;

(3) Provide for sharing, dividing, or assigning collateral;

(4) Identify the nature of the interest(s) sold or purchased;

(5) Set forth the rights and obligations of the parties and the terms and conditions of the sale; and

(6) Contain any terms necessary for the appropriate administration of the loan and the protection of the interests of the Farm Credit System institution.

(e) *Independent credit judgment.* Each institution that purchases an interest in a loan shall make a judgment on the creditworthiness of the borrower that is independent of the originating or lead lender and any intermediary seller or broker prior to the purchase of the interest and prior to any servicing action that alters the terms of the original agreement, which judgment shall not be delegated to any person(s) not employed by the institution. A Farm Credit System institution that purchases a loan or any interest therein may use information, such as appraisals or collateral inspections, furnished by the originating or lead lender, or any intermediary seller or broker; however, the purchasing Farm Credit System institution shall independently evaluate such information when exercising its independent credit judgment. No employee who performed a real estate appraisal on any collateral supporting a loan shall participate in the decision to purchase that loan. The independent credit judgment shall be documented by a credit analysis that considers factors set forth in § 614.4160 of this part and is independent of the originating institution and any intermediary seller or broker. The credit analysis shall consider such credit and other borrower information as would be required by a prudent lender and shall include an evaluation of the capacity and reliability of the servicer. Boards of directors of jointly managed institutions shall adopt procedures to ensure that the interests of their respective shareholders are protected in participation between such institutions.

(f) *Limitations.* The aggregate principal amount of interests in loans purchased from a single lead lender and the aggregate principal amount of interests in loans purchased from other institutions shall not exceed the limits set in the institution's policy.

(g) *Lending limits.* In order to exclude the principal amount of interests sold from the principal amount of the loan for the purpose of determining compliance with the lending limits set forth in subpart J of this part, sale agreements must meet the following requirements:

(1) The interest sold must be an undivided interest in the principal amount of the loan and in all collateral securing the loan; and

(2) The interest must be sold without recourse; and

(3) The agreement under which the interest is sold must provide for the sharing of all payments of principal, collection expenses, collateral proceeds, and risk of loss on a pro rata basis according to the percentage interest in the principal amount of the loan.

Agreements that provide for the pro rata sharing to commence at the time of default or similar event, as defined in the agreement under which the interest is sold, shall be considered to be pro rata agreements, notwithstanding the fact that advances are made and payments are distributed on a basis other than pro rata prior to that time.

(h) *Sales with recourse.* When a loan or interest in a loan is sold with recourse, it shall be accorded the following treatment:

(1) The loan shall be considered, to the extent of the recourse, an extension of credit by the purchaser to the seller, as well as an extension of credit from the seller to the borrower(s), for the purpose of determining whether credit extensions to a borrower are within the lending limits established in subpart J of this part.

(2) The amount of the loan subject to the recourse agreement shall be considered a loan sold with recourse for the purpose of computing permanent capital ratios.

§ 614.4330 Loan participations.

Agreements to purchase or sell a participation interest shall be subject to the provisions of § 614.4325 of this subpart, and, in addition, shall satisfy the requirements of this section.

(a) *Participation agreements.*

Agreements to purchase or sell a participation interest in a loan shall, in addition to meeting the requirements of § 614.4325(d) of this subpart, at a minimum:

(1) Define the duties and responsibilities of the participating institution and the lead lender, and/or the servicing institution, if different from the lead lender.

(2) Provide for loan servicing and monitoring of the servicer;

(3) Set forth authorization and conditions for action in the event of borrower distress or default;

(4) Provide for sharing of risk;

(5) Set forth conditions for the offering and acceptance of the loan participation and termination of the agreement;

(6) Provide for sharing of fees, interest charges, and costs between participating institutions;

(7) Provide for a method of resolution of disagreements arising under the agreement between two or more institutions;

(8) Specify whether the contract is assignable by either party; and

(9) Provide for the issuance of certificates evidencing an undivided interest in a loan.

(b) *Retention requirement.* No participation interest may be purchased from an institution that is not a Farm Credit System institution unless the servicing institution has an ownership interest in the principal amount equal to the lesser of 10 percent of the principal amount or such lesser amount as represents the servicing institution's lending limit, which ownership interest cannot be assigned separately from the servicing rights.

(c) *Intrasystem participations.* Loans participated between or among Farm Credit System institutions shall meet the borrower eligibility, membership, loan term, loan amount, loan security, and stock purchase requirements of the originating lender.

§ 614.4335 Borrower stock requirements.

(a) As a condition of obtaining a loan from or through a Farm Credit System institution, including loans originated for sale to other lenders, a borrower shall meet the institution's minimum stock purchase requirements.

(b) Borrower stock may be retired only if the institution meets its minimum permanent capital standards and only in accordance with paragraphs (b)(1) or (b)(2) of this section.

(1) When a loan is sold to a party that is not a certified agricultural mortgage marketing facility under title VIII of the Act:

(i) Subject to the requirements of paragraph (d) of this section, borrower stock may be retired if the entire loan is sold without recourse.

(ii) Borrower stock may not be retired when the entire loan is sold with recourse.

(iii) When an interest in a loan is sold without recourse, or an interest is retained that is not a subordinated interest, a proportionate amount of borrower stock may be retired, but in no event may stock be retired below the

institution's minimum stock purchase requirement for the interest retained.

(2) When a loan or an interest therein is sold to a certified agricultural mortgage marketing facility under title VIII of the Act, the stock may be retired; but, in no event may stock be retired below the institution's minimum stock purchase requirement for the portion retained.

(c) If an institution repurchases a loan on which the stock has been retired, the borrower shall be required to repurchase stock in the amount of the minimum stock purchase requirement.

(d) When the loan is sold without recourse to another Farm Credit System institution pursuant to paragraph (b)(1)(i) of this section, the borrower may elect to hold stock in either the selling or purchasing institution.

§ 614.4336 Borrower rights.

(a) Each institution that contemplates selling a loan or an interest therein that is subject to the borrower rights provisions of title IV of the Act shall either:

(1) For loans intended for sale to a certified agricultural mortgage marketing facility pursuant to title VIII of the Act, comply with the requirements of § 614.4367(b) of this part; or

(2) For loans intended for sale to institutions that are neither Farm Credit System institutions nor certified agricultural mortgage marketing facilities under title VIII of the Act, comply with one of the following two requirements:

(i) Include provisions in the contract with the borrower, or a written modification thereto, that ensure that the purchaser of the loan will be obligated to accord the borrower the same rights "qualified lenders" must provide under the Act; or

(ii) Obtain from the borrower a signed written consent to the sale which explicitly states that the borrower relinquishes the statutory borrower rights. The consent to the loan sale and the relinquishment of the borrower rights shall have no effect until the loan is actually sold and shall be in effect in the event that lender or any other Farm Credit System institution repurchases the loan or any interest therein.

(b) Before obtaining the borrower's consent to the sale of the loan and the relinquishment of borrower rights pursuant to paragraph (a)(2)(ii) of this section, the lending institution shall disclose in writing to the borrower:

(1) A full and complete description of the statutory rights that the borrower is asked to relinquish;

(2) Any changes in the loan terms or conditions that will occur if the loan is not sold;

(3) The fact that the relinquishment of the statutory borrower rights will not become effective unless the loan is actually sold and shall become ineffective in the event that the lender or any other Farm Credit System institution repurchases the loan or any interest therein.

(c) The making of a loan may not be conditioned on the borrower's consent to its sale and relinquishment of statutory borrower rights.

§ 614.4337 Disclosure to borrowers.

When a loan or an interest in a loan other than a participation interest is sold with servicing rights, the disclosure shall be made to the borrower in accordance with this section:

(a) The selling institution shall disclose to the borrower at least 10 days prior to the borrower's next payment date;

(1) The name, address, and telephone number of the purchasing institution;

(2) The name and address of the party to whom payment is to be made;

(3) A description of the impact of the sale on statutory borrower rights after the sale;

(4) Any terms in the agreement that would permit a purchaser to change the terms or conditions of the loan.

(b) A Farm Credit System institution that purchases a loan or a non-participation interest therein shall not take any servicing action that adversely affects the borrower until it ensures that disclosure has been made to the borrower of:

(1) The name, address, and telephone number of the purchasing institution; and

(2) The address where the payment should be sent.

Subpart N—Loan Servicing Requirements; State Agricultural Loan Mediation Programs; Right of First Refusal

§ 614.4510 [Amended]

9. Section 614.4510 is amended by removing the reference “§ 614.4330” and adding in its place, “§ 614.4325” in paragraph (c).

Subpart O—Banks for Cooperatives Financing International Trade

§ 614.4710 [Amended]

10. Section 614.4710 is amended by removing the reference “§ 614.4334” and adding in its place, “§ 614.4020(b)” in paragraphs (a)(4) and (b)(2).

PART 619—DEFINITIONS

11. The authority citation for part 619 is revised to read as follows:

Authority: Secs. 1.7, 2.4, 4.9, 5.9, 5.12, 5.17, 5.18, 7.0, 7.6, 7.7, 7.8 of the Farm Credit Act; 12 U.S.C. 2015, 2075, 2160, 2243, 2246, 2252, 2253, 2279a, 2279b, 2279b-1, 2279b-2.

12. Section 619.9195 is revised to read as follows:

§ 619.9195 Loan participation.

A fractional undivided interest in the principal amount of a loan that is sold by a lead lender to a participating institution in accordance with the requirements of § 614.4330 of this chapter. The term “loan participation” does not include a subordinated participation interest.

§ 619.9320 [Removed]

13. Section 619.9320 is removed.

Dated: August 14, 1992.

Curtis M. Anderson,
Secretary, Farm Credit Administration Board.

BILLING CODE 6705-01-M

12 CFR Part 615

RIN 3052-AB18

Funding and Fiscal Affairs, Loan Policies and Operations, and Funding Operations

AGENCY: Farm Credit Administration.
ACTION: Suspension of rule.

SUMMARY: The Farm Credit Administration (FCA), by the Farm Credit Administration Board (Board), adopts a temporary suspension, through December 31, 1994, of certain provisions of the regulations governing the computation of permanent capital ratios of Farm Credit System (System) institutions. The effect of the suspension is to allow Farm Credit Banks and direct lender associations through the end of 1994 to determine by agreement whether, and to what extent, an association's investment in a Farm Credit Bank is considered as part of the association's permanent capital for the purpose of computing the permanent capital ratio.

EFFECTIVE DATE: The suspension shall become effective upon the expiration of 30 days after publication in the *Federal Register* during which either or both Houses of Congress are in session. Notice of the effective date will be published in the *Federal Register*.

FOR FURTHER INFORMATION CONTACT: Robert S. Child, Policy Analyst, Office of Examination, Farm Credit

Administration, McLean, VA 22102-5090, (703) 883-4498, TDD (703) 883-4444,

or

Rebecca S. Orlich, Senior Attorney,
Office of General Counsel, Farm
Credit Administration, McLean, VA
22102-5090, (703) 883-4020, TDD (703)
883-4444.

SUPPLEMENTARY INFORMATION: On May 14, 1992, the FCA Board adopted a proposal to suspend, for a period of 2 years, certain provisions of FCA regulation § 615.5210(d) governing the computation of permanent capital ratios of Farm Credit System (System) banks and associations. See 57 FR 26788 (June 16, 1992). Specifically, those provisions are:

1. Paragraph (d)(2)(i)

This provision states that, until January 1, 1993, each Farm Credit Bank shall, with the agreement of a majority of the direct lender associations in its district, adopt a districtwide plan specifying a percentage allocation of an association's investment in the bank between the bank and the association. The bank and associations are permitted to amend the plan each year. In the event that the bank and the associations are unable to reach agreement on the allocation, the direct lender associations' investments are required to be allocated 20 percent to the bank and 80 percent to the associations. In this provision, only the phrase “until January 1, 1993,” was proposed to be suspended.

2. Paragraph (d)(2)(ii)

This provision states that, beginning January 1, 1993, and thereafter, all equities of a Farm Credit Bank that were purchased by direct lender associations must be allocated to the bank. This provision was proposed to be suspended in its entirety.

3. Paragraph (d)(2)(iii)

This provision requires equities of a Farm Credit Bank allocated to direct lender associations to be counted as permanent capital at the Farm Credit Bank and deducted from the capital of the direct lender associations, and sets forth a phase-in period for such requirement. The phase-in period commences on January 1, 1993 and specifies for each year until 1998 the minimum percentage of bank equities allocated to the association that must be counted as bank capital and deducted from association capital. In 1993, associations are permitted to count up to 100 percent of the bank equities

allocated to the association; the permissible allocation to the association decreases by 20 percentage points each following year until 1998. In 1998 and thereafter, all of the bank equities allocated to the association as a distribution of earnings must be counted by the bank and deducted from association capital. This provision was proposed to be suspended in its entirety.

During the proposed suspension period, other provisions of the regulation would remain in effect. This means that a Farm Credit Bank, with the agreement of a majority of the direct lender associations in its district, could adopt a districtwide plan specifying that a percentage of the direct lender association's investment in the bank could be counted as association capital for the purpose of computing the permanent capital ratio. In the absence of such an agreement, 20 percent of the associations' investment in the bank would be counted by the bank, and 80 percent would be counted by the associations.

The FCA received comments from the Farm Credit Council (FCC) on behalf of its member Farm Credit Banks, the Federal Intermediate Credit Bank of Jackson, and direct lender associations, and from 10 System institutions. The commenters unanimously supported the proposed suspension of the regulations. In addition, most commenters expressed their opinion that the 2-year suspension should be made permanent—i.e., that the regulations in question should be revoked rather than merely suspended. Several commenters commented that a temporary suspension of the regulation for only 2 years would not provide System institutions with an adequate basis upon which to make long-term capital and business plans.

The Board understands the needs of System institutions to be able to make long-term plans and is aware that a temporary suspension will not have the same effect as a withdrawal. The Board is committed to moving forward with a reconsideration of the regulation to address System concerns. For System institutions' planning and convenience purposes, the Board has decided to extend the suspension period through December 31, 1994, to coincide with the end of a calendar year. This extension would result in a suspension period of approximately 26 to 27 months.

As was stated in the supplementary information to the proposed suspension, the Board intends during the suspension period to re-examine the computation issue in light of System concerns and to propose amendments to the capital regulations to address those concerns as soon as practicable. The Board fully appreciates the concerns of commenters that the existing phase-in period as set

forth in § 615.5210(d)(2) could not practicably be reinstated at the end of the suspension period and will address these concerns in the course of the review.

Some of the comments received pertained to the substance of the capital regulations, which is beyond the scope of the proposed suspension on which the FCA solicited comments. These comments are not addressed here but will be considered by the FCA in its re-examination of and proposed revisions to the capital adequacy regulations.

List of Subjects in 12 CFR Part 615

Accounting, Agriculture, Banks, Banking, Government securities, Investments, Rural areas.

For the reasons stated in the preamble, the following provisions of part 615 of chapter VI, title 12 of the Code of Federal Regulations are hereby suspended through December 31, 1994:

PART 615—FUNDING AND FISCAL AFFAIRS, LOAN POLICIES AND OPERATIONS, AND FUNDING OPERATIONS

1. The authority citation for part 615 continues to read as follows:

Authority: Secs. 1.5, 1.11, 1.12, 2.2, 2.3, 2.4, 2.5, 2.12, 3.1, 3.7, 3.11, 3.25, 4.3, 4.9, 4.14B, 4.25, 5.9, 5.17, 6.20, 6.26 of the Farm Credit Act; 12 U.S.C. 2013, 2019, 2020, 2073, 2074, 2075, 2076, 2093, 2122, 2128, 2132, 2146, 2154, 2160, 2202b, 2211, 2243, 2252, 2278b, 2278b-6; sec. 301(a) of Pub. L. 100-233, 101 Stat. 1568, 1608.

§ 615.5210 [Amended]

2. Section 615.5210 is amended by suspending, through December 31, 1994, the phrase "until January 1, 1993," in paragraph (d)(2)(i); and paragraphs (d)(2)(ii) and (d)(2)(iii) in their entirety.

Dated: August 13, 1992.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 92-NM-28-AD; Amendment 39-8318; AD 92-16-09]

Airworthiness Directives; Boeing Model 747 Series Airplanes Equipped with General Electric CF6-45/50 Series Engines

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Boeing Model 747 series airplanes equipped with General Electric CF6-45/50 series engines, that requires repetitive inspections to detect cracking of the number 1 strut idler pulley support bracket assembly; inspections of all associated fasteners for tightness, and tightening of any loose fasteners found; and replacement of the bracket assembly. This amendment is prompted by recent reports of fatigue cracks found in the thrust control cable idler pulley support brackets on the number 1 strut. The actions specified by this AD are intended to prevent the loss of engine thrust control.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124-2207. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Mr. G. Michael Collins, Aerospace Engineer, Propulsion Branch, ANM-140S, Seattle Aircraft Certification Office, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2689; fax (206) 227-1181.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Boeing Model 747 Series Airplanes Equipped with General Electric CF6-45/50 series engines was published in the *Federal Register* on March 27, 1992 (57 FR 10617). [A correction of the proposal was published in the *Federal Register* on April 22, 1992 (57 FR 14751).] That action proposed to require repetitive inspections to detect cracking of the number 1 strut idler pulley support bracket assembly; inspections of all associated fasteners for tightness, and tightening of any loose fasteners found; and replacement of the bracket assembly.

Interested persons have been afforded an opportunity to participate in the

making of this amendment. Due consideration has been given to the two comments received.

Both commenters support the proposed rule.

Since issuance of the proposal, the FAA has reviewed and approved Boeing Alert Service Bulletin 747-76A2083, Revision 1, dated May 28, 1992. This revised service bulletin is essentially the same as the original issue, but contains new procedures for an "interim repair" procedure to be used when cracks in the bracket are detected. The interim repair addresses only cracks that are less than two inches in length, and involves stop drilling a hole at the end of the crack.

The FAA has revised the final rule to include Revision 1 of the Boeing service bulletin as an acceptable source of service information, and to provide operators with the option to install the interim repair in those cases where only one crack, having a length of less than two inches, is found in the bracket. Although the service bulletin recommends use of the interim repair method when "cracks" are found in the bracket, the FAA has determined that use of the interim repair is acceptable only if one crack is found and the length of that crack does not exceed two inches. If the optional interim repair is used, operators must perform repetitive inspections of the bracket at intervals of 100 flight hours and replace the bracket within 750 flight hours. The FAA has determined that this optional procedure will provide an acceptable level of safety.

Paragraph (d) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 140 Model 747 series airplanes of the affected design in the worldwide fleet. The FAA estimates that 4 airplanes of U.S. registry will be affected by this AD, that it will take approximately 12 work hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Required parts will cost approximately \$630 per airplane. Based on these figures, the total cost

impact of the AD on U.S. operators is estimated to be \$5,160, or \$1,290 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-16-09. Boeing: Amendment 39-8318. Docket 92-NM-28-AD.

Applicability: Model 747 series airplanes; line positions 202 through 886, inclusive; equipped with General Electric CF6-45/50 series engines; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent the loss of engine thrust control, accomplish the following:

(a) Prior to or upon the accumulation of 9,000 total flight hours on the airplane, or within 600 flight hours after the effective date of this AD, whichever occurs later, perform a visual inspection of the number 1 strut idler pulley support bracket assembly to detect cracks; and inspect all associated fasteners for proper tightness; in accordance with Boeing Alert Service Bulletin 747-76A2083, dated December 18, 1991; or Revision 1, dated May 28, 1992.

(1) If no cracks are found in the bracket assembly, return the airplane to service and repeat the inspections required by paragraph (a) of this AD at intervals not to exceed 600 flight hours.

(2) If only one crack is found in the bracket assembly and its length is two inches or less, prior to further flight, accomplish the procedures specified in either paragraph (a)(2)(i) or (a)(2)(ii) of this AD:

(i) Accomplish the interim repair described in Paragraph E. of the Accomplishment Instructions of Boeing Alert Service Bulletin 747-76A2083, Revision 1, dated May 28, 1992. Thereafter, repeat the inspections described in paragraph (a) of this AD at intervals not to exceed 100 flight hours. Within 750 flight hours after installation of the interim repair, replace the bracket assembly in accordance with the service bulletin. Replacement of the bracket assembly constitutes terminating action for the repetitive inspections required by this paragraph.

(ii) Replace the bracket assembly in accordance with Boeing Alert Service Bulletin 747-76A2083, dated December 18, 1991; or Revision 1, dated May 28, 1992.

(3) If cracks are found in the bracket assembly, or if only one crack is found and its length exceeds two inches, prior to further flight, replace the bracket assembly in accordance with Boeing Alert Service Bulletin 747-76A2083, dated December 18, 1991; or Revision 1, dated May 28, 1992.

(4) If any fasteners are found to be loose, prior to further flight, tighten those fasteners to within specified torque limits, in accordance with Boeing Alert Service Bulletin 747-76A2083, dated December 18, 1991; or Revision 1, dated May 28, 1992.

(b) Except as provided by paragraph (a)(2)(i) of this AD, within 18 months after the effective date of this AD, replace the bracket assembly, in accordance with Boeing Alert Service Bulletin 747-76A2083, dated December 18, 1991; or Revision 1, dated May 28, 1992.

(c) Replacement of the bracket assembly in accordance with Boeing Alert Service Bulletin 747-76A2083, dated December 18, 1991; or Revision 1, dated May 28, 1992; constitutes terminating action for the repetitive inspections required by this AD.

(d) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may

be used when approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the Seattle ACO.

(e) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(f) The inspections and replacement shall be done in accordance with Boeing Alert Service Bulletin 747-76A2083, dated December 18, 1991; or Boeing Alert Service Bulletin 747-76A2083, Revision 1, dated May 28, 1992. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124-2207. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.

(g) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 10, 1992.

Bill R. Boxwell,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 92-NM-30-AD; Amendment 39-8339; AD 92-17-10]

Airworthiness Directives; Boeing Model 757 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to certain Boeing Model 757 series airplanes, that currently requires incorporation of an operational procedure into the FAA-approved Airplane Flight Manual (AFM) to address uncommanded spoiler deployments on final approach. That AD also requires identification and replacement of failed spoiler Power Control Actuators (PCA) in the event of an uncommanded spoiler deployment. That AD was prompted by reports of single uncommanded asymmetric spoiler deployments at flaps 25 and 30 caused

by failed spoiler PCA's. This amendment requires replacing all spoiler PCA's with modified PCA's. The actions specified by this AD are intended to prevent uncommanded spoiler deployments caused by failed spoiler PCA's.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Timothy J. Dulin, Seattle Aircraft Certification Office, Systems and Equipment Branch, ANM-130S; FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2675; fax (206) 227-1181.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations by superseding AD 91-24-10, Amendment 39-8096 (56 FR 57590, November 13, 1991), which is applicable to certain Boeing Model 757 series airplanes, was published in the Federal Register on March 31, 1992 (57 FR 10840). The action proposed to require replacing all spoiler PCA's with modified PCA's.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter supports the rule as proposed.

One commenter requests that the compliance time for replacement of all outboard PCA's (positions 1, 2, 3, 10, 11, and 12) be increased from the proposed 24 months to at least 36 months; and that the compliance time for replacement of all inboard PCA's (positions 4, 5, 6, 7, 8, and 9) be increased from the proposed 48 months to at least 60 months.

The commenter is concerned about the availability of repair kits. The current schedule for delivery of the repair kits is approximately 10 kits per month. The commenter states that it needs approximately 840 repair kits to modify its fleet, and it cannot comply with the proposed compliance times

unless delivery of the repair kits is increased substantially. The commenter also states that acquiring the Automated Test Equipment needed to perform functional testing on the unit requires a lead time of 12 months. The commenter is concerned that the proposed compliance periods do not provide sufficient time to rotate unmodified units to the vendor, Allied Signal, for modification since Allied Signal has indicated that more than 24 months is needed for fleet modification. The FAA does not concur with the commenter's request to extend the compliance time. In developing an appropriate compliance time for this action, the FAA considered not only the degree of urgency associated with addressing the subject unsafe condition, but the availability of required parts and the practical aspect of installing the required modification within a maximum interval of time allowable for all affected airplanes to continue to operate without compromising safety. The FAA also worked with both the manufacturer and the supplier of the parts to establish reasonable compliance times with respect to parts availability. The manufacturer has advised that an ample number of required parts will be available for modification of the U.S. fleet within the proposed compliance period. In light of this, the FAA does not consider an extension of the compliance time to be necessary. However, under the provisions of paragraph (f) of the final rule, the FAA may approve requests for adjustments to the compliance time if data are submitted to substantiate that such an adjustment will provide an acceptable level of safety.

One commenter suggests textual changes in paragraphs (c) and (d) of the rule. Paragraph (c) should be changed from "replace all outboard spoiler PCA's * * *" to "replace the PCA's on all outboard spoilers * * *". Likewise, paragraph (d) should be changed from "replace all inboard spoiler PCA's * * *" to "replace the PCA's on all inboard spoilers * * *". The FAA concurs that the suggested changes will make the requirements of the rule clearer. The final rule has been changed accordingly.

Paragraph (f) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has

determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 408 Boeing Model 757 series airplanes of the affected design in the worldwide fleet. The FAA estimates that 260 airplanes of U.S. registry will be affected by this AD, that it will take approximately 78 work hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Required parts will be provided by the manufacturer at no cost to operators. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$1,115,400 or \$4,290 per airplane. The total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-8096 (56 FR 57590, November 13, 1991), and by adding a new airworthiness directive (AD), amendment 39-8339, to read as follows:

92-17-10. Boeing: Amendment 39-8339.

Docket 92-NM-30-AD. Supersedes AD 91-24-10, Amendment 39-8096.

Applicability: Model 757 series airplanes; line positions 001 through 408, inclusive, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent uncommanded spoiler deployments caused by failed spoiler Power Control Actuators (PCA), accomplish the following:

(a) Within 10 days after December 2, 1991 (the effective date of AD 91-24-10, amendment 39-8096), incorporate the following procedures into the Limitations Section of the FAA-approved Airplane Flight Manual (AFM). This may be accomplished by inserting a copy of this AD into the AFM.

"If, upon selection of flap 25 or 30, the SPOILERS EICAS message is observed, uncommanded airplane roll is encountered, or sustained control wheel displacement is required, immediately retract flaps to 20 and use flaps 20 and V_{ref} 20 for landing. Select the ground proximity flap override switch to override."

(b) If, upon selection of flap 25 or 30, the SPOILERS EICAS message is observed, the SPOILERS caution light illuminates, or uncommanded airplane roll is encountered, prior to further flight, determine if a spoiler PCA fault ball is displayed on any of the spoiler control modules. If a spoiler fault ball is displayed, prior to further flight, identify the failed spoiler PCA pair and replace both spoiler PCA's, unless the direction of the roll upset is known, in which case only the spoiler PCA in the wing of the roll direction must be replaced. Any spoiler PCA that has been removed in accordance with this paragraph must not be installed on any airplane until the spoiler PCA is modified in accordance with Boeing Alert Service Bulletin 757-27A0105, dated December 5, 1991.

(c) Within 24 months after the effective date of this AD, replace the PCA's on all outboard spoilers (positions 1, 2, 3, 10, 11, and 12), in accordance with Boeing Alert Service Bulletin 757-27A0105, dated December 5, 1991.

(d) Within 48 months after the effective date of this AD, replace the PCA's on all inboard spoilers (positions 4, 5, 6, 7, 8, and 9), in accordance with Boeing Alert Service Bulletin 757-27A0105, dated December 5, 1991.

(e) Replacement of all spoiler PCA's, as required by paragraphs (c) and (d) of this AD, constitutes terminating action for the requirements of this AD for that airplane. Once replacement is accomplished, the operating limitations required by paragraphs (a) and (b) of this AD may be removed.

(f) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be

used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(g) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(h) The replacement shall be done in accordance with Boeing Alert Service Bulletin 757-27A0105, dated December 5, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(i) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 23, 1992.

Darrell M. Pederson,
Acting Manager, Transport Airplane
Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 91-NM-264-AD; Amendment 39-8261; AD 92-12-01]

Airworthiness Directives; Airbus Industrie Model A300 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to Airbus Industrie Model A300 series airplanes, that currently requires inspections and replacement of the bolts in the aft attachment of flap beam numbers 2 through 6. This amendment requires a change in the size of the replacement bolts in flap beam numbers 3 through 6. This amendment is prompted by reports indicating that the existing AD inadvertently cited the incorrect dimensions for the replacement bolt in flap beam numbers 3 through 6. The actions specified by this AD are intended to prevent the installation of incorrectly sized bolts,

which could lead to loss of tension in the aft attachment of the flap beams.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700 Blagnac, France. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Greg Holt, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington, 98055-4056; telephone (206) 227-2140; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION:

A proposal to amend part 39 of the Federal Aviation Regulations by superseding AD 88-22-08, Amendment 39-6049 (53 FR 41149, October 20, 1988), which is applicable to Airbus Industrie Model A300 series airplanes, was published in the Federal Register on February 12, 1992 (57 FR 5086). The action proposed to require change in the size of the replacement bolts in flap beam numbers 3 through 6.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the two comments received.

Both commenters support the proposed rule.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

The FAA estimates that 77 airplanes of U.S. registry will be affected by this AD, that it will take approximately 78 work hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Cost of required parts is expected to be negligible. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$330,330.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance

with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-6049 (53 FR 41149, October 20, 1988), and by adding a new airworthiness directive (AD), amendment 39-8261, to read as follows:

92-12-01. Airbus Industrie: Amendment 39-8261. Docket 91-NM-264-AD. Supersedes AD 88-22-08, Amendment 39-6049.

Applicability: Airbus Industrie Model A300 series airplanes, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent the installation of incorrectly sized bolts, which could lead to loss of tension in the aft attachment of the flap beams, accomplish the following:

(a) Within 350 landings after December 1, 1988 (the effective date of AD 88-22-08, Amendment 39-6049), perform a detailed visual inspection of flap beam numbers 2, 3, 4, 5, and 6 aft attachment on both wings to detect damage. Repeat this inspection within 700 landings after December 1, 1988. If damaged parts are found, replace in accordance with Airbus Industrie Service Bulletin A300-57-150, Revision 1, dated September 18, 1987, or in accordance with

Airbus Industrie Service Bulletin A300-57-145, Revision 3, dated February 10, 1988.

(b) For airplanes on which Modification 3553 has not been accomplished: Within 700 landings after December 1, 1988 (the effective date of AD 88-22-08, Amendment 39-6049), replace the bolts on flap beam number 2 with 3/8-inch diameter bolts in accordance with Airbus Industrie Service Bulletin A300-57-145, Revision 3, dated February 10, 1988.

(c) For airplanes on which Modification 3553 has been accomplished: Within 1,000 landings after December 1, 1988 (the effective date of AD 88-22-08, Amendment 39-6049), replace the bolts on flap beam number 2 with 7/8-inch diameter bolts in accordance with Airbus Industrie Service Bulletin A300-57-145, Revision 3, dated February 10, 1988.

(d) For all airplanes: Within 1,000 landings after the effective date of this AD, replace the bolts on flap beam numbers 3, 4, 5, and 6 and 3/8-inch diameter bolts, in accordance with Airbus Service Bulletin A300-57-145, Revision 3, dated February 10, 1988.

(e) Replacement of the flap beam bolts in accordance with Airbus Service Bulletin A300-57-145, Revision 3, dated February 10, 1988, constitutes terminating action for the inspections required by paragraph (a) of this AD.

(f) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate. The request shall be forwarded through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Standardization Branch, ANM-113.

Note: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the Standardization Branch, ANM-113.

(g) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(h) The inspections and modifications shall be done in accordance with Airbus Industrie Service Bulletin A300-57-150, Revision 1, dated September 18, 1987; or in accordance with Airbus Industrie Service Bulletin A300-57-145, Revision 3, dated February 10, 1988, as applicable. These service bulletins contain the following list of effective pages:

Service bulletin	Page no.	Revision level	Date
A300-57-150....	1-2, 4-9	1.....	Sept. 18, 1987.
Revision 1.....	3, 10-12	Original.....	July 10, 1987.
A300-57-145....	1-3, 6-18	3.....	Feb. 10, 1988.
Revision 3.....	4-5	2.....	Nov. 13, 1987.

This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained

from Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700 Blagnac, France. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

(i) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on May 12, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 92-20118 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 91-NM-235-AD; Amendment 39-8333; AD 92-17-04]

Airworthiness Directives; Boeing Model 757 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to certain Boeing Model 757 series airplanes, that currently requires that landing gear brake wear limits be incorporated into the FAA-approved maintenance inspection program. This amendment requires the inspection of certain additional landing gear brakes for wear, replacement of the brakes if the wear limits prescribed in this AD are not met, and the incorporation of new maximum wear limits into the FAA-approved maintenance inspection program. This amendment is prompted by the determination of the allowable brake wear limits for the additional brakes. The actions specified by this AD are intended to prevent the loss of braking effectiveness of the landing gear brakes.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124; and BFGoodrich Aerospace, Aircraft Wheels and Brakes, P.O. Box 340, Troy, Ohio 45373. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the

Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: David M. Herron, Aerospace Engineer, Seattle Aircraft Certification Office, Systems and Equipment Branch, ANM-130S, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056, telephone (206) 227-2672, fax (206) 227-1181.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations by superseding AD 91-18-09, Amendment 39-8012 (56 FR 51156, October 10, 1991), which is applicable to Boeing Model 757 series airplanes, was published in the *Federal Register* on February 12, 1992 (57 FR 5096). The action proposed to require the inspection of certain additional landing gear brakes for wear, replacement of the brakes if the wear limits prescribed in the rule are not met, and the incorporation of these new wear limits into the FAA-approved maintenance inspection program.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

Two commenters support the proposal.

One commenter requests clarification concerning the contents of BFGoodrich Service Bulletin 2-1457-32-13 as cited in paragraph (c) of the proposal. This commenter considers that there may be confusion as to whether the procedures in the service bulletin relate to steel brakes or to carbon brakes. The FAA notes that the service bulletin procedures related to specific steel brakes manufactured by BFGoodrich (part number 2-1457 series brakes).

This commenter also requests clarification concerning the proposed option to extend the maximum allowable brake wear limit for the BFGoodrich 2-1510 carbon brake from 1.7 inches to 2.2 inches, as would be permitted by proposed paragraph (b). The commenter considers that describing this procedure as "optional" is misleading since it implies that affected operators may choose between 1.7-inch and 2.2-inch maximum wear limits; however, the brake manufacturer is only shipping one build of the brake to customers. The FAA does not consider that the "option" being provided in the rule is misleading. While it may be true that the brake manufacturer is currently only shipping brakes with a 2.2-inch wear limit, there may be many operators who currently are using a 1.7-inch limit. The FAA considers that the use of either

the 1.7-inch or the 2.2-inch limit is acceptable in terms of safety.

This commenter also requests that the final rule include an additional table to incorporate the information in proposed paragraphs (b) and (c). The commenter suggests that use of a table would clarify the rule and make it more consistent with other rules. The FAA does not concur. Although the use of a table is effective for paragraph (a) of this rule, the FAA considers that the additional information and instructions that need to be conveyed in paragraphs (b) and (c) are not conducive to a table format.

One commenter requests that proposed paragraph (c) include a reference to Revision 1 of BFGoodrich Service Bulletin 2-1457-32-13 as an additional source of service information relative to the BFGoodrich part number 2-1457 series brakes. The FAA concurs. Since issuance of the notice, the FAA has reviewed and approved BFGoodrich Service Bulletin 2-1457-32-13, Revision 1, dated December 16, 1991 (issued February 28, 1991). This revised service bulletin is essentially the same as the originally issued version, but includes procedures specific to the part number 2-1457-1 and -2 series main landing gear brake assemblies, and additional notational information concerning rotor and brake lining dimensions. The FAA has revised the final rule to indicate that operators may use the revised service bulletin as a source of service information.

Paragraph (d) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 305 Model 757 series airplanes of the affected design in the worldwide fleet. It is estimated that 217 airplanes of U.S. registry will be affected by this AD; of this number, 106 airplanes are added by this AD action. Approximately eight U.S. operators will be affected by this AD.

The FAA estimates that it will take approximately 21 work hours per airplane to accomplish the required actions, at an average labor cost of \$55 per work hour. In addition, it is estimated that the cost of parts to accomplish the change in wear limits on

these airplanes (that is, the cost resulting from the requirement to change brakes before they are worn to their previously recommended limits for a one-time change) will be approximately \$3,350 per airplane. Based on these figures, the total cost impact on U.S. operators, with regard to the change in brake wear limits, is estimated to be \$977,585; of this total amount, \$477,530 is added by this AD action.

Further, the FAA estimates that it will require 20 work hours per operator, at an average labor cost of \$55 per work hour; to incorporate the requirements into an operator's FAA-approved maintenance inspection program. Based on these figures, the total cost impact of the rule on the eight affected U.S. operators, with regard to revising the maintenance inspection program, is estimated to be \$8,800.

Based on the figures discussed above, the total cost impact of the rule on U.S. operators is estimated to be \$986,385. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-8012 (56 FR 51156, October 10, 1991), and by adding a new airworthiness directive (AD), amendment 39-8333, to read as follows:

92-17-04. Boeing: Amendment 39-8333;

Docket No. 91-NM-235-AD. Supersedes AD 91-18-09, Amendment 39-8012.

Applicability: Model 757 series airplanes, equipped with brake part numbers (P/N) identified in paragraphs (a) and (c) of this AD, certificated in any category.

Compliance required as indicated, unless accomplished previously.

To prevent loss of main landing gear braking effectiveness, accomplish the following:

(a) Within 180 days after November 12, 1991 (the effective date of Amendment 39-8012, AD 91-18-09), incorporate the maximum brake wear limits, shown below, into the FAA-approved maintenance inspection program.

Brake mfr.	Brake P/N	Boeing P/N	Max. wear limit
Dunlop...	AHA 1301 ...	S160N020-1 ...	2.46 inches.
Dunlop...	AHA 1637 ...	S160N020-5 ...	2.46 inches.
Dunlop...	AHA 1676 ...	S160N020-7 ...	2.46 inches.
Dunlop...	AHA 1693 ...	S160N020-8 ...	2.46 inches.
Dunlop...	AHA 1884 ...	S160N020-14.	2.80 inches.
BFGoodrich.	2-1510	S160N020-11.	1.70 inches.

(b) For BFGoodrich brake P/N 2-1510 (Boeing P/N S160N020-11), in lieu of the limit specified in paragraph (a) of this AD, the maximum allowable brake wear may be extended to 2.2 inches when it is placed into the FAA-approved maintenance inspection program.

(c) Within 180 days after the effective date of this AD, accomplish the following:

(1) For airplanes equipped with BFGoodrich Brake P/N's 2-1457 and 2-1457-1, (Boeing P/N S160N010-43 AND S160N010-45): Accomplish the procedures specified in Section 2.B.(1) of BFGoodrich Service Bulletin 2-1457-32-13, dated January 30, 1991, or Revision 1; dated December 16, 1991 (issued February 28 1991). Brakes found worn more than the 1.4-inch allowable brake wear must be removed and replaced, prior to further flight, with either a brake built in accordance with Section 2.B.(1)c. of the service bulletin, or a brake with more than 1.4 inches of allowable wear remaining.

(2) For airplanes equipped with BFGoodrich Brake P/N's 2-1457, 2-1457-1, and 2-1457-2, (Boeing P/N S160N010-43, S160N010-45, and S160N010-46): Incorporate either Figure 1 and/or Figure 2 of Section 2.B.(1)c. of BFGoodrich Service Bulletin 2-

1457-32-13, dated January 30, 1991, or Revision 1, dated December 16, 1991 (issued February 28, 1991), into the FAA-approved maintenance inspection program.

(d) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(e) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

(f) The procedures relative to BFGoodrich Brake P/N's 2-1457 and 2-1457-1, 2-1457-2 shall be done in accordance with BFGoodrich Service Bulletin S-1457-32-13, dated January 30, 1991; or BFGoodrich Service Bulletin 2-1457-32-13, Revision 1, dated December 16, 1991 (issued February 28, 1991). This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124; and BFGoodrich Aerospace, Aircraft Wheels and Brakes, P.O. Box 340, Troy, Ohio 45373. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

(g) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 21, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 91-NM-143-AD; Amendment 39-8319; AD 92-16-10]

Airworthiness Directives; Boeing Model 767 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Boeing Model 767 series airplanes, that requires an inspection of the hydraulic pressure tube to the power drive unit for the inboard leading edge slats and the adjacent pneumatic duct, and replacement if

clearance is less than allowable limits or chafing is evident; and replacement of the hydraulic return tube, if a new hydraulic pressure tube is installed. This amendment is prompted by two reports of leaks in the hydraulic pressure tube caused by chafing between the hydraulic tube and pneumatic duct. The actions specified by this AD are intended to prevent temporary impairment of the crew's vision caused by hydraulic fluid in the environmental control system.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket 91-NM-143-AD, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Kenneth W. Frey, Seattle Aircraft Certification Office, Systems and Equipment Branch, ANM-130S; telephone (206) 227-2673; fax (206) 227-1181. Mailing address: FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Boeing Model 767 series airplanes was published in the *Federal Register* on March 2, 1992 (57 FR 7334). That action proposed to require an inspection of the hydraulic pressure tube to the power drive unit for the inboard leading edge slats and the adjacent pneumatic duct, and replacement if clearance is less than allowable limits or chafing is evident; and replacement of the hydraulic return tube, if a new hydraulic pressure tube is installed.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter concurs with the proposal.

The Air Transport Association (ATA) of America, on behalf of one of its members, requests that the repair procedure be revised to allow replacement of the hydraulic pressure tube with a fabricated pressure tube

having a bend closer to the fuselage. The commenter states that the fabricated pressure tube would meet the minimum hydraulic tube clearance, so replacement of the hydraulic return tube would not be necessary. The commenter further states that the requested change would eliminate unnecessary expenses, including parts and labor associated with replacement of the hydraulic return tube. The FAA cannot concur with this request since no technical data describing the procedure to fabricate the pressure tube was provided. However, the FAA may consider approval of an alternative method of compliance, in accordance with the provisions of paragraph (c) of this AD, if such data were provided to justify the request.

One commenter requests permission to perform an interim repair if discrepancies are detected, and to accomplish the replacement of the pressure tube at a future date. The commenter asserts that an interim repair would allow operators to conduct inspections immediately at stations where certain replacement parts may not be available. The FAA does not concur. The inspection should be performed at a maintenance facility where replacement hydraulic tubes are available, if such replacement is necessary. However, should an operator develop an interim repair, the FAA would consider a request for an alternative method of compliance, in accordance with the provisions of paragraph (c) of this AD, if data were provided to justify that the repair would provide an acceptable level of safety in the interim.

Two commenters request that the proposed compliance time of 3,000 flight hours be extended in order to accommodate a parts availability problem. The commenters insist that Boeing has advised them that there were no spare parts assemblies in stock, and that a 280-day lead time for obtaining parts is standard. The FAA does not consider an extension to be necessary. The FAA has confirmed that ample parts are currently available for any necessary replacement; spare kits can be shipped by the manufacturer within 48 hours, if necessary.

Paragraph (c) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the change previously described. The FAA has determined that this change will neither increase the economic burden on any

operator nor increase the scope of the AD.

There are approximately 342 Boeing Model 767 series airplanes of the affected design in the worldwide fleet. The FAA estimates that 129 airplanes of U.S. registry will be affected by this AD, that it will take approximately 4 work hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$28,380. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-16-10. Boeing: Amendment 39-8319.
Docket 91-NM-143-AD.

Applicability: Model 767 airplanes, as listed in Boeing Alert Service Bulletin 767-29A0064, Revision 1, dated October 24, 1991, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent hydraulic fluid from entering the cabin, accomplish the following:

(a) Within 3,000 flight hours after the effective date of this AD, inspect the inboard leading edge slat power drive unit hydraulic pressure tube for clearance from the adjacent pneumatic duct and for signs of chafing, in accordance with Boeing Alert Service Bulletin 767-29A0064, Revision 1, dated October 24, 1991:

(1) If the clearance is more than 0.25 inch and there are no signs of chafing, no further action is necessary.

(2) If the clearance is 0.25 inch or less, or if signs of chafing are found on the hydraulic tube, prior to further flight, replace both the hydraulic pressure tube and the hydraulic return tube, in accordance with the service bulletin.

(3) If chafing is found on the pneumatic duct, prior to further flight, repair the pneumatic duct in accordance with the service bulletin.

(b) For airplanes on which the hydraulic pressure tube has been replaced in accordance with Boeing Alert Service Bulletin 767-29A0064 (original issue), dated June 13, 1991: Within 4,000 flight hours after the effective date of this AD, replace the hydraulic return tube in accordance with Paragraph III.D. of Boeing Alert Service Bulletin 767-29A0064, Revision 1, dated October 24, 1991.

(c) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternatives methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The inspection, repairs, and replacement shall be done in accordance with Boeing Alert Service Bulletin 767-29A0064, Revision 1, dated October 24, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. Copies may be inspected at the FAA,

Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(f) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 13, 1992.

Bill R. Boxwell,

Acting Manager, Transportation Airplane Directorate, Aircraft Certification Service.

[FR Doc. 92-20125 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 91-NM-270-AD; Amendment 39-8332; AD 92-17-03]

Airworthiness Directives; Boeing Model 767 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Boeing Model 767 series airplanes, that requires inspection of the main landing gear forward trunnion support fitting fuse pins and replacement of any incorrect fuse pins found. This amendment is prompted by reports indicating that incorrect fuse pins were installed on one airplane during a landing gear change and others were installed during production. The actions specified by this AD are intended to prevent structural damage to the wing rear spar and fuel leakage in the event of a main landing gear breakaway, or the failure to withstand ultimate landing loads on high gross weight models.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Tim Backman, Aerospace Engineer, Seattle Aircraft Certification Office, Airframe Branch, ANM-120S, FAA, Transport Airplane Directorate, 1601

Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2776; fax (206) 227-1181.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Boeing Model 767 series airplanes was published in the *Federal Register* on March 2, 1992 (57 FR 7338). That action proposed to require inspection to the main landing gear forward trunnion support fitting fuse pins and replacement of any incorrect fuse pins found.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter supports the proposed rule.

Three commenters request that proposed paragraph (a)(1), which would require replacement of incorrect fuse pins prior to further flight, be revised to reflect a compliance time of 30 days for replacement, since this time frame is recommended in Boeing Service Bulletin 767-57A0038 (the service information referenced in the proposal). These commenters contend that a requirement to replace incorrect fuse pins prior to further flight exceeds that which is necessary to maintain an acceptable level of safety in light of the fact that criteria to allow deferral is available in the service bulletin. In addition, one commenter expresses concern that this requirement would discourage early inspection of the fuse pins if replacement pins are not readily available at the inspection site.

The FAA does not concur. The FAA has determined that certain combinations of airplane gross weight and fuse pin strength under the critical braking condition could result in loss of the landing gear. This critical combination of fuse pin strength and airplane gross weight has been found on three in-service airplanes. Therefore, the FAA finds that replacement of incorrect pins prior to further flight is warranted, considering the potential consequences of failed pins. As far as the commenter's concern as to the compliance time discouraging "early inspection of the fuse pins," the FAA notes that operators initially were informed of the fuse pin problem and its resolution through the issuance of four Boeing service documents: Service Letter 767-CL-57-20, dated October 16, 1991; Alert Service Bulletin 767-57A0038, dated November 4, 1991; Revision 1, dated November 21, 1991; and Revision 2, dated February 20, 1992. In addition, the FAA provided

notice to operators of this problem through issuance of the notice of proposed rulemaking that preceded this final rule. Consequently, the FAA concludes that operators have received ample notice regarding this issue; therefore, the compliance time requirements of paragraph (a)(1) should pose no undue hardship on any operator.

Since issuance of the notice, Boeing has issued Revision 2 to Alert Service Bulletin 767-57A0038, dated February 20, 1992, which is essentially identical to Revision 1, but adds procedures for use of an operator-fabricated tool used to help decide which fuse pin is installed. The effectivity listing of the revised service bulletin reflects airplane operator changes and arranges the airplane effectivity into four groups; no additional airplanes have been added, however. The applicability statement of the final rule has been revised to indicate that affected airplanes are those listed in the latest service bulletin revision. The FAA also has revised the final rule to reflect the latest revision to the service bulletin as an additional service information source.

The revised service bulletin also indicates a decrease in the estimated time necessary to accomplish the inspection required by this AD from 21 to 5 work hours. This revised estimate is based on operator experience. The economic analysis paragraph, below, has been revised accordingly.

Paragraph (c) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 398 Model 767 series airplanes of the affected design in the worldwide fleet. The FAA estimates that 135 airplanes of U.S. registry will be affected by this AD, that it will take approximately 5 work hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$37,125. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the

national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-17-03. Boeing: Amendment 39-8332. Docket 91-NM-270-AD.

Applicability: Model 767 series airplanes; as listed in Boeing Alert Service Bulletin 767-57A0038, Revision 2, dated February 20, 1992; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent damage to the wing rear spar and prevent fuel leakage in the event of a main landing gear (MLG) breakaway, accomplish the following:

(a) Within the next 30 days after the effective date of this AD, inspect the MLG forward trunnion support fitting fuse pins to determine if the correct part-numbered pins are installed, in accordance with Boeing Alert Service Bulletin 767-57A0038, Revision 1, dated November 21, 1991; or Revision 2, dated February 20, 1992.

(1) If incorrect fuse pins are installed, prior to further flight, replace the fuse pins in accordance with Boeing Alert Service Bulletin 767-57A0038, Revision 1, dated November 21, 1991; or Revision 2, dated February 20, 1992.

(2) If correct fuse pins are installed, no further action is required.

(b) Within 10 days after completion of the inspection required by paragraph (a) of this AD, submit a report of findings of discrepancies to the Manager, Seattle Manufacturing Inspection District Office, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington, 98055-4056; fax (206) 227-1187. Information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) under the provision of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*) and have been assigned OMB Control Number 2120-0056.

(c) An Alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principle Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The inspection and replacement shall be done in accordance with Boeing Alert Service Bulletin 767-57A0038, Revision 1, dated November 21, 1991; or Boeing Alert Service Bulletin 767-57A0038, Revision 2, dated February 20, 1992. (Note: The issue date of Boeing Alert Service Bulletin 767-57A0038, Revision 1, is indicated only on page 1 of the document; no other page of the document is dated.) This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(f) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 21, 1992.

Darrell M. Pederson,
Acting Manager, Transport Airplane
Directorate, Aircraft Certification Service.
[FR Doc. 92-20127 Filed 8-21-92; 8:45 am]
BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 91-NM-247-AD; Amendment 39-8326; AD 92-16-16]

Airworthiness Directives; Boeing Model 767-200, -200ER, -300, and -300ER Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to certain Boeing Model 767 series airplanes, that currently requires an inspection to locate discrepant Flap Stabilizer Position Modules (FSPM), and modification, if necessary. This amendment requires an inspection for installation of the correct FSPM cards and connector pins, and repair or replacement of discrepant cards. This amendment is prompted by the discovery of incorrect connector keying installed in some FSPM units. The actions specified by this AD are intended to prevent replacement FSPM units from being installed in the wrongly-configured airplane; this condition could result in the warning system failing to alert the crew of an incorrect take-off flap setting.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Frank van Leynseele, Seattle Aircraft Certification Office, Systems and Equipment Branch, ANM-130S, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2671; fax (206) 392-1161.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations by superseding AD 90-21-04, Amendment 39-6759 (55 FR 40155, October 2, 1990), which is applicable to certain Boeing Model 767 series airplanes, was published in the Federal Register on March 31, 1992 (57 FR 10844). The action proposed to

require an inspection for installation of the correct FSPM cards and connector pins, and repair or replacement of discrepant cards.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter supports the proposed rule. The other commenter expresses no technical objection to the proposed rule.

Paragraph (e) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the change previously described. The FAA has determined that this change will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 399 Model 767-200, -200ER, -300, and -300ER series airplanes of the affected design in the worldwide fleet. The FAA estimates that 140 airplanes of U.S. registry will be affected by this AD, that it will take approximately .5 work hour per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$3,850. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12812, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the

location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-6759 (55 FR 40155, October 2, 1990), and by adding a new airworthiness directive (AD), amendment 39-8326, to read as follows:

92-16-16. Boeing: Amendment 39-8326.

Docket 91-NM-247-AD. Supersedes AD 90-21-04, Amendment 39-6759.

Applicability: Model 767-200, -200ER, -300, and -300ER series airplanes; as listed in Boeing Alert Service Bulletin 767-27A0118, Revision 1, dated January 9, 1992; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent loss of warning of incorrect take-off flap setting, and a gear-up-landing condition when flaps are set at 25 degrees, accomplish the following:

(a) For airplanes defined as Group I in Boeing Alert Service Bulletin 767-27A0118, Revision 1, dated January 9, 1992: Within 45 days after the effective date of this AD, perform a one-time visual inspection of the Flap Stabilizer Position Module (FSPM) in the P50 card file (in 3 places), to locate discrepant FSPM cards, in accordance with Boeing Alert Service Bulletin 767-27A0118, Revision 1, dated January 9, 1992.

(1) If any P/N 285T0099-17 FSPM card is found, prior to further flight, remove that card in accordance with the Accomplishment Instructions in the service bulletin, and replace it with a P/N 285T0099-13 FSPM card.

(2) If no discrepancies are detected, no further action is necessary.

(b) For airplanes defined as Group II in Boeing Alert Service Bulletin 767-27A0118, Revision 1, dated January 9, 1992: Within 45 days after the effective date of this AD, perform a one-time visual inspection of the P/N 285T0099-17 FSPM in the P50 card file (in 3 places); remove all P/N 285T0099-17 FSPM cards, and visually inspect the connectors for proper pin keying, in accordance with Boeing Alert Service Bulletin 767-27A0118, Revision 1, dated January 9, 1992.

(1) FSPM P/N 285T0099-17 cards designated "MOD A" do not need to be inspected or removed.

(2) If pins other than numbered parts 47 and 64 are clipped on the FSPM 285T0099-17 connector, prior to further flight, remove and repair the FSPM, reinstall, and test, in accordance with the service bulletin.

(3) If no discrepancies are detected, reinstall and test each P/N 285T0099-17 FSPM card in accordance with the service bulletin.

(c) Within 15 days after accomplishing the requirements of paragraph (a) and (b) of this AD, submit a report of all discrepant FSPM parts that require rework to the Manager, Manufacturing Inspection District Office, ANM-108S, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; or fax (206) 227-1181. Information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*) and have been assigned OMB Control Number 2120-0056.

(d) As of the effective date of this AD, no person may install a P/N 285T0099-17 FSPM unit on any airplane unless that FSPM is new or has been inspected and tested in accordance with Boeing Alert Service Bulletin 767-27A0118, Revision 1, dated January 9, 1992.

(e) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle Aircraft Certification Office. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(f) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(g) The inspections, repair, and test shall be done in accordance with Boeing Alert Service Bulletin 767-27A0118, Revision 1, dated January 9, 1992. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(h) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 15, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 92-20126 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 92-NM-64-AD; Amendment 39-8341; AD 92-17-12]

Airworthiness Directives; British Aerospace Model BAe 125-600A, -700A, and -800A Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain British Aerospace Model BAe 125-600A, -700A, and -800A series airplanes, that requires modification of the cabin and toilet fluorescent lighting systems. This amendment is prompted by a report that faults in certain cabin and toilet fluorescent lighting systems could cause overheating of components and wiring. The actions specified by this AD are intended to prevent electrical arcing, which can result in a fire.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 1714, Dulles International Airport, Washington DC 20041-0414.

This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington DC.

FOR FURTHER INFORMATION CONTACT: Mr. Hank Jenkins, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2141; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain British Aerospace Model BAe 125-600A, -700A, and -800A series airplanes was published in the

Federal Register on June 4, 1992 (57 FR 23550). That action proposed to require modification of the cabin and toilet fluorescent lighting systems.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

Both commenters support the proposed rule.

Paragraph (b) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the change previously described. The FAA has determined that this change will neither increase the economic burden on any operator nor increase the scope of the AD.

The FAA estimates that 10 airplanes of U.S. registry will be affected by this AD, that it will take approximately 20 work hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Required parts will cost approximately \$3,600 per airplane. Based on these figures, the total cost impact of the AD on U.S. operator is estimated to be \$47,000, or \$4,700 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-17-12. British Aerospace: Amendment 39-8341. Docket 92-NM-64-AD.

Applicability: Model BAe 125-600A, -700A, and -800A airplanes, as listed in British Aerospace Service Bulletin 33-45-25A027A&B, dated December 23, 1991; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent electrical arcing and a resultant fire, accomplish the following:

(a) Within 180 days after the effective date of this AD, modify the cabin and toilet fluorescent lighting systems, in accordance with British Aerospace Service Bulletin 33-45-25A027A&B, dated December 23, 1991.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch, ANM-113.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The modification shall be done in accordance with British Aerospace Service Bulletin 33-45-25A027A&B, dated December 23, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC 20041-0414. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the

Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 24, 1992.

Bill R. Boxwell,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

FR Doc. 92-20116 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 92-NM-25-AD; Amendment 39-8334; AD 92-17-05]

Airworthiness Directives; Dassault Aviation Model Fan Jet Falcon Basic, Series D, E, and F Airplanes; and Model Mystere-Falcon 20-C5, D5, E5, and F5 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Dassault Aviation Model Fan Jet Falcon And Model Mystere-Falcon 20 series airplanes, that requires supplemental structural inspections, and repair or replacement, as necessary, to ensure continued airworthiness of these airplanes. This amendment is prompted by a structural reevaluation, which has identified certain significant structural components to inspect for fatigue cracks as these airplanes approach and exceed the manufacturer's original design life. The actions specified by this AD are intended to prevent reduced structural integrity of these airplanes.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Falcon Jet Corporation, Customer Support Department, Teterboro Airport, Teterboro, New Jersey 07608. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Greg Holt, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton,

Washington 98055-4056; telephone (206) 227-2140; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Dassault Aviation Model Fan Jet Falcon and Model Mystere-Falcon 20 series airplanes was published in the Federal Register on May 1, 1992 (57 FR 18847). That action proposed to require supplemental structural inspections, and repair or replacement, as necessary, to ensure continued airworthiness of these airplanes.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the single comment received.

The commenter supports the proposed rule.

Paragraph (d) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comment noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the change previously described. The FAA has determined that this change will neither increase the economic burden on any operator nor increase the scope of the AD.

The FAA estimates that 253 airplanes of U.S. registry will be affected by this AD, that it will take approximately 160 work hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$2,226,400, or \$8,800 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact,

positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-17-05. Dassault Aviation: Amendment 39-8334. Docket 92-NM-25-AD.

Applicability: Model Fan Jet Falcon Basic D, E, and F series airplanes; and Model Mystere-Falcon 20-C5, D5, E5, and F5 airplanes; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent reduced structural integrity of these airplanes, accomplish the following:

(a) Incorporate a revision into the FAA-approved maintenance inspection program that provides for inspection of the Significant Structural Items defined in Dassault Aviation Service Bulletin FJF-00-26 (FJF-730), Revision 1, dated December 12, 1990, at the later of the times specified in subparagraph (a)(1) or (a)(2):

(1) Prior to the accumulation of 20,000 landings or 30,000 hours time-in-service, whichever occurs first; or

(2) Within 6 months after the effective date of this AD.

(b) Report the results, positive or negative, of each inspection required by paragraph (a) of this AD to Dassault Aviation, in accordance with the instructions in Dassault Aviation Service Bulletin FJF-00-26 (FJF-730), Revision 1, dated December 12, 1990. Information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*) and have been assigned OMB Control Number 2120-0056.

(c) Cracked structures detected during the inspections required by paragraph (a) of this AD must be repaired or replaced, prior to

further flight, in accordance with the instructions in Dassault Aviation Service Bulletin FJF-00-26 (FJF-730), Revision 1, dated December 12, 1990, or in accordance with other data meeting the certification basis of the airplane which is approved by the FAA or by the French Direction Générale de l'Aviation Civile (DGAC).

(d) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch.

(e) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(f) The inspections, repairs, and replacement shall be done in accordance with Dassault Aviation Service Bulletin FJF-00-26 (FJF-730), Revision 1, dated December 12, 1990. This incorporation by reference was approved by the director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Falcon Jet Corporation, Customer Support Department, Teterboro Airport, Teterboro, New Jersey 07608. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(g) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 21, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.
[FR Doc. 92-20129 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 92-NM-135-AD; Amendment 39-8325; AD 92-14-51]

Airworthiness Directives; McDonnell Douglas Model MD-11 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This document publishes in the Federal Register an amendment adopting Airworthiness Directive (AD) 92-14-51 that was sent previously to all known U.S. owners and operators of McDonnell Douglas Model MD-11 series

airplanes by individual telegrams. This AD requires a one-time inspection of the slat mechanical input system for proper clearance and rigging, and adjustment of the system, if necessary. This amendment is prompted by two incidents of inadvertent slat extension during flight at cruise altitude. The actions specified by this AD are intended to prevent inadvertent slat deployment during flight, which could create significant vibrations and cause damage to the elevators.

DATES: Effective September 8, 1992, to all persons except those persons to whom it was made immediately effective by telegraphic AD T92-14-51, issued June 29, 1992, which contained the requirements of this amendment.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 8, 1992.

Comments for inclusion in the Rules Docket must be received on or before October 23, 1992.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-135-AD, 1601 Lind Avenue SW., Renton, Washington 98055-4056.

The applicable service information may be obtained from McDonnell Douglas Corporation, P.O. Box 1771, Long Beach, California 90846-0001. Attention: Business Unit Manager, Technical Publications—Technical Administrative Support, C1-15B. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the FAA, Transport Airplane Directorate, 3229 East Spring Street, Long Beach, California; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Maurice Cook, Aerospace Engineer, Los Angeles Aircraft Certification Office, ANM-121L, FAA, Transport Airplane Directorate, 3229 East Spring Street, Long Beach, California 90806-2425; telephone (310) 988-5226; fax (310) 988-5210.

SUPPLEMENTARY INFORMATION: On June 29, 1992, the FAA issued telegraphic AD T92-14-51, applicable to McDonnell Douglas Model MD-11 series airplanes, which requires a one-time inspection of the slat mechanical input system for proper clearance and rigging, and correction of any discrepancies found.

That action was prompted by two incidents of inadvertent slat extension on McDonnell Douglas Model MD-11 series airplanes that occurred during flight at cruise altitude. The crew of the initial affected airplane reported a slat disagree indication, followed shortly by a pitch up and roll. The affected airplane also experienced some buffeting during this event. A second similar incident, which occurred on June 28, 1992, caused injuries to passengers. A rigging inspection of the airplane involved in the first incident revealed that the slat mechanical system was not in proper rig. There is no evidence indicating that the slat mechanical system had been adjusted since delivery of the airplane.

Misrigging of the slat mechanical system could lead to an inadvertent slat deployment. Inadvertent slat deployment during flight at cruise altitude could result in the airplane entering the stall buffet flight regime, which could create significant vibrations and cause damage to the elevators.

The FAA has reviewed and approved McDonnell Douglas Alert Service Bulletin A27-29, dated June 23, 1992, that describes procedures for a one-time inspection of the slat mechanical input system for proper clearance and rigging, and adjustment of the system, if necessary. Accomplishment of the inspection and correction of any discrepancies found will minimize the possibility of an inadvertent slat extension.

Since the unsafe condition described is likely to exist or develop on other airplanes of the same type design, the FAA issued Telegraphic AD T92-14-51 to prevent inadvertent slat deployment during flight, which could create significant vibrations and cause damage to the elevators. The AD requires a one-time inspection of the slat mechanical input system for proper clearance and rigging, and adjustment of the system, if necessary. The actions are required to be accomplished in accordance with the service bulletin previously described.

Since it was found that immediate corrective action was required, notice and opportunity for prior public comment thereon were impracticable and contrary to the public interest, and good cause existed to make the AD effective immediately by individual telegrams issued on June 29, 1992 to all known U.S. owners and operators of McDonnell Douglas Model MD-11 series airplanes. These conditions still exist, and the AD is hereby published in the *Federal Register* as an amendment to § 39.13 of part 39 of the Federal Aviation Regulations (FAR) to make it effective to all persons.

Comments Invited

Although this action is in the form of a final rule that involves requirements affecting flight safety and, thus, was not preceded by notice and an opportunity for public comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified under the caption "ADDRESSES." All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92-NM-135-AD." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that it is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft.

It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket. A copy of it, if filed, may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-14-51. McDonnell Douglas: Amendment 39-8325. Docket 92-NM-135-AD.

Applicability: Model MD-11 series airplanes having fuselage numbers 447 through 499; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent inadvertent slat deployment during flight, which could create significant vibrations and cause damage to the elevators, accomplish the following:

(a) Within 10 days after the effective date of this amendment, conduct a one-time inspection of the slat mechanical input system for proper clearance and rigging; and, prior to further flight, correct any discrepancies found; in accordance with McDonnell Douglas Alert Service Bulletin A27-29, dated June 23, 1992.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Los Angeles Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Los Angeles ACO.

Note: Information concerning the existence of approved alternative methods of

compliance with this AD, if any, may be obtained from the Los Angeles ACO.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The inspection and adjustment shall be done in accordance with McDonnell Douglas Alert Service Bulletin A27-29, dated June 23, 1992. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from McDonnell Douglas Corporation, P.O. Box 1771, Long Beach, California 90846-0001, Attention: Business Unit Manager, Technical Publications—Technical Administrative Support, C1-15B. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the FAA, Transport Airplane Directorate, 3229 East Spring Street, Long Beach, California; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on September 8, 1992, to all persons except those persons to whom it was made immediately effective by telegraphic AD T92-14-51, issued on June 29, 1992, which contained the requirements of this amendment.

Issued in Renton, Washington, on July 15, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 92-NM-59-AD; Amendment 39-8321; AD 92-16-12]

Airworthiness Directives; British Aerospace Model DH/BH/HS/BAe 125 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain British Aerospace Model DH/BH/HS/BAe 125 series airplanes, that requires the installation of fluid vent masts on the undercarriage fairing. This amendment is prompted by recent reports that fluid leaking from the overboard drains under the wing can stream back along the outside of the fuselage and re-enter the fuselage tail cone. The actions specified by this AD are intended to prevent a fire in the tail cone.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director

of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC 20041-0414.

This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Mr. William Schroeder, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington, 98055-4056; telephone (206) 227-2148; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain British Aerospace Model DH/BH/HS/BAe 125 series airplanes was published in the Federal Register on April 27, 1992 (57 FR 15258). That action proposed to require the installation of fluid vent masts on the undercarriage fairing.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the single comment received.

The commenter supports the proposed rule.

Paragraph (b) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comment noted above, the FAA has determined the air safety and the public interest require the adoption of the rule with the change previously described. The FAA has determined that this change will neither increase the economic burden on any operator nor increase the scope of the AD.

The FAA estimates that 450 airplanes of U.S. registry will be affected by this AD, that it will take approximately 3 work hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Required parts will cost approximately \$800 per airplane. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$434,250, or \$965 per airplane. This total cost figure assumes that no operator has

yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-16-12. British Aerospace: Amendment 39-8321. Docket 92-NM-59-AD.

Applicability: Model DH/BH/HS/BAe 125 series airplanes; post-modifications 255640/252906 and pre-modification 253193B airplanes; and pre-modification 255640 airplanes; certificated in any category.

Compliance: Required within 4 months after the effective date of this AD, unless accomplished previously.

To prevent fire in the tail cone, accomplish the following:

(a) Install fluid vent masts on the undercarriage fairing, and plug certain

existing vent holes, in accordance with British Aerospace Service Bulletin 53-74-3193C&D, dated January 7, 1992.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The installation shall be done in accordance with British Aerospace Service Bulletin 53-74-3193C&D, dated January 7, 1992. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC 20041-0414. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 14, 1992.

Bill R. Boxwell,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.
[FR Doc. 92-20119 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 92-NM-62-AD; Amendment 39-8338; AD 92-17-09]

Airworthiness Directives; British Aerospace Model BAe 125-800A Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Model BAe 125-800A series airplanes, that requires implementing a modification that would utilize countersunk headed bolts in the thrust reverser door hinge pivot. This amendment is prompted by an incident in which loose rivets or hexagon head bolts interfered with the thrust reverser

system. The actions specified by this AD are intended to prevent damage to the thrust reverser system that could cause unsymmetrical thrust affecting directional control.

DATES: Effective September 28, 1991.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Hank Jenkins, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2141; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Model BAe 125-800A series airplanes was published in the Federal Register on April 27, 1992 (57 FR 15263). That action proposed to require implementing a modification that would utilize countersunk headed bolts in the thrust reverser door hinge pivot.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

The commenters support the proposed rule.

Paragraph (b) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the change previously described. The FAA has determined that this change will neither increase the economic burden on any operator nor increase the scope of the AD.

The FAA estimates that 50 airplanes of U.S. registry will be affected by this AD, that it will take approximately 4 work hours per airplane to accomplish

the required actions, and that the average labor rate is \$55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$11,000 or \$220 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-17-09. **British Aerospace:** Amendment 39-8338. Docket 92-NM-62-AD.

Applicability: Model BAe 125-800A series airplanes on which Modification 259283C thrust reversers have been installed, and on which Modification 259949A or BAe Repair Instruction Leaflet (RIL) 25-8ES16 has not been installed, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent damage that may cause unsymmetrical thrust, accomplish the following:

(a) Within 9 months after the effective date of this AD, install Modification 259949A, in accordance with British Aerospace Service Bulletin SB-78-4-9949A, dated January 20, 1992.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The modification shall be done in accordance with British Aerospace Service Bulletin SB-78-4-9949A, dated January 20, 1992. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 22, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 92-20120 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

a detailed visual inspection to detect cracks and corrosion in the left and right main landing gear (MLG) door rear hinge bracket assemblies, and repair of corrosion or replacement of brackets, if necessary. This amendment extends the threshold for the initial inspection and requires repetitive visual inspections. This amendment is prompted by results of a review of initial inspection findings conducted by the manufacturer, which revealed that the threshold for the initial inspection may be extended, and that repetitive inspections must be conducted in order to detect cracks and corrosion in a timely manner. The actions specified by this AD are intended to prevent in-flight separation of a landing gear door from the airplane.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC 20041-0414. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. William Schroeder, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2148; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations by superseding AD 91-14-19, Amendment 39-7060 (56 FR 30314, July 2, 1991), which is applicable to all British Aerospace Model BAe 146-100A, -200A, and -300A series airplanes, was published in the *Federal Register* on May 1, 1992 (57 FR 18845). The action proposed to require repetitive detailed visual inspections to detect cracks and corrosion in the left and right main landing gear (MLG) door rear hinge bracket assemblies, and repair of corrosion or replacement of brackets, if necessary. The action also proposed to extend the compliance time for the currently required initial inspection.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due

consideration has been given to the comments received.

The single commenter requests that the FAA provide assurance that extending the initial compliance time from 6,000 to 9,000 landings, as proposed in the Notice, will not result in an in-flight failure of the main landing gear rear hinge bracket. The FAA responds by noting that, as described in detail in the preamble to the notice, the United Kingdom Civil Aviation Authority and British Aerospace have conducted a review of the findings of the initial inspection required by AD 91-14-19. Data gathered from those findings revealed that the threshold for the inspection may be extended from 6,000 to 9,000 landings, if repetitive inspections are conducted at intervals not to exceed 3,000 landings in order to detect cracks and corrosion in a timely manner. The FAA reviewed these findings and concurred with them. Consequently, the FAA has determined that the initial compliance time may be extended by 3,000 landings without adversely affecting safety.

Paragraph (b) of the final rule has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the change described. The FAA has determined that this change will neither increase the economic burden on any operator nor increase the scope of the AD.

The FAA estimates that 74 airplanes of U.S. registry will be affected by this AD, that it will take approximately 1 work hour per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$4,070. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is

14 CFR Part 39

[Docket No. 92-NM-53-AD; Amendment 39-8336; AD 92-17-07]

Airworthiness Directives; British Aerospace Model BAe 146-100A, -200A, and -300A Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to all British Aerospace Model BAe 146-100A, -200A, and -300A series airplanes, that currently requires

not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-7060 (56 FR 30314, July 2, 1991), and by adding a new airworthiness directive (AD), amendment 39-8336, to read as follows:

92-17-07. **British Aerospace:** Amendment 39-8336. Docket 92-NM-53-AD. Supersedes AD 91-14-19, Amendment 39-7060.

Applicability: All Model BAe 146-100A, -200A, and -300A series airplanes, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent in-flight separation of a landing gear door from the airplane, accomplish the following:

(a) Prior to the accumulation of 9,000 landings, or within 30 days after the effective date of this AD; or if previously inspected in accordance with AD 91-14-19 (56 FR 30314, July 2, 1991), within 3,000 landings after the last inspection in accordance with that AD; whichever occurs later; and thereafter at intervals not to exceed 3,000 landings; accomplish the following:

(1) Perform a visual inspection of the left and right main landing gear (MLG) door rear hinge bracket assemblies to detect cracks and/or corrosion, in accordance with British Aerospace Inspection Service Bulletin 32-A119, Revision 1, dated December 2, 1991.

(2) Prior to further flight, replace any cracked hinge bracket with a serviceable part, in accordance with British Aerospace Inspection Service Bulletin 32-A119, Revision 1, dated December 2, 1991; or temporarily repair cracked brackets in a manner

approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate.

(3) Prior to further flight, remove any corrosion found, in accordance with the British Aerospace Model 146 Structural Repair Manual, and accomplish the following:

(i) If less than 0.100 inch of corrosion was removed, re-protect the hinge bracket in accordance with the maintenance manual; and obtain a life limit for the hinge bracket from the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate.

(ii) If 0.100 inch, but less than 0.150 inch, of corrosion was removed, re-protect the hinge bracket in accordance with the maintenance manual; and, within 300 landings after accomplishing the re-protection procedure, replace the hinge bracket with a new part.

(iii) If 0.150 inch or more of corrosion was removed, prior to further flight, replace the hinge bracket with a new part.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The inspections shall be done in accordance with British Aerospace Inspection Service Bulletin 32-A119, Revision 1, dated December 2, 1991, which includes the following list of effective pages:

Pages	Revision level	Date
1-4	1.....	December 2, 1991.
5	Original.....	November 14, 1990.

This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC 20041-0414. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 22, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate Aircraft Certification Service.

[FR Doc. 92-20121 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 92-NM-26-AD; Amendment 39-8337; AD 92-17-08]

Airworthiness Directives; Boeing Model 757 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to Boeing Model 757 series airplanes, that requires repetitive checks to detect corroded or seized bearings of the passenger door emergency power assist assembly, and correction of any discrepancies found. This amendment is prompted by reports of corroded or seized bearings found in the emergency power assist assembly of the passenger doors. The actions specified by this AD are intended to prevent seizure of the passenger door emergency power assist support bearings, which could delay the opening of an exit door during an emergency evacuation.

DATES: Effective September 28, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 28, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124-2207. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket 92-NM-26-AD, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capital Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Monica L. Nemecek, Seattle Aircraft Certification Office, Crashworthiness and Interiors Section, ANM-120S, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2773; fax (206) 227-1181.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an

airworthiness directive (AD) that is applicable to certain Boeing Model 757 series airplanes was published in the *Federal Register* on March 18, 1992 (57 FR 9394). That action proposed to require repetitive checks to detect corroded or seized bearings of the passenger door emergency power assist assembly, and correction of any discrepancies found. Additionally, that proposal included an optional terminating action for the repetitive checks, which consisted of replacement of the existing alloy steel bearing with a new stainless steel bearing, bearing seal, and back-up ring.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter supports the proposed rule.

The Air Transport Association (ATA) of America, on behalf of several of its member operators, requests that the FAA review the need to proceed with this AD rulemaking prior to such time that a service bulletin and necessary parts for accomplishing the terminating action are available. The commenter states that the Boeing service letter referenced in the proposal does not contain instructions for accomplishing the terminating action. The commenter states that, since the terminating action could be accomplished in the same amount of time as the repetitive checks, it would save the operators time and money to accomplish the terminating action at the time of the initial check. In response to this commenter, the FAA notes that it recently reviewed and approved Boeing Service Bulletin 757-52-0055, dated June 25, 1992. This service bulletin describes procedures for repetitive checks of the passenger door emergency power assist assembly, correction of any discrepancies found, and the replacement of currently installed alloy steel bearings with new stainless steel bearings as terminating action for the repetitive checks. Paragraph (a) and (b) of the final rule have been changed to include reference to the new service bulletin as an appropriate source of service information.

Additionally, the effectivity listing of this new Boeing service bulletin is limited to a certain number of airplanes. The FAA has revised the applicability statement of the final rule accordingly.

This commenter also requests that the proposed rule's economic analysis be revised. The commenter asserts that accomplishment of the checks will require at least 32 work hours, rather than the 21 work hour estimate cited in

the preamble to the notice. The commenter maintains that checks cannot be accomplished during an overnight hold, and that operators would need to schedule this check specially at a main base facility. This procedure may entail considerable time and expense beyond what was estimated by the cost impact analysis indicated in the notice. The FAA concurs that a revision to the work hour figure is necessary. The economic analysis paragraph, below, has been revised to indicate a total of 32 work hours necessary for the actions required by the AD.

The same commenter requests that the compliance time for the initial check be increased from the proposed 1,500 flight hours to 2,000 flight hours in order to allow operators to accomplish the inspection during a regularly scheduled "C" check. The FAA does not concur. During the initial development of an appropriate compliance time for this AD action, the FAA first considered that 1,000 flight hours was an acceptable interval. This was based on (1) the service history, (2) the degree of urgency associated with addressing the unsafe condition, (3) the recommendations of the manufacturer, and (4) the fact that, by the time the final rule for the action was issued, the interval would fall during a time of regularly scheduled maintenance for most affected operators. However, the FAA extended this considered compliance time by an additional 500 flight hours to take into account the operational and maintenance schedules of affected major operators, as well as to provide a "buffer period" for all operators, in anticipation of the release of a service bulletin containing terminating action procedures. The FAA determined that a compliance time of 1,500 flight hours would not compromise safety and would allow ample time for the accomplishment of the check during normal maintenance schedules without undue burden on any operator. The FAA considers that any additional extension to the initial compliance time is not warranted. As discussed previously, a service bulletin containing instructions for accomplishing the terminating modification was released on June 25, 1992; therefore, operators now have access to the specific procedures for performing that action. The FAA has determined that 1,500 flight hours will allow operators sufficient time to schedule and accomplish the initial check, correct any discrepancies found, and maintain an acceptable level of safety. Under the provisions of paragraph (c) of the final rule, however, the FAA will consider requests for use

of alternative methods of compliance with this rule or an adjustment of the compliance time, provided sufficient data is submitted to justify such a request.

Another commenter asserts that the final rule should reference the use of alternative tooling that Boeing has indicated is acceptable for accomplishment of the checks/lubrications. The commenter maintains that this tooling should be referenced in the AD in order to eliminate the need for submitting requests for an alternative method of compliance with the AD should an operator elect to use that tooling. The FAA does not concur. The final rule now references the Boeing service bulletin, which describes procedures for accomplishing the check for sufficient travel of the actuation cable in accordance with the 757 Maintenance Manual. It would be virtually impossible to call out all other tooling that may be used. However, should an operator develop an alternative tooling, the FAA would consider a request for an alternative method of compliance in accordance with the provisions of paragraph (c) of the final rule.

Another commenter, Boeing Commercial Airplane Group, requests that the wording of the unsafe condition be changed throughout the AD.

The commenter suggests that the seizure of the passenger door emergency power assist support bearings may "delay" the opening of an exit door, but would not "impede" the opening, as was stated in the notice. Failure to activate the power reservoir only prevents power assistance in opening the door, but does not obstruct the manual opening sequence. The FAA concurs that the commenter's suggested wording is more accurate and has changed the wording of the unsafe condition accordingly.

Paragraph (c) of the proposal has been revised to clarify the procedure for requesting alternative methods of compliance with this AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 428 Boeing Model 757 series airplanes of the affected design in the worldwide fleet. The FAA estimates that 264 airplanes of U.S. registry will be affected by this AD, that it will take approximately 32 work

hours per airplane to accomplish the required actions, and that the average labor rate is \$55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$464,640, or \$1,760 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-17-08. Boeing: Amendment 39-8337.
Docket 92-NM-28-AD.

Applicability: Model 757 series airplanes; line numbers 1 through 454, inclusive except 757PF (Freighters); certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent seizure of the passenger door emergency power assist support bearings, which could delay the opening of an exit door during an emergency evacuation, accomplish the following:

(a) Prior to or upon the accumulation of 8,000 flight hours or within 1,500 flight hours after the effective date of this AD, whichever occurs later; and thereafter at intervals not to exceed 4,000 flight hours; perform a check of the emergency power assist cable travel to detect corroded or seized bearings, in accordance with Boeing Service Letter 757-SL-52-6, dated September 17, 1991, or Boeing Service Bulletin 757-52-0055, dated June 25, 1992. If discrepancies are detected, prior to further flight, correct them in accordance with the service letter or bulletin.

(b) Replacement of the existing alloy steel bearing with a new stainless steel bearing, bearing seal, and back-up ring, in accordance with Boeing Service Bulletin 757-52-0055, dated June 25, 1992; or in accordance with a method approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate; constitutes terminating action for the requirements of this AD.

(c) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle ACO, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The checks and repairs shall be done in accordance with Boeing Service Letter 757-SL-52-6, dated September 17, 1992; or Boeing Service Bulletin 757-52-0055, dated June 25, 1992. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124-2207. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(f) This amendment becomes effective on September 28, 1992.

Issued in Renton, Washington, on July 22, 1992.

Darrell M. Pederson,

Acting Manager Transport Airplane Directorate Aircraft Certification Service.

[FR Doc. 92-20122 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 97

[Docket No. 26946; Amdt. No. 1505]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: *Effective:* An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference—approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matter incorporated by reference in the amendment is as follows:

For Examination—1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS-420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description on each SIAP is contained in the appropriate FAA Form 8260 and the National Flight Data Center (FDC)/Permanent (P) Notices to Airmen (NOTAM) which are incorporated by reference in the amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the *Federal Register* expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction of charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The Provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes SIAPs. For safety and timeliness of change considerations, this amendment incorporates only specific changes contained in the content of the following FDC/P NOTAM for each SIAP. The SIAP information in some previously designated FDC/Temporary (FDC/T) NOTAMs is of such duration as to be permanent. With conversion to

FDC/P NOTAMs, the respective FDC/T NOTAMs have been cancelled.

The FDC/P NOTAMs for the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these chart changes to SIAPs by FDC/P NOTAMs, the TERPs criteria were applied to only these specific conditions existing at the affected airports.

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. All SIAP amendments in this rule have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts, the circumstances which created the need for all these SIAP amendments requires making them effective in less than 30 days.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making these SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3)

does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air traffic control, Airports, Incorporation by reference, Navigation (Air), Standard instrument approaches, Weather.

Issued in Washington, DC, on August 14, 1992.

Thomas C. Accardi,
Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. App. 1348, 1354(a), 1421 and 1510; 49 U.S.C. 106(g) (revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.49(b)(2).

2. Part 97 is amended to read as follows:

§§ 97.23, 97.25, 97.27, 97.29, 97.31, 97.33, 97.35 [Amended]

By amending: § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, ISMLS, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, identified as follows:

BILLING CODE 4910-13-M

14 CFR Part 97

[Docket No. 26947; Amdt. No. 1506]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: *Effective:* An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference—approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT:

Paul J. Best, Flight Procedures Standards Branch (AFS-420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-8277.

SUPPLEMENTARY INFORMATION:

This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4, and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporated by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

BILLING CODE 4910-13-M

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Parts 18, 122

[T.D. 92-82]

RIN-1515-AB12

Air Waybill as In-Bond Document

AGENCY: Customs Service,
Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document amends the Customs Regulations to make specific mention of the availability of an air waybill as an in-bond document. Customs previously concluded a successful test program allowing air carriers to forward in-bond shipments using an air waybill as the sole in-bond document. The use of the air waybill for this purpose has facilitated the movement of cargo and the delivery of in-bond freight. Accordingly, the procedure is made available on a permanent basis.

EFFECTIVE DATE: October 23, 1992.

FOR FURTHER INFORMATION CONTACT: Ernie Cunningham, Office of Inspection and Control (202-566-8151).

SUPPLEMENTARY INFORMATION:

Background

In November 1988, Customs commenced a test program allowing air carriers to use the air waybill (AWB) as the sole in-bond document in place of Customs Form 7512 (Transportation Entry and Manifest of Goods Subject to Customs Inspection and Permit) and Customs Form 7512-C (Transportation Entry and Manifest of Goods), or Transil Air Cargo Manifest (TACM) documents. These documents are used to move and track merchandise that is transferred in-bond for entry or exportation.

The test using only an AWB for this purpose was designed to take advantage of the unique number, and the detailed information, available on an AWB. A number of air carriers participated in the test wherein the use of the air waybill in this manner was found to facilitate the movement of cargo and the delivery of in-bond freight.

As a result of the successful test Customs determined to make this procedure available on a permanent basis and to amend the Customs Regulations to reflect this. Accordingly, by notice published in the *Federal Register* (56 FR 67253) on December 30, 1991, Customs solicited public comment on a proposal allowing air carriers to

forward in-bond shipments using an air waybill as the sole in-bond document.

Specifically, in accordance with the test and under the proposed regulatory amendments, air carriers may forward in-bond shipments from the first port of arrival/unloading using an AWB as the in-bond document and the 11-digit AWB number as the in-bond control number. The first three digits of the number are the issuing airline's identification code. The AWB used must record the same information as the universal AWB recognized and accepted by the International Air Transport Association (IATA). The AWB must also contain the final port of destination in the U.S. or the actual ultimate country of destination of the shipment indicated by available airline shipping documents. The ultimate destination must be shown even though the air transportation may be scheduled to terminate in a country prior to the shipment's ultimate destination.

Importers may opt to use this procedure for merchandise entered for immediate transportation, transportation and exportation, and immediate exportation. Such use does not modify any carrier's liability for in-bond freight and does not modify bond requirements already in the Customs Regulations. It is still necessary that the delivering carrier, whether or not it is the initial bonded carrier, surrender the in-bond document as notice of arrival promptly, but no more than two working days after the arrival of any portion of the covered shipment at the port of destination.

District directors will consider individual port factors, such as presence of an operational Manifest Review Unit (MRU), in determining the level of supervision that is necessary in each district.

It is noted that § 122.92(a), Customs Regulations (19 CFR 122.92(a)), already states that, "Customs Form 7512 or other Customs approved documents" shall be used for both entry and manifest. The final rule adopted herein basically amends § 122.92(a) to make specific reference to an AWB as one of those Customs approved documents, as well as making other appropriate conforming changes to part 18, Customs Regulations (19 CFR part 18).

One commenter responded to the notice of proposed rulemaking. A discussion of the brief comments submitted is set forth below.

Analysis of Comments

Comment: It was recommended that Customs reconsider permitting alternate waybill formats to be used, deleting the

words, "be in the format, and" from proposed § 122.92(a)(3)(i).

Response: Customs agrees with this recommendation and the section is amended accordingly. Customs wants to ensure that the information on the air waybill meets its requirements. What is of importance to Customs is not the International Air Transport Association (IATA) format, per se, but rather the substantive information contained therein.

Comment: It was also recommended that Customs apply the air waybill procedure to all portions of split shipments.

Response: Customs is unable to do this due to current programming constraints. At present, Customs keeps track of the in-bond shipment of merchandise made on an air waybill by using its unique 11-digit number. Only the first portion of a split shipment of such merchandise may be related to this number, with its in-bond movement being tracked in this manner.

Conclusion

After careful consideration of the comments received and further review of the matter, it has been determined that the amendments with the modification discussed above should be adopted. Also, the word "Customs" appearing before "approved documents" in the first sentence of § 122.92(a), which was omitted in the proposed amendment, is retained, for clarity.

Regulatory Flexibility Act

Pursuant to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), it is certified that the amendments will not have a significant economic impact on a substantial number of small entities. Accordingly, the amendments are not subject to the regulatory analysis requirements of 5 U.S.C. 603 and 604.

Executive Order 12291

This document does not meet the criteria for a "major rule" as specified in Executive Order 12291. Accordingly, a regulatory impact analysis is not required.

Drafting Information

The principal author of this document was Russell Berger, Regulations and Disclosure Law Branch, U.S. Customs Service. However, personnel from other offices participated in its development.

19 CFR Part 18

Common carriers, Exports, Freight forwarders.

19 CFR Part 122

Air carriers, Freight.

Amendments to the Regulations

For the reasons set forth in the preamble, parts 18 and 122, Customs Regulations (19 CFR parts 18, 122), are amended as set forth below.

PART 18—TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT

1. The general and specific authority citations for part 18 continue to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Note 8, Harmonized Tariff Schedule of the United States), 1551, 1552, 1553, 1624;

§§ 18.11 and 18.12 also issued under 19 U.S.C. 1484;

2. Section 18.11 is amended by revising the first sentence of paragraph (h) to read as follows:

§ 18.11 Entry; classes of goods for which entry is authorized; form used.

(h) Either Customs Form 7512, a carnet, or an air waybill (see § 122.92 of this chapter), shall be used as a combined transportation entry, invoice, and manifest.

3. Section 18.20 is amended by revising the first sentence of paragraph (a) to read as follows:

§ 18.20 Entry procedure; forwarding.

(a) When an importation is entered for transportation and exportation, except as provided for in subparts D, E, F and G of Part 123 of this chapter (relating to merchandise in transit through the U.S. between two points in contiguous foreign territory), a carnet, three copies of an air waybill (see § 122.92 of this chapter), or four copies of Customs Form 7512 shall be required.

PART 122—AIR COMMERCE REGULATIONS

1. The authority citation for part 122 continues to read as follows:

Authority: 5 U.S.C. 301; 19 U.S.C. 58b, 66, 1433, 1436, 1459, 1590, 1594, 1623, 1624, 1644, 49 U.S.C. App. 1509.

2. Section 122.92 is amended by revising the heading and first sentence of paragraph (a)(1), adding a paragraph (a)(3), and by revising paragraph (b)(1) to read as follows:

§ 122.92 Procedure at port of origin.

(a) *Forms required.* (1) *Customs Form 7512 or other document.* Customs Form 7512 or other Customs approved documents, such as an air waybill (see paragraph (a)(3) of this section), shall be used for both entry and manifest. * * *

(3) *Air Waybill.* An air waybill may be used for both entry and manifest. Three copies of the air waybill are required unless the district director deems additional copies necessary. Photocopies of the original air waybill are acceptable. Either preprinted stock air waybills or electronically generated air waybills may be used. The air waybill must:

(i) Contain the information required of a universal air waybill as recognized and accepted by the International Air Transport Association (IATA), be legible and in the English language;

(ii) Display a unique 11-digit number, the first three digits being the air carrier's identification code;

(iii) Display the number of packages based on the smallest external packaging unit (e.g., 14 packages is acceptable, 1 pallet is unacceptable);

(iv) Display the name of the final port of destination in the U.S. or the name of the ultimate country of destination of the cargo indicated by available air carrier shipping documents. The ultimate destination must be shown even though the air transportation may be scheduled to terminate in a country prior to the cargo's final destination;

(v) Be modified to contain the following information which should appear in a block or attachment in the upper right-hand corner as in this example. The numbers 1-8 correspond to the descriptions that follow; the numbers do not have to appear on the AWB:

- | | |
|-----|--|
| (1) | Origin |
| (2) | Entry Type |
| (3) | Destination |
| (4) | Importing Carrier/Flight Number/Arrival Date |
| (5) | Bonded Carrier/Exporter |
| (6) | Date |
| (7) | Signature of Carrier's Agent (or Exporter) |
| (8) | Customs Officer Date |

The item numbers correspond to the following information:

Item 1—Origin. The numeric district/port code as listed in Schedule D of the Harmonized Tariff Schedules of the

United States, or the port where the in-bond entry is presented.

Item 2—Entry type. The appropriate in-bond code number such as I.T./61 for Immediate Transportation, T&E/62 for Transportation and Exportation, and I.E./63 for Immediate Exportation.

Item 3—Destination. The numeric district/port code for the intended port of destination for entry or exportation.

Item 4—Importing Carrier/Flight Number/Arrival Date. This information serves to identify the shipment in terms of the inward foreign manifest of the importing carrier. The "Arrival Date" is the date of arrival of the importing conveyance in the U.S. The information must be supplied in all instances.

Item 5—Bonded Carrier/Exporter. The bonded carrier or exporter who will be liable for the proper movement, handling, and safekeeping of the merchandise once the in-bond movement is authorized by Customs. If this information is not supplied, the in-bond movement will be carried out under the bond of the importing carrier. (See Item 7 for further information on transfer of liability.)

Item 6—Date. The date of the in-bond entry preparation. Since an in-bond entry can be prepared before the date of entry presentation and/or acceptance, and prior to the actual arrival of the importing conveyance, this date should only be used for duty assessment purposes when the date in Item 8 is left blank. If a date is not present, the date of in-bond preparation will be deemed to be the date of arrival.

Item 7—Signature of Carrier's Agent (or Exporter). This signature of the authorized agent of the bonded carrier or exporter identified previously (See Item 5) constitutes acceptance of the liability for the in-bond shipment by the party signing. A signature is required except when the in-bond movement is under the bond of the importing carrier. If unsigned, the submission to Customs of an AWB requesting such a movement is evidence of the acceptance of liability if the AWB is approved by Customs.

Item 8—Customs Officer/Date. Signature of the Customs officer who authorizes the initiation of the in-bond movement and the date of such authorization. Customs will check to make sure merchandise is released only to a bonded carrier. The date is used to start the time limit for completion of the in-bond movement and for consumption entry purposes in accord with § 141.69(b) of this chapter. Customs authorization procedures which use a perforation device are acceptable in lieu of the appropriate Customs signature. The district director will determine whether a signature will be required in

this block prior to the time that the cargo is allowed to move.

(b) *Delivery of Customs form to carrier.* (1) *Merchandise entered for immediate transportation without appraisal.* When merchandise is entered for immediate transportation without appraisal, two copies of Customs Form 7512 or other Customs approved document, and the duplicate copy of Customs Form 7512-C shall be delivered to the carrier. When an air waybill is used, Customs Form 7512-C is not required.

Approved: August 10, 1992.

Michael H. Lane,
Acting Commissioner of Customs.
Peter K. Nunez,
Assistant Secretary of the Treasury.

BILLING CODE 4820-02-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development 22 CFR Part 215

Regulations for Implementation of the Privacy Act of 1974, as Amended

AGENCY: Agency for International Development (A.I.D.), International Development Cooperation Agency (IDCA).

ACTION: Final rule.

SUMMARY: The Agency for International Development is revising its Privacy Act regulations to make minor editorial changes; to incorporate certain internal changes within the Agency; to specifically identify the appeals officer as designated by the Administrator; and to change the current fee schedule.

EFFECTIVE DATE: August 24, 1992.

FOR FURTHER INFORMATION CONTACT: James Harper, Chief, Public Inquiries Division, Office of External Affairs, Agency for International Development, room 4889, Washington, DC, (202-647-1850).

SUPPLEMENTARY INFORMATION: A.I.D. received no comments to the proposed rule published in the Federal Register on January 23, 1991 (56 FR 2475-80).

List of Subjects in 22 CFR Part 215:

Privacy.

22 CFR Part 215 is revised to read as follows:

PART 215—REGULATIONS FOR IMPLEMENTATION OF PRIVACY ACT OF 1974

Sec.

- 215.1 Purpose and scope.
- 215.2 Definitions.
- 215.3 Procedures for requests pertaining to individual records in a system of records.
- 215.4 Times, places and requirements for identification of individuals making requests.
- 215.5 Access to requested information by individuals.
- 215.6 Special procedures: Medical records.
- 215.7 Request for correction of amendment of record.
- 215.8 Agency review of request for amendment of record.
- 215.9 Appeal of initial adverse agency determination.
- 215.10 Disclosure of record to person other than the individual to whom it pertains.
- 215.11 Fees.
- 215.12 Penalties and remedies.
- 215.13 General exemptions.
- 215.14 Specific exemptions.

Authority: Sec. 621, Foreign Assistance Act of 1961, as amended, (22 U.S.C. 2381; 75 Stat. 445); secs. 3.4, Administrative Procedure Act (5 U.S.C. 553; 60 Stat. 237); Privacy Act of 1974 (Pub. L. 93-579; 5 U.S.C. 552a; 88 Stat. 1896).

§ 215.1 Purpose and scope.

(a) It is the purpose and objective of the International Development Cooperation Agency and the Agency for International Development to collect information, revise personal data collection forms or processes, and maintain Agency records in a manner that will prevent an unwarranted invasion of privacy of those individuals who are the subject of Agency records.

(b) These regulations establish the procedures by which an individual may obtain notification of the existence of Agency records pertaining to that individual, gain access to those records, request an amendment or correction to the records, and appeal adverse decisions to requests for amendment or correction of Agency records.

(c) The Agency separately states and publishes in the *Federal Register* a public notice of the existence and character of systems maintained by the Agency, pursuant to the provisions of sections (e)(4) and (e)(11) of the Privacy Act of 1974 (5 U.S.C. 552a; 88 Stat. 1896).

§ 215.2 Definitions.

(a) *Act* means the Privacy Act of 1974 (5 U.S.C. 552a; 88 Stat. 1896);

(b) *Agency* means the International Development Cooperation Agency or the Agency for International Development, its offices, bureaus, divisions, and posts abroad;

(c) *Amend* shall include the amendment of a record;

(d) *Individual* means a citizen of the United States or an alien lawfully admitted for permanent residence;

(e) *Maintain* includes maintain, collect, use or disseminate;

(f) *Record* means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph;

(g) *Routine use* means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected;

(h) *Statistical Record* means a record in a system of records maintained for statistical research or reporting purposes only and not used in whole or in part in making any determination about an identifiable individual, except as provided by section 8 of title 13;

(i) *System of Records* means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

§ 215.3 Procedures for requests pertaining to individual records in a system of records.

(a) Requests for notification of access to or amendment of Agency records contained in a system of records pertaining to an individual may be made in person or by mail as follows: For the International Development Cooperation Agency-Assistant Director for Administration, International Development Cooperation Agency, Room 4889 New State, 2201 C Street, NW., Washington, DC 20523 Attention: Privacy Liaison Officer. For the Agency for International Development-Privacy Liaison Officer, Agency for International Development, Room 4889 New State, 2201 C Street, NW., Washington, DC 20523.

(b) Such request should include information necessary to identify the record, e.g., the individual's full name, date of birth, place of birth, present mailing address, or system of record identification name and number, if known, and, to facilitate the retrieval of records contained in those systems of records which are retrieved by social security numbers, the social security number of the individual to whom the record pertains.

(c) With respect to a system of records which may be maintained by the Agency in offices outside the United States, an individual may inquire whether he or she is the subject of an Agency record or may request access to or amendment of such records by appearing in person or by writing to the Privacy Liaison Officer, Agency for International Development, at the overseas missions.

(d) The Assistant Director for Administration for requests to I.D.C.A. or the appropriate Privacy Liaison Officer for request to A.I.D., or their designees shall, within ten (10) working days of receipt of the request, furnish in writing to the requesting individual notice of the existence or nonexistence of any records described in the request.

§ 215.4 Times, places, and requirements for identification of individuals making requests.

(a) Individuals making personal requests for notification, access or contest may do so at the place designated in paragraph (a) of § 215.3, which is open 9 a.m. to 5 p.m. daily, except Saturdays, Sundays, and legal public holidays.

(b) Individuals making personal requests for notification, access or contest at offices outside the United States may do so at the overseas missions during the regular business hours of those offices.

(c) An individual requesting such information in person shall provide such personal identification as is reasonable under the circumstances to verify the individual's identity; e.g. driver's license, employee identification card or medicare card. (The identification should contain a photograph of the individual.)

(d) An individual requesting such information by mail shall include in his or her request a signed notarized statement to verify his or her identity and which stipulates that the individual understands that knowingly or willfully seeking or obtaining access to records about another individual under false pretenses is punishable by a fine up to \$5,000, as provided in section (i)(3) of the Act.

(e) Verification of identity as set forth in paragraphs (c) and (d) of this section shall not be required of individuals seeking access to records otherwise available to members of the public under the Freedom of Information Act (5 U.S.C. 552; 88 Stat. 1561).

(f) An individual who wishes to be accompanied by another person when reviewing a record shall furnish the Agency with a written statement

authorizing discussion of his or her record in the presence of the accompanying person. Such statement need not contain any reasons for the access or for the accompanying person's presence.

§ 215.5 Access to requested information by individuals.

(a) Upon receipt of a request by an individual made in accordance with the provisions of § 215.3, such individual shall be granted access to any record pertaining to him or her which is contained in a system of records maintained by the Agency subject to exemptions discussed in §§ 215.13 and 215.14.

(b) Notwithstanding the provisions of paragraph (a) of this section, access will not be allowed an individual to information or records compiled by the Agency in reasonable anticipation of a civil or criminal action or proceeding.

(c) Whenever possible, access to requested records will be granted;

(1) Where the request is presented in person and the record is readily available, promptly upon receipt of the request for access, determination that access to the record may be granted, verification of the identity of the individual seeking access, and, where applicable, receipt of consent to discuss the record with a person accompanying the individual;

(2) Where the request is made by mail, the record will, whenever possible, be provided within ten (10) working days of receipt of the request.

(d) Where access to a record cannot reasonably be granted as provided in paragraphs (c)(1) and (2) of this section, the Agency will acknowledge in writing receipt of the request for access and indicate a reasonable time within which access to the record can be granted.

(e) Where no reasonable means exist for an individual to have access to his or her record in person, a copy of the record must be provided through the mail.

§ 215.6 Special procedure: Medical records.

If the Assistant Director for Administration or the Privacy Liaison Officer, determines that the release directly to the individual of medical records maintained by the Agency could have an adverse effect upon such individual, the Director/Officer will attempt to arrange an alternative acceptable to both the individual and Agency (such as the release of said information to a doctor named by the individual) in granting access to such record.

§ 215.7 Request for correction or amendment of record.

(a) An individual may request the Agency to correct or amend a record pertaining to him or her which the individual believes is not accurate, relevant, timely or complete.

(b) Such request must be in writing and must be presented, in person or by mail to the addresses listed in § 215.3(a).

(c) Such requests must set forth the following information:

(1) Identification of the system of records in which the particular record is maintained;

(2) The portion(s) of the record to be amended or corrected;

(3) The desired amendment or correction; and

(4) The reasons for the amendment or correction.

The request must be accompanied by evidence, documentation, or other information in support of the request.

(d) Assistance in preparing a request to amend a record may be obtained from the officials listed in § 215.3(a).

§ 215.8 Agency review of requests for amendment of record.

(a) The Agency will examine the information requested to be amended to determine its accuracy, timeliness, completeness, and its relevancy and necessity to accomplish a purpose of the Agency required to be accomplished by statute or by executive order.

(b) Within ten (10) working days after the receipt by the Assistant Director for Administration or the Privacy Liaison Officer, of a request made in accordance with this section, the Assistant Director for Administration or the Privacy Liaison Officer shall acknowledge in writing such receipt and shall, after examination in accordance with the provisions of paragraph (a) of this section, promptly either:

(1) Make any amendment of any portion thereof which the individual believes is not accurate, relevant, timely or complete, and notify the individual of the amendment made; or

(2) Inform the individual of the Agency's refusal to amend the record in accordance with the request, the reason(s) for the refusal, and the procedures established by the Agency for the individual to request a review of that refusal.

(c) If the Agency agrees with the individual's request to amend a record, in addition to proceeding as set forth in paragraph (b)(1) of this section, it shall promptly advise all previous recipients of the record of the fact that the amendment was made and the substance of the amendment where an

accounting of disclosures has been made.

(d) If unusual circumstances prevent the completion of Agency action on the request to amend within 30 days after the receipt thereof by the Assistant Director for Administration or the Privacy Liaison Officer, the individual will be promptly advised of the delay, the reasons for the delay, and of the date by which the review is expected to be completed.

(e) If the Agency, after its initial examination of the record and the request for Amendment, disagrees with all or any part of the individual's request to amend it shall:

(1) To the extent the Agency agrees with any part of the individual's request to amend, proceed as described in paragraphs (b)(1) and (c) of this section;

(2) Advise the individual of its refusal and the reason(s) therefor;

(3) Inform the individual that he or she may request a further review by the Director or the Administrator, or their designees; and

(4) Describe the procedures for requesting such review, including the name and address of the official to whom the request should be directed.

(f) No part of these regulations shall be construed to permit:

(1) The alteration of evidence presented in the course of judicial, quasi-judicial or quasi-legislative proceedings;

(2) Collateral attack upon any matter which has been the subject of judicial or quasi-judicial action; or

(3) An amendment or correction which would be in violation of an existing statute, executive order or regulation.

§ 215.9 Appeal of initial adverse agency determination.

(a) An individual who disagrees with the denial or partial denial of his or her request to amend a record may file a request for review of such refusal within 60 days after the date of notification of the denial or partial denial.

(b) The request for review must be in writing and may be presented in person or by mail to:

Director, International Development Cooperation Agency, 2201 C Street, NW., Washington, DC 20523. Attention: Privacy Review Request.

Director, Office of External Affairs, Agency for International Development, 2201 C Street, NW., Washington, DC 20523. Attention: Privacy Review Request.

Both the envelope and the letter should be clearly marked: Attention: Privacy Review Request. Such request should include any documentation, information or statements advanced for the

amendment of the record, and a copy of the initial adverse determination.

(c) Upon receipt of the request for review, the Director or the Assistant Administrator, or an officer of the Agency designated in writing by the Director or Administrator, shall undertake an independent review of the initial determination.

(d) If someone other than the Director or the Assistant Administrator is designated to conduct the review, he or she shall be an officer who is organizationally independent of or senior to the officer or employee who made the initial determination.

(e) In conducting the review, the reviewing official, may at his or her option, request such additional information as is deemed necessary to establish that the record contains only that information which is accurate, timely, complete and necessary to assure fairness in any determination which may be made about the individual on the basis of the record.

(f) Within 30 days after receipt of the request for review, the Director, the Assistant Administrator, or the official designated to conduct the review, shall advise the individual of the Agency's final decision. If unusual circumstances prevent the completion of the review within the 30-day period, the Agency shall, prior to the expiration of the 30-day period, advise the individual in writing of the circumstances preventing the completion of such review and inform him or her of the date by which the review is expected to be completed.

(g) If the reviewing official determines that the record should be amended in accordance with the individual's request, the Agency shall:

- (1) Amend the record accordingly;
- (2) Advise the individual of the amendment; and
- (3) Where an accounting of disclosures has been made, advise all previous recipients of the fact that the amendment was made and the nature of the amendment.

(h) If, after conducting the review, the reviewing official refuses to amend the record, in whole or in part, in accordance with the individual's request, Agency shall advise the individual:

- (1) Of its refusal and the reasons therefor;
- (2) Of the individual's right to file a concise statement of his or her reasons for disagreeing with the Agency's decision;
- (3) Of the procedures for filing a statement of disagreement;
- (4) That any such statement will be sent to anyone to whom the record is subsequently disclosed, together with a

brief statement by the Agency summarizing its reasons for refusing to amend the record;

(5) That to the extent an accounting of disclosure was maintained, prior recipients of the disputed record will be provided a copy of any statement of disagreement and of the Agency's statement summarizing its reasons for refusing to amend the record; and

(6) Of the individual's right to seek judicial review of the Agency's refusal to amend a record as provided for in section (g)(1)(a) of the Act.

§ 215.10 Disclosure of record to person other than the individual to whom it pertains.

(a) Subject to the conditions of paragraphs (b) and (c) of this section, the Agency shall not disclose any record which is contained in a system of records by any means of communication to any person or other agency who is not the individual to whom the record pertains.

(b) Upon written request or with prior written consent of the individual to whom the record pertains, the Agency may disclose any such record to a person or to another agency as requested or authorized.

(c) Notwithstanding the absence of written consent from the individual to whom the record pertains, the Agency may disclose any such record provided such disclosure is:

(1) To those officers and employees of the Agency who have a need for the record in the performance of their duties;

(2) Required under the Freedom of Information Act (5 U.S.C. 552);

(3) For a routine use as defined in § 215.2;

(4) To the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of Title 13 of the United States Code;

(5) To a recipient who has provided the Agency with adequate advance written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

(6) To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for evaluation by the Administrator of General Services or his or her designee, to determine whether the record has such value;

(7) To another agency or to an instrumentality of any governmental jurisdiction within or under the control

of the United States for a civil or criminal law enforcement activity authorized by law: Provided, The head of the agency or instrumentality has made a prior written request to the Assistant Administrator of Administration or the Privacy Liaison Officer, specifying the particular record and the law enforcement activity for which it is sought;

(8) To a responsible person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification will be transmitted to the last known address of such individual;

(9) To either House of Congress, or, to the extent of a matter within its jurisdiction, any committee or subcommittee, or joint committee of Congress, or subcommittee of such joint committee;

(10) To the Comptroller General, or any of his/her authorized representatives, in the course of the performance of the duties of the General Accounting Office;

(11) Pursuant to an order of a court of competent jurisdiction or;

(12) To a consumer reporting agency in accordance with section 3711(f) of Title 31.

§ 215.11 Fees.

(a) The only fees to be charged to or collected from an individual under the provisions of this part are for copying records at the request of the individual.

(b) No fees shall be charged or collected for the following: Search for and retrieval of the records; review of the records; copying at the initiative of the Agency without a request from the individual; the first 100 pages; and first-class postage. However if special handling or other than first-class mail is requested or required, the costs shall be added to the basic fee.

(c) The copying fees prescribed in paragraph (a) of this section are:

Ten (10) cents per page. Twenty (20) cents per page of computer printout.

(d) Payment may be in the form of a check, bank draft on a bank in the United States, or postal money order payable to the Treasurer of the United States.

(e) A receipt for fees paid will be given only upon request.

(f) A copying fee totaling \$15.00 or less shall be waived but the copying fees for contemporaneous requests by the same individual shall be aggregated to determine the total fee.

(g) A fee may be reduced or waived by the Privacy Liaison Officer.

§ 215.12 Penalties and remedies.

The provisions of the Act relating to penalties and remedies are summarized below:

(a) An individual may bring a civil action against the Agency when the Agency:

(1) Makes a determination not to amend a record in accordance with the individual's request;

(2) Refuses to comply with an individual's request pursuant to 5 U.S.C. 552a (d)(1);

(3) Fails to maintain a record concerning an individual with such accuracy, relevance, timeliness and completeness as is necessary to assure fairness in any determination relating to the qualifications, character, rights, or opportunities of, or benefits to the individual that may be made on the basis of such record, and as a result thereof a determination is made which is adverse to the individual; or

(4) Fails to comply with any other provision of section (d) of the Act in such a way as to have an adverse effect on an individual.

(b) The court may order the correction or amendment of the records, may enjoin the Agency from withholding the records, may order the Agency to produce any records improperly withheld, and may assess attorney's fees and costs.

(c) Where a court of competent jurisdiction makes a determination that the Agency action was willful or intentional with respect to 5 U.S.C. 552a (g)(1) (c) or (d), the United States shall be liable for actual damages of no less than \$1,000, the costs of the action, and attorneys' fees.

(d) Criminal penalties may be imposed against an officer or employee of the Agency who willfully discloses material which he or she knows is prohibited from disclosure, or who maintains a system of records without complying with the notice requirements.

(e) Criminal penalties may be imposed against any person who knowingly and willfully requests or obtains any record concerning an individual from an agency under false pretenses. The offenses enumerated in paragraphs (d) and (e) of this section are misdemeanors, with fines not to exceed \$5,000.

§ 215.13 General exemptions.

(a) Pursuant to 5 U.S.C. 552a (j)(2), the Director or the Administrator may, where there is a compelling reason to do so, exempt a system of records within the Agency from any part of the Act, except subsections (b), (c) (1) and (2), (e)(4)(A) through (F), (e) (6), (7), (9), (10), and (11), and (i) thereof, if the system of

records is maintained by the Agency or component thereof which performs as its principal function any activity pertaining to the enforcement of criminal laws, including police efforts to prevent, control, or reduce crime or to apprehend criminals, and the activities of prosecutors, courts, correctional, probation, pardon, or parole authorities, and which consists of:

(1) Information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrests, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status;

(2) Information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual; or

(3) Reports identifiable to an individual compiled at any stage of the process of enforcement of the criminal laws from arrest or indictment through release from supervision.

(b) Each notice of a system of records that is the subject of an exemption under this section will include a statement that the system has been exempted, the reasons therefore, and a reference to the **Federal Register**, volume and page, where the exemption rule can be found.

(c) The systems of records to be exempted under section (j)(2) of the Act, the provisions of the Act from which they are being exempted, and the justification for the exemptions, are set forth below:

(1) **Criminal Law Enforcement Records.** This system of records is to be exempted from sections (c) (3) and (4); (d); (e) (1), (2), and (3); (e) (4) (G), (H), and (I); (e) (5) and (8); (f), (g) and (h) of the Act. These exemptions are necessary to insure the proper functioning of the law enforcement activity, to protect confidential sources of information, to fulfill promises of confidentiality, to maintain the integrity of the law enforcement procedures, to avoid premature disclosure of the knowledge of criminal activity and the evidentiary bases of possible enforcement actions, to prevent interference with law enforcement proceeding, to avoid the disclosure of investigative techniques, and to avoid the endangering the law enforcement personnel.

§ 215.14 Specific exemptions.

(a) Pursuant to 5 U.S.C. 552a(k), the Director or the Administrator may, where there is a compelling reason to do

so, exempt a system of records, from any of the provisions of subsections (c) (3); (d); (e)(1); (e)(4) (G), (H), and (I); and (f) of the Act if a system of records is:

(1) Subject to the provisions of 5 U.S.C. 552(b)(1);

(2) Investigatory material compiled for law enforcement purposes, other than material within the scope of subsection (j)(2) of the Act: Provided, however, That if any individual is denied any right, privilege, or benefit to which he or she would otherwise be eligible, as a result of the maintenance of such material, such material shall be provided to such individual, except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence;

(3) Maintained in connection with providing protective services to the President of the United States or other individuals pursuant to 18 U.S.C. 3056;

(4) Required by statute to be maintained and used solely as statistical records;

(5) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, military service, Federal contracts, or access to classified information, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence;

(6) Testing or examination material used solely to determine individual qualifications for appointment or promotion in the Federal service, the disclosure of which would compromise the objectivity or fairness of the testing or examination process; or

(7) Evaluation material used to determine potential for promotion in the armed services, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence.

(b) Each notice of a system of records

that is the subject of an exemption under 5 U.S.C. 552a(k) will include a statement that the system has been exempted, the reasons therefore, and a reference to the **Federal Register**, volume and page, where the exemption rule can be found.

(c) The systems of records to be exempted under section (k) of the Act, the provisions of the Act from which they are being exempted, and the justification for the exemptions, are set forth below:

(1) *Criminal Law Enforcement Records.* If the 5 U.S.C. 552a(j)(2) exemption claimed under paragraph (c) of § 215.13 and on the notice of systems of records to be published in the **Federal Register** on this same date is held to be invalid, then this system is determined to be exempt, under 5 U.S.C. 552a(k) (1) and (2) of the Act, from the provisions of 5 U.S.C. 552a (c)(3); (d); (e)(1); (e)(4); (G); (H); (I); and (f). The reasons for asserting the exemptions are to protect the materials required by executive order to be kept secret in the interest of the national defense or foreign policy, to prevent subjects of investigation from frustrating the investigatory process, to insure the proper functioning and integrity of law enforcement activities, to prevent disclosure of investigative techniques, to maintain the ability to obtain necessary information, to fulfill commitments made to sources to protect their identities and the confidentiality of information and to avoid endangering these sources and law enforcement personnel.

(2) *Personnel Security and Suitability Investigatory Records.* This system is exempt under U.S.C. 552a (k)(1), (k)(2), and (k)(5) from the provisions of 5 U.S.C. 552a (c)(3); (d); (e)(1); (e)(4); (G); (H); (I); and (f). These exemptions are claimed to protect the materials required by executive order to be kept secret in the interest of national defense or foreign policy, to prevent subjects of investigation from frustrating the investigatory process, to insure the proper functioning and integrity of law enforcement activities, to prevent disclosure of investigative techniques, to maintain the ability to obtain candid and necessary information, to fulfill commitments made to sources to protect the confidentiality of information, to avoid endangering those sources and, ultimately, to facilitate proper selection or continuance of the best applicants or persons for a given position or contract. Special note is made of the limitation on the extent to which this exemption may be asserted.

(3) *Litigation Records.* This system is exempt under 5 U.S.C. 552(k)(1), (k)(2), and (k)(5) from the provisions of 5 U.S.C.

552a (c)(3); (d); (e)(1); (e)(4) (G), (H), (I); and (f). These exemptions are claimed to protect the materials required by executive order to be kept secret in the interest of national defense or foreign policy, to prevent subjects of investigation from frustrating the investigatory process, to insure the proper functioning and integrity of law enforcement activities, to prevent disclosure of investigative techniques, to maintain the ability to obtain candid and necessary information, to fulfill commitments made to sources to protect the confidentiality of information.

(4) *Employee Equal Employment Opportunity Complaint Investigatory Records.* This system is exempt under 5 U.S.C. 552a (k)(1) and (k)(2) from the provisions of 5 U.S.C. 552a (c)(3); (d); (e)(1); (e)(4) (G), (H), (I); and (f). These exemptions are claimed to protect the materials required by executive order to be kept secret in the interest of national defense or foreign policy, to prevent subjects of investigation from frustrating the investigatory process, to insure the proper functioning and integrity of law enforcement activities, to prevent disclosure of investigative techniques, to maintain the ability to obtain candid and necessary information, to fulfill commitments made to sources to protect the confidentiality of information, to avoid endangering these sources.

(5) The following systems of records are exempt under 5 U.S.C. 552a (k)(5) from the provision of 5 U.S.C. 552a (c)(3); (d); (e)(1); (e)(4) (G), (H), (I); and (f):

(i) Employee Conduct and Discipline Records.

(ii) Employee Relations Records. This exemption is claimed for these systems of records to maintain the ability to obtain candid and necessary information, to fulfill commitments made to sources to protect the confidentiality of information, to avoid endangering these sources and, ultimately, to facilitate proper selection or continuance of the best applicants or persons for a given position or contract. Special note is made of the limitation on the extent to which this exemption may be asserted. The existence and general character of the information exempted will be made known to the individual to whom it pertains.

Dated: August 13, 1992.

BILLING CODE 6116-01-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Parts 1 and 602

[T.D. 8428]

RIN 1545-AP79

Final Regulations Under Section 382 of the Internal Revenue Code of 1986; Limitations on Corporate Net Operating Loss Carryforwards

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final and temporary regulations.

SUMMARY: This document contains final regulations relating to the use of certain corporate tax attributes under section 382 of the Internal Revenue Code of 1986 (the "Code") that are attributable to the period preceding an ownership change of a loss corporation. These final regulations under section 382 provide special rules regarding the segregation of stock ownership of an open-end regulated investment company following certain issuances and redemptions of its stock.

DATES: The regulations are effective as of August 21, 1992, and generally are applicable to testing dates occurring after December 31, 1986.

FOR FURTHER INFORMATION CONTACT: Charles Whedbee of the Office of Assistant Chief Counsel (Corporate), Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, DC 20224, or telephone (202) 622-7750 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collections of information contained in this final regulation have been reviewed and approved by the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act (44 U.S.C. 3504(h)) under control number 1545-1281. The estimated annual burden per respondent/recordkeeper varies from 5 to 10 minutes, depending on individual circumstances, with an estimated average of 7.5 minutes.

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents/recordkeepers may require greater or less time, depending on their particular circumstances.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, Attn: IRS Reports Clearance Officer, TR:FP, Washington, DC 20224, and to the Office of Management and Budget, Paperwork Reduction Project, Washington, DC 20503.

Background and Explanation of Provisions

This document contains final regulations to be added to parts 1 and 602 of title 26 of the Code of Federal Regulations (CFR) under section 382 of the Internal Revenue Code. On October 30, 1991, the Federal Register published a Notice of Proposed Rulemaking (56 FR 55858) proposing amendments to the Income Tax Regulations under section 382. That document proposed amendments to the temporary regulations under section 382 which were published in the Federal Register on August 11, 1987 (T.D. 8149, 52 FR 29668). The proposed regulations provided that the segregation rules of § 1.382-2T(j)(2) would not apply to the issuance and redemption of stock by open-end regulated investment companies (commonly known as mutual funds) in the ordinary course of business. The proposed regulations were proposed to be effective for testing dates after December 31, 1986. However, the proposed regulations provided that taxpayers may elect to apply the amendments only to testing dates on or after October 29, 1991 (the date that the proposed regulations were filed with the Federal Register).

Only two written comments were received by the Internal Revenue Service with respect to the proposed regulations. One recommended that we adopt the proposed regulations without change. Another requested that the exception provided in the proposed regulations be extended to include the issuance and redemption of stock by certain institutions under the Farm Credit System (see 12 U.S.C. 2001 through 2219). The Farm Credit System is a network of borrower-owned cooperative lending institutions and specialized service organizations.

As discussed in the preamble to the proposed regulations, an exception to the segregation rule for issuances and redemptions of shares by mutual funds is appropriate because those issuances and redemptions substitute for public trading in its shares. Accordingly, requiring mutual funds to track the issuance and redemption of their shares in the ordinary course of business imposes administrative burdens similar to the burdens of tracking secondary

trading between less-than-five-percent shareholders.

In the case of certain institutions under the Farm Credit System, borrowers typically are required to purchase stock of the lending institution as a condition to borrowing. Borrowers may be required to adjust their stock ownership through additional purchases or redemptions to reflect changes in the level of borrowing. However, issuances and redemptions are not a substitute for secondary trading of stock by these institutions and generally do not rise to the same level as that found with respect to mutual funds.

The final regulations adopt the rules contained in the proposed regulations without substantive change. This regulations project was intended only to address situations where issuances and redemptions by a corporation substitute for secondary trading, and tracking issuances and redemptions generally would involve burdens similar to the burdens associated with tracking secondary trading. However, the Service will consider the comments of the institutions of the Farm Credit System in the context of other guidance projects that address the section 382 segregation rules.

Special Analyses

It has been determined that these rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and therefore, a final Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, the Notice of Proposed Rulemaking for the regulations was submitted to the Chief Counsel for Advocacy of the Small Business Administration for comments on their impact on small business.

Drafting Information

The principal author of these regulations is Lori J. Brown, Office of Assistant Chief Counsel (Corporate), Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and the Treasury Department participated in developing the regulations, on matters of both substance and style.

List of Subjects

26 CFR 1.381(a)-1 Through 1.383-3

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 602

Reporting and recordkeeping requirements.

Adoption of Amendments to the Regulations

Accordingly, parts 1 and 602 of title 26 of the Code of Federal Regulations are amended as follows:

PART 1—INCOME TAXES; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority citation for part 1 is amended in part by adding the following citation:

Authority: 26 U.S.C. 7805 * * * Section 1.382-4 also issued under 26 U.S.C. 382(m).

Par. 2. Section 1.382-2T(j)(2)(iii)(A) is amended by adding a new sentence at the end of the paragraph to read as follows:

§ 1.382-2T Definition of ownership change under section 382, as amended by the Tax Reform Act of 1986 (temporary).

(j) * * *
(2) * * *
(iii) * * * (A) * * * For an exception applicable to certain regulated investment companies, see § 1.382-4(k)(1).

Par. 3. New § 1.382-4 is added to read as follows:

1.382-4 Definitions and rules relating to a 5-percent shareholder.

(a) Through (j). [Reserved]
(k) Special rules for certain regulated investment companies—(1) In general. The segregation rules of § 1.382-2T(j)(2) do not apply to the issuance (as described in § 1.382-2T(j)(2)(iii)(B)(1)(ii)) or the redemption (as described in § 1.382-2T(j)(2)(iii)(C)) of any redeemable security, as defined in 15 U.S.C. 80a-2(a)(32), by a regulated investment company in the ordinary course of business.

(2) Effective date.—(i) General rule. Paragraph (k)(1) of this section applies to testing dates after December 31, 1986. A corporation may file an amended return for taxable years ending before August 21, 1992 (subject to any applicable statute of limitations) to take into account paragraph (k)(1) of this section only if corresponding adjustments are made in amended returns for all affected taxable years ending after December 31, 1986 (subject to any applicable statute of limitations).

(ii) Election to apply prospectively. A corporation may elect to apply

paragraph (k)(1) of this section only to testing dates on or after October 29, 1991. The election must be made on the first return which is filed after October 20, 1992 by stating on such return, "This is an Election To Apply § 1.382-4(k)(1) Only to Testing Dates on or After October 29, 1991."

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 4. The authority citation for part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 5. Section 602.101(c) is amended by adding the following entry in the table: "1.382-4 ... 1545-1281".

Dated: July 23, 1992.

David G. Blattner,

Acting Commissioner of Internal Revenue.

Approved:

Fred T. Goldberg, Jr.,

Assistant Secretary of the Treasury.

BILLING CODE 4830-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD1 92-057]

Special Local Regulation: Gateway Powerboat Regatta, Greenwich and Stamford, CT

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary special local regulation for the Gateway Powerboat Regatta. The regatta will be held on Saturday, August 22, 1992, in the waters of Long Island Sound adjacent to the harbors of Greenwich and Stamford, Connecticut. This regulation is needed to protect the boating public from the hazards associated with high speed powerboat racing in confined waters.

EFFECTIVE DATE: This regulation is effective from 10 a.m. to 3 p.m. on August 22, 1992. In case of inclement weather, the rain date for this event is August 24, 1992.

FOR FURTHER INFORMATION CONTACT: Lieutenant (junior grade) E.G. Westerberg, Chief, Boating Safety Affairs Branch, First Coast Guard District (617) 223-8311.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of this document are LTJG E.G. Westerberg, Project Manager, First Coast Guard District, and LCDR J. Astley, Project Attorney, First Coast Guard District, Legal Office.

Regulatory History

On July 10, 1992, the Coast Guard published a notice of proposed rulemaking entitled Special Local Regulation: Gateway Powerboat Regatta, Greenwich and Stamford, CT, in the *Federal Register* (57 FR 30704). The Coast Guard received one letter commenting on the proposal. A public hearing was not requested and none was held. There is good cause for this temporary final rule to become effective on the dates specified, prior to thirty days after publication. This rule must become effective on the dates specified in the interest of marine safety, to ensure the safety of persons involved in the Gateway Powerboat Regatta as well as the safety of other marine interests that may be transiting western Long Island Sound during the event. The public was given adequate notice of the event by the notice of proposed rulemaking, which encompassed a full comment period. By affording the public the proper opportunity to comment (comment period ended August 1, 1992), it is impracticable to publish this final rule thirty days prior to the event. Therefore, good cause exists for not making this temporary final rule effective thirty days after publication.

Background and Purpose

On April 20, 1992 the sponsor, Gateway Powerboat Association, Inc., submitted a request to hold an offshore powerboat race on Long Island Sound. The Coast Guard is establishing a temporary regulation in Long Island Sound for this event known as the "Gateway Powerboat Regatta." This regulation establishes a regulated area in Long Island Sound and provides specific guidance to control vessel movement during the limited duration of the race.

This event will include up to 40 powerboats competing on a rectangular course at speeds approaching 100 m.p.h. Due to the inherent dangers of a race of this type, restriction of traffic will be temporarily effected to promote the safe navigation of the other users of Long Island Sound.

The sponsors, Gateway Powerboat Association, Inc. have previously conducted this event in Long Island Sound in 1987 and 1988. This year's race will follow a similarly marked course and the same regulations as set forth in

the previous years. By providing sufficient lead time, the U.S. Coast Guard, in cooperation with Gateway Powerboat Association, Inc., is attempting to minimize any burden to the users of the waterway.

Discussion of Comments and Changes

One letter of comment was received from the Town of Greenwich citing past civil disturbances associated with the race. The comment was discussed with the town officials. In prior races, race sponsor and participants had conflicts with the town over utilization of launching ramps and shore facilities. Their concern and comments did not touch on the proposed regulated area or the proposed special local regulation. Therefore, no changes to the proposed regulation were made as a result of their comments.

The special regulation is amended to provide for a rain date. The rain date was inadvertently omitted from the NPRM. The planning and operational commitment involved with this event is such that the addition of a rain date is justified. In the event of inclement weather, this change provides that the race be held on August 24, 1992, subject to the same times and regulations. This change places no appreciable new burden on the boating public.

Regulatory Evaluation

This regulation is considered to be not major under Executive Order 12291 and not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this regulation to be so minimal that a Regulatory Evaluation is unnecessary due to the limited duration of the race, the extensive advisories that have been and will be made to the affected maritime community, and the fact that the major portion of the event is taking place on a Saturday afternoon, which is normally a very light volume day for commercial marine traffic. In addition, ample alternate routes are available for all sizes of commercial and recreational vessel traffic.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this regulation will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify as "small business concerns" under

section 3 of the Small Business Act (15 U.S.C. 632).

The Coast Guard expects the impact of this regulation to be minimal. Because of the limited duration of the race and the fact that the event is taking place on a Saturday, the Coast Guard certifies under 5 U.S.C. 605(b) that this regulation will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This regulation contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

The Coast Guard has analyzed this regulation in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this regulation does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard considered the environmental impact of this regulation and concluded that under section 2.B.2.c. of Commandant Instruction M16475.1B, this regulation is categorically excluded from further environmental documentation.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

PART 100—[AMENDED]

For reasons set out in the preamble, the Coast Guard amends 33 CFR part 100 as follows:

1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233; 49 CFR 1.46 and 33 CFR 100.35.

2. A temporary section, 100.35T01-057 is added to read as follows:

§ 100.35T01-057 Gateway Powerboat Regatta, Stamford and Greenwich, CT.

(a) *Regulated area.* The regulated area will include all waters within the following points:

Latitude	Longitude
40°55.9' N	73°37.5' W
40°57.8' N	73°32.8' W
40°58.6' N	73°33.9' W
40°57.0' N	73°38.3' W

(b) *Special local regulations.* (1) Commander, U.S. Coast Guard Group Long Island Sound reserves the right to delay, modify or cancel the race as conditions or circumstances require.

(2) No person or vessel may enter, transit, or remain in the regulated area during the effective period of regulation unless participating in the event as authorized by the sponsor or the Coast Guard. The Patrol Commander, as delegated by the Commander, Coast Guard Group Long Island Sound, will attempt to minimize any delays for commercial vessels transiting the area and will monitor channel 16 VHF-FM.

(3) All persons and vessels shall comply with the instructions of the Commander, U.S. Coast Guard Group Long Island Sound or the designated on scene patrol personnel. U.S. Coast Guard patrol personnel include commissioned, warrant, and petty officers of the Coast Guard. Upon hearing five or more blasts from a U.S. Coast Guard vessel, the operator of a vessel shall stop immediately and proceed as directed. Members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation and other applicable laws.

(c) *Effective period.* This regulation is effective from 10 a.m. to 3 p.m. on August 22, 1992. In case of inclement weather, the rain date for this event is August 24, 1992.

Dated: August 13, 1992.

K.W. Thompson,

Captain, U.S. Coast Guard, Acting Commander, First Coast Guard District.

BILLING CODE 4910-14-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 1

[GC Docket 91-120; FCC 92-338]

Administrative Practice and Procedure

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The report and order amends the rules to provide for the temporary suspension of attorneys practicing before the Commission who are the subject of a final order or suspension or disbarment by a court or other lawful tribunal. It is necessary to amend the rules to safeguard the public from unethical practices and protect the integrity of the Commission's processes. The intended effect is to establish a procedure that will expeditiously enable the Commission to safeguard the public and its processes from the conduct of an attorney who has been found unfit to practice by another disciplinary tribunal.

EFFECTIVE DATE: September 21, 1992.

FOR FURTHER INFORMATION CONTACT:

James Mullins, Office of General Counsel, (202) 254-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's report and order, GC Docket 91-120 adopted July 21, 1992 and released August 6, 1992. [Initiating document: NPRM 58 FR 19826 (April 30, 1991).] The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, Downtown Copy Center, (202) 452-1422, 1990 M Street, NW., suite 640, Washington, DC 20036.

Summary of Report and Order

I. Introduction and Background

1. On April 12, 1991, the Commission adopted a Notice of Proposed Rulemaking, 56 FR 19826, April 30, 1991, in General Docket No. 91-120 proposing to amend 47 CFR 1.24 to provide for the temporary suspension of any lawyer, at the discretion of the Commission and without opportunity for preliminary hearing, upon receipt by the Commission of official notification of that person's final suspension or disbarment by a duly authorized tribunal. The temporary suspension would remain in effect until completion of the Commission's disciplinary proceeding conducted pursuant to § 1.24(b) or until the Commission determines that reinstatement of the practitioner, prior to the completion of those proceedings, would serve the public interest.

2. The Commission also proposed to amend 47 CFR 1.23 to add that an attorney who is subject to suspension, disbarment or otherwise restricted from the practice of law by a final order of a lawfully authorized Federal or State agency is prohibited from practice before the Commission.

3. In response to the Notice only the Federal Communications Bar Association (FCBA) filed comments.

II. Discussion

4. The Commission has amended the rules governing the conduct of attorneys practicing before the Commission. The new rules provide for the temporary suspension, at the Commission's discretion and without opportunity for hearing, of any attorney subject to a final order of suspension or disbarment by any tribunal of competent authority.

5. The Commission's objective was to establish a procedure that will enable it

to safeguard the public and its processes from the conduct of an attorney who has been found unfit to practice by another disciplinary tribunal.

6. After considering FCBA's comments, the Commission decided that it will not consider suspension or disbarment orders by all courts or federal or state agencies as grounds for disbarment at the FCC. The new rules provide that only an order of a tribunal authorized to regulate the practice of law generally within its territorial boundaries would affect eligibility to practice or cause the Commission to consider initiating disciplinary proceedings against a practitioner.

III. Conclusion

7. Accordingly, *It is ordered* That effective September 21, 1992, part 1 of the Commission's rules, 47 CFR part 1, is amended as set forth in the final rules. Authority for such action is found in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and 303(r).

8. *It is further ordered* That this proceeding is terminated.

List of Subjects in 47 CFR Part 1

Administrative Practice and Procedure, Lawyers.

Federal Communications Commission.

Donna R. Searcy,
Secretary.

Final Rules

Part 1 of chapter 1 of title 47 of the Code of Federal Regulations is amended as follows:

1. The authority for part 1 continues to read as follows:

Authority: Sections 4, 303, 48 Stat. 1066, 1082, as amended, 47 U.S.C. 154, 303.

2. In § 1.23, paragraph (a) is revised to read as follows:

§ 1.23 Persons who may be admitted to practice.

(a) Any person who is a member in good standing of the bar of the Supreme Court of the United States or of the highest court of any state, territory or the District of Columbia, and who is not under any final order of any authority having power to suspend or disbar an attorney in the practice of law within any state, territory or the District of Columbia that suspends, enjoins, restrains, disbars, or otherwise restricts him or her in the practice of law, may represent others before the Commission.

3. In § 1.24, paragraph (b) is revised and paragraph (c) is added to read as follows:

§ 1.24 Censure, suspension, or disbarment of attorneys.

(b) Except as provided in paragraph (c) of this section, before any member of the bar of the Commission shall be censured, suspended, or disbarred, charges shall be preferred by the Commission against such practitioner, and he or she shall be afforded an opportunity to be heard thereon.

(c) Upon receipt of official notice from any authority having power to suspend or disbar an attorney in the practice of law within any state, territory, or the District of Columbia which demonstrates that an attorney practicing before the Commission is subject to an order of final suspension (not merely temporary suspension pending further action) or disbarment by such authority, the Commission may, without any preliminary hearing, enter an order temporarily suspending the attorney from practice before it pending final disposition of a disciplinary proceeding brought pursuant to § 1.24(a)(2), which shall afford such attorney an opportunity to be heard and directing the attorney to show cause within thirty days from the date of said order why identical discipline should not be imposed against such attorney by the Commission.

BILLING CODE 6712-01-M

47 CFR Part 2

[General Docket No. 89-349; FCC 92-334]

Importation of Radio Frequency Devices

AGENCY: Federal Communications Commission.

ACTION: Final rule; Order on reconsideration.

SUMMARY: The Commission, through this action, increases the number of radio frequency devices allowed to be imported for test and evaluation and clarifies the scope of the related rules. The number of devices allowed to be imported for trade show demonstration purposes is not increased. The Commission declined to adopt a blanket waiver of the rules limiting the number of devices imported prior to grant of equipment authorization. The rules at 56 FR 26616 (6/10/91), prohibiting importation of devices pending authorization are affirmed as is the policy to continue to make Form 740 information routinely available for public inspection. Persons desiring to have information withheld from public

inspection must continue to seek protection under the rules.

EFFECTIVE DATE: September 23, 1992.

FOR FURTHER INFORMATION CONTACT: Dan S. Emrick, Telephone: (202) 632-6345.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Order on Reconsideration in General Docket Number 89-349, adopted July 17, 1992, and released August 5, 1992. The full text of this Commission action is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this action may also be purchased from the Commission's copy contractor, Downtown Copy Center at (202) 452-1422, 1919 M Street, NW., room 246, Washington, DC 20554.

The rules pertaining to the importation of radio frequency devices were established in December of 1975 in cooperation with Customs. The rules are intended to keep imported devices which do not comply with FCC technical requirements from being distributed within the United States, thereby reducing the potential for harmful interference being caused to authorized radio communications users.

The rules allow certain devices to be imported in limited quantities for test, evaluation or demonstration purposes. This Order on Reconsideration changes the definition of "limited quantities" from ten to 200 for purposes of test and evaluation. This increase will allow importation of a sufficient number of units so that a new device or a new model of a device may be evaluated for both FCC and non-FCC compliance and for product reliability through testing. The revised rule still allows importers to request a waiver of this limit.

The existing practice of making all Form 740 information available to the public is affirmed. An importer who desires information withheld from public inspection can apply for protection under § 0.459 of the Commission's rules as previously provided. The routine thirty to sixty day period for processing and analysis of electronically filed declarations will allow written requests to be reviewed before release of the data in question.

The repeated recommendation from commenters that the FCC establish a blanket filing process for imports was denied. The Commission noted that any benefits of a blanket filing approach would be outweighed by the complexity and cost of administering the process.

Imports, Reporting and recordkeeping.
Federal Communications Commission.
Donna R. Searcy,
Secretary.

Rule Changes

Part 2 of title 47 of the CFR is amended as follows:

1. The authority citation for part 2 is revised to read as follows:

Authority: Sec. 4, 302, 303, and 307 of the Communications Act of 1934, as amended, 47 U.S.C. Sections 154, 154(i), 302, 303, 303(r), and 307, unless otherwise noted.

2. Section 2.1201 is amended by adding paragraph (c) to read as follows:

§ 2.1201 Purpose.

(c) Nothing in this section prevents importers from shipping goods into foreign trade zones or Customs bonded warehouses, such as is the prescribed procedure under § 2.1204(a)(5). Radio frequency devices capable of causing harmful interference, however, cannot be withdrawn from these areas except in accordance with the provisions of this section.

3. Section 2.1204(a) (3) and (4) are revised to read as follows:

§ 2.1204 Import conditions.

(a) * * *

(3) The radio frequency device is being imported in limited quantities for testing and evaluation to determine compliance with the FCC Rules and Regulations or suitability for marketing. The device will not be offered for sale or marketed. The phrase "limited quantities," in this context, means 200 or fewer units. Prior to importation of more than 200 units, written approval must be obtained from the Chief, Enforcement Division, Field Operations Bureau, FCC. Distinctly different models of a product and separate generations of a particular model under development are considered to be separate devices.

(4) The radio frequency device is being imported in limited quantities for demonstration at industry trade shows and the device will not be offered for sale or marketed. The phrase "limited quantities," in this context, means ten or fewer units. Prior to importation of more than ten units, written approval must be obtained from the Chief, Enforcement Division, Field Operations Bureau, FCC. Distinctly different models of a product and separate generations of a particular model under development are considered to be separate devices.

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 90-477; RM-7349, RM-7605, RM-7630]

Radio Broadcasting Services; Fisher, Mattoon, Neoga, Teutopolis, and Tuscola, IL

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document substitutes Channel 267B1 for Channel 267A at Mattoon, Illinois, reallocates Channel 267B1 from Mattoon to Neoga, Illinois, and modifies the license for Station WMCI (FM) to specify Neoga, Illinois, as its community of license, in accordance with the Commission's Rules, at the request of The Cromwell Group, Inc. of Illinois. In addition, this action also allots Channel 273A to Fisher, Illinois, and Channel 272A to Teutopolis, Illinois, as first local FM services to each community. See 55 FR 46232, November 2, 1990, and **SUPPLEMENTARY INFORMATION, infra.**

DATES: Effective October 1, 1992. The window period for filing applications for Fisher, Illinois, and Teutopolis, Illinois, will open on October 2, 1992, and close on November 2, 1992.

FOR FURTHER INFORMATION CONTACT: Nancy J. Walls, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 90-477, adopted July 23, 1992, and released August 18, 1992. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, Downtown Copy Center, (202) 452-1422, 1990 M Street, NW., suite 640, Washington, DC 20036.

Channel 267B1 can be allotted to Neoga in compliance with the Commission's minimum distance separation requirements with a site restriction of 16 kilometers (9.9 miles) east of the city, in order to avoid a short-spacing to the licensed site of Station WMCI (FM), Channel 264B, Terre Haute, Indiana, and Station WBNQ (FM), Channel 268B, Bloomington, Indiana. The coordinates are North Latitude 39-17-19 and West Longitude 88-16-15. Channel 273A can be allotted to Fisher, Illinois, in compliance with the minimum distance separation requirements of the Commission's Rules with a site restriction of 4.7 kilometers (2.9 miles)

northwest of the community. The coordinates are North Latitude 40-20-19 and West Longitude 88-23-56. Channel 272A can be allotted to Teutopolis, Illinois, without a site restriction. The coordinates are North Latitude 39-07-54 and West Longitude 88-28-36. With this action, this proceeding is terminated.

Radio broadcasting.

PART 73—[AMENDED]

1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 303.

§ 73.202 [Amended]

2. Section 73.202(b), the Table of FM Allotments under Illinois, is amended by removing Channel 267A at Mattoon, by adding Neoga, Channel 267B1, by adding Fisher, Channel 273A, and by adding Teutopolis Channel 272A.

Federal Communications Commission.

Michael C. Ruger,

Chief, Allocations Branch, Policy and Rules Division, Mass Media Bureau.

BILLING CODE 6712-01-M

DEPARTMENT OF DEFENSE**48 CFR Parts 219 and 252****Defense Federal Acquisition Regulation Supplement; Bond Waiver for 8(a) Contractors**

AGENCY: Department of Defense (DoD).

ACTION: Interim rule with request for public comments.

SUMMARY: The Director of Defense Procurement has issued an interim rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to implement section 813 of the FY 1992 National Defense Authorization Act (Pub. L. 102-190). Section 813 authorizes the Secretary of Defense to waive Miller Act requirements for surety bonds on construction contracts awarded to small disadvantaged businesses under the Section 8(a) program. DoD is required to award no fewer than 30 such contracts for each of fiscal years 1992, 1993, and 1994.

DATES: Effective Date: August 14, 1992.

Comment Date: Comments on the interim rule should be submitted in writing at the address shown below on or before September 23, 1992, to be considered in the formulation of the final rule.

ADDRESSES: Interested parties should submit written comments to the Defense Acquisition Regulations System, ATTN: Mrs. Alyce Sullivan, IMD 3D139, OUSD(A), 3062 Defense Pentagon, Washington, DC 20301-3062. FAX (703) 697-9845. Please cite DAR Case 91-316 in all correspondence related to this issue.

FOR FURTHER INFORMATION CONTACT: Mrs. Alyce Sullivan, (703) 697-7266.

SUPPLEMENTARY INFORMATION:

A. Background

The Director of Defense Procurement issued these revisions on August 14, 1992, by Departmental Letter 92-007.

B. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense to issue this regulation as an interim rule. Urgent and compelling reasons exist to promulgate this rule before affording the public an opportunity to comment because section 813 requires publication of a final rule within 270 days (August 31, 1992) after enactment.

C. Regulatory Flexibility Act

The interim rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* While the exact number of small disadvantaged businesses that cannot obtain required Miller Act surety bonds is not known, it is not a significant number in terms of all small businesses, or in terms of small disadvantaged businesses, that perform construction contracts. Therefore, an initial regulatory flexibility analysis has not been performed. Comments are invited from small businesses and other interested parties. Comments from small entities concerning the affected DFARS Subpart will also be considered in accordance with section 610 of the Act. Such comments must be submitted separately and cite DAR Case 92-610 in correspondence.

D. Paperwork Reduction Act

The interim rule does not impose any reporting or recordkeeping requirements which require the approval of OMB under 44 U.S.C. 3501, *et seq.*

List of Subjects in 48 CFR Parts 219 and 252

Government procurement.
Claudia L. Naugle,
Executive Editor, Defense Acquisition Regulations System.

Therefore, 48 CFR parts 219 and 252 are amended as follows:

1. The authority citation for 48 CFR parts 219 and 252 continues to read as follows:

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, Defense FAR Supplement 201.301.

PART 219—SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

219.808 and 219.801-1 [Added]

2. Section 219.808 and 219.801-1 are added to read as follows:

219.808 Contract negotiation.

219.808-1 Sole source.

(b) Section 813 of Public Law 102-190 authorizes DoD to waive Miller Act requirements for performance and payment bonds under 8(a) construction contracts awarded before October 1, 1994. Section 813 requires for each of fiscal years 1992, 1993, and 1994, that DoD award no fewer than 30 contracts using this bond waiver authority.

(i) A determination to waive bonds shall be approved at a level above the contracting officer. A determination to waive bonding will be made in instances in which the contracting officer finds that—

(A) The contractor is unable to obtain the requisite bonds from a surety. The contracting officer will verify with surety companies, SBA, and other appropriate sources that the contractor cannot obtain the required bonding.

(B) The contractor has received less than five bond waivers while a participant in the 8(a) program.

(C) The contractor is otherwise responsible.

(ii) The authority of Section 813 shall not be used—

(A) When SBA notifies the contracting officer that it will waive bonding requirements in accordance with 13 CFR 124.305;

(B) For requirements expected to exceed \$3 million; or

(C) When competitive procedures described in 19.805 are anticipated.

(iii) The contracting officer shall require the contractor to establish a

special bank account before award (see 252.219-7007) to ensure protection of all suppliers and subcontractors expected to provide materials or services for performance of the contract.

219.811, 219.811-1 and 219.811-3 [Added]

3. Sections 219.811, 219.811-1, and 219.811-3 are added to read as follows:

219.811 Preparing the contracts.

219.811-1 Sole source.

(b)(5) See also 219.808-1(b).

219.811-3 Contract clauses.

(a) Use the clause at FAR 52.219-11, Special 8(a) Contract Conditions, with 252.219-7007, Alternate A, when the contracting office has waived performance and payment bond requirements in accordance with 219.808-1(b).

(b) Use the clause at FAR 52.219-12, Special 8(a) Subcontract Conditions, with 252.219-7007, Alternate B, when the contracting office has waived performance and payment bond requirements in accordance with 219.808-1(b).

(c) Use the clause at FAR 52.219-17, Section 8(a) Award, with 252.219-7007, Alternate C, when the contracting office has waived performance and payment bond requirements in accordance with 219.808-1(b).

PART 252—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

252.219-7007 [Added]

4. Section 252.219-7007 is added to read as follows:

252.219-7007 Alternates.

Alternate A (Aug 1992)

As prescribed in 219.811-3(a), substitute the following paragraph (d) for paragraph (d) of the clause at FAR 52.219-11:

(d) That payments to be made under the contract will be deposited by the contracting activity to a special account established by the subcontractor and that all disbursements will be subject to approval of the Contracting Officer.

Alternate B (Aug 1992)

As prescribed in 219.811-3(b), substitute the following paragraph (b) for paragraph (b) of the clause at FAR 52.219-12:

(b) The (insert name of subcontractor), hereafter referred to as

the subcontractor, agrees and acknowledges as follows:

(1) That, in accordance with section 813 of Public Law 102-190, it will establish a special account, at a bank insured by the Federal Deposit Insurance Corporation, under which (i) all payments under this subcontract will be deposited directly by the (insert name of contracting activity) and (ii) all disbursements will be subject to approval of the Department of Defense's Contracting Officer.

(2) That it will make timely payment to all suppliers of material and labor.

(3) That it will notify all suppliers of material or labor and will obtain written acknowledgment from such suppliers,

that the contract is exempt from the Miller Act's bonding requirement and that neither the SBA nor the (insert

name of contracting activity) are liable for payment to suppliers for materials or labor. Such acknowledgments must be provided to the Contracting Officer before approval of disbursements to the Contractor from the special bank account.

Alternate C (Aug 1992)

As prescribed in 219.811-3(c), substitute the following paragraph (a)(3) for paragraph (a)(3) of the clause at FAR 52.219-17:

(a)(3) That payments to be made under the contract will be deposited by the contracting activity to a special account established by the subcontractor and that all disbursements will be subject to approval of the Contracting Officer.

BILLING CODE 3810-01-M

Proposed Rules

Federal Register

Vol. 57, No. 164

Monday, August 24, 1992

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

30 CFR Parts 48, 75, and 77

RIN 1219-AA55

Training and Retraining of Miners

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Extension of comment period.

SUMMARY: The Mine Safety and Health Administration (MSHA) is extending the period for public comment regarding the Agency's proposed rule concerning the training and retraining of miners from August 24, 1992, to September 25, 1992, in response to requests from the mining community.

DATES: Written comments must be received on or before September 25, 1992.

ADDRESSES: Send written comments to the Office of Standards, Regulations, and Variances, MSHA, room 631, Ballston Towers No. 3, 4015 Wilson Boulevard, Arlington, Virginia 22203.

FOR FURTHER INFORMATION CONTACT: Patricia W. Silvey, Director, Office of Standards, Regulations, and Variances, MSHA. (703) 235-1910.

SUPPLEMENTARY INFORMATION: On September 24, 1991, MSHA published a proposed rule to amend its training requirements for miners in 30 CFR part 48 (56 FR 48376). The proposed rule would revise the definition of "miner" to include all supervisory personnel. It would revise the definition of "experienced miner" to mean a miner who has had one year of mining experience and, for miners hired after October 13, 1978, "experienced miner" would mean those who have completed new miner training. In addition, the proposal would strengthen the training for experienced miners, including supervisory personnel, by adding course requirements. The comment period for the proposed rule was scheduled to close on August 24, 1992, but in response

to requests from the mining community for more time in which to prepare their comments, MSHA is extending the comment period to September 25, 1992. All interested parties are encouraged to submit comments prior to this date.

Dated: August 18, 1992.

William J. Tattersall,

Assistant Secretary for Mine Safety and Health.

[FR Doc. 92-20138 Filed 8-21-92; 8:45 am]

BILLING CODE 4510-43-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[FRI-4196-9]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to delete the Binghamton Equipment Company (BEC) Trucking site from the National Priorities List; request for comments.

SUMMARY: The Environmental Protection Agency (EPA) Region II announces its intent to delete the BEC Trucking site from the National Priorities List (NPL), Appendix B, and requests public comment on this action. EPA and the State of New York have determined that no further cleanup by responsible parties is appropriate under Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). Moreover, EPA and the State have determined that CERCLA activities conducted at the BEC Trucking site to date have been protective of public health, welfare, and the environment.

DATES: Comments concerning the deletion of the BEC Trucking site from the NPL may be submitted on or before September 18, 1992.

ADDRESSES: Comments concerning the deletion of the BEC Trucking site from the NPL may be submitted to: Arnold Bernas, Remedial Project Manager, U.S. Environmental Protection Agency, Region II, 26 Federal Plaza, room 29-30, New York, New York 10278.

Comprehensive information on the BEC Trucking site is contained in the EPA Region II public docket, which is

located at EPA's Region II office, and is available for viewing by appointment only, from 9 a.m. to 5 p.m., Monday through Friday, excluding holidays.

Background information from the Regional public docket is also available for viewing at the BEC Trucking site's Administrative Record repositories located at:

Vestal Public Library, 320 Vestal Parkway East, Vestal, New York 13850 and Vestal Town Hall, 605 Vestal Parkway West, Vestal, New York 13850.

FOR FURTHER INFORMATION CONTACT:

For further information, or to request an appointment to review the public docket, please contact Mr. Bernas at (212) 264-7612.

SUPPLEMENTARY INFORMATION:

Table Contents

- I. Introduction.
- II. NPL Deletion Criteria.
- III. Deletion Procedures.
- IV. Basis for Intended Site Deletion.

I. Introduction

EPA Region II announces its intent to delete the BEC Trucking site from the NPL and requests public comment on this action. The NPL is appendix B to the NCP, which EPA promulgated pursuant to section 105 of CERCLA, as amended. EPA identifies sites that appear to present a significant risk to public health, welfare, or the environment and maintains the NPL, as the list of those sites. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substances Superfund Response Trust Fund (the "Fund"). Pursuant to § 300.425(e)(3) of the NCP, any site deleted from the NPL remains eligible for Fund-financed remedial actions, if conditions at such site warrant action.

EPA will accept comments concerning the BEC Trucking site for thirty (30) days after publication of this notice in the **Federal Register** (until September 18, 1992).

Section II of this notice explains the criteria for deleting sites from the NPL. Section III discusses procedures that EPA is using for this action. Section IV discusses how the BEC Trucking site meets the deletion criteria.

II. NPL Deletion Criteria

The NCP establishes the criteria that the Agency uses to delete sites from the NPL. In accordance with 40 CFR

300.425(e), sites may be deleted from the NPL where no further response is appropriate. In making this determination, EPA will consider whether any of the following criteria has been met:

1. EPA, in consultation with the State, has determined that responsible or other parties have implemented all appropriate response actions required; or

2. All appropriate Fund-financed responses under CERCLA have been implemented and EPA, in consultation with the State, has determined that no further cleanup by responsible parties is appropriate; or

3. Based on a remedial investigation and feasibility study (RI/FS), EPA, in consultation with the State, has determined that the release poses no significant threat to public health or to the environment and, therefore, taking remedial measures is not appropriate.

III. Deletion Procedures

The NCP provides that EPA shall not delete a site from the NPL until the State in which the release was located has concurred, and the public has afforded an opportunity to comment on the proposed deletion. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts. The NPL is designed primarily for informational purposes and to assist Agency management.

EPA Region II will accept and evaluate public comments before making a final decision to delete. The Agency believes that deletion procedures should focus on notice and comment at the local level. Comments from the local community may be most pertinent to deletion decisions. The following procedures were used for the intended deletion of the BE Trucking site:

1. EPA Region II has recommended deletion and has prepared the relevant documents.

2. The State of New York has concurred with the deletion decision.

3. Concurrent with this Notice of Intent to Delete, a notice has been published in local newspapers and has been distributed to appropriate federal, state and local officials, and other interested parties. This notice announces a thirty (30) day public comment period on the deletion package starting on August 19, 1992 and concluding on September 18, 1992.

4. The Region has made all relevant

documents available in the Regional Office and the local site information repositories.

The comments received during the comment period will be evaluated before any final decision is made. EPA Region II will prepare a Responsiveness Summary which will address the comments received during the public comment period.

If after consideration of these comments, EPA decides to proceed with deletion, the EPA Regional Administrator will place a Notice of Deletion in the *Federal Register*. The NPL will reflect any deletions in the next final update. Public notices and copies of the Responsiveness Summary will be made available to local residents by Region II.

IV. Basis for Intended Site Deletion

The BEC Trucking site is an open lot of approximately 3.5 acres located in the Town of Vestal, Broome County, New York. The area surrounding the site is primarily industrial and commercial.

Concerns related to contamination at the BEC Trucking property began in May 1982, when the Town of Vestal found evidence of possible illegal dumping of miscellaneous debris and the improper storage of approximately 50 drums containing what appeared to be petroleum and chemical products. The discovery led to an NYSDEC inspection of the site. NYSDEC's inspection revealed 20 drums containing various liquid waste materials, most of which were waste engine or cutting oils, and some of which appeared to contain enamel reducers, paint thinners, and waste solvents; the others were empty.

In January 1983, the analysis of a composite sample obtained from eight of the existing drums revealed the presence of total organic halides, lead, and cadmium.

In August 1983, the property owner contracted with an NYSDEC-approved waste hauler to remove the 50 surface drums. Some stained soil located around the drums was excavated and contained in drums on-site; these drums were removed by EPA in March 1991.

The site was included on the National Priorities List in June 1986, based primarily on the potential for exposure to lead in ground water and that such an exposure pathway could develop.

An RI/FS was conducted at the site in 1988 to determine the nature and extent of the contamination at and emanating from the site, to determine what threat the site poses to public health and the environment, and to evaluate remedial alternatives. As a result of the previous

cleanup activities conducted at the site in 1983, and based upon the results of the RI/FS, EPA, in consultation with the State of New York, determined that the BEC Trucking site does not pose a significant threat to human health or the environment, and therefore, taking additional remedial measures is not appropriate. Accordingly, on September 28, 1989, EPA signed a Record of Decision (ROD) for this site, selecting "No Further Action." This alternative includes performing no further remedial action at the site to remove, remediate, or contain any contaminated soils. The ROD also calls for the development and implementation of a monitoring program to ensure that the selected remedy continues to be protective of human health and the environment, particularly with respect to the potential exposure pathways to the adjacent wetlands. The monitoring program includes the collection of surface-water, ground-water, and sediment samples along the western and northern margins of the site, and at various locations in the adjacent wetlands, during high- and low-flow conditions initially and again in five years.

Based upon the results from two sampling rounds in 1991 (which showed the contaminant concentration to be below the site action levels) and an environmental assessment, coupled with the results of the RI/FS, it was determined that significant migration of contaminants from the BEC Trucking site is not occurring.

Following the completion of the sampling and an environmental assessment during the fifth year, EPA will evaluate the results and determine whether any additional monitoring is necessary.

Because the "No Further Action" remedy does not result in hazardous substances (attributable to on-site activities) remaining on-site above health-based levels, the five-year review does not apply.

Having met the deletion criteria, EPA proposes to delete this site from the NPL. EPA and the State have determined that the response actions are protective of human health and the environment.

Dated: August 10, 1992

Constantine Sidamon-Eristoff,
Regional Administrator.

BILLING CODE 5560-50-M

FEDERAL COMMUNICATIONS COMMISSION**47 CFR Part 73**

[MM Docket No. 92-109, RM-7966]

Radio Broadcasting Services; Carmel Valley, CA**AGENCY:** Federal Communications Commission.**ACTION:** Proposed rule; dismissal of.

SUMMARY: This document dismisses a petition for rule making filed by Eric R. Hilding on behalf of Joseph and Jan Miller requesting the allotment of Channel 290A to Carmel Valley, California as that community's first local FM service. See 57 FR 21369 (May 20, 1992). No expression of interest in the allotment was filed by any party, therefore no allotment will be made.

Radio Broadcasting Services; Lakewood, NY, and Clarendon, PA

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition filed by Robert Stevens seeking the allotment of Channel 295B1 to Lakewood, New York, as the community's first local FM transmission service, and the substitution of Channel 282A for unoccupied but applied-for Channel 295A at Clarendon, Pennsylvania. Channel 295B1 can be allotted to Lakewood in compliance with the Commission's minimum distance separation requirements with a site restriction of 10.1 kilometers (6.3 miles) south to avoid short-spacings to Stations WCTL, Channel 292A, Union City, Pennsylvania, and CILQ-FM, Channel 296C1, Toronto, Ontario, Canada, at coordinates North Latitude 42-00-54 and West Longitude 79-17-38. Channel 282A can be allotted to Clarendon with a site restriction of 4.1 kilometers (2.6 miles) west to avoid a short-spacing to Station WLMI, Channel 280A, Kane, Pennsylvania, at coordinates 41-47-21; 79-08-29. We note that Channel 282A can also be used at the site coordinates specified in the pending application for Channel 295A at Clarendon, which are 41-48-50; 79-10-04. Canadian concurrence in the allotments is required since both communities are located within 320 kilometers (200 miles) of the U.S.-Canadian border.

DATES: Comments must be filed on or before October 8, 1992, and reply comments on or before October 23, 1992.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Frederick A. Polner, Esq., Rothman Gordon Foreman & Groudine, P.C., Third Floor, Grant Building, Pittsburgh, Pennsylvania 15219 (Counsel to petitioner).

Class C Emergency Position Indicating Radio Beacons

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This Notice of Proposed Rule Making proposes to amend part 80 of the Commission's Rules to phase out the use of the Class C Emergency Position Indicating Radio Beacons (EPIRBs) after February 1, 1999. This action is in response to a request from the United States Coast Guard. Informing the maritime community now that the Commission intends to eliminate authorization of Class C EPIRBs by February 1, 1999, will allow for amortization of existing Class C EPIRBs and provide sufficient time for the marine public to obtain another type of EPIRB prior to the full implementation of the Global Maritime Distress and Safety System.

DATES: Comments must be received on or before September 21, 1992, and reply comments on or before October 6, 1992.

ADDRESSES: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT:

Roger S. Noel, Aviation and Marine Branch, Private Radio Bureau, Federal Communications Commission, 2025 M St. NW., Washington, DC 20554; or telephone (202) 632-7175.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, PR Docket No. 92-164, adopted July 22, 1992, and released August 10, 1992. The complete text of the Notice of Proposed Rule Making, including Appendices, is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington, DC. The full text also may be purchased from the Commission's copy contractor: Downtown Copy Center, (202) 452-1422, 1990 M Street, NW., suite 640, Washington, DC 20036. DCC's FAX number is (202) 296-3780.

Summary of Notice of Proposed Rule Making

1. The United States Coast Guard requests that the Commission amend its Maritime Services Rules (part 80) to eliminate authorization of Class C EPIRBs by February 1, 1999. EPIRBs are small, battery powered transmitters carried on ships for the purpose of sending a distress signal. Class C EPIRBs transmit distress signals on marine VHF channels 15 and 16 both as an alarm to alert others that a ship is in distress and as a beacon to aid in its location by search and rescue personnel. Because satellites do not monitor marine VHF channels 15 and 16, only nearby

ships and coast stations can receive their distress signal.

2. The Global Maritime Distress and Safety System (GMDSS), which will be fully implemented by February 1, 1999, changes the mandatory watch requirement for ships from marine VHF channel 16 to an automated watch on Digital Selective Calling (DSC) channel 70. The Coast Guard also intends to discontinue its watch on marine VHF channel 16 after February 1, 1999. This lack of monitoring by satellites, ocean going vessels and the Coast Guard will dramatically reduce the effectiveness and need for Class C EPIRBs during search and rescue operations. Informing the maritime community now that the Commission intends to eliminate authorization of Class C EPIRBs by February 1, 1999, will allow for amortization of existing Class C EPIRBs and provide sufficient time for the marine public to obtain another type of EPIRB prior to the full implementation of the GMDSS.

Procedural Matters

3. This is a non-restricted notice and comment rule making proceeding. *Ex Parte* presentations are permitted, except during the Sunshine Agenda period, provided they are disclosed as provided in Commission rules. See generally 47 CFR 1.1202, 1.1203, 1.1206(a).

4. Pursuant to applicable procedures set forth in §§ 1.415 and 1.419 of the Commission Rules, 47 CFR 1.415 and 1.419, interested parties may file comments on or before September 21, 1992, and reply comments on or before October 6, 1992. To file formally in this proceeding, you must file an original and five copies of all comments, reply comments, and supporting comments. If you want each Commissioner to receive a personal copy of your comments and reply comments, you must file an original plus nine copies. You should send comments and reply comments to the Office of the Secretary, Federal Communications Commission, Washington, DC 20554. Comments and reply comments will be available for public inspection during regular business hours in the Docket's Reference Room of the Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

5. We certify that the Regulatory Flexibility Act of 1980 does not apply to this rule making proceeding because if the proposed rule amendments are promulgated, there will not be a significant economic impact on a substantial number of small business entities, as defined by section 601(3) of the Regulatory Flexibility Act. The

changes proposed herein will have a beneficial effect on the maritime community by improving safety at sea. These changes will not have a significant economic impact on any entity. The Secretary shall send a copy of this Notice of Proposed Rule Making, including the certification, to the Chief Counsel for Advocacy of the Small Business Administration in accordance with paragraph 605(b) of the Regulatory Flexibility Act, Public Law 96-354, 94 Stat. 1164, 5 U.S.C. 601-612 (1980).

6. The proposal contained herein has been analyzed with respect to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501-3520, and found to contain no new or modified form, information collection and/or record retention requirements, and will not increase or decrease burden hours imposed on the public.

Proposed Rules

Part 80 of chapter I of title 47 of the Code of Federal Regulations is proposed to be amended as follows:

PART 80—STATIONS IN THE MARITIME SERVICES

1. The authority citation for part 80 continues to read as follows:

Authority: Secs. 4, 303, 48 Stat. 1066, 1082, as amended; 47 U.S.C. 154, 303, unless otherwise noted. Interpret or apply 48 Stat. 1064-1068, 1081-1105, as amended; 47 U.S.C. 151-155, 301-609, 3 UST 3450, 3 UST 4726, 12 UST 2377.

2. Section 80.15 is amended by revising paragraph (e)(1) introductory text to read as follows:

§ 80.15 Eligibility for station license.

(e) EPIRB stations. (1) New class C EPIRB stations will not be authorized after February 1, 1995. Class C EPIRB stations installed and licensed before February 1, 1995, will be authorized until February 1, 1999:

3. Section 80.205 is amended by revising the "G3N" entry in the table in paragraph (a) in order to add a new footnote 13 to read as follows:

§ 80.205 Bandwidths.

(a) * * *

G3N¹³

* * * * *

Class C EPIRB stations will not be authorized after February 1, 1999.

4. Section 80.207 is amended by revising the "156.750 and 156.800 MHz" entry in the table in paragraph (d) in order to add a new footnote 13 to read as follows:

§ 80.207 Classes of emission.

(d) * * *
156.750 and 156.800 MHz ¹³

¹³ Class C EPIRB stations will not be authorized after February 1, 1999.

5. Section 80.209 is amended by revising the "Operating on 156.750 and 156.800 MHz" entry in the table in paragraph (a)(5)(iv) to read as follows in order to add a new footnote 6.

§ 80.209 Transmitter frequency tolerance.

(a) * * *

(5) * * *

(iv) * * *

Operating on 156.750 and 156.800 MHz ⁶

⁶ Class C EPIRB stations will not be authorized after February 1, 1999.

6. Section 80.1057 is amended by adding introductory text to read as follows:

§ 80.1057 Special requirements for Class C EPIRB stations.

Class C EPIRBs shall not be manufactured, imported or sold in the United States after February 1, 1995. Class C EPIRB stations installed on board vessels before February 1, 1995, will be authorized until February 1, 1999.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

Meeting of the Board

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Notice of meeting.

SUMMARY: The Architectural and Transportation Barriers Compliance Board has scheduled its regular business meetings to take place in Washington, DC on Tuesday and Wednesday, September 8-9, 1992 at the times and location noted below.

DATES: The schedule of events is as follows:

Tuesday, September 8, 1992, 1:30-4:30 pm, Executive Committee.

Wednesday September 9, 1992, 9-10:30 am, Technical Programs Committee.

10:30-12:30 pm, Planning and Budget Committee.

2-4:30 pm, Board Meeting.

ADDRESSES: The meetings will be held at: Holiday Inn Crowne Plaza, Metro Center, Salon A, 775 12th Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: For further information regarding the meetings, please contact Lawrence W. Roffee, Executive Director, (202) 272-5434 ext. 13.

SUPPLEMENTARY INFORMATION:

At its business meeting, the Board will consider the following agenda items:

- Approval of the Minutes of the July 15, 1992 Board Meeting.
- Executive Director's Report.
- Committee Reports.
- Report on Use of Extraordinary Work.
- Directive on Administrative Communications System.
- New Standards of Ethical Conduct for Employees of the Executive Branch.
- Complaint Status Report.
- Status of Technical Program Projects.

- Letter to the Department of Justice on AT&T Text Telephones.

- Technical Program Priorities for FY 1993 Research Projects.

- Fiscal Year 1992 Budget Reprogramming (closed).

- Fiscal Year 1993 Programming (closed).

- Title II Notice of Proposed Rulemaking Status (closed).

- Vehicle Door Height petition (closed).

International Mass Retail Association petition on Detectable Warnings (closed).

Transit Agencies' on Detectable Warnings and Communications in Key Stations (closed).

- Elections of Officers (closed).

Some meetings or items may be closed to the public as indicated above. All meetings are accessible to persons with disabilities. Sign language interpreters and an assistive listening system are available at all meetings.

Lawrence W. Roffee,

Executive Director.

DEPARTMENT OF COMMERCE

Bureau of Export Administration

Sensors Technical Advisory Committee; Closed Meeting

A meeting of the Sensors Technical Advisory Committee will be held September 15, 1992, 9 a.m., in the Herbert C. Hoover Building, room 1617M(2), 14th Street & Pennsylvania Avenue, NW., Washington, DC. The Committee advises the Office of Technology and Policy Analysis with respect to technical questions that affect the level of export controls applicable to sensors and related equipment and technology.

The Committee will meet only in Executive Session to discuss matters properly classified under Executive Order 12356, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The Assistant Secretary for Administration, with the concurrence of the General Counsel, formally determined on February 5, 1992, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, that the series of meetings of the

Committee and of any Subcommittees thereof, dealing with the classified materials listed in 5 U.S.C., 552b(c)(1) shall be exempt from the provisions relating to public meetings found in section 10(a)(1) and (a)(3), of the Federal Advisory Committee Act. The remaining series of meetings or portions thereof will be open to the public.

A copy of the Notice of Determination to close meetings or portions of meetings of the Committee is available for public inspection and copying in the Central Reference and Records Inspection Facility, room 6628, U.S. Department of Commerce, Washington, DC 20230. For further information, contact Lee Ann Carpenter on (202) 377-2583.

Dated: August 17, 1992.

Betty Anne Ferrell,

Director, Technical Advisory Committee Staff.

BILLING CODE 3510-DT-M

Foreign-Trade Zones Board

[Board Order No. 593]

Approval for Export Manufacturing Activity (Personal Computers) Within Foreign-Trade Zone 45; Portland, OR

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u) (the Act), and the Foreign-Trade Zones Board Regulations (15 CFR part 400), the Foreign-Trade Zones Board (the Board) adopts the following order:

Whereas, pursuant to § 400.28(a)(2) of the Board's regulations, approval of the Board is required prior to commencement of new manufacturing/processing activity within existing zone facilities;

Whereas, pursuant to § 400.32(b)(1), the Commerce Department's Assistant Secretary for Import Administration has authority to act for the Board in making such decisions on new manufacturing/processing activity under certain circumstances, including situations where the proposed activity is for export only (§ 400.32(b)(1)(ii));

Whereas, the Port of Portland, grantee of FTZ 45, has made application (filed 7-20-92, A(32b1)-6-92; Doc. 27-92, 8-7-92) to the Board on behalf of Telecomp Computer Technologies, Inc., for authority to manufacture personal

computers for export under zone procedures within FTZ 45, Portland, Oregon;

Whereas, the FTZ Staff has reviewed the proposal and finds that the criteria for processing the proposal under § 400.32(b)(1) are met and that, upon consideration of the criteria enumerated in § 400.31(b), the proposal is deemed to be in the public interest;

Whereas, based on the foregoing review and pursuant to § 400.32(b)(1), the Executive Secretary recommends approval of the proposal;

Now, therefore, the Assistant Secretary for Import Administration, acting for the Board pursuant to § 400.32(b)(1), concurs in the recommendation and hereby approves the request for authority to manufacture personal computers for export under zone procedures at the Telecomp Computer Technologies, Inc., plant within FTZ 45, Portland, Oregon, subject to the Act and the Board's Regulations (as revised, 56 FR 50790-50808, 10/8/91), including § 400.28.

Signed at Washington, DC this 13th day of August, 1992, pursuant to Order of the Board.
Alan M. Dunn,

Assistant Secretary of Commerce for Import Administration, Chairman, Committee of Alternates, Foreign-Trade Zones Board.

Attest: Dennis Puccinelli,
(Acting) Executive Secretary.

[FR Doc. 92-20072 Filed 8-21-92; 8:45 am]

BILLING CODE 3510-DS-M

[Docket No. 26-92]

Foreign-Trade Zone 41—Milwaukee, WI; Request for Manufacturing Authority (Children's Books)

A request has been submitted to the Foreign-Trade Zones (FTZ) Board pursuant to § 400.32(b)(2) of the Board's regulations for approval of zone manufacturing authority within FTZ 41 by the Foreign Trade Zone of Wisconsin, Ltd., grantee of FTZ 41. It was formally filed on August 6, 1992.

The proposed zone manufacturing operation would involve the attachment of electronic touch sound pads to children's books by Western Publishing Company, Inc. The sound pad is sourced abroad, and the books are printed in the United States. The items would be assembled at Western's assembly facility within FTZ 41, Site 2, West Allis, Wisconsin, some seven miles west of Milwaukee. The finished product with sound device would be classified as a book.

Zone procedures would exempt Western Publishing from payment of Customs duties on foreign merchandise

that is used in products made for export. On its domestic sales, zone procedures would allow the company to choose the duty-free rate that applies to books. The duty rate on the sound pads (classified as electrical machines and apparatus) is 3.9 percent.

Public comment on the proposal is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 23, 1992.

A copy of the application and accompanying exhibits will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, room 3716, 14th Street and Pennsylvania Avenue, NW., Washington, DC 20230.

Dated: August 17, 1992.

Dennis Puccinelli,

Acting Executive Secretary.

BILLING CODE 3510-DS-M

International Trade Administration

President's Export Council: Meeting of the President's Export Council

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of open meeting.

SUMMARY: The President's Export Council (PEC) is holding an open meeting to discuss current trade issues and future projects. Agenda items will include NAFTA, export promotion resources and programs, and export control issues. The President's Export Council was established on December 20, 1973, and reconstituted May 4, 1979, to advise the President on matters relating to U.S. export trade.

DATES: September 10, 1992, from 10 a.m.-12:30 p.m.

ADDRESSES: J.W. Marriott Hotel, Salon I, Grand Ballroom, 1331 Pennsylvania Ave., NW., 20004. Seating is limited and will be on a first come, first serve basis.

FOR FURTHER INFORMATION CONTACT: Ms. Tiffany Smith, President's Export Council, Room 3215, Washington, DC 20230.

Dated: August 17, 1992.

Wendy H. Smith,

Director, President's Export Council.

BILLING CODE 3510-DR-M

United States-Canada Free-Trade Agreement, Article 1904 Binational Panel Reviews; Decision of Panel

AGENCY: United States-Canada Free-Trade Agreement, Binational Secretariat, United States Section International Trade Administration, Department of Commerce.

ACTION: Notice of Decision of Panel in the binational panel review of the final determination of dumping made by the Deputy Minister for National Revenue for Customs and Excise (Revenue Canada) respecting Certain Beer Originating In or Exported From the United States of America by G. Heilemann Brewing Company, Inc., Pabst Brewing Company and The Stroh Brewery Company For Use and Consumption in the Province of British Columbia (Secretariat File No. CDA-91-1904-01).

SUMMARY: By a decision dated August 6, 1992, the Binational Panel affirmed in part and remanded in part the final determination of dumping made by Revenue Canada respecting Certain Beer Originating In or Exported From the United States of America by G. Heilemann Brewing Company, Inc., Pabst Brewing Company and The Stroh Brewery Company for Use and Consumption in the Province of British Columbia published in the Canada Gazette part I on September 21, 1991 (Vol. 125, No. 38). A copy of the complete Panel decision is available from the Binational Secretariat.

FOR FURTHER INFORMATION CONTACT: James R. Holbein, United States Secretary, Binational Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 377-5438.

SUPPLEMENTARY INFORMATION: Chapter 19 of the United States-Canada Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from the other country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under article 1904 of the Agreement, which came into force on January 1, 1989, the Government of the United States and the Government of Canada established Rules of Procedure for Article 1904 Binational Panel Reviews

("Rules"). These Rules were published in the **Federal Register** on December 30, 1988 (53 FR 53212). The Rules were amended by Amendments to the Rules of Procedure for article 1904 Binational Panel Reviews, published in the **Federal Register** on December 27, 1989 (54 FR 53165). The panel review in this matter was conducted in accordance with these Rules.

BACKGROUND: Panel review was requested and complaints were filed by G. Heileman Brewing Company, Inc. (Heileman), The Stroh Brewery Company (Stroh), and Labatt Breweries of British Columbia, Molson Breweries (B.C.), and Pacific Western Brewing Companies (B.C. Brewers) to contest Revenue Canada's final determination of dumping. The Binational Panel had jurisdiction over the action pursuant to article 1904(2) of the Canada-United States Free-Trade Agreement and § 77.15 of the Special Import Measures Act, Revised Statutes of Canada 1985, Chapter S-15, as amended (SIMA). The products under review were imports of beer from the U.S. by or on behalf of Heileman, Stroh and Pabst Brewing Company (Pabst).

Complainant, Heileman, argued that Revenue Canada erred in the following respects:

(1) In finding that the domestic and exported beer, which is physically identical and sold under the same brand name in the same packaging configuration, are "identical in all respects" within the meaning of the like goods definition;

(2) In determining the preponderant price of the like goods sold in the four-by-six packaging configuration by reference to sales of twelve-ounce cans sold in other configurations;

(3) In failing to make adjustments for promotional activities performed in both the home and export markets and in failing to adjust for differences in general and administrative expenses in the home and export markets; and

(4) In finding that all twelve-ounce Rainier bottle sales were unprofitable and in using the profit earned on Rainier beer in cans and forty-ounce bottles to calculate profit for the unprofitable bottle sales.

Complainant, Stroh, argued that Revenue Canada erred in including certain interest expenses in the calculation of its cost of production.

Complainants, B.C. Brewers, argued that Revenue Canada erred in the following respects:

(1) In making downward adjustments to normal values calculated for Heileman, Pabst and Stroh pursuant to Regulation 6 of SIMA;

(2) In failing to deduct commissions from Pabst's export price; and

(3) In failing properly to calculate Pabst's freight deduction and in failing to deduct from Pabst's export price the cost of returning the pallets to Pabst's brewery.

PANEL DECISION: The Panel remanded to Revenue Canada, with instructions, that aspect of the final determination concerning the determination of a preponderant price for Heileman's sales in the home market. The Panel also remanded, with instructions, that aspect of the final determination concerning the inclusion of interest expenses in the calculation of Stroh's cost of production. The Panel affirmed all other aspects of Revenue Canada's final determination at issue before the Panel.

Revenue Canada was instructed to provide a determination on remand to the Panel within 45 days of the issuance of the decision (by no later than September 21, 1992).

Dated: August 13, 1992.

James R. Holbein,

United States Secretary, FTA Binational Secretariat.

BILLING CODE 3510-GT-M

United States-Canada Free-Trade Agreement, Article 1904 Binational Panel Reviews; Request for Panel Review

AGENCY: United States-Canada Free-Trade Agreement, Binational Secretariat, United States Section, International Trade Administration, Department of Commerce.

ACTION: Notice of First Request for Panel Review of Final Affirmative Antidumping Duty Determination made by the Department of Commerce, International Trade Administration, Import Administration, respecting Pure Magnesium and Alloy Magnesium from Canada, filed by Norsk Hydro Canada, Inc. with the United States Section of the Binational Secretariat on August 10, 1992.

SUMMARY: On August 10, 1992, Norsk Hydro Canada, Inc. filed a Request for Panel Review with the United States Section of the Binational Secretariat pursuant to article 1904 of the United States-Canada Free-Trade Agreement. Panel review was requested of the Final Affirmative Antidumping Duty Determination respecting Pure Magnesium and Alloy Magnesium from Canada made by the International Trade Administration, Import Administration, Import Administration File Number A-122-814, which was

published in the **Federal Register** on July 13, 1992, (57 FR 30939). The Binational Secretariat has assigned Case Number USA-92-1904-04 to this Request.

FOR FURTHER INFORMATION CONTACT:

James R. Holbein, United States Secretary, Binational Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 377-5438.

SUPPLEMENTARY INFORMATION: Chapter 19 of the United States-Canada Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from the other country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under article 1904 of the Agreement, which came into force on January 1, 1989, the Government of the United States and the Government of Canada established Rules of Procedure for Article 1904 Binational Panel Reviews ("Rules"). These Rules were published in the **Federal Register** on December 30, 1988 (53 FR 53212). The Rules were amended by Amendments to the Rules of Procedure for article 1904 Binational Panel Reviews, published in the **Federal Register** on December 27, 1989 (54 FR 53165). The Rules were further amended and a consolidated version of the amended Rules was published in the **Federal Register** on June 15, 1992 (57 FR 26698). The panel review in this matter will be conducted in accordance with these Rules.

Rule 35(2) requires the Secretary of the responsible Section of the FTA Binational Secretariat to publish a notice that a first Request for Panel Review has been received. A first Request for Panel Review was filed with the United States Section of the Binational Secretariat, pursuant to article 1904 of the Agreement, on August 10, 1992, requesting panel review of the final determination described above.

Rule 35(1)(c) of the Rules provides that:

(a) A Party or interested person may challenge the final determination in whole or in part by filing a Complaint in accordance with Rule 39 within 30 days after the filing of the first Request for Panel Review (the deadline for filing a Complaint is September 9, 1992);

(b) A Party, an investigating authority or any interested person that does not file a Complaint may participate in the panel review by filing a Notice of Appearance in accordance with Rule 40 within 45 days after the filing of the first Request for Panel Review (the deadline for filing a Notice of Appearance is September 24, 1992); and

(c) The panel review shall be limited to the allegations of error of fact or law, including the jurisdiction of the investigating authority, that are set out in the Complaints filed in the panel review and the procedural and substantive defenses raised in the panel review.

Dated: August 13, 1992.

James R. Holbein,

United States Secretary, FTA Binational Secretariat.

BILLING CODE 3510-GT-M

National Oceanic and Atmospheric Administration

Pacific Fishery Management Council; Statement of Organization, Practices and Procedures

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of revision to statement of organization, practices and procedures.

SUMMARY: Pursuant to section 302(f)(6) of the Magnuson Fishery Conservation and Management Act (Magnuson Act), 16 U.S.C. 1801 *et seq.*, each Regional Fishery Management Council (Council) is responsible for carrying out its functions under the Magnuson Act, in accordance with such uniform standards as are prescribed by the Secretary of Commerce (Secretary). Further, each Council must make available to the public a statement of its organization, practices and procedures (SOPP).

On January 6, 1992, NOAA published in the *Federal Register* (57 FR 375) a final rule that revised the regulations (50 CFR parts 601 and 605) and guidelines concerning the operations of the Councils under the Magnuson Act. The final rule, effective February 5, 1992, implemented parts of sections 108 and 109 of Public Law 101-627, the Fishery Conservation Amendments of 1990, which amended and reauthorized the Magnuson Act through September 30, 1993.

In accordance with the above-mentioned final rule, the Pacific Fishery Management Council (Pacific Council) has revised its SOPP, which was originally published in the *Federal*

Register on February 15, 1984 (49 FR 5807). Interested parties may obtain a copy of the Pacific Council's revised SOPP by contacting Lawrence D. Six, Executive Director, Pacific Fishery Management Council, 200 SW. First Avenue, suite 420, Portland, OR 97201; telephone: (503) 326-6352.

Dated: August 18, 1992.

Richard H. Schaefer,

Director of Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcement of Import Restraint Limits for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Mauritius

August 18, 1992.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing limits for the new agreement year.

EFFECTIVE DATE: October 1, 1992.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927-5850. For information on embargoes and quota re-openings, call (202) 377-3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The Governments of the United States and Mauritius agreed to extend their current bilateral agreement through September 30, 1993.

A copy of the current bilateral agreement is available from the Textiles Division, Bureau of Economic and Business Affairs, U.S. Department of State (202) 647-3889.

A description of the textile and apparel categories in terms of HTS numbers is available in the **CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States** (see

Federal Register notice 56 FR 60101, published on November 27, 1991).

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

August 18, 1992.

Commissioner of Customs,

Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); pursuant to the Bilateral Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textile Agreement, effected by exchange of notes dated June 3 and 4, 1985, as amended and extended, between the Governments of the United States and Mauritius; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on October 1, 1992, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products in the following categories, produced or manufactured in Mauritius and exported during the twelve-month period beginning on October 1, 1992 and extending through September 30, 1993, in excess of the following levels of restraint:

Category	Twelve-month restraint limit
Knit group 345, 438, 445, 446, 645 and 646, as a group. Levels not in a group	124,529 dozen.
237.....	160,587 dozen.
331.....	425,555 dozen pairs.
335/835.....	63,834 dozen.
336.....	75,117 dozen.
338/339.....	300,726 dozen.
340/640.....	481,899 dozen of which not more than 297,916 dozen shall be in Cate- gories 340-Y/640-Y ¹ .
341/641.....	339,025 dozen.
342/642/842.....	220,808 dozen.
347/348.....	602,871 dozen.
351/651.....	148,877 dozen.
352/652.....	1,262,477 dozen of which not more than 1,073,106 dozen shall be in Category 352.
442.....	11,233 dozen.
604-A ²	311,792 kilograms.
638/639.....	345,836 dozen.
647/648/847.....	496,482 dozen.

¹ Category 340-Y: only HTS numbers 6205.20.2015, 6205.20.2020, 6205.20.2046, 6205.20.2050 and 6205.20.2060; Category 640-Y:

only HTS numbers 6205.30.2010, 6205.30.2020, 6205.30.2050 and 6205.30.2060.
 * Category 604-A: only HTS number 5509.32.0000.

Imports charged to these category limits for the period October 1, 1991 through September 30, 1992 shall be charged against those levels of restraint to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive.

The limits set forth above are subject to adjustment in the future pursuant to the provisions of the current bilateral agreement between the Governments of the United States and Mauritius.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 92-20210 Filed 8-21-92; 8:45 am]

BILLING CODE 3510-DR-F

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List; Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to procurement list.

SUMMARY: This action adds to the Procurement List a service to be furnished by a nonprofit agency employing persons who are blind or have other severe disabilities.

EFFECTIVE DATE: September 21, 1992.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 3, suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3509.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557-1145.

SUPPLEMENTARY INFORMATION: On February 14, 1992, the Committee for Purchase from the Blind and Other Severely Handicapped published notice (57 F.R. 5420) of a proposed addition to the Procurement List. Comments were received from the current contractor for this service in response to a request from the Committee for sales data in conjunction with the proposed addition to the Procurement List of a much larger janitorial/custodial contract for which

the firm was also the current contractor. The contractor opposed that action on the basis that his firm had just taken over the contract, had expended extra resources in cleaning it to standards, and had counted on recouping the extra resources by competing for and obtaining the contract for a longer period of time when it was resolicited in early 1993.

In addition, the contractor provided information indicating several of his current Government contracts were expiring and that his firm would lose the opportunity to compete to retain two of them because they were going to be offered to 8(a) firms. He said that adding the contract in question to the Procurement List would almost put the firm out of business. In closing, the contractor suggested that the Committee put persons with disabilities to work for current Federal contractors, noting that he was always looking for qualified people.

Because adding the larger contract on which the contractor commented to the Procurement List might have a severe adverse impact on the firm's business, the Committee is not at this time taking such action. The addition of the considerably smaller contract covered by this action will not in the Committee's judgement result in severe adverse impact on the contractor. In reaching this conclusion, the Committee considered sales data provided by the contractor and contract information provided by the General Services Administration, which has a number of contracts with the firm.

The Committee also took into account the strong likelihood that in the absence of action by the Committee to add this contract to the Procurement List, it would have been set-aside for provision by an 8(a) firm under the Small Business Administration's 8(a) Program. If this had occurred, the current contractor would not have the opportunity to compete for the contract in the future, and the Committee's action could not be regarded as having had any impact on the firm.

With respect to the contractor's suggestion that the Committee act to place qualified persons with disabilities on the workforces of current contractors, the Committee has no authority to implement such a suggestion. Moreover, the individuals with severe disabilities who work on contracts added to the Procurement List are not, by definition, ready to assume jobs in the competitive marketplace. The Committee also believes that the suggested approach would not necessarily achieve a primary goal of its program, which is to provide stable

employment for people with severe disabilities, since private contractors are not guaranteed future contracts.

After consideration of the material presented to it concerning the capability of a qualified nonprofit agency to provide the service, fair market price, and the impact of the addition on the current or most recent contractor, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.6.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the service to the Government.

2. The action will not have a severe economic impact on current contractors for the service.

3. The action will result in authorizing small entities to furnish the service to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for addition to the Procurement List.

Accordingly, the following service is hereby added to the Procurement List:

Janitorial/Custodial

Federal Building (Terminal Annex Building), 207 S. Houston, Dallas, Texas.

This action does not affect contracts awarded prior to the effective date of this addition or options exercised under those contracts.

E.R. Alley, Jr.,

Deputy Executive Director.

[FR Doc. 92-20063 Filed 8-21-92; 8:45 am]

BILLING CODE 6820-33-M

DEPARTMENT OF DEFENSE

Department of the Army

Office of the Secretary of the Army; Environmental Assessment for Realignment Actions at Anniston Army Depot, AL

AGENCY: Department of Defense, United States Army.

ACTION: Finding of No significant impact.

SUMMARY: The proposed action is to implement the Defense Base Closure Commission's decision to realign the electro-optics/night vision maintenance workload from Sacramento Army Depot, California to Anniston Army Depot (ANAD), Alabama and the missile maintenance workload from ANAD to Letterkenny Army Depot, Chambersburg, Pennsylvania and the U.S. Army's initiative to transfer the tank maintenance workload from Mainz Army Depot to ANAD.

The realignment of the electro-optics/night vision maintenance workload is the subject of public-to-public competition between ANAD and the Sacramento Air Logistics Center at McClellan Air Force Base in California. The overall effect of these realignments would be a net increase of approximately 14 positions at ANAD.

Four alternatives were considered in the Environmental Assessment (EA). In the Preferred Alternative, ANAD is successful in winning the competition for realignment of the electro-optics/night vision maintenance workload, and the timing of the transfer of the missile maintenance workload to Letterkenny Army Depot is such that the missile maintenance functions have vacated facilities at ANAD before the electro-optics/night vision maintenance workload arrives. Tank maintenance transfers independently from Mainz Army Depot to ANAD in 1993. Alternative 1, modified timing, is the same as the Preferred Alternative except that the timing of the transfer of the missile maintenance workload is such that it would be performed concurrently with the electro-optics/night vision maintenance workload at ANAD for a period of time. Alternative 2 differs from the Preferred Alternative in that ANAD is not successful in winning the competition for realignment of the electro-optics/night vision maintenance workload. Alternative 3 is the No-Action alternative. The No-Action Alternative provides a baseline against which the proposed action can be compared.

None of the alternatives would require building construction at ANAD, and, with the exception of utility extensions, none require renovations external to the buildings. The tank maintenance workload to be transferred to ANAD consists of the same types of activities as the tank maintenance work already conducted at ANAD and would be accommodated by existing facilities. The electro-optics/night vision maintenance workload would also be accommodated by existing facilities.

The addition of electro-optics/night vision maintenance workload and the increase in tank maintenance workload

would result in a subsequent increase in air emissions, noise, hazardous waste generation, and chance for disturbing soils, surface water and contaminated groundwater. However, these effects would be insignificant, and would be decreased following the transfer of missile maintenance from ANAD to Letterkenny Army Depot. The proposed realignments are also expected to have an insignificant effect on housing, and the quality of life. Biological, physical and cultural resources such as native vegetation, wildlife, including threatened and endangered species, historic structures, and archeological sites would not be affected by this action.

Based on the environmental impact analyses found in the EA, which is hereby incorporated into this Finding of No Significant Impact (FNSI), it has been determined that implementation of the proposed action would not have significant individual or cumulative impacts on the quality of the natural or human environment. Because there would be no significant environmental impacts resulting from implementation of the proposed action, an Environmental Impact Statement is not required and will not be prepared.

DATES: Comments must be received on or before September 23, 1992.

ADDRESSES: Persons wishing to comment may obtain a copy of the EA or inquire into this FNSI by writing to the U.S. Army Corps of Engineers, Mobile District, ATTN: CESAM-PD-ER, P.O. Box 2288, Mobile, AL 36628.

FOR FURTHER INFORMATION: Questions regarding this FNSI may be directed to Dr. Neil Robison at (205) 694-4112.

Dated: August 17, 1992.

Lewis D. Walker,

Deputy Assistant Secretary of the Army,
(Environment, Safety & Occupational Health),
OASA (IL&E).

[FR Doc. 92-20139 Filed 8-21-92; 8:45 am]

BILLING CODE 3710-08-M

**Office of the Secretary of the Army;
Environmental Assessment for
Realignment Actions at Letterkenny
Army Depot, PA**

AGENCY: Department of Defense, United States Army.

ACTION: Finding of no significant impact.

SUMMARY: The proposed action implements the Defense Base Closure Commission's decision to realign administrative and maintenance workloads at Letterkenny Army Depot (LEAD). The administrative realignments involve the transfer of

Headquarters, U.S. Army Depot System Command (DESCOM) and the Systems Integration and Management Activity (SIMA) from LEAD to Rock Island Arsenal.

Maintenance realignments, including all applicable secondary items, subassemblies and peripherals, are occurring to consolidate workloads among Army depots. These realignments involve the following:

- The transfer of tactical missile maintenance workloads from contractor facilities, Anniston Army Depot, Tobyhanna Army Depot (AN/TSQ-73 Air Defense Command and Control System), Red River Army Depot, and Navy and Air Force facilities to LEAD.
- The realignment of the Firefinder Radar maintenance workload from Sacramento Army Depot (SAAD) to LEAD. The workload realignment from SAAD is subject to competition between LEAD and the Sacramento Air Logistics Center.
- The realignment of the tactical vehicle maintenance workload from LEAD to Tooele Army Depot, and the realignment of the self-propelled and towed artillery maintenance workload from LEAD to Red River Army Depot.

The overall effect of these realignments would be a net loss of approximately 52 civilian and 39 military work-years at LEAD.

Alternatives considered in the Environmental Assessment (EA) include the following:

- The Preferred Alternative, which would transfer the artillery and vehicle workloads from LEAD by 1994, phase the incoming missile maintenance workload over a 5-year period, and result in successful competition for the Firefinder Radar maintenance workload;
- Alternative 1, which differs from the Preferred Alternative in that the artillery and vehicle workloads begin to leave LEAD in 1995, after the arrival of much of the incoming missile maintenance workload;
- Alternative 2, which would be the same as the Preferred Alternative, except that LEAD would be unsuccessful in winning the competition for the Firefinder Radar maintenance workload;
- Alternative 3, the No-Action Alternative, which provides the baseline at LEAD against which the other alternatives can be compared.

None of the alternatives would require building construction at LEAD, and with the exception of utility extensions, none would require renovations external to

the buildings. There are internal renovations to existing buildings. The workload to be transferred to LEAD is the same or similar to maintenance work already conducted at LEAD. Although the overall result will be a small decrease in positions at the installation, the maintenance workload will increase. This increase would affect water and energy use, waste water flows, air emissions, and municipal solid and hazardous waste generation. Neither the resources used or waste streams produced would have a significant impact on the environment. Biological, physical, and cultural resources would not be affected by this action since existing buildings to be renovated and used for maintenance activities are located in developed or otherwise disturbed areas.

The proposed realignments are expected to have an insignificant effect on the socioeconomic environment, including total sales, employment, population and income. Although Headquarters DESCOM/SIMA employees may have difficulties in finding positions elsewhere at LEAD, the impact will not be significant, and the effect will be minimized by assisting in job relocation and training, as appropriate.

Based on the environmental impact analyses found in the EA, which is hereby incorporated into the Finding of No Significant Impact (FNSI), it has been determined that implementation of the proposed action would not have significant individual or cumulative impacts on the quality of the natural or human environment. Because there would be no significant environmental impacts resulting from implementation of the proposed action, an Environmental Impact Statement is not required and will not be prepared.

DATES: Comments must be received on or before September 23, 1992.

ADDRESSES: Persons wishing to comment may obtain a copy of the EA or inquire into this FNSI by writing to the U.S. Army Corps of Engineers, Baltimore District, ATTN: CENAB-PL-E (Mr. Larry Eastman), P.O. Box 1715, Baltimore, Maryland 21203-1715.

FOR FURTHER INFORMATION CONTACT: Questions regarding this FNSI may be directed to Mr. Larry Eastman by calling (410) 962-4938.

Dated: August 17, 1992.

CONUS Automated Rate System (CARTS); Proposed Changes

AGENCY: Military Traffic Management Command, DOD.

ACTION: Notice of extension to comment period.

SUMMARY: This advises extension of comment period for the proposed changes to the CONUS Automated Rate System (CARTS). The changes were identified in the *Federal Register* (57 FR 28842) June 29, 1992. Subject was "Military Traffic Management Command, Directorate of Personal Property, CONUS Automated Rate System (CARTS): Proposed changes."

DATES: Comments must be received not later than October 1, 1992.

ADDRESSES: Comments may be mailed to Headquarters, Military Traffic Management Command, ATTN: MTPP-CD, room 408, 5611 Columbia Pike-Falls Church, VA 22041-5050.

FOR FURTHER INFORMATION CONTACT: Janet Nemier (703) 756-1190, Military Traffic Management Command, ATTN: MTPP-CD, room 408, 5611 Columbia Pike, Falls Church, VA 22041-5050.

DEPARTMENT OF EDUCATION

National Assessment Governing Board; Closed and Partially Closed Teleconference Meetings

SUMMARY: This notice sets forth the schedule and proposed agenda of forthcoming teleconference meetings of the National Assessment Governing Board and three of its committees, Subject Area Committee #1, Achievement Levels Committee, and the Executive Committee. This notice also describes the functions of the Board. Notice of this meeting is required under section 10 (a)(2) of the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend the open meeting and the open portion of the partially closed teleconference meeting.

DATES: September 3, 9, 23, and 29, 1992.

TIME: September 3, 1992—Subject Area Committee #1, 11 a.m.—noon, (open); September 9, 1992—Achievement Levels—11 a.m. to 1 p.m. (closed); September 23, 1992—Executive Committee—11 a.m. to 11:30 a.m. (open), 11:30 a.m.—1 p.m. (closed); September 29, 1992—Full Board—11 a.m.—1 p.m. (closed).

LOCATION: National Assessment Governing Board, suite 825, 800 North Capitol Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mary Ann Wilmer, Operations Officer, National Assessment Governing Board, suite 825, 800 North Capitol Street, NW., Washington, DC, 20002-4233, Telephone: (202) 357-6938.

SUPPLEMENTARY INFORMATION: The National Assessment Governing Board is established under section 406(i) of the General Education Provisions Act (GEPA) as amended by section 3403 of the National Assessment of Educational Progress Improvement Act (NAEP Improvement Act), title III-C of the Augustus F. Hawkins—Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (Pub. L. 100-297), (20 U.S.C. 1221e-1).

The Board is established to formulate policy guidelines for the National Assessment of Educational Progress. The Board is responsible for selecting subject areas to be assessed, developing assessment objectives, identifying appropriate achievement goals for each grade and subject tested, and establishing standards and procedures for interstate and national comparisons.

On September 3, 1992, the Subject Area Committee #1 will meet via teleconference from 11 a.m. to noon. In this meeting the Committee will take final action on the U.S. History and geography items developed for the 1993 field test in preparation for the assessment in 1994. This meeting will be open to the public.

On September 9, 1992, the Achievement Levels Committee will meet via teleconference from 11 a.m. until 1 p.m. This meeting will be closed to the public to permit the Committee to continue their review of preliminary, unreleased data from the 1992 math assessment. Upon the completion of the review of these data, the Committee will formulate a recommendation for action by the Executive Committee. The discussion will include references to specific items from the assessment, the disclosure of which would significantly frustrate implementation of the NAEP. The results of the assessment must be presented in closed session because reference may be made to data which may be incorrect, incomplete, or misinterpreted. Premature disclosure of these data might significantly frustrate implementation of a proposed agency action. Such matters are protected by exemption 9(B) of section 552(b) of title 5 U.S.C.

On September 23, 1992, the Executive Committee will meet via telephone conference in open session from 11 a.m. until 11:30 a.m. to discuss the status of the budget request for fiscal years 1993 and 1994 and to act on policies to implement the memorandum of understanding recently signed by the Board and the Secretary. Beginning at 11:30 a.m., the meeting will close to the public because the Committee will review the recommendations from the Achievement Levels Committee regarding the setting of "cut scores" for the 1992 math assessment. The Committee will discuss these recommendations and, if appropriate, take final action. Otherwise, the Committee will formulate a recommendation for action for the full Board. This portion of the Executive Committee meeting (11:30 a.m. to 1 p.m.) will be closed to the public to permit the members to review preliminary, unreleased data from the 1992 math assessment. The discussion will include references to specific items from the assessment, the disclosure of which would significantly frustrate implementation of the NAEP. The results of the assessment must be presented in closed session because reference may be made to data which may be incorrect, incomplete, or misinterpreted. Premature disclosure of this data might significantly frustrate implementation of a proposed agency action. Such matters are protected by exemption 9(B) of section 552(b) of title 5 U.S.C. Telephonic devices and seating space will be available to permit the public to hear and participate in the open portions of the meetings.

The full Board will convene via telephone conference in closed session from 11 a.m. to 1 p.m. on September 29, 1992 to review the recommendation from the Achievement Levels and the Executive Committees and to take final action on this matter. The meeting will be closed to the public because the Board's deliberations will involve the review of preliminary unreleased data from the 1992 math assessment. The discussion will include references to specific items from the assessment, the disclosure of which would significantly frustrate implementation of the NAEP. The results of the assessment must be presented in closed session because reference may be made to data which may be incorrect, incomplete, or misinterpreted. Premature disclosure of this data might significantly frustrate implementation of a proposed agency action. Such matters are protected by exemption 9(B) of section 552(b) of title 5 U.S.C.

A summary of the activities at the closed sessions and related matters, which are informative to the public and consistent with the policy of 5 U.S.C. 552b, will be available to the public within fourteen days after the meeting.

Records are kept of all Board proceedings and are available for public inspection at the U.S. Department of Education, National Assessment Governing Board, suite 825, 800 North Capitol Street, NW., Washington, DC, from 8:30 a.m. to 5 p.m.

Dated: August 18, 1992.

Roy Truby,

Executive Director, National Assessment Governing Board.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

Final Consent Order With Robert J. Martin

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Final action on proposed consent order.

SUMMARY: The Department of Energy (DOE) has determined that a proposed Consent Order between the DOE and Robert J. Martin, which was published for public comment in 57 FR 30205 (July 8, 1992), shall be made final. The Consent Order resolves matters relating to Martin's compliance with the federal petroleum price and allocation regulations for the period August 19, 1973 through January 27, 1981. To resolve these matters, Martin will pay to the DOE the principal sum of \$560,000, plus interest from the effective date of the Consent Order, over three years. Following receipt of the settlement monies, ERA will petition the DOE's Office of Hearings and Appeals to implement Special Refund Procedures pursuant to 10 CFR part 205, subpart V, in which proceedings any persons who claim to have suffered injury from the alleged overcharges would have the opportunity to submit claims for payment.

FOR FURTHER INFORMATION CONTACT: Dorothy Hamid, Economic Regulatory Administration, Department of Energy, 820 First Street, NE., Suite 810, Washington, DC 20002, (202) 523-3045.

SUPPLEMENTAL INFORMATION:

- I. Introduction
- II. Comment Received
- III. Analysis of Comment
- IV. Decision

I. Introduction

On July 8, 1992, the DOE's Economic Regulatory Administration (ERA) issued a notice announcing a proposed Consent Order between DOE and Martin, which would resolve matters relating to Martin's compliance with the federal petroleum price and allocation regulations for the period August 19, 1973 through January 27, 1981. 57 FR 30205. Specifically, the July 8 Notice provided information regarding Martin's potential refund liability for alleged entitlements misreporting and circumvention violations arising from certain crude oil and processing agreement transactions at issue in a Proposed Remedial Order (PRO) issued January 31, 1990, to Martin and four others. The Notice also explained the considerations which underlay the ERA's preliminary view that the settlement is favorable to the government and in the public interest.

The Notice solicited written comment from the public relating to the terms and conditions of the settlement and whether the settlement should be made final. ERA received one written comment, which was considered in making the decision to issue the proposed Consent Order as a final Order.

II. Comment Received

The one comment received on the proposed Consent Order, submitted on behalf of a group of utilities, transporters and manufacturers (hereafter end users), addressed the adequacy of the information provided in the July 8 Notice concerning Martin's financial condition. Specifically, the end users contended that the July 8 Notice did not supply sufficient information in order to permit meaningful comment on the amount of the proposed settlement, and thus failed to comply with the requirements contained in 10 CFR 205.199.¹

III. Analysis of Comment

The DOE is required under 10 CFR 205.199(j)(c) to provide, "at a minimum," the following information in the Federal Register Notice:

The name of the company concerned, a brief summary of the Consent Order and other facts or allegations relevant thereto, the address and telephone number of the DOE

¹ Section 205.199 concerns the requirements for filing a motion for evidentiary hearing in PRO proceedings conducted before the Office of Hearings and Appeals. ERA assumes the end users intended to cite 10 CFR 205.199(j)(c), which governs the notice and public comment procedures applicable to proposed settlements of \$500,000 or more.

office at which copies of the Consent Order will be available free of charge, the address to which comments on the Consent Order will be received by the DOE, and the date by which such comment should be submitted

The July 8 Notice clearly met these regulatory requirements. Not only was a summary of the proposed settlement terms provided, but the complete text of the Consent Order was published as well. The matters to be resolved by the proposed Consent Order were specifically identified, and the bases for the DOE's preliminary agreement to the proposed settlement were explained.

Furthermore, the July 8 Notice stated that the proposed settlement amount to be paid by Martin was based on ability-to-pay considerations; and that after analysis of documents submitted to DOE by Martin reflecting his financial condition, "ERA * * * determined that Martin would not be able to satisfy a judgment in an amount approaching the potential maximum liability alleged in the PRO." 57 FR 30205.

Because Martin's financial information was provided to ERA on a confidential basis and for settlement purposes only, disclosure of those data would be contrary to the well-recognized confidentiality of the substance of settlement negotiations and would discourage parties from entering into settlement with DOE. ERA notes generally that Martin provided, subject to the penalty prescribed by 18 U.S.C. 1001 (false statements), financial data covering a period of ten years, such as, *inter alia*, personal income tax returns; partnership tax returns; a detailed financial statement; purchases, sales and transfers of real and personal property, including securities; listing of checks written for over \$500; jointly held property; statement of assets and liabilities; and notes, agreements, and other documentary support for the above information. In assessing Martin's ability to pay, ERA employed the percentage of net worth figures set forth in the Settlement Guidelines filed by DOE with the Federal Energy Regulatory Commission (FERC) in Docket Nos. RO86-6-000 *et al.* on January 27, and February 24, 1988.² Based on its analysis

of Martin's condition, ERA preliminarily agreed to the proposed settlement.

IV. Decision

Upon consideration of the written comment received and addressed above, and inasmuch as there are not other bases proffered for rejecting or modifying the settlement as proposed, the DOE has determined that it is in the best interest of the public to make the proposed Consent Order final without change. By this notice, and pursuant to 10 CFR 205.199j, the proposed Consent Order between DOE and Martin is made a final Order of the Department of Energy, effective on the date of publication of this notice in the Federal Register.

Issued in Washington, DC, on August 17, 1992.

Milton C. Lorenz,

Chief Counsel for Enforcement Litigation,
Economic Regulatory Administration.

Federal Energy Regulatory Commission

[Docket No. QF90-217-003]

Sumas Cogeneration Co., L.P.; Application for Commission Recertification of Qualifying Status of a Cogeneration Facility

August 18, 1992.

On August 13, 1992, Sumas Cogeneration Company L.P. of 17411 N.E. Union Hill Road, suite 290, Redmond, Washington 98052, submitted for filing an application for recertification of a facility as a qualifying cogeneration facility pursuant to § 292.207(b) of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located in the City of Sumas, Washington. The Commission previously certified the facility as a qualifying cogeneration facility, *Sumas Energy, Inc.*, 53 FERC ¶62,148 (1990). The instant request for recertification is due to change in ownership of the facility from Sumas Energy, Inc. to Sumas Cogeneration Company L.P., an increase in the net electric power production capacity to 122.9 MW and a change in the installation and operational date to March 1992 and May 1993 respectively.

Any person desiring to be heard or objecting to the granting of qualifying status should file a motion to intervene or protest with the Federal Energy

Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests must be filed within 30 days after the date of publication of this notice in the Federal Register and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. TQ92-5-1-001]

Alabama-Tennessee Natural Gas Co. Proposed PGA Rate Adjustment

August 18, 1992.

Take notice that on August 10, 1992, Alabama-Tennessee Natural Gas Company ("Alabama-Tennessee"), Post Office Box 918, Florence, Alabama 35631, tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheet with a proposed effective date of July 1, 1992:

Sub. 32nd Rev. Sheet No. 4

Alabama-Tennessee states that this filing is being made to comply with the Commission's Letter Order issued July 31, 1992 in the above-referenced proceeding. According to Alabama-Tennessee, Sub. 32nd Rev. Sheet No. 4 reflects the corrected summer total of the substitution charge component of Rate Schedule SG and the removal of Order No. 94 surcharge amounts as directed by the Commission. In addition, Alabama-Tennessee has attached various schedules showing the computation of certain adjustments as further required by the Commission.

Alabama-Tennessee has requested any waivers of the Commission's Regulations that may be necessary to permit the tariff sheet to become effective as proposed.

Alabama-Tennessee states that copies of the tariff filing have been mailed to all of its jurisdictional sales and transportation customers and affected state regulatory commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rule 211 of the Commission's Rules of Practice and Procedure 18 CFR

385.211. All such protests should be filed on or before August 25, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP91-123-004]

Canyon Creek Compression Co.; Changes in FERC Gas Tariff

August 18, 1992.

Take notice that on August 13, 1992, Canyon Creek Compression Company (Canyon) tendered for filing Second Revised Sheet No. 7 (First Revised Volume No. 1) and Second Revised Sheet No. 5 (First Revised Volume No. 1A) to be effective September 1, 1992.

Canyon states the purpose of this filing is to comply with the Commission's order issued June 29, 1992 at Docket No. RP91-123-003.

Canyon requested waiver of the Commission's Regulations to the extent necessary to permit the above listed tariff sheets to become effective September 1, 1992.

Canyon states that copies of the filing was mailed to Canyon's jurisdictional customers, and interested state regulatory agencies.

Any person desiring to protest said filing should file a protest with the

Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before August 25, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Equitrans, Inc.; Revision to Proposed Tariff Changes

August 18, 1992.

Take notice that Equitrans, Inc. (Equitrans) on August 12, 1992, tendered for filing with the Federal Energy Regulatory Commission (Commission) the following tariff sheets to its FERC Gas Tariff, Original Volume No. 1, to become effective September 1, 1992:

Second Substitute Thirty-Seventh Revised Sheet No. 10

Second Substitute Twenty-Seventh Sheet No. 34

This filing is intended to correct the rate contained in the Account 858 Current Adjustment column included in the PLS and ISS Rate Schedules filed on July 31, 1992 in Docket Nos. TQ92-7-24-000 and TA92-1-24-001. The rate was incorrectly calculated by using the wrong volume to arrive at the commodity cost for the Tennessee Gas Pipeline Company (Tennessee) Rate Schedule FT-B. This results in a decrease in the PLS commodity rate of \$0.0735 per dth.

Equitrans states that a copy of its filing has been served upon its purchasers and interested state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before August 25, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make

protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Office of Hearings and Appeals

Issuance of Proposed Decision and Order During the Week of July 20 Through July 24, 1992

During the week of July 20 through July 24, 1992, the proposed decision and order summarized below was issued by the Office of Hearings and Appeals of the Department of Energy with regard to an application for exception.

Under the procedural regulations that apply to exception proceedings (10 CFR part 205, subpart D), any person who will be aggrieved by the issuance of a proposed decision and order in final form may file a written notice of objection within ten days of service. For purposes of the procedural regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date an aggrieved person receives actual notice, whichever occurs first.

The procedural regulations provide that an aggrieved party who fails to file a Notice of Objection within the time period specified in the regulations will be deemed to consent to the issuance of the proposed decision and order in final form. An aggrieved party who wishes to contest a determination made in a proposed decision and order must also file a detailed statement objections within 30 days of the date of service of the proposed decision and order. In the statement of objections, the aggrieved party must specify each issue of fact or law that it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of this proposed decision and order is available in the public Reference Room of the Office of Hearings and Appeals, room 1E-234, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, Monday through Friday, between the hours of 1 p.m. and 5 p.m., except federal holidays.

Dated: August 18, 1992.

Thomas O. Mann,

Acting Director, Office of Hearings and Appeals.

Smith Wholesalers, Inc., Atlanta, TX, LEE-0040 Reporting Requirements

Smith Wholesalers, Inc., filed an Application for exception from the

Energy Information Administration (EIA) requirement that it file Form EIA-782B, the "Reseller/Retailers' Monthly Petroleum Product Sales Report." In considering the request, the DOE tentatively found that the firm was not adversely affected by the reporting requirements in a way that was significantly different from the burden borne by similar reporting firms. On July 24, 1992, the DOE issued a Proposed Decision and Order which determined that the exception request should be denied.

Office of Air and Radiation

TITLE: Reporting and Recordkeeping Requirements for the New Source Performance Standards (NSPS) Subpart VVV, Polymeric Coating of Supporting Substrates (ICR No. 1284.03; OMB No. 2060-0181).

ABSTRACT: This ICR is for an extension of an existing information collection in support of the Clean Air Act, as described under the general NSPS at 40 CFR 60.7-60.8, and the specific NSPS for volatile organic compound (VOC) emissions from facilities conducting polymeric coating of supporting substrates at 40 CFR 60.740-60.747. The information will be used by the EPA to direct monitoring, inspection, and enforcement efforts, thereby ensuring compliance with the NSPS.

Under this ICR, owners and operators of affected facilities must provide EPA or the delegated authority with: (1) Notification of construction, reconstruction, or modification; (2) anticipated and actual dates of facility start-up; (3) initial performance test data, results, and if appropriate, projected solvent consumption for that year; (4) notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; (5) notification of demonstration of the continuous monitoring system; and (6) monitoring reports (submitted semiannually for facilities operating within accepted parameters, quarterly for facilities which experience excess emissions or which deviate from operating parameters).

All affected facilities must maintain records on the facility operation that document: (1) The occurrence and duration of any start-ups, shutdowns, and malfunctions; (2) actual solvent consumption; (3) initial performance test results; and (4) data on continuously monitored operating parameters.

Presently, there are 16 facilities subject to the regulation with an estimated annual growth of 5.2 facilities over the next three years. All subject facilities must maintain records related to compliance for two years.

Burden Statement: Public reporting burden for facilities subject to this collection of information is estimated to average 40 hours per response including time for reviewing instructions, searching existing data sources, gathering and maintaining data, and completing and reviewing the collection of information. Public recordkeeping burden is estimated to average 123.6 hours annually.

Respondents: Owners or operators of subject polymeric coating operations that have undergone construction, reconstruction, or modification after April 30, 1987.

Estimated Number of Respondents: 23.

Estimated Number of Responses per Respondent: 2.

Estimated Total Annual Burden on Respondents: 4763 hours.

Frequency of Collection: One-time notifications for new facilities; quarterly or semiannual reporting, as appropriate, for existing facilities.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM-223Y), 401 M Street, SW., Washington, DC 20460; and

Chris Wolz, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th St., NW., Washington, DC 20503.

Dated: August 14, 1992.

Paul Lapsley,

Director, Regulatory Management Division.

[FRL-4198-1]

Renewal and Request for Suggestions of Candidates for Membership on the National Advisory Council for Environmental Policy and Technology

Renewal: The National Advisory Council for Environmental Policy and Technology (NACEPT) has been renewed for an additional two-year period. The Agency has determined that the renewal of the Council is in the public interest in connection with the performance of duties imposed on EPA by law. The Council will operate in accordance with the provisions of the Federal Advisory Committee Act and the rules and regulations issued in implementation of the Act.

New Member: The Environmental Protection Agency (EPA) hereby requests suggestions of candidates for membership on (NACEPT), an Advisory Committee to EPA's Administrator established under the Federal Advisory Committee Act, U.S.C. (App. 19(c)). The Advisory Council assists the Agency in performing its duties prescribed in legislation executive orders and regulations. The Council has a special focus on environmental policy issues, implementing the Federal Technology Transfer Act of 1986 and Executive Order 12591. It will advise the Administrator on ways to improve development and implementation of domestic and international environmental management policies programs and technologies.

The membership of the Advisory Council currently includes a balanced representation of interested person with professional and personal qualifications and experience to contribute to the functions of the Advisory Council drawn from business and industry; the academic, education and training community; governmental organizations and professional associations. New members will serve two-year terms.

DATES: Submit suggestions for candidates no later than September 8, 1992. Any interested person or organization may submit the names of qualified persons. Suggested candidates should be identified by name, occupation, organization, position,

address, and telephone. Candidates must submit a resume of their background, experience, and other relevant information as a part of the consideration process.

ADDRESSES: Submit suggestions for the list of candidates to: Office of Cooperative Environmental Management (A-101-F6), U. S. Environmental Protection Agency, Fairchild Building, suite 115, 499 S. Capitol Street, SW., Washington, DC 20460, Attention: Abby J. Pirnie.

FOR FURTHER INFORMATION CONTACT: Abby J. Pirnie at the above address or at 202-260-9741. The Agency will not formally acknowledge or respond to suggestions.

Dated: August 14, 1992.

Abby J. Pirnie,

Director, Office of Cooperative Environmental Management.

Open Meeting of the Federal Facilities Environmental Restoration Dialogue Committee

AGENCY: Environmental Protection Agency.

ACTION: FACA Committee Meeting—Federal Facilities Environmental Restoration Dialogue Committee.

SUMMARY: As required by section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), we are giving notice of the next two meetings of the Federal Facilities Environmental Restoration Dialogue Committee. The meeting is open to the public without advance registration.

The purpose of the meeting is to discuss issues related to enhancing the Federal facilities environmental restoration process

DATES: The first meeting will be held on September 15, 1992, from 9 until 5 p.m. and on September 16, 1992, from 8:30 until 4 p.m. The second meeting will be held on November 17, 1992, from 9 until 5 p.m. and on November 18, 1992, from 8:30 until 4 p.m.

ADDRESSES: The first meeting will be held at Sheraton Crystal City, 1800 Jefferson Davis Highway, Arlington, VA. The second meeting will be held at the Georgetown University Conference Center, 3800 Reservoir Road, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Persons needing further information on any aspect of the Federal Facilities

Environmental Restoration Dialogue Committee should contact Nicholas Morgan, Office of Federal Facilities Enforcement, U.S. EPA (OE-2261), 401 M Street, SW., 20460, (202) 260-1270.

Dated: August 14, 1992.

Nicholas Morgan,

Designated Federal Official.

FEDERAL COMMUNICATIONS COMMISSION

[DA 92-1132]

Comments Invited on Austin Area Public Safety Plan

August 18, 1992.

The Commission has received the public safety radio communications plan for the Austin area (Region 49).

In accordance with the Commission's Memorandum Opinion and Order in General Docket 87-112, Region 49 consists of the following counties: Bosque, Hill, Hamilton, McLennan, Limestone, Freestone, Mills, Coryell, Falls, Robertson, Leon, San Saba, Lampasas, Bell, Milam, Brazos, Madison, Grimes, Llano, Burnet, Williamson, Burleson, Lee, Washington, Blanco, Hays, Travis, Caldwell, Bastrop and Fayette. [General Docket No. 87-112, 3 FCC Rcd 2113 (1988)].

In accordance with the Commission's Report and Order in General Docket No. 87-112 implementing the Public Safety National Plan, interested parties may file comments on or before September 25, 1992 and reply comments on or before October 13, 1992. (See Report and Order, General Docket No. 87-112, 3 FCC Rcd 905 (1987), at paragraph 54.)

Commenters should send an original and five copies of comments to the Secretary, Federal Communications Commission Washington, DC 20554 and should clearly identify them as submissions to PR Docket 92-190 Austin Area-Public Safety Region 49.

Questions regarding this public notice may be directed to Betty Woolford, Private Radio Bureau, (202) 632-6497 or Ray LaForge, Office of Engineering and Technology, (202) 653-8112.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

BILLING CODE 6714-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Renewal of FEMA Advisory Board

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: In accordance with the Federal Advisory Committee Act, the Director of FEMA (Director) gives notice of the renewal of the FEMA Advisory

Board (Board) for a period of two years. Renewal of the Board is a matter of the public interest in connection with the performance of duties imposed on the agency by law, to provide independent advice on FEMA plans and programs.

DATES: Renewal of the Board is effective as of August 1, 1992 through July 31, 1994. Comments on renewal of the Board should be submitted on or before October 23, 1992.

ADDRESSES: Comments on renewal of the Board are invited and may be addressed to the Rules Docket Clerk, Federal Emergency Management Agency, 500 C Street SW., room 840, Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: Dirk J. Vande Beek, Executive Assistant to the Director, Federal Emergency

Management Agency, 500 C Street SW., room 828, Washington, DC 20472, (202) 646-3923.

SUPPLEMENTARY INFORMATION: Acting under the Federal Advisory Committee Act, 5 U.S.C. app. 2, the National Security Act of 1947, as amended, 50 U.S.C. 401 et seq., 41 CFR 101-6.10 et seq., and 44 CFR part 12, the Director has determined that renewal of the FEMA Advisory Board is a matter of the public interest in connection with the performance of duties imposed on the agency by law.

The Board is the principal advisory body to the Director. Its objectives include independent advice to the Director on the adequacy of FEMA plans and programs for civil emergencies, such as: Natural or man-

made disasters, mobilization of resources during crises or war, civil defense and continuity-of-government measures during conflicts, essential post-conflict resources management for national reconstitution, and other civil emergency roles assigned by Acts of Congress or by Executive Order. The Board will also assist the Director in meeting his advisory responsibilities to the President pursuant to the National Security Act of 1947, as amended.

The Board draws on the expertise of its members and other sources to provide advice and make recommendations to the Director. In addition to its role of providing guidance on major issues across all FEMA program areas, the Board advises on mission priorities, strategies for addressing Agency objectives, critiques of emerging policy and program concepts, and options for solutions to major management problems.

The Board functions solely as an advisory body, and complies fully with the provisions of the Federal Advisory Committee Act and the National Security Act.

The Board consists of 21 members who are appointed by the Director. The Board contains broad and balanced representation from all interested segments including: former government officials, both Federal and State; respected representatives from academia, science and the research community; leaders in business and industry; and the public at large.

To ensure that the Board is objective and not influenced by special interests, members are required to file an annual Statement of Financial Interests and Affiliations and a Conflict of Interest Agreement (recusal statement). The members serve at the discretion of the Director with two-year renewable terms.

Dated: August 18, 1992.

Wallace E. Stickney,

Director.

BILLING CODE 6718-01-M

[FEMA-953-DR]

Indiana; Notice of Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

EFFECTIVE DATE: August 17, 1992.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Indiana (FEMA-953-DR), dated August 17, 1992, and related determinations.

FOR FURTHER INFORMATION CONTACT:

Neva K. Elliott, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3614.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated August 17, 1992, the President declared a major disaster under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), as follows:

I have determined that the damage in certain areas of the State of Indiana, resulting from severe storms and flash flooding on August 8-9, 1992, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act ("the Stafford Act"). I, therefore, declare that such a major disaster exists in the State of Indiana.

In order to provide Federal assistance, you hereby authorized to allocate from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and Public Assistance in the designated areas. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management Agency under Executive Order 12148, I hereby appoint Phil Zaferopulos of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following areas of the State of Indiana to have been affected adversely by this declared major disaster:

The counties of Clark, Jackson, Jefferson, Lawrence, Scott and Washington for Individual Assistance and Public Assistance. (Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance)

Wallace E. Stickney,

Director.

BILLING CODE 6718-02-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

[Announcement Number 276]

Cooperative Agreement for a Demonstration Project on Arthritis or Urinary Incontinence; Availability of Funds for Fiscal Year 1992

Introduction

The Centers for Disease Control (CDC), the Nation's prevention agency, announces the availability of fiscal year (FY) 1992 funds for a new competing cooperative agreement to initiate and evaluate a demonstration project to develop state health department capacity for chronic conditions associated with aging, specifically, either arthritis or urinary incontinence.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Diabetes and Chronic Disabling Conditions. (For ordering a copy of Healthy People 2000, see the section Where to Obtain Additional Information.)

Authority

This program is authorized under sections 301(a) and 317(k)(3), [42 U.S.C. 241(a) and 247b(k)(3)], of the Public Health Service Act, as amended.

Eligible Applicants

Eligible applicants are the official public health agencies of states or their bona fide agents or instrumentalities. This includes the District of Columbia, America Samoa, the Commonwealth of Puerto Rico, the Virgin Islands, the Federated States of Micronesia, Guam, the Northern Mariana Islands, the Republic of the Marshall Islands, the Republic of Palau, and federally recognized Indian tribal governments.

Competition is limited to the official public health agencies of states because the project requires: Experience in community-based public health interventions, experience in collaborations with organizations having expertise in developing and conducting intervention activities, and the ability to reach a wide variety of demographically distinct populations, including traditionally underserved populations.

Availability of Funds

Approximately \$200,000 is available in FY 1992 to fund one award. It is expected that the award will begin on or about September 25, 1992, for a 12-month budget period within a project period of up to 3 years. Funding estimates may vary and are subject to change.

Continuation awards within the project period will be made on the basis of satisfactory progress, specifically the development of intervention and evaluation protocols, and the availability of funds.

At the request of the applicant, Federal personnel may be assigned to a project in lieu of a portion of the financial assistance.

Purpose

The purpose of this cooperative agreement is to develop organizational and personnel capacity and capability within a state health department to address chronic disease conditions associated with arthritis or urinary incontinence; and to implement an intervention program among persons aged 65 years and older and evaluate its efficacy. The project will target secondary and tertiary prevention through an educational intervention.

Program Requirements

Applicants requesting funding for arthritis should describe activities for developing, implementing, and

evaluating an educational, self-help program to reduce pain, depression, nursing home placements, and physician visits among persons aged 65 and older who are afflicted with arthritis. Applicants requesting funding for urinary incontinence should describe activities for developing, implementing, and evaluating an educational program for reducing the prevalence of urinary incontinence among older Americans. This educational program should include activities to increase awareness that incontinence is a treatable condition, and to educate health care providers on the treatment of incontinence using guidelines such as those developed by the Agency for Health Care Policy and Research, PHS, DHHS.

In conducting activities to achieve the purpose of this program, the recipient shall be responsible for the activities under A., below, and CDC shall be responsible for the activities under B., below:

A. Recipient Activities

1. Build coalitions within the community to assess the need for and the acceptability of the intervention project within various cultural and ethnic populations.
2. Define and describe the target population including intervention and control groups.
3. Develop, describe, and carry out interventions for the study group and the control group.
4. Develop, describe, and conduct the evaluation, including generic and condition-specific quality of life measures, and measures of program acceptability and effectiveness.
5. Participate through direct financial or in-kind support in a portion of the project costs.
6. Collaborate with organizations having expertise in developing and conducting the intervention activities. These organizations could include schools of public health, medical schools, voluntary or other organizations.

B. Centers for Disease Control Activities

1. Convene regular information sharing meetings with the recipient.
2. Collaborate in planning, operating, and evaluating the project activities.
3. Collaborate in the development of intervention and evaluation protocols, including the selection and development of quality of life measures.
4. Provide relevant state-of-the-art research findings and public health recommendations to the awardee.

5. Collaborate in the analysis, publication, and dissemination of project results.

6. If direct technical assistance is requested, CDC will provide personnel with epidemiologic, evaluation, or management experience in lieu of a portion of the cooperative agreement funds.

Evaluation Criteria

Applications will be reviewed and evaluated based on the following criteria:

A. The extent to which the application reflects an understanding of the problem, demonstrates community support, and represents a collaborative effort of the state health agency with other organizations with expertise in the intervention area (schools of public health, medical schools, voluntary and other organizations) and coordination with these organizations in planning, delivering, and assessing the need and acceptability of the intervention program. (15 points)

B. The extent to which population-based intervention and control groups are identified and their appropriateness to the project goals are determined. (10 points)

C. The extent to which the intervention component complies with the stated purposes of the cooperative agreement. (20 points)

D. The qualifications and appropriateness of project personnel and collaborators. (10 points)

E. The consistency of the specific and time-related measurable objectives with the stated purpose of the cooperative agreement and the ability to monitor and document the effects of the project. (10 points)

F. The extent to which the evaluation component includes quality of life, acceptability, and effectiveness measures. (25 points)

G. The extent to which the applicant demonstrates the capacity and commitment to translate the intervention to the control group. (5 points)

H. Evidence of the applicants long-term commitment to the proposed project, including documentation of cost-sharing plans. (5 points)

I. The extent to which the budget is reasonable and consistent with the intended use of cooperative agreement funds. (not scored).

Funding Priorities

The Evaluation Criteria are weighted to afford preference to applicants:

A. Proposing collaborative relationships between an official health

agency and a school of public health or medicine and the coordination with other agencies and entities in the planning, delivery, and assessment of the project including the need and acceptability of the intervention program.

B. Documenting the capacity and commitment to participate in the ongoing cost of the project especially the translation of the intervention of the control group.

Recipient Financial Participation

Although this program has no statutory matching requirements, recipients are expected to contribute direct financial and in-kind support.

Executive Order 12372 Review

Applications are subject to Intergovernmental Review of Federal Programs as governed by Executive Order 12372. E.O. 12372 sets up a system for state and local government review of proposed Federal assistance applications. Applicants (other than federally recognized Indian tribal governments) should contact their state Single Point of Contact (SPOC) as early as possible to alert them to the prospective applications and receive any necessary instructions on the state process. For proposed projects serving more than one state, the applicant is advised to contact the SPOC for each affected state. A current list of SPOCs is included in the application kit. If SPOCs have any state process recommendations on applications submitted to CDC, they should forward them to Edwin L. Dixon, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., room 300, Mail Stop E-14, Atlanta, GA 30305, no later than September 30, 1992. The due date for state process recommendations is 30 days after the application deadline date for this new award. (A waiver for the 60-day requirement has been requested.) The granting agency does not guarantee to "accommodate or explain" for state process recommendations it receives after that date.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance number is 93.283.

Other Requirements

Paperwork Reduction Act

Projects that involve the collection of information from 10 or more individuals and funded by the cooperative agreement will be subject to review by

the Office of Management and Budget (OMB) under the Paperwork Reduction Act.

Human Subjects

If the proposed project involves research on human subjects, the applicant must comply with the Department of Health and Human Services Regulations (45 Code of Federal Regulations part 46) regarding the protection of human subjects. Assurance must be provided to demonstrate that the project will be subject to initial and continuing review by an appropriate institutional review committee. The applicant will be responsible for providing assurance in accordance with the appropriate guidelines and form provided in the application kit.

Application Submission and Deadline

The original and two copies of the application PHS Form-5161-1 must be submitted to Edwin L. Dixon, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., room 300, Mail Stop E-14, Atlanta, GA 30305, on or before September 1, 1992.

1. Deadline

Applications shall be considered as meeting the deadline if they are either:

a. Received on or before the deadline date, or

b. Sent on or before the deadline date and received in time for submission to the independent review group.

Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or the U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.

2. Late Applications

Applications which do not meet the above criteria in 1.a. or 1.b. above are considered late applications. Late applications will not be considered in the current competition and will be returned to the applicant.

Where to Obtain Additional Information

A complete program description, information on application procedures, an application package, and business management technical assistance may be obtained from Locke Thompson, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 East Paces Ferry Road, NE., room 300, Mail Stop E-14, Atlanta, GA 30305, telephone (404) 842-6595. Programmatic technical assistance may

be obtained from Paul Scherr, Ph.D., Sc.D., Aging Branch, Division of Chronic Disease Control and Community Intervention, National Center for Chronic Disease Prevention and Health Promotion, Centers for Disease Control, Mail Stop K-51, 1600 Clifton Road, NE., Atlanta, GA 30333, telephone (404) 488-5458.

Please refer to Program Announcement Number 276 when requesting information and submitting an application.

Potential applicants may obtain a copy of Health People 2000 (Full Report, Stock No. 017-001-00474-0) or Healthy People 2000 (Summary Report, Stock No. 017-001-00473-1) referenced in the Introduction through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325, (Telephone 202-783-3238).

Dated: August 17, 1992.

Robert L. Foster,

Acting Associate Director for Management and Operations, Centers for Disease Control.

BILLING CODE 4160-18-M

Food and Drug Administration

[Docket No. 92F-0305]

Pfizer, Inc.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Pfizer, Inc., has filed a petition proposing that the food additive regulations be amended to provide for the safe use of polydextrose as a bulking agent/texturizer in table spreads.

FOR FURTHER INFORMATION CONTACT: James C. Wallwork, Center for Food Safety and Applied Nutrition (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-254-9515.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5) (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2A4332) has been filed by Pfizer, Inc., 235 East 42d St., New York, NY 10017-5755. The petition proposes to amend the food additive regulations in § 172.841 Polydextrose (21 CFR 172.841) to provide for the safe use of polydextrose as a bulking agent/texturizer in table spreads.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental

impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c).

Dated: August 12, 1992.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160-01-F

National Institutes of Health

Women's Health Initiative Program Advisory Committee; Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 [Pub. L. 92-463, 86 Stat. 770-776] and section 402(b)(6), of the Public Health Service Act, as amended [42 U.S. Code 282(b)(6)], the Director, National Institutes of Health (NIH), announces the establishment of the Women's Health Initiative Program Advisory Committee.

The Women's Health Initiative Program Advisory Committee will provide advice and guidance to the Director, NIH, on matters relating to the studies comprising the Women's Health Initiative. These include clinical trials, longitudinal observational studies, and community studies. The Committee will advise on the comprehensive plan for studies of prevention of cancer, heart disease, and osteoporosis and the specific plans for each of the three component studies. This will include matters relating to the conduct and support of the studies, such as recruitment and retention of participants, including population representation; and the dissemination of information relating to the Women's Health Initiative.

Unless renewed by appropriate action prior to its expiration, the Women's Health Initiative Program Advisory Committee will terminate two years from the date of establishment.

Dated: August 10, 1992.

Bernadine Healy,

Director, National Institutes of Health.

BILLING CODE 4140-01-M

Government-Owned Inventions; Availability for Licensing

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

The inventions listed below are owned by agencies of the U.S. Government and are available for licensing in the U.S. in accordance with 35 U.S.C. 207 to achieve expeditious commercialization of results of federally funded research development. Foreign patents are filed on selected inventions to extend market coverage for U.S. companies and may also be available for licensing.

ADDRESSES: Licensing information and copies of the patent applications listed below may be obtained by writing to the indicated Licensing Specialist at the Office of Technology Transfer, National Institutes of Health, Box OTT, Bethesda, Maryland 20892 (telephone 301/496-7735; fax 301/402-0220). Issued patents may be obtained from the Commissioner of Patents U.S. Patent and Trademark Office, Washington, DC 20231.

- 06/513,249—Reductive Destruction of Nitrosamines, Hydrazines, Azo- and Azoxy-Compounds. Licensing Specialist: Todd Leonard
- 07/696,556—Compositions Having Use as Treatment of Neuropsychiatric Deficits. Licensing Specialist: Todd Leonard
- 07/743,892—Anti-Hypertensive Compositions of Secondary Aminonitric Oxide Adducts and Use Thereof. Licensing Specialist: Todd Leonard
- 07/751,830—Targeted Defective Interfering HIV Particles as an Antiviral Therapy Against AIDS. Licensing Specialist: Todd Leonard
- 07/764,906—Therapeutic Inhibition of Platelet Aggregation by Nucleophile-Nitric Oxide Complexes and Derivatives Thereof. Licensing Specialist: Todd Leonard
- 07/765,746—Substituted Phenserines as Specific Inhibitors of Acetylcholinesterase. Licensing Specialist: Arthur Cohn
- 07/765,766—Thiapysovenine and Carbamate Analogs, Pharmaceutical Compositions and Method for Inhibiting Cholinesterases. Licensing Specialist: Arthur Cohn
- 07/845,081—Carbamate Analogs of Thiapysovenine, Pharmaceutical Compositions, and Method for Inhibiting Cholinesterases. Licensing Specialist: Arthur Cohn
- 07/861,329—Phenylcarbamates of (-)-Eseroline, (-)-N1-Noreseroline and (-)-N1-Benzylnoreseroline: Selective Inhibitors of Acetylcholinesterase, Pharmaceutical Compositions, and Method of Use Thereof. Licensing Specialist: Arthur Cohn.

Dated: August 17, 1992.

Reid G. Adler,

Director, Office of Technology Transfer.

BILLING CODE 4140-01-M

A Special Meeting of the Acquired Immunodeficiency Syndrome Program Advisory Committee (APAC)

Pursuant to Pub. L. 92-463, notice is hereby given of a special meeting of the Acquired Immunodeficiency Syndrome (AIDS) Program Advisory Committee on September 3, 1992, at the National Institutes of Health (NIH), Bethesda, Maryland. The meeting will take place on September 3 from 8:30 a.m. until 5 p.m. in Building 31, C Wing, Conference Room 10 to review human subjects protections under parallel track proposals. The meeting will be open to the public from 8:30 a.m. until 9:30 a.m. for a staff orientation on the parallel track initiative and the review of human subjects protections. Attendance by the public will be limited to space available. Please contact Deborah Fountain in the Office of AIDS Research at 301-496-0358, if you are planning to attend.

In accordance with the provision set forth in sections 552b(c)(4), title 5 U.S.C. and section 10 of Public Law 92-463, the meeting will be closed to the public at 9:30 a.m. until adjournment for the review, discussion, and evaluation of an individual proposal for expanded availability of an investigational new AIDS drug through the parallel track mechanism. This proposal and subsequent discussion could reveal confidential trade secrets or commercial property such as patentable material.

Deborah S. Fountain, Committee Management Officer, Office of AIDS Research, National Institutes of Health, Building 31, room 5C02, 9000 Rockville Pike, Bethesda, MD 20892, (301) 496-0358, will furnish the meeting agenda, roster of committee members, and substantive program information upon request.

Dated: August 17, 1992.

Susan K. Feldman,

Committee Management Officer, NIH.

BILLING CODE 4140-01-M

National Heart, Lung, and Blood Institute; Cardiology Advisory Committee; Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Cardiology Advisory Committee, National Heart, Lung, and Blood

Institute, November 5-6, 1992, Building 31C, Conference Room 8, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20892.

The entire meeting will be open to the public on November 5 from 11 a.m. to 5 p.m. and on November 6 from 8:30 a.m. to adjournment. Attendance by the public will be limited to space available. Topics for discussion will include a review of the research programs relevant to the Cardiology area and consideration of future needs and opportunities.

Terry Bellicha, Chief, Communications and Public Information Branch, National Heart, Lung, and Blood Institute, room 4A21, Building 31, National Institutes of Health, Bethesda, Maryland 20892, (301) 496-4236, will provide a summary of the meeting and a roster of the committee members.

Michael J. Horan, M.D., Associate Director for Cardiology, Division of Heart and Vascular Diseases; National Heart, Lung, and Blood Institute; room 318, Federal Building, Bethesda, Maryland 20892, (301) 496-5421, will furnish substantive program information upon request.

Committee Management Officer, NIH.

[FR Doc. 92-20170 Filed 8-21-92; 8:45 am]

BILLING CODE 4140-01-M

National Institute of Child Health and Human Development; Meeting of the National Advisory Child Health and Human Development Council

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the National Advisory Child Health and Human Development Council, September 21-22, 1992, which is being held in conjunction with the NICHD 30th Anniversary Celebration. The meeting will be held in Wilson Hall, Shannon Building, National Institutes of Health, Bethesda, Maryland. The meeting of the Subcommittee on Planning will be held on September 21 in Building 31, room 2A03.

The Council meeting will be open to the public on September 1 from 9:30 a.m. until 5 p.m. The agenda includes a report by the Director, NICHD, the Annual Review of the Intramural Research Program, and a presentation by the Surgeon General of the United States. The meeting will be open on September 22 immediately following the review of applications if any policy issues are

raised which need further discussion. The Subcommittee meeting will be open on September 21 from 8 a.m. to 9:30 a.m. to discuss program plans and the agenda for the next Council meeting. Attendance by the public will be limited to space available.

In accordance with the provision set forth in sections 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Pub. L. 92-463, the meeting of the full Council will be closed to the public on September 22 from 8 a.m. to completion of the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Ms. Mary Plummer, Council Secretary, NICHD, Executive Plaza North, Room 520, National Institutes of Health, Bethesda, Maryland 20892, Area Code 301, 496-1485, will provide a summary of the meeting and a roster of Council members as well as substantive program information.

(Catalog of Federal Domestic Assistance Program Nos. 93.864, Population Research, and 93.865, Research for Mothers and Children, National Institutes of Health.)

Dated: August 17, 1992.

BILLING CODE 4140-01-M

National Institute of Dental Research; Meeting of the National Advisory Dental Research Council

Pursuant to Public Law 92-463, notice is hereby given of a meeting of the National Advisory Dental Research Council, National Institute of Dental Research, to be held September 14-15, 1992, Conference Room 10, Building 31C, National Institutes of Health, Bethesda, Maryland. This meeting will be open to the public from 9:30 a.m. to recess on September 14 for general discussion and program presentations. A meeting of the National Advisory Dental Research Council Subcommittee on Minority Activities will be held on September 15 from 1 p.m. until adjournment at the same location. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92-463, the meeting of the Council will be closed to the

public on September 14 from 8:30 a.m. to 9:30 a.m. and on September 15 from 9 a.m. to adjournment for the review, discussion and evaluation of individual grant applications. These applications and the discussion could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Dushanka V. Kleinman, Executive Secretary, National Advisory Dental Research Council, and Deputy Director, National Institute of Dental Research, National Institutes of Health, Building 31, Room 2C39, Bethesda, Maryland 20892, (telephone 301-496-9469) will furnish a roster of committee members, a summary of the meeting, and other information pertaining to the meeting.

BILLING CODE 4140-01-M

National Institute of Diabetes and Digestive and Kidney Diseases; Meeting of the National Diabetes and Digestive and Kidney Diseases Advisory Council and its Subcommittees

Pursuant to Public Law 92-463, notice is hereby given of a meeting of the National Diabetes and Digestive and Kidney Diseases Advisory Council and its subcommittees, National Institute of Diabetes and Digestive and Kidney Diseases, on September 23-24, 1992, Wilson Hall, Building 1, National Institutes of Health, Bethesda, Maryland. The meeting will be open to the public September 23, from 8:30 a.m. to 12 noon and again on September 24, from 10 a.m. to adjournment to discuss administrative details relating to Council business and special reports. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92-463, the subcommittee and full Council meeting will be closed to the public for the review, discussion and evaluation of individual grant applications. The following subcommittees will be closed to the public on September 23, from 1 to 5 p.m.: Diabetes, Endocrine and

Metabolic Diseases; Digestive Diseases and Nutrition; and Kidney, Urologic and Hematologic Diseases. The full Council meeting will be closed on September 24, from 8:30 a.m. to 10 a.m.

These deliberations could reveal confidential trade secrets or commercial property, such as patentable materials, and personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Further information concerning the Council meeting may be obtained from Dr. Walter Stolz, Executive Secretary, National Diabetes and Digestive and Kidney Diseases Advisory Council, NIDDK, Westwood Building, Room 657, Bethesda, Maryland 20892, (301) 496-7277.

A summary of the meeting and roster of the members may be obtained from the Committee Management Office, NIDDK, Building 31, room 9A19, National Institutes of Health, Bethesda, Maryland 20892, (301) 496-6917.

(Catalog of Federal Domestic Assistance Program No. 93.847-849, Diabetes, Endocrine and Metabolic Diseases; Digestive Diseases and Nutrition; and Kidney Diseases, Urology and Hematology Research, National Institutes of Health)

BILLING CODE 4140-01-M

National Institute of Neurological Disorders and Stroke; Meeting

Pursuant to Public Law 92-463, notice is hereby given of meetings of committees of the National Institute of Neurological Disorders and Stroke (NINDS). These meetings will be open to the public to discuss program planning, program accomplishments and special reports or other issues relating to committee business as indicated in the notice.

The Council meeting will be open to the public on October 1, 1992, as listed below. The agenda includes a report by the Director, NINDS, a report by the Acting Director, Division of Extramural Activities, NINDS, and a scientific presentation by an NINDS grantee. Attendance by the public will be limited to space available.

These meetings will be closed to the public as indicated below in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92-463, for the review, discussion and evaluation of individual grant

applications. These applications and discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Summaries of meetings, rosters of committee members, and other information pertaining to the meetings can be obtained from the Acting Executive Secretary or the Scientific Review Administrator indicated.

Name of Committee: The Planning Subcommittee of the National Advisory Neurological Disorders and Stroke Council.

Date: September 30, 1992

Place: National Institutes of Health, Building 31, Conference Room 8A28, 900 Rockville Pike, Bethesda, MD 20892.

Open: 1 p.m.-3 p.m.

Closed: 3 p.m.-recess.

Name of Committee: National Advisory Neurological Disorders and Stroke Council.

Dates: October 1-2, 1992.

Place: National Institutes of Health, Building 31, Conference Room 10, 9000 Rockville Pike, Bethesda, MD 20892.

Open: October 1, 9 a.m.-1 p.m.

Closed: October 1, 1 p.m.-recess, October 2, 8:30 a.m.-adjournment.

Acting Executive Secretary: Edward M. Donohue, Acting Director, Division of Extramural Activities, NINDS, National Institutes of Health, Bethesda, MD 20892, Telephone: (301) 496-4188.

Name of Committee: Neurological Disorders Program Project Review A Committee.

Dates: October 14-16, 1992.

Place: Holiday Inn Chevy Chase, 5520 Wisconsin Avenue, Chevy Chase, MD 20815.

Open: October 14, 7:30 p.m.-8 p.m.

Closed: October 14, 8 p.m.-recess, October 15, 8:30 a.m.-recess, October 16, 8:30 a.m.-adjournment.

Scientific Review Administrator: Dr. Katherine Woodbury, Federal Building, room 9C-14, National Institutes of Health, Bethesda, MD 20892, Telephone: (301) 496-9223.

Name of Committee: Training Grant and Career Development Review Committee.

Dates: October 23-25, 1992.

Place: Guest Quarters Suite Hotel, 1707 Fourth Street, Santa Monica, CA 90401.

Open: October 23, 8 p.m.-8:30 p.m.

Closed: October 23, 8 p.m.-recess, October 24, 8 a.m.-recess, October 25, 8 a.m.-adjournment.

Scientific Review Administrator: Dr. Herbert Yellin, Federal Building, room 9C-14, National Institutes of Health, Bethesda, MD 20892, Telephone: (301) 496-9223.

Name of Committee: Neurological Disorders Program Project Review B Committee.

Dates: October 23-25, 1992.

Place: La Jolla Cove, 1155 Coast Boulevard, La Jolla, CA 92037.

Open: October 23, 7 p.m.-8:30 p.m.

Closed: October 23, 8:30 p.m.-recess, October 24, 8:30 a.m.-recess, October 25, 8:30 a.m.-adjournment.

BILLING CODE 4140-01-M

Prospective Grant of Exclusive Patent License

AGENCY: National Institutes of Health, Public Health Services, HHS.

ACTION: Notice.

SUMMARY: This is notice in accordance with 15 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i) that the National Institutes of Health (NIH), Department of Health and Human Services, is contemplating the grant of an exclusive license in the United States to practice the inventions embodied in U.S. Patent Applications Serial Numbers 07/390,745, entitled "Partial Agonists of the Strychnine Insensitive Glycine Modulatory Site of the N-Methyl-D-Aspartate Receptor Complex as Neuropsychopharmacological Agents," and 07/541,032 (issued as U.S. Patent 5,086,072), entitled "Treatment of Mood Disorders With Functional Antagonists of the Glycine/NMDA Receptor Complex" to Symphony Pharmaceuticals, Inc. having a place of business at Philadelphia, Pennsylvania. The patent rights in these inventions have been assigned to the United States of America.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

The inventions relate to a novel class of compounds that have partial N-Methyl-D-Aspartate (NMDA) receptor complex agonist and/or antagonist properties and methods of using these compounds therapeutically to treat various neurological and psychological disorders.

The availability of the inventions claimed in 07/390,745 for licensing was published in the *Federal Register* of December 19, 1989. The availability of the inventions claimed in 07/541,032 for licensing was published in the *Federal Register* of March 4, 1991. Requests for a copy of the above identified patent applications, inquiries, comments and other materials relating to the contemplated license should be directed to: Mr. Arthur J. Cohn, J.D., Office of Technology Transfer, National Institutes of Health, Box OTT, Bethesda, Maryland 20892 (telephone: (301) 496-7735; FAX: (301) 402-0220). Properly filed competing applications for a license filed in response to this notice will be treated as objections to the grant of the contemplated license. Only written comments and/or applications for a license which are received by the NIH Office of Technology Transfer within sixty (60) days of this notice will be considered.

Dated: August 12, 1992.

Reid G. Adler,

Director, Office of Technology Transfer.

[FR Doc. 92-20173 Filed 8-21-92; 8:45 am]

BILLING CODE 4140-01-M

National Institutes of Neurological Disorders and Strokes: Opportunity for a Cooperative Research and Development Agreement (CRADA) for a Prototype Development and Commercialization of a Two- and Three-Dimensional Autoradiographic Imaging System

AGENCY: National Institutes of Health, PHS, DHHS.

ACTION: Notice.

SUMMARY: The National Institutes of Health (NIH) seeks an agreement with a company(s) which can pursue the commercial development of a Two- and Three-Dimensional Autoradiographic Imaging System. The National Institutes of Neurological Disorders and Strokes has also determined that the developed technology can be utilized in other scientific areas. A CRADA for the co-development of this system will be granted to the awardee.

ADDRESSES: Questions about this opportunity may be addressed to Stephen Finley, National Institutes of Health, NINDS, 9000 Rockville Pike, Building 31, room 8A46, Bethesda, MD 20892. Telephone 301-496-4697.

DATES: Proposals must be received by November 1, 1992.

SUPPLEMENTARY INFORMATION: The National Institutes of Neurological

Disorders and Strokes (NINDS) and the National Center for Research Resources (NCRR) have jointly identified and developed an improved technique for the acquisition and resolution of Two- and Three-dimensional autoradiographic images. The NINDS and the NCRR have already funded and successfully simulated a preliminary model of the Imaging System. The next phase would entail the design and testing of a full scale prototype.

The methodology associated with this system permits a tissue containing one or more radioactive isotopes to be scanned sectioned, and a three-dimensional image of the tissue be constructed via a computer based software program. The developed technology for the imagery apparatus has further potential for utilization for real time in vivo imagery of metabolic processes and in the field of gel electrophoresis.

The CRADA awardee will have an option to negotiate for an exclusive license to market and commercialize any new technology jointly developed for the Image Acquisition and Analysis System. This CRADA may be directed toward the co-development of the improved Two- and Three-Dimensional Imaging System prototype, the in vivo imaging, or the gel imaging device.

Roles of NINDS AND NCRR

1. Provide design and user expertise, some equipment requirements and assist in beta testing.

2. Work cooperatively with the company(s) to determine the market potential for the imagery technology and imagery system and to design a prototype.

Selection criteria for choosing the CRADA partner(s) will include, but not be limited to the following:

1. Ability to provide funding for production and testing of an imagery analysis system prototype.

2. Capability to develop, implement and manage the product commercialization so as to ensure the dissemination of the technology(s) to health care services and other research services.

Dated: August 5, 1992.

Reid G. Adler,

Director, Office of Technology Transfer, National Institutes of Health.

National Toxicology Program (NTP) Board of Scientific Counselors' Meeting, Announcement of NTP Draft Technical Reports Projected for Public Review From December 1992 Through Fall 1994

To earlier inform the public and allow interested parties to comment or obtain information on long-term toxicology and carcinogenesis studies and short-term toxicity studies prior to public peer review, the National Toxicology Program (NTP) again publishes in the *Federal Register* a current listing of draft Technical Reports projected for evaluation by the NTP Board of Scientific Counselors' Technical Reports Review Subcommittee during their next seven meetings from December 1992 through fall 1994. We plan to continue updating the listing with announcements in the *Federal Register* approximately twice a year. The next meeting date is December 1-2, 1992. Specific dates for 1993 and 1994 meetings will be established at a later time.

The attachment gives draft Technical Reports of studies on chemicals listed alphabetically within known or approximate dates of reviews and includes Chemical Abstracts Service registry numbers, responsible study scientists with telephone numbers, NTP report numbers (if assigned), primary use(s), species, route of administration, and exposure levels used.

Those interested in having more information about any of the studies listed in this announcement, or wanting to provide input, should contact the particular NTP study scientist as early as possible by telephone or by mail to: NIEHS, P.O. Box 12233, Research Triangle Park (RTP), North Carolina 27709. The staff scientist would welcome receiving toxicology and carcinogenesis data from completed, ongoing or planned studies by others as well as current production data, human exposure information, and use and use patterns.

The Executive Secretary, Dr. Larry G. Hart, NTP, P.O. Box 12233, Research Triangle Park, North Carolina 27709, telephone 919/541-3971, will furnish final agendas, and other program information prior to a meeting, and summary minutes subsequent to a meeting.

Attachment

Dated: August 10, 1992.

Kenneth Olden,

Director, National Toxicology Program.

National Toxicology Program Toxicology and Carcinogenesis Studies

Chemicals Projected for Peer Review

December 1992 through Fall, 1994

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR-931-6321-09; GP2-393]

Record of Decision for the Western Oregon Program—Management of Competing Vegetation

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice of record of decision
(ROD).

SUMMARY: Notice is given that, in accordance with the National Environmental Policy Act of 1969, as amended, the Bureau of Land Management (BLM) has released the approved Western Oregon Program—Management of Competing Vegetation Final Record of Decision. This decision outlines the vegetation treatment measures for use of BLM-administered lands in western Oregon. The purpose of the vegetation treatment is to manage the vegetation for improved timber production, habitat conditions for wildlife and livestock, rights-of-way, and to provide guidelines for herbicide application regarding human health and safety. Vegetation management treatment methods include manual, mechanical, biological, prescribed fire, and herbicide treatments, individually and in combination. Approximately 90,200 acres would be treated annually; a cap of 8,800 acres is placed on annual herbicide treatments.

This approved ROD completes the program-management plan development and associated environmental documentation for western Oregon Bureau of Land Management as required by the Federal Land Policy and Management Act (FLPMA) and the National Environmental Policy Act (NEPA).

FOR FURTHER INFORMATION CONTACT: Larry Larsen, Program Coordinator, Oregon State Office, BLM, P.O. Box 2965, Portland, Oregon, 97208, (503) 280-7080.

SUPPLEMENTARY INFORMATION: Copies of the FEIS and ROD may be obtained from the Oregon State Office at the above address. Copies are available for review at the following BLM Offices:

Coos Bay District Office, 1300 Airport Lane, North Bend, OR 97459
Eugene District Office, 2890 Chad Drive, Eugene, OR 97440

[AZ-040-02-4333-02]

Meeting for the Gila Box Advisory Committee

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice of meeting.

SUMMARY: Notice is hereby given in accordance with 43 CFR 1780 that two meetings of the Gila Box Riparian National Conservation Area (NCA) Advisory Committee will be held.

DATES: September 15, 1992, 10 a.m.—4 p.m. October 29, 1992, 10 a.m.—4 p.m.

ADDRESSES: BLM Safford District Office, 425 E. 4th St., Safford, Arizona.

SUPPLEMENTARY INFORMATION: The NCA Advisory Committee was established by the Arizona Desert Wilderness Act of 1990 to provide input to the Safford District on management of the Gila Box Riparian National Conservation Area (NCA). The Committee is continuing work on the Gila Box Interdisciplinary Activity Plan, which must be completed by November 28, 1992. The plan is being written using the Limits of Acceptable Change (LAC) planning process.

The preferred alternative will be finalized at the September 15 meeting and the draft document will be reviewed at the October 29 meeting.

All meetings are open to the public. Interested persons may make oral statements to the Committee between 10:30 and 11 a.m., or may file written statements for consideration by the Committee. Anyone wishing to make an oral statement must contact the BLM Gila Resource Area Manager at least two working days prior to the meeting. Written statements are also accepted at any time during preparation of the draft plan, and will be reviewed by the committee.

Statements should be mailed to Jonathan Collins, Team Leader, Gila Resource Area, 425 E. 4th St., Safford, Arizona 85546.

Summary minutes of the meeting will be maintained in the Safford District Office and will be available for public inspection (during regular business hours) within 30 days after each meeting.

FOR FURTHER INFORMATION: Meg Jensen, Gila Resource Area Manager, or Jonathan Collins, Team Leader, 425 E. 4th St., Safford, Arizona 85546, Telephone (602) 428-1040.

Dated: August 12, 1992.
 Frank Rowley,
 Acting District Manager

 BILLING CODE 4310-32-M

[NM-040-4410-08]

Intent To Prepare Texas Resource Management Plan (TX-RMP); Invitation for Public Participation and Call for Information

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to prepare a Resource Management Plan (RMP), invitation for public involvement, notice of public meetings, and call for information on coal and other minerals and resources.

SUMMARY: The Bureau of Land Management (BLM), Tulsa District, Oklahoma Resource Area, is initiating preparation of a RMP and Environmental Impact Statement (EIS) for BLM managed Federal minerals throughout the State of Texas. The Code of Federal Regulations, title 43, subpart 1600 (43 CFR 1600) will be followed in the preparation of this plan. The public is invited to participate in this land use planning effort, beginning with the identification of issues and planning criteria. Written comments or suggested issues and planning criteria will be accepted through January 4, 1993. The BLM will hold a series of public scoping meetings at which time oral comments and suggestions will be accepted. This notice is also to solicit coal and other mineral and resource information and indications of interest and needs pursuant to 43 CFR 3410.1-2, and 3500, for inclusion in the Texas RMP. Coal companies, other mineral extraction companies, State and local governments, and the general public are encouraged to submit information to the BLM to assist in the determinations of coal and other mineral development potential and possible conflicts with other resources. Where such information is determined to indicate development potential for an area, the area may be included in the land use plan for further consideration for leasing.

DATES: Comments relating to the identification of issues and planning criteria, and responses to this call for coal, other mineral, and other resource information will be accepted through close of business January 4, 1993.

ADDRESSES: Comments and requests to be included on the mailing list should be sent to: Paul Tanner, Area Manager, Bureau of Land Management, Oklahoma

Resource Area, 221 North Service Road, Moore, Oklahoma 73160. Proprietary data should be identified as such to ensure confidentiality.

FOR FURTHER INFORMATION CONTACT:

Paul W. Tanner, Area Manager, or Brian Mills, RMP Team Leader, Oklahoma Resource Area, 405-794-9624.

SUPPLEMENTARY INFORMATION: The planning area for the Texas RMP will include all BLM managed Federal mineral estate within Texas. The Federal mineral estate encompasses over 1.5 million acres of both split estate minerals (Federal minerals under private or State surface) and minerals under other Federal surface management agencies' lands. (Not included are approximately 1.1 million acres of Federal minerals under the U.S. Forest Service managed National Forests and National Grassland.) The anticipated issues to be addressed by this RMP/EIS effort include oil and gas leasing and development and the identification of areas acceptable for further consideration for coal and other mineral leasing. The issue of leasing the Federal oil and gas resource will include:

1. Determining which areas will be open for leasing and development subject to standard lease terms and conditions.
2. Determining which areas will be open for leasing and development subject to minor constraints such as seasonal restrictions (wildlife, recreation, etc.).
3. Determining which areas will be open for leasing and development subject to major constraints such as No-Surface Occupancy stipulations on areas larger than 40 acres in size or more than ¼ mile in width.
4. Determining which areas will be closed to leasing. We expect the development of the coal resource to be one of the issues addressed in the RMP. The BLM hopes to acquire sufficient information from this call, as well as from its own data sources, to identify, and categorize areas of coal development potential within the planning area. Industry and other interested parties are asked to provide any information that will be useful in meeting the requirements of the Federal Coal Management Program defined in 43 CFR 3420, including application of the coal planning screens and future activity planning such as tract delineation, ranking and selection. Information resulting from this call will be used to determine potential for coal development and likelihood of conflict with other resources.

The issue of leasing the Federal coal resources will include:

1. Determining areas acceptable for further coal leasing consideration with standard stipulations.
2. Determining areas acceptable for consideration with special stipulations.
3. Determining areas unacceptable for further coal leasing consideration.

The BLM will apply the coal development potential, unsuitability criteria, multiple use conflict, and consultation screens in order to make these determinations.

The type of information needed includes, but is not limited to the following:

1. Location.
 - a. Federal coal tracts desired by mining companies should include a narrative description with areas delineated on a map with a scale of not less than ½ inch to the mile.
 - b. Descriptions of both public and private industry coal users in the general region.
2. Quantity needs (tonnage, dates) for both public and private industry coal users and coal developers.
3. Quality needs (by type and grade) for end users of the coal.
4. Coal reserve drilling data which may pertain to the planning area.
5. Information relating to surface and mineral ownership.
 - a. Surface owner consents previously granted, whether consent is transferable, surface owner leases with coal companies.
 - b. Non-federal, or fee coal ownership adjacent to Federal tracts currently leased or mined.
6. Other resource values occurring within the planning area which may conflict with coal development.
 - a. Describe the resource value, and locate them on a map with a scale of not less than ½ inch to the mile.
 - b. State the reasons the particular resource would conflict with coal development.

Any individual, business entity, or public body may participate in this process by providing coal or other resource information under this call. The 1947 Mineral Leasing Act For Acquired Lands requires that all minerals on acquired lands be leased rather than claimed or sold. All Federal minerals in Texas are classified as acquired and are thus leasable. These include metallic minerals such as gold, silver, copper, and uranium, and industrial minerals such as sand and gravel, building stone, limestone and gypsum.

The issue of other Federal minerals will include:

1. Determining which Federal lands have present or potential mineral development.

2. Determining which areas will be open to other Federal minerals leasing and development.

3. Determining which areas are or will be closed to other Federal mineral leasing and development.

4. Identifying which areas need special terms and conditions which may constrain mineral activities.

The proposed planning criteria include:

1. All proposed actions must comply with laws, executive orders, and regulations.

2. For each proposed action, the resource outputs must be reasonable and achievable with available technology.

3. All proposed actions must evaluate and consider long term effects to the public in relation to short term effects.

4. All proposed actions must provide for the orderly development of leasable minerals while containing environmental impacts to a minimum.

These planning issues and criteria are presented for public comment and are subject to change based upon such public comment. Comments should be received by close of business January 4, 1993. The planning team will seek public involvement throughout the planning process. A series of public scoping meetings/open houses will be held throughout the State to provide the public an opportunity to participate in this planning effort. Comments on the preliminary planning issues and criteria as well as suggestions concerning additional issues to be addressed will be accepted at these public meetings/open houses. The public meetings/open houses will start at 3 p.m. each day and are scheduled for:

Austin on September 24, 1992 at the Ramada Airport Hotel, 5660 North Interstate 35, Austin, Texas.

Amarillo on September 28, 1992 at the Fifth Season Inn East, 2501 Interstate 40 East, Amarillo, Texas.

Midland on September 29, 1992 at the Ramada Hotel, 3100 West Wall, Midland, Texas.

Dallas/Fort Worth on October 13, 1992 at the Sheraton Hotel Arlington, 1500 Stadium Drive East, Arlington, Texas.

Houston on October 14, 1992 at the Hilton Southwest, 6780 Southwest Freeway, Houston, Texas.

Corpus Christi on October 15, 1992 at the Sheraton Corpus Christi Bayfront, 707 North Shoreline Drive, Corpus Christi, Texas.

Complete records of all phases of the planning process will be available for

public review at the Bureau of Land Management, Oklahoma Resource Area Office, 221 North Service Road, Moore, Oklahoma. The Draft RMP/Draft EIS and the Proposed RMP/Final EIS documents will be available upon request.

Dated: August 14, 1992.

Monte G. Jordan,

Associate State Director.

Land Resource Management

AGENCY: Montana State office, Bureau of Land Management, DOI.

ACTION: Notice of filing of plat of survey.

SUMMARY: Plats of survey for the following described land accepted July 25, 1992, will be officially filed in the Montana State Office, Billings, Montana, effective 30 days after publication.

Principal Meridian, Montana

T. 3 N., R. 30 E.

The plat representing the dependent resurvey of a portion of the subdivisional lines and the subdivision of sections 21, 22, and 28, and the Metes and Bounds description of two Warranty Deeds in the northwest quarter of section 28, the subdivision of sections 21 and 28, the survey of the right bank meanders of the Yellowstone River through section 21 and a portion of section 22, and an unsurveyed Island in the Yellowstone River, Township 3 North, Range 30 East, Principal meridian, Montana.

The triplicate original of the preceding described plat will be immediately placed in the open files and will be available to the public as a matter of information.

If a protest against this survey, as shown on the plat, is received prior to the date of official filing, the filing will be stayed pending consideration of the protest. The protested plat of survey will not be officially filed until the day after all protests have been accepted or dismissed and become final or appeals from the dismissal affirmed.

This survey was executed at the request of miles City District Office, of administrative needs of the Bureau.

EFFECTIVE DATE: August 5, 1992.

FOR FURTHER INFORMATION CONTACT: Bureau of Land Management, 222 North 32d Street, P.O. Box 36800, Billings, Montana 59107.

Dated: August 10, 1992.

Francis R. Cherry, Jr.,

Associate State Director.

BILLING CODE 4310-84-M

Minerals Management Service

Assessments for Late Reports

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of assessment rate.

SUMMARY: The Minerals Management Service (MMS) regulation at 30 CFR 218.40(a) provides for assessments in the nature of liquidated damages for late reports submitted by payors, operators, or lessees on Federal and Indian leases. The regulation at 30 CFR 218.40(e) requires that the assessment amount (rate) for each violation will be established periodically, based on actual MMS experience, and that a Notice be published in the *Federal Register* on the new rate. This Notice establishes a new assessment rate of \$3 per report for late reporting in accordance with the regulation.

EFFECTIVE DATE: August 24, 1992.

FOR FURTHER INFORMATION CONTACT:

Ms. Betty Middle, Chief, Automated Exception Processing Section, MS 3212, Minerals Management Service, P.O. Box 25165, Denver, Colorado 80225-0165, at (303) 231-3582 or (800) 433-9801.

SUPPLEMENTARY INFORMATION: The purpose of this notice is to inform the public of the assessment rate for all late reports submitted on Forms MMS-2014 and MMS-4014 by payors, operators, or lessees to the MMS automated Auditing and Financial System (AFS) on Federal and Indian leases pursuant to established regulations.

The regulation at 30 CFR 218.40(e) requires that the assessment shall be established periodically by MMS. The assessment amount for the violation will be based on experience with costs and improper reporting. The MMS will publish a Notice of the assessment amount to be applied in the *Federal Register*. Based on actual MMS experience, the new rate established by MMS for all late reports submitted on Forms MMS-2014 and MMS-4014 to the AFS is \$3 per report. The old rate was \$10 per report. The rate will be assessed for each report that is received late. A report is defined at 30 CFR 218.40(c) as each line item on a Form MMS-2014 or Form MMS-4014. The total AFS late-reporting assessments shall not exceed \$10,000 per payor code per monthly AFS late-reporting billing cycle.

The effective date for the new assessment rate is upon publication in order to provide immediate results from changing the assessment rate from \$10 to \$3 per report. The AFS late-reporting assessment rate established in this Notice will apply to reports billed after the effective date. This rate will remain in effect until a subsequent Notice is published in the **Federal Register** which changes the assessment rate.

Date: August 17, 1992.

James W. Shaw,

Associate Director for Royalty Management.

BILLING CODE 4510-30-M

[TA-W-27,044]

Odeco Oil and Gas Co. New Orleans, LA et al.; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In the matter of Diamond M-Odeco Drilling, Inc. Houston, Texas and Operating in the States of Texas (TA-W-27,044A) and Louisiana (TA-W-27,044B) and TA-W-27,050 Murphy Exploration and Production Company, New Orleans, Louisiana

In accordance with section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on May 19, 1992, applicable to all workers of Murphy Exploration and Production Company and ODECO Oil and Gas Company, both located in New Orleans, Louisiana. The notice was published in the **Federal Register** on June 12, 1992 (57 FR 25080).

New information was received from the company that showed that the Diamond M-Corporation ODECO on January 31, 1992 and changed its name to Diamond M-Odeco Drilling, Inc., with operations in Texas and Louisiana. It was the Department's intent to amend the certification regarding former workers of ODECO Oil and Gas Company (TA-W-27,044), not Murphy Exploration and Production Company (TA-W-27,050) as was published in the **Federal Register** on August 6, 1992 (57 FR 34787).

The intent of the Department's certification is to include all workers of ODECO Oil and Gas Company and its successors who were adversely affected by increased imports.

The amended notice applicable to TA-W-27,044 and TA-W-27,050 is hereby issued as follows:

"All workers of ODECO Oil and Gas Company, New Orleans, Louisiana (TA-W-27,044), Diamond M Odeco Drilling, Inc., headquartered in Houston, Texas and Operating at other locations in the States of Texas (TA-W-27,044A) and Louisiana (TA-W-27,044B); and Murphy Exploration and Production Company, New Orleans, Louisiana (TA-W-27,050), who became totally or partially separated from employment on or after March 3, 1991 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, DC this 12th day of August 1992.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 92-20181 Filed 8-21-92; 8:45 am]

BILLING CODE 4510-30-M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance; Pride Health Care et al.

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for

adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address show below, not later than September 8, 1992.

Interested persons are invited to submit written comments regarding the

subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than September 8, 1992.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210.

Signed at Washington, DC this 10th day of August 1992.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

Mine Safety and Health Administration

Advisory Committee on the Use of Air in the Belt Entry to Ventilate the Production (Face) Area at Underground Coal Mines and Related Provisions; Meeting

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice of advisory committee meeting.

SUMMARY: This notice provides the date, time, place and agenda summary for the sixth meeting of the Mine Safety and Health Administration's Advisory Committee on the Use of Air in the Belt Entry to Ventilate the Production (Face) Area at Underground Coal Mines and Related Provisions.

FOR FURTHER INFORMATION CONTACT: Patricia W. Silvey, Director, Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, Ballston Tower #3, 4015 Wilson Boulevard, room 631, Arlington, Virginia 22203; phone (703) 235-1910.

SUPPLEMENTARY INFORMATION: Under sections 101(a) and 102(c) of the Federal Mine Safety and Health Act of 1977, a public meeting of the advisory committee will be held as follows:

September 9-11, 1992, from 8 a.m. until 4 p.m. at the Ramada Renaissance Hotel (Gallery II Ballroom) located at 950 N. Stafford Street, Arlington, Virginia 22203.

The Secretary of Labor appointed this advisory committee to make recommendations on conditions under which belt entry air could be safely used in the face areas of underground coal mines.

The purpose of the meeting is to obtain information relative to: (1) The conditions under which belt haulage entries could be safely used as intake air courses to ventilate working places; (2) minimum velocities in conveyor belt

haulageways; and (3) ventilation of escapeways.

The agenda for the sixth meeting will include preparation of the committee's report and recommendations to the Secretary of Labor.

The public is invited to attend. During the meeting, the chairperson will provide a half hour, twice each day, to allow interested persons to comment. Officials record of the meeting will be available for public inspection at the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Room 631, Arlington, Virginia 22203.

Dated: August 18, 1992.

Patricia W. Silvey,

Director, Office of Standards, Regulations and Variances.

BILLING CODE 4510-43-M

Petitions for Modification

The following parties have filed petitions to modify the application of mandatory safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Consolidation Coal Company

[Docket No. M-92-87-C]

Consolidation Coal Company, 1800 Washington Road, Pittsburgh, Pennsylvania 15241 has filed a petition to modify the application of 30 CFR 75.305 (weekly examinations for hazardous conditions) to its Osage No. 3 Mine (I.D. No. 46-01455) located in Monongalia County, West Virginia. Due to deteriorating roof conditions, traveling the affected area exposes persons to safety hazards. The petitioner proposes to establish monitoring stations at intake air and return air locations to rest for methane and the quantity of air. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

2. Consolidation Coal Company

[Docket No. M-92-88-C]

Consolidation Coal Company, 1800 Washington Road, Pittsburgh, Pennsylvania 15241 has filed a petition to modify the application of 30 CFR 75.902 (low- and medium-voltage ground check monitor circuits) to its Rend Lake Mine (I.D. No. 11-00601) located in Jefferson County, Illinois. The petitioner proposes to connect a ground check circuit to control the operation of a magnetic contactor instead of a circuit breaker. The petitioner asserts that the proposed alternate method would

provide at least the same measure of protection to the miners as would the mandatory standard.

3. Costain Coal, Inc.

[Docket No. M-92-89-C]

Costain Coal, Inc., P.O. Box 289, Sturgis, Kentucky 42459 has filed a petition to modify the application of 30 CFR 75.1700 (oil and gas wells) to its Baker Mine (I.D. No. 15-14492) and its Pyro No. 9 Wheatcroft Mine both located in Webster County, Kentucky. The petitioner proposes to plug and mine through oil and gas wells. The petitioner asserts that the proposed alternate method would provide no less than same measure of protection as would the mandatory standard.

4. Consolidation Coal Company

[Docket No. M-92-90-C]

Consolidation Coal Company, 1800 Washington Road, Pittsburgh, Pennsylvania 15241 has filed a petition to modify the application of 30 CFR 75.1002 (location of trolley wires, trolley feeder wires, high-voltage cables and transformers) to its Robinson Run Mine (I.D. No. 46-01318) located in Harrison County, West Virginia. The petitioner proposes to use high-voltage cables in the last open crosscut to supply power to a longwall mining system from an electrical power system. The petitioner asserts that the proposed alternate method would provide the same measure of protection as would the mandatory standard.

5. Double M No. 2 Mine, Inc.

[Docket No. M-92-91-C]

Double M No. 2 Mine, Inc., P.O. Box 349, Appalachia, Virginia 24216 has filed a petition to modify the application of 30 CFR 75.1710 (canopies or cabs; electric face equipment) to its No. 2 Mine (I.D. No. 44-05815) located in Wise County, Virginia. Due to the rise and dip of mine roof and floor, the petitioner requests relief from the use of canopies on continuous miner and the two 6-L Galis Shuttle cars and the TD 30 roof drill. The petitioner asserts that use of canopies creates a hazard to the equipment operator.

6. Consolidation Coal Company

[Docket No. M-92-92-C]

Consolidation Coal Company, 1800 Washington Road, Pittsburgh, Pennsylvania 15241 has filed a petition to modify the application of 30 CFR 75.305 (weekly examinations for hazardous conditions) to its Loveridge No. 22 Mine (I.D. No. 46-01433) located in Monongalia County, West Virginia. Due to roof falls and other hazardous

conditions, the affected area cannot be safely traveled. The petitioner proposes to make weekly air and methane checks inby and outby the seals. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

7. Peabody Coal Company

[Docket No. M-92-93-C]

Peabody Coal Company, P.O. Box 1990, Henderson, Kentucky 42420 has filed a petition to modify the application of 30 CFR 75.305 (weekly examinations for hazardous conditions) to its Camp 2 Underground Mine (I.D. No. 15-02705) located in Union County, Kentucky. Due to hazardous roof conditions, the affected area cannot be safely traveled. The petitioner proposes to monitor the quality and quantity of air at a station in the intake and return aircourses. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

8. Costain Coal, Inc.

[Docket No. M-92-94-C]

Costain Coal, Inc., P.O. Box 289, Sturgis, Kentucky has filed a petition to modify the application of 30 CFR 75.305 (weekly examinations for hazardous conditions) to its Baker Mine (I.D. No. 15-14492) located in Webster County, Kentucky. Due to adverse roof conditions, the affected area cannot be safely traveled. The petitioner proposes to establish monitoring points to continuously monitor the quality and quantity of air entering and leaving the first submain west. The petitioner asserts that complying with the mandatory standard would result in a diminution of safety to persons required to make weekly examinations.

9. Hang On Buddy, Inc.

[Docket No. M-92-95-C]

Hang On Buddy, Inc., P.O. Box 1389, Clintwood, Virginia 24228 has filed a petition to modify the application of 30 CFR 75.305 (weekly examinations for hazardous conditions) to its Mine No. 1 (I.D. No. 15-15557) located in Perry County, Kentucky. Due to adverse roof conditions, certain areas of the mine cannot be safely traveled. The petitioner proposes to establish checkpoints to monitor the quality and quantity of air entering and leaving the affected area. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

Request for Comments

Persons interested in these petitions may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before September 23, 1992. Copies of these petitions are available for inspection at that address.

Dated: August 17, 1992.

OFFICE OF PERSONNEL MANAGEMENT

Establishment of the Hispanic Federal Employment Advisory Group

AGENCY: U.S. Office of Personnel Management.

ACTION: Notice.

ESTABLISHMENT OF AN ADVISORY GROUP:

This notice is published in accordance with section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) and advises of the establishment of the Hispanic Federal Employment Advisory Group. The Director of the Office of Personnel Management has determined that establishment of this Advisory Group is in the public interest.

DESIGNATION: Hispanic Federal Employment Advisory Group.

PURPOSE: The Advisory Group will advise the Director, OPM, on the development of personnel policies that affect the recruitment and advancement of Hispanics in the Federal workforce. Members will include the presidents of selected academic associations, Hispanic-serving institutions, professional and key community-based organizations, and selected Federal Directors of Human Resources Management. The Group will be chaired by the Associate Director of the Career Entry Group, OPM.

FOR FURTHER INFORMATION CONTACT:

The Director, Office of Personnel Management, is the sponsor of this Advisory Group. For further information, contact Fran Lopes, Assistant Director for Affirmative Recruiting and Employment, OPM, on (202) 606-0870.

U.S. Office of Personnel Management.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 31047; File No. SR-CBOE-92-14]

Self-Regulatory Organizations; Filing of Proposed Rule Change by the Chicago Board Options Exchange, Inc., Relating to Buy-Write Options Unitary Derivatives ("BOUNDS")

August 17, 1992.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on July 24, 1992, the Chicago Board Options Exchange, Inc. ("CBOE or Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange hereby proposes to amend its rules to permit trading in "BOUNDS" ("Buy-Write Options Unitary Derivatives"). As described in more detail below, BOUNDS are long term options with a duration of up to 60 months which have the same economic characteristics as covered calls.¹ BOUND holders will be able to participate in a stock's price appreciation up to but not exceeding a specified strike price while receiving payments equivalent to any cash dividends declared on the underlying stock. The Exchange also proposes to permit the listing of long term equity options ("LEAPs") with a duration of up to 60 months (5 years).

The text of the proposed rule change is available at the Office of the Secretary, CBOE and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission the CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CBOE has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(1) Purpose

The Exchange proposes to list BOUNDS, a synthetic options product which provides an alternative to existing methods of trading covered writes. The Options Clearing Corporation ("OCC") will be the issuer of all BOUNDS traded on the Exchange.²

¹ Covered call writing is a strategy by which an investor sells a call option while simultaneously owning the number of shares of the stock underlying the call.

² As with all OCC issued options, BOUNDS will be created when an opening buy and an opening sell order are executed. The execution of every such order will increase BOUND open interest. This is not to say, however, that an opening BOUND order cannot be executed against a closing BOUND order. Although a BOUNDS position may be established by executing an opening BOUND order against a closing BOUND order, this transaction would not

Except as described herein, BOUNDS will be subject to the rules governing standardized options.

BOUNDS will offer essentially the same economic characteristics as covered calls with the added benefits that BOUNDS can be traded in a single transaction and are not subject to early exercise. BOUND holders will profit from the stock's movement up to the strike price and will receive payments equivalent to the regular cash dividends paid on the underlying stock. On the ex-date for a dividend on the underlying stock, OCC will debit all accounts with a short BOUND position and credit all accounts with a long BOUND position with an amount equal to the dividend on the underlying stock.

At expiration, BOUND holders will receive 100 shares of the underlying stock for each BOUND held if, on the last day of trading, the underlying stock closes at or below the strike price. However, if at expiration the underlying stock closes above the strike price, the BOUND holder will receive a cash payment equal to 100 times the BOUND's strike price. At expiration, persons who have sold a BOUND will be required to deliver either 100 shares of the underlying stock or cash value of the strike price multiplied by 100. This settlement design mimics the economic result of a covered call at the expiration of the call option.

For example, if XYZ BOUND has a strike price of \$50 and XYZ stock closes at \$50 or less at expiration, the holder of an XYZ BOUND will receive 100 shares of XYZ stock. This is the same result as if the call option in a buy-write position expired out of the money; i.e., the option would expire worthless and the writer would retain the underlying stock. If XYZ closes above \$50 per share, then the holder of an XYZ BOUND will receive \$5,000 in cash (100 times the \$50 strike price).

It should be noted that BOUNDS are "European" style options. The Exchange believes that a European style BOUND will have greater acceptance among investors than an American style product since a European style BOUND will permit purchasers to receive for a definite period of time the dividend yield provided by the BOUND.

Generally, the Exchange anticipates listing BOUNDS with respect to the same underlying securities that have LEAPs listed on them. The criteria for stocks underlying BOUNDS will be the same as the criteria for stocks underlying LEAPs.

increase the net open interest in the particular BOUND series.

It is anticipated that the sum of the market prices of a LEAP and a BOUND on the same underlying stock with the same expiration month and the same strike price will closely approximate the market price for the underlying stock. If the combined price of the LEAP and BOUND diverge from that of the underlying common stock, there will be an arbitrage opportunity which, when executed, will tend to bring the price relationships back into line.

BOUNDS will have the same strike prices and expiration dates as their respective LEAPs. The Exchange anticipates that it will list new complementary LEAPs and BOUNDS on the same underlying securities annually, or at more frequent intervals, depending on market demand. While the Exchange has current authority to list LEAPs with up to 39 months until expiration, there has been increasing member firm and customer interest in longer term instruments. Therefore, the Exchange is proposing: (i) To amend Exchange Rule 5.8 to permit the listing of LEAPs with up to 60 months (5 years) until expiration, and (ii) to introduce BOUNDS with up to the same five year duration.

BOUNDS will be subject to the position limits for equity options set forth in Exchange Rule 4.11. In addition, BOUNDS will be aggregated with other equity options on the same underlying stock for purposes of calculating position limits. However, since a BOUND, from the perspective of the holder, is the equivalent of a long stock/short call position, long BOUNDS will be aggregated with short call and long put positions. Similarly, since the BOUND, from the perspective of the seller, is the equivalent of a long call/short stock position, short BOUNDS will be aggregated with long call and short put positions. In addition, since BOUNDS are the equivalent to either a long stock/short call or a short stock/long call position, investors in BOUNDS may be eligible for larger positions pursuant to the Exchange's hedged position limit pilot program. Thus, the largest BOUND position that any one person, or group of persons acting in concert, may establish would be 16,000 BOUNDS, i.e. two times the maximum regular position limit of 8,000 option contracts.

(2) Basis

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act in general and furthers the objectives of section 6(b)(5) in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster

cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and the national market system, and to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the *Federal Register* or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the CBOE. All submissions should refer to the file

number in the caption above and should be submitted by September 14, 1992.

For the Commission by the Division of Market Regulation, pursuant to the delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Rel. No. IC-18896: 811-2270]

Nuveen Income Trust, Series 1 Check-A-Month Plan; Application

August 14, 1992.

AGENCY: Securities and Exchange Commission ("SEC" or "Commission").

ACTION: Notice of application for deregistration under the Investment Company Act of 1940 (the "Act").

APPLICANT: Nuveen Income Trust, Series 1 Check-A-Month Plan.

RELEVANT ACT SECTIONS: Section 8(f).

SUMMARY OF APPLICATION: Applicant seeks an order declaring that it has ceased to be an investment company.

FILING DATES: Applicant filed the application on March 12, 1992 and amended on May 20, 1992 and July 28, 1992.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on September 8, 1992, and should be accompanied by proof of service on the applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 5th Street, NW., Washington, DC 20549. Applicant, 333 West Wacker Drive, Chicago, Illinois 60606.

FOR FURTHER INFORMATION CONTACT: Mary Kay Frech, Staff Attorney, at (202) 272-7648, or Elizabeth G. Osterman, Branch Chief, at (202) 272-3016 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicant's Representations

1. Applicant is a unit investment trust created under the laws of the State of Illinois pursuant to a Trust Indenture and Agreement dated August 16, 1972 ("Trust Agreement"). On February 18, 1972, applicant registered under the Act and filed a registration statement under the Securities Act of 1933. The registration statement was declared effective and applicant commenced its initial public offering on August 21, 1972.

2. On September 28, 1990, the securities held in applicant's portfolio fell below twenty percent of the original aggregate principal amount of securities deposited therein. In accordance with the Trust Agreement, when the value of the trust fund was reduced to less than twenty percent of the aggregate principal amount of portfolio securities initially deposited in the trust fund, the Trustee, at the direction of the board of directors of applicant, was to terminate and liquidate the trust fund. Applicant's board of directors recommended the dissolution of applicant in August, 1990, after a proposal was received by The First National Bank of Chicago, as trustee for applicant (the "Trustee"), on July 2, 1990.

On September 28, 1990, the Trustee sent a notice of termination to all unitholders stating, among other things, that applicant would be terminated on October 1, 1990. Procedures were set forth therein to enable each unit holder to receive its pro rata share of the final distribution of principal and interest. On April 1, 1991, the Trustee sent a second notice of termination to all unitholders who had not delivered their certificate transmittal to the Trustee and not received final distribution.

4. As of July 22, 1992, 422 units held by 9 unitholders remained outstanding and applicant, through its Trustee, had retained cash in the amount of \$24,775.62 in a non-interest bearing account for distribution to these 9 unitholders. The Trustee periodically will send additional notices to the remaining unitholders in an attempt to notify them of applicant's termination and final distribution. In accordance with state law, any assets remaining unclaimed after October 1, 1997 (seven years after the effective date of final distribution) will be presumed abandoned, and will be reported and remitted to the Director of the Illinois Department of Financial Institutions ("Director"). Thereafter, any person claiming an interest in any property previously delivered to the Director must file a claim, and if the claim is allowed, the Director will instruct the

State Treasurer to make payment to the owner.

5. All expenses incurred and to be incurred in connection with the liquidation of applicant and deregistration under the securities laws have been borne by applicant's investment adviser, Nuveen Advisory Corp. Any additional expenses incurred by applicant or the Trustee in the Trustee's attempt to locate the remaining unitholders will be borne by the trust assets of applicant as provided by the Trust Agreement.

6. As of the date of the amended application, applicant had no debts or other outstanding liabilities, and is not a party to any litigation or administrative proceedings. Applicant is not presently engaged, and does not propose to engage, in any business activities other than those necessary for the winding up of its affairs.

For the SEC, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 92-20144 Filed 8-21-92; 8:45 am]

BILLING CODE 8010-01-M

[(Release No. 35-25607); International Series Release No. 436]

Filings Under the Public Utility Holding Company Act of 1935 ("Act")

August 14, 1992.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated thereunder. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendments thereto is/are available for public inspection through the Commission's Office of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by September 8, 1992 to the Secretary, Securities and Exchange Commission, Washington, DC 20549, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of

any notice or order issued in the matter. After said date, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

System Fuels, Inc., et al. (70-7668)

System Fuels, Inc. ("SFI"), 639 Loyola Avenue, New Orleans, Louisiana 70113, a fuel procurement subsidiary company, together with two of its parent companies, Louisiana Power & Light Company ("LP&L"), 317 Baronne Street, New Orleans, Louisiana 70112 and Arkansas Power & Light Company ("AP&L"), 425 West Capitol, Floor 40, Little Rock, Arkansas 72201, each an electric public-utility subsidiary company of Entergy Corporation ("Entergy"), a registered holding company, and System Energy Resources, Inc. ("SERI"), Echelon One, 1340 Echelon Parkway, Jackson, Mississippi 39213, also an electric public-utility subsidiary company of Entergy (LP&L, AP&L and SERI collectively referred to as the "Operating Companies"), have filed a post-effective amendment under sections 6(a), 7 and 12(b) of the Act and rule 45 thereunder to their declaration in File No. 70-7668, as amended.

By orders dated September 27, 1989 (HCAR No. 24957) and February 5, 1992 (HCAR No. 25467), the Commission authorized SFI to enter into a credit agreement in order to borrow funds necessary to finance its nuclear materials and service inventory. In accordance with the orders, SFI entered into a credit agreement, dated October 3, 1989 ("Credit Agreement"), with The Yasuda Trust and Banking Company, Ltd., New York Branch ("Yasuda"), as agent for the lenders names therein (collectively, "Banks"), including Yasuda, and the Banks, pursuant to which revolving credit loans ("Loans") are made to SFI in an aggregate principal amount of up to \$45 million.

As security for the performance of its obligations under the Credit Agreement, SFI entered into a security agreement with Yasuda dated October 3, 1989, as amended ("Security Agreement"), under which SFI granted Yasuda a security interest in certain nuclear materials, services inventory, accounts receivable and certain other incidental rights and instruments. The Operating Companies, SFI and Yasuda also entered into a consent and agreement, dated October 3, 1989, under which the Operating Companies acknowledged and consented to SFI's grant of a security interest to Yasuda in its accounts receivable arising from certain sales by SFI of nuclear materials and services to the Operating Companies and also entered into certain covenants.

The Credit Agreement will expire on September 30, 1994 unless SFI requests a one-year extension. Therefore, SFI has requested that Yasuda extend the expiration date of the Credit Agreement an additional year until September 30, 1995. As a condition to such an extension, Yasuda has requested that SFI amend the Credit Agreement to provide for an increase in the quarterly commitment fee payable for SFI from 0.15% to 0.18% per annum of the difference between: (i) The amount of the Banks' commitments to make Loans and (ii) the total principal amount of their loans. In addition, Yasuda has requested that SFI amend the Credit Agreement to increase the margin payable on loans bearing interest at the Eurodollar Rate from 0.4375% to 0.5% and on loans bearing interest at the CD Rate from 0.5625% to 0.625%.

Entergy Corporation, et al. (70-8002)

Entergy Corporation ("Entergy"), 225 Baronne Street, New Orleans, Louisiana 70112, a registered public-utility holding company, Electec, Inc. ("Electec"), 639 Loyola Avenue, New Orleans, Louisiana 70113, Entergy's wholly-owned nonutility subsidiary company, and Entergy Power, Inc. ("EPI"), 425 West Capitol Avenue, Little Rock, Arkansas 72201, Entergy's public-utility subsidiary company (Entergy together with Electec and EPI "Applicants"), have filed an amended application-declaration under sections 3(a)(5), 3(b), 6(a), 7, 9(a), 10, 12(b), 13(b) and 13(f) of the Act and rules 10, 43, 45, 51, 83, 86, 87, 88, 90, 91 and 93-95 thereunder. The Commission first issued a notice of the filing on June 5, 1992 (HCAR No. 25551; International Series Release No. 396) ("June Notice"). The City of New Orleans and the Arkansas Public Service Commission, have requested a hearing. In addition, the Louisiana Public Service Commission filed a request to intervene and requested that it be kept informed of any hearing on this matter. The Mississippi Public Service Commission filed a notice of intervention supporting New Orleans' request for a hearing, and filed a letter expressing its additional concerns. Applicants have materially amended their application-declaration requiring the Commission to issue this supplemental notice.

Entergy has acquired an option ("Option") to participate in a consortium ("Consortium") with other nonaffiliated companies¹ to acquire a 60% interest in

¹ The other Consortium members are: Empresa Nacional de Electricidad, S.A. (approximately 30%); Enersis, S.A., Distribuidora Chilactra Metropolitana

Argentina's Costanera steam electric generating facility ("Facility") for \$90.121 million and to operate and maintain the Facility.² The Facility presently is held by Central Costanera, S.A. ("Costanera"), a company wholly owned by the Argentine government and an electric utility company within the meaning of section 2(a)(3) of the Act. The remaining 40% of the shares of Costanera will be held by the Argentine government, with 10% to be transferred to employees of Costanera and the remainder to be sold in Argentina and internationally pursuant to public offerings. The Facility consists of seven natural gas/oil-fired generating units, with a total installed capacity of 1260 megawatts and serves the electricity needs of Buenos Aires. A Chilean member of the Consortium, Empresa Nacional de Electricidad, S.A., will operate the Facility.

Entergy seeks authority to exercise its Option prior to November 11, 1992, and thus to acquire indirectly up to a 6.002% voting interest in Costanera. Entergy's obligations will not exceed \$22.5 million. Entergy's principal obligations will be the following: (1) To pay its percentage share of the Consortium's "common expenses" in connection with the submission of the bid to acquire 60% of Costanera; (2) to pay its share of the purchase price to the appropriate members of the Consortium, to make the required working capital contributions and to assume certain contingent liabilities of Costanera;³ and (3) not to assign or dispose of its equity share in Costanera for a period extending five years after May 20, 1992 unless otherwise agreed by, among others, the Government of Argentina. The Consortium members' principal rights,

with respect to Costanera, are to have no more than two voting members out of three on the Comptrolling Committee⁴ of Costanera, and to have five voting members out of eight voting members on the Board of Directors of Costanera.⁵

For tax reasons, Applicants anticipate that Entergy, through Electec, will form a new wholly owned subsidiary ("Entergy S.A."), organized under Argentine law, to purchase and exercise indirectly the Option. Entergy will purchase up to 22,500 shares of Electec for \$1000 per share, and Electec, in turn, will acquire virtually all the common stock of Entergy S.A.⁶ Entergy S.A. then will purchase shares of the common stock of Costanera for \$9.01 million.

Since the June Notice, the Consortium has formed a new Argentine company ("Argelec") to administer the 60% collective ownership interest of its members in Costanera. Applicants now propose that Entergy S.A. acquire a 10% interest in Argelec. It is stated that initially Argelec will have no employees or assets, will be nominally capitalized (a maximum of \$30,000), and will not own, control, or hold with power to vote any of the voting securities of Costanera. Applicants stated that all of such securities will be held directly by the individual members of the Consortium. If, however, the Consortium members at some time in the future determine to transfer their ownership interest in Costanera to Argelec, Argelec will be a holding company within the meaning of section 2(a)(7) of the Act.

Electec seeks authority to provide consulting services to Costanera with respect to management, technical, operating, environmental and fuel supply training services on a competitive fee basis, which Applicants represent will neither favor nor discriminate against affiliates of Costanera. Applicants, however, make no representation that the consulting services to be provided to Costanera will be provided at greater than or less than cost. Electec expects that on an annual basis the provision of such services may range up to a maximum of \$1 million, with the average likely to be

substantially less. Applicants request that any possible consulting arrangement between Electec and Costanera be exempt from section 13 and the rules promulgated thereunder.

Electec may obtain services from its associate companies, Arkansas Power & Light Company ("AP&L"), Louisiana Power & Light Company ("LP&L"), Mississippi Power & Light Company ("MP&L"), New Orleans Public Service Inc. ("NOPSI"), EPI and Entergy Services, Inc. ("ESI") to carry out its consulting arrangements with Costanera. Electec will reimburse its associate companies at cost. Electec has been previously authorized to obtain services from AP&L, LP&L, MP&L, NOPSI and ESI (HCAR No. 23200, January 13, 1984).

Applicants request authorization for Electec to obtain services from EPI directly and for Electec to reimburse EPI at cost. EPI represents that it is not requesting authority in this application-declaration to purchase services from any other affiliate company.

As a result of the proposed transactions, Entergy S.A. and Argelec will become subsidiary companies of Entergy within the meaning of section 2(a)(8) of the Act; Entergy S.A., Argelec (should it hold the Consortium's interest in Costanera), and Electec will be holding companies within the meaning of section 2(a)(7) of the Act; and Costanera will be an affiliate of Entergy within the meaning of section 2(a)(11)(A) of the Act. Applicants state that a change in the structure of this transaction may be required by the Act.

Applicants request an order under section 3(b) exempting Entergy S.A. and Argelec, as subsidiary companies, from all provisions of the Act, and under section 3(a)(5), exempting Entergy S.A., Argelec, and Electec as holding companies, from all provisions of the Act.

Applicants state that Entergy S.A. and Argelec will derive their income, directly or indirectly, only from Argentine sources and that neither Entergy S.A. nor Argelec nor any of their subsidiaries is a public-utility company operating within the United States. In addition, should Entergy S.A., Argelec, and Electec become holding companies, Applicants state that Entergy S.A., Argelec, and Electec will derive no material part of their income from subsidiary companies, which are companies the principal business of which within the United States is that of a public-utility company.

S.A. (collectively, 12%); Inter-Rio Holdings Establishment (approximately 7.50%); Perez Compan S.A.C.F.I.M.F.A. and Sade S.A.C.C.I.F.I.M. (collectively, approximately 7.50%); and PSI resources Inc. (approximately 3.0%, with an option to acquire an additional 3.0%).

² All monetary amounts are given in United States dollars.

³ The principal contingent liability includes the joint assumption by Costanera and the members of the Consortium in accordance with their respective percentage interests of a \$95 million, 20-year maturity, 1.5% interest rate loan from the Italian government to be utilized for the refurbishment of the Facility. Costanera also has \$66 million of short-term debt payable to Gas del Estado, YPF, and Banco de Nacion.

Interest is payable as part of the \$9.01 million purchase price for the approximately 6.0% interest of Costanera and or any additional working capital contribution required and is payable at the rate of 2.5% per month during the six-month period in which the Option is exercisable by Entergy; interest is also payable on Entergy's share of the "common expenses" at the LIBOR rate for 180-day U.S. dollars; no interest is payable if the Option is not exercised.

⁴ The Comptrolling Committee ("Comision Fiscalizadora") in Argentine corporations represents the shareholders before the Board of Directors.

⁵ There is a requirement that the 40% of the shares of Costanera not acquired by the Consortium Members be represented on the Board; the employees eventually will be entitled to one voting member, while the public shareholders eventually will be entitled to two voting members. Each member of the Board of Directors will have one vote.

⁶ One share of Entergy S.A. will be held by a nominee of Electec in order to conform with Argentine law.

Entergy Corporation, et al. (70-8010)

Entergy Corporation ("Entergy"), 225 Baronne Street, New Orleans, Louisiana 70112, a registered public-utility holding company, Electec, Inc. ("Electec"), 639 Loyola Avenue, New Orleans, Louisiana 70113, Entergy's wholly owned nonutility subsidiary company, and Entergy Power, Inc., 425 West Capitol Avenue, Little Rock, Arkansas 72201, Entergy's public-utility subsidiary company, have filed an amended application-declaration under section 2(a)(8), 3(a)(5), 3(b), 6(a), 7, 9(a), 10, 12(b), 13(b) and 13(f) of the Act and rules 10, 43, 45, 51, 83, 86, 87, 90, 91 and 95 thereunder. A notice of this application-declaration was previously issued on July 10, 1992 (HCAR No. 25579) ("July Notice"). The City of New Orleans and the Arkansas Public Service Commission have requested a hearing and the Mississippi Public Service Commission has filed a notice of intervention. Applicants have materially amended their application-declaration requiring the Commission to issue this supplemental notice.

The July Notice reported that the applicants seek authority, among other things, to invest up to \$50 million in one of two newly formed Argentine electric-utility companies that will own and operate transmission and distribution systems in the City of Buenos Aires and the surrounding area ("Distribution Company"). Entergy acquired an option (the "Option") to participate in a consortium ("Consortium") with five other nonaffiliated entities to acquire from the government of Argentina, pursuant to public competitive bidding, a 51% interest in Distribution Company.

The July Notice indicated that upon a successful bid, the members of the Consortium would form Investor Company to acquire the 51% ownership interest in Distribution Company. Entergy Argentina S.A. ("Entergy Argentina"), a proposed to-be-formed wholly owned Argentine subsidiary company of Electec, proposed to acquire up to 15% of Investor Company and thus to acquire indirectly up to a 7.7% voting interest in Distribution Company.

The July Notice also stated that Entergy's share of the costs and contingent liabilities in connection with the acquisition and ownership of its indirect interest in Distribution Company over approximately the next three years was not expected to exceed \$50 million. To finance its investment, Entergy proposed to acquire up to 50,000 shares of the common stock of Electec for \$1,000 per share.

Since publication of the July Notice, the Consortium through Investor

Company, won the bid and was awarded the right to acquire 51% of Edesur S.A. ("Edesur") for \$511 million. Edesur has a franchise to provide electric distribution and marketing services in the southern sector of the City of Buenos Aires and the surrounding area which currently contains approximately 1.9 million customers with aggregate sales of 6000 gwh/year.

According to the amended application-declaration, Entergy Argentina now proposes to acquire up to 10% of Investor Company, and thus acquire indirectly up to a 5.1% voting interest in Edesur. Entergy's share of the costs and contingent liabilities in connection with the acquisition and ownership of its indirect interest in Edesur over approximately the next three years is now not expected to exceed \$77.5 million.⁷ In addition, to finance its investment, Entergy proposes to acquire up to 77,500 shares of the common stock of Electec for \$1,000 per share. In all other respects the application-declaration remains unchanged.

The Columbia Gas System, Inc., et al. (70-8011)

The Columbia Gas System, Inc., ("Columbia"), a registered holding company, its wholly-owned subsidiary, the Inland Gas Company, Inc. ("Inland"), both at 20 Montchanin Road, Wilmington, Delaware 19807, and Columbia Gas of Kentucky, Inc. ("Columbia Kentucky"), 200 Civic Center Drive, Columbus, Ohio 43215, and Columbia Natural Resources, Inc. ("Columbia Natural"), 900 Pennsylvania Avenue, Charleston, West Virginia 25302, each a wholly-owned subsidiary company of Columbia, have filed an application-declaration pursuant to section 2(a)(4), 9(a), 10, 12(d) and 12(f) of the Act and rules 43 and 44 thereunder.

Inland proposes to sell and transfer, and Columbia Natural proposes to acquire, Inland's natural gas production and gathering facilities at their current net book value of approximately \$3 million. Inland also proposes to sell and

transfer, and Columbia Kentucky proposes to acquire, Inland's transmission facilities at their current net book value of approximately \$2 million. Miscellaneous facilities necessary to continue service to American Natural Rubber Company, a nonaffiliated company, will be sold to Mountaineer Gas Company, also a nonaffiliated company, for \$3,000. Inland's remaining facilities, located primarily in Ohio and West Virginia, will be abandoned in place. The total book value of assets, for which Inland has found no purchaser, that will be written off is approximately \$654,000.

Columbia Kentucky and Columbia Natural, as an obligation of ownership of Inland's facilities following their acquisition, will also assume certain of Inland's service obligations. Inland's service obligations consist of the sale and/or transportation of natural gas to its customers who are served as required by Kentucky law ("KRS Customers"—under Kentucky Revised Statutes 278.485, the owner of a gathering line who obtains gas from producing wells in Kentucky must furnish gas service to the owner of property located within one-half air-mile of the line or well), individual contracts, rights-of-way agreements or Federal Energy Regulatory Commission approved tariffs.

Columbia Natural requests an order from the Commission pursuant to section 2(a)(4) of the Act declaring Columbia Natural not to be a gas utility company. It is stated that Columbia Natural not to be a gas utility company. It is stated that Columbia Natural has been and will continue to be (after its acquisition of Inland's natural gas production and gathering facilities) primarily engaged in the business of producing gas. Columbia Natural states that it will not be seeking to provide a gas utility service to end-use residential customers, although it will serve the KRS Customers currently being served by Inland.

Columbia Gas System, Inc., et al. (70-8012)

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and TriStar Ventures Corporation ("TVC"), a wholly owned nonutility subsidiary of Columbia, both located at 20 Monchanin Road, Wilmington, Delaware 19807, and the following wholly owned subsidiaries of TVC, TriStar Binghamton General Corporation and TriStar Binghamton Limited Corporation (collectively, the "Binghamton Cogeneration Subsidiaries"), TriStar Vineland General Corporation and TriStar Vineland

⁷ The principal contingent liabilities include the assumption by the Investor Company in the event of a default by Edesur of certain short-term debt of Edesur. At the time of transfer to the winning bidders, Edesur will have short-term debt of approximately \$136 million, payable not later than December 1, 1992. Any obligations flowing from such contingent liabilities are included within Entergy's request for authorization to invest indirectly up to \$77.5 million in Investor Company. Edesur currently intends to seek permanent financing on more favorable terms in amounts up to approximately \$250 million, the proceeds of which would be applied, first, to repay its outstanding short-term debt and the balance to finance Edesur's working capital needs, including capital improvements.

Limited Corporation (collectively, the "Vineland Cogeneration Subsidiaries") and TriStar Georgetown General Corporation and TriStar Georgetown Limited Corporation (collectively, the "Georgetown Cogeneration Subsidiaries"), of the same address as Columbia (collectively, the "Cogeneration Subsidiaries"), and the following indirect subsidiaries of TVC, Vineland Cogeneration Limited Partnership ("VCLP"), 1199 Black Horse Pike, Pleasantville, New Jersey 08232, and Georgetown Cogeneration, L.P. ("GCLP"), P.O. Box 26532, Richmond, Virginia 23261, have filed an application-declaration with this Commission under sections 6(a), 7, 9(a), 10, 12(c), and 13 and rules 43, 45, 50(a)(5), 51, 87(b)(1), 90, and 91 thereunder.

Pursuant to previous Commission authorization,⁸ TVC has participated in several limited partnerships which engage in cogeneration ventures. These partnerships include the Binghamton Cogeneration Limited Partnership ("BCLP"), the VCLP and the GCLP. The BCLP is constructing a 50 MW facility located in Binghamton, New York, in which the Binghamton Cogeneration Subsidiaries hold an aggregate 33.3% interest. The facility has been project financed, is under construction and is expected to become operational in August 1992. VCLP, in which the Vineland Cogeneration Subsidiaries hold a 50% interest, is constructing a 46 MW facility located in Vineland, New Jersey. The Georgetown Cogeneration Subsidiaries hold an aggregate 50% interest in GCLP, which proposes to construct a 56 MW facility on the Georgetown University campus in Washington, DC. The projects have been certified as qualifying cogeneration facilities ("QF's") under the Public Utility Regulatory Policies Act of 1978 and the regulations thereunder.

The Columbia, TVC and the Cogeneration Subsidiaries, request authority to make equity and contingent equity contributions to these three limited partnerships. Under Equity Contribution Agreements relating to each venture, the Cogeneration

Subsidiaries would not normally be required to make their equity contributions in full until commercial operation of the facilities. However, because of Columbia's bankruptcy proceeding⁹ and its impact on TVC's credit, lenders will require that such contributions be made, through escrow accounts, letters of credit or other arrangements, at financial closing of these projects.

In order to finance its equity contributions, TVC proposes to issue and sell, and Columbia proposes to acquire, through December 31, 1993, up to \$25 million of common stock of TVC, \$25 par value, for \$290 per share and/or installment promissory notes ("Notes"). The Notes would bear a fixed interest rate to be determined at the time of issuance based upon the preceding calendar quarter three-month average yield on newly issued "A" rated 25-30 year utility bonds as published in Salomon Brothers' weekly Bond Market Roundup or 2% per annum above the foregoing applicable rate if interest or principal payment on the Notes becomes past due. The Notes will be payable in installments over a period not to exceed 30 years and will be dated the date of their issue.

TVC in turn proposes to acquire shares of common stock to be issued by the Cogeneration Subsidiaries in order for them to make their respective equity and contingent equity contributions: the Binghamton Cogeneration Subsidiaries will contribute up to \$9.6 million to BCLP; the Vineland Cogeneration Subsidiaries will contribute up to \$9.9 million to VCLP; and the Georgetown Cogeneration Subsidiaries will contribute up to \$8.3 million to GCLP. The funds for TVC's purchases of the Cogeneration Subsidiaries' securities will be derived from: (i) TVC's issuance of stock or installment promissory notes to Columbia of up to \$25 million; and (ii) up to \$2.8 million of TVC's cash on hand and development costs to be refunded at the closing of project financing for two of the projects.

VCLP and BCLP request authority to engage in project financing. VCLP is seeking authority to issue notes to banks up to \$73 million in connection with the issuance of electric energy facility

revenue (tax-exempt) bonds by the New Jersey Economic Development Authority. Interest on the unrated bonds is expected to be approximately 8¾% and is not expected to exceed 12%.

Maturity of the bonds will be 27 years or less. The costs of the construction of the facility to be paid from the proceeds of the bonds include costs to be paid under the Turnkey Construction Contract between VCLP and National Energy Production Company, a subsidiary of Zurn Industries, Inc., and costs to be paid to Cogeneration Partners of America, a New Jersey partnership 50% owned by TVC which provides administrative services relating to QF projects, under the terms of a management agreement. If the Vineland Cogeneration Subsidiaries do not have sufficient funds to place their equity and contingent equity commitments by financial closing of the project, they expect to sell their interests and retain an option to repurchase those interests.

GCLP is also seeking authority to issue up to \$66.4 million in notes in connection with commercial construction and term loan financing with a group of banks. The loans would be evidenced by a note for a term not to exceed 15 years, with an interest rate that would not exceed either: (i) The sum of LIBOR plus two percent or the lender's alternate base rate plus one percent for the construction loan; or (ii) LIBOR plus two percent or the lender's alternate base rate plus two percent for the term loan. Interest rate protection plans would be entered into with respect to the construction loan and, for an initial ten-year period, for at least 75% of the term loan, at an interest rate not to exceed 11%. Financial closing is anticipated for October 1992. The financing will be non-recourse to the partners except to the extent of their pledge of their interest in the GCLP and their obligations to make equity contribution commitments.

In addition to the investments described above, TVC seeks authority, through December 31, 1994, to the extent that funds are available from cash on hand or development cost refunds, to invest directly or indirectly up to \$10 million in its preliminary development and administrative operations. Such preliminary development and administrative activities would be conducted by TVC directly or indirectly through the Cogeneration Subsidiaries or subsidiaries thereof. The proposed investment would be made either through promissory notes, the purchase of common stock or through capital contributions. TVC states that preliminary development activities

⁸ HCAR No. 24199 (September 26, 1986) (authorized the organization of TVC; authorized TVC to issue and sell up to \$25 million of common stock and/or installment promissory notes to Columbia); HCAR No. 24199-A (November 5, 1986) (TVA authorized to make investments through wholly-owned subsidiaries; authorized TVC to issue and sell up to \$25 million of common stock and/or installment promissory notes to Columbia); HCAR No. 24554 (December 31, 1987) (extended TVC's financing authority); HCAR No. 24569 (January 29, 1988) (extended TVC's financing authority and authorized an additional \$25 million of financing for TVC).

⁹ Columbia is currently a debtor in possession under Chapter 11 of the Bankruptcy Code. Columbia and its wholly owned subsidiary company, Columbia Gas Transmission Corporation ("Transmission"), filed separately for protection with the Bankruptcy Court for the District Court of Delaware on July 31, 1992. The cases have been consolidated for procedural purposes and are jointly administered under the caption *In re The Columbia Gas System, Inc. and Columbia Gas Trans. Corp.*, No. 91-804. Transmission is not a party to this application-declaration.

would include, but not be limited to, the investigation of sites, preliminary engineering and licensing activities, acquiring options and rights, contract drafting and negotiating, preparation of proposals and the other necessary activities to identify and analyze feasible investment opportunities and to initiate the commercialization of a project. Administration would include the ongoing personnel, accounting, engineering, legal, financial and other support activities necessary for TVC to manage its investments in QF's. TVC represents that once it decides to proceed beyond such preliminary development, additional acquisitions of partnership interests, joint ventures or investments in other entities would be subject to prior Commission approval or conditioned upon receipt of Commission authorization.

The applicants request an exception from the competitive bidding requirements of rule 50 pursuant to rule 50(a)(5) for the proposed transactions (except for the issuance of common stock and installment promissory notes by TVC and of securities by the Cogeneration Subsidiaries, which applicants assert is exempt from such requirements under rule 50(a)(3)). The applicants state that competitive bidding is not necessary or appropriate to aid the Commission in its determination whether the fees, commissions or other remuneration to be paid in connection with such transactions is reasonable. The applicants may negotiate with lenders in connection with the above proposed transactions.

Southwestern Electric Power Company (70-8041)

Southwestern Electric Power Company ("SWEPCO"), 428 Travis Street, Shreveport, Louisiana 71101, an electric public-utility subsidiary of Central and South West Corporation, a registered holding company, has filed an application-declaration under sections 6(a), 7, 9(a), 10 and 12(c) of the Act and rules 42(a), 50, and 50(a)(5) thereunder.

SWEPCO proposes to issue and sell First Mortgage Bonds ("New Bonds") in an aggregate principal amount up to \$320 million in one or more series from time to time through December 31, 1994. The New Bonds would have maturities not less than five years nor more than thirty years. The New Bonds will be issued under SWEPCO's Indenture dated February 1, 1940, as amended and supplemented.

The proceeds from the sale of the New Bonds will be used principally to redeem all or a portion of one or more series of SWEPCO's outstanding First

Mortgage Bonds, including Series I, \$30 million, 4%, due April 1, 1993 ("Series I Bonds"); Series K, \$35 million, 9%, due December 1, 1999 ("Series K Bonds"); Series N, \$45 million, 8%, due May 1, 2006 ("Series N Bonds"); Series O, \$50 million, 8%, due August 1, 2008 ("Series O Bonds") and Series T, \$55.5 million, 8.85%, due May 1, 2016 ("Series T Bonds") at the then current general redemption price (currently, 100.00%, 102.30%, 103.93%, 104.53% and 106.11% of the principal amount of the Series I Bonds, Series K Bonds, Series N Bonds, Series O Bonds and the Series T Bonds, respectively), plus accrued and unpaid interest to the redemption date. The proceeds may also be used to purchase through a tender offer all or a portion of an additional series of SWEPCO's outstanding First Mortgage Bonds, or to repay all or a portion of SWEPCO's outstanding \$50 million Variable Rate Bank Loan (the "Bank Loan") due June 15, 1997. The Series I Bonds, Series K Bonds, Series N Bonds, Series O Bonds, the Series T Bonds and the bonds which may be subject to a tender offer are referred to herein as the "Old Bonds".

Any net proceeds not used for the redemption or repurchase of the Old Bonds will be used to repay outstanding short-term borrowings or for other general corporate purposes. In the event the proceeds from the issuance of the New Bonds are less than the amount required to redeem all of any series of SWEPCO's Old Bonds being redeemed or purchased, or the Bank Loan, SWEPCO will pay a portion of the redemption or tender price from internally generated funds or available short-term borrowings.

Since the Old Bonds were issued or the Bank Loan incurred, there has been a significant reduction in long-term interest rates. SWEPCO will not issue the New Bonds unless the estimated present value savings (derived from the net difference between interest payments on any New Bonds to be issued for refunding purposes and the Old Bonds and the Bank Loan) is, on an after-tax basis, greater than the present value of all redemption and issuance costs, assuming an appropriate discount rate.

SWEPCO seeks authority to issue the New Bonds with terms which deviate from provisions contained in the Commission's Statement of Policy Regarding First Mortgage Bonds, as amended (HCAR Nos. 13105 and 16369). The New Bonds may include terms which (i) limit SWEPCO's ability to redeem or refund the New Bonds for a period up to fifteen years, (ii) do not include a sinking fund or retirement fund requirement, and/or (iii) do not

restrict SWEPCO's ability to pay dividends on its common stock.

SWEPCO requests authority to sell the New Bonds either: (i) pursuant to competitive bidding pursuant to rule 50 or, in the case of a delayed or continuous offering and sale pursuant to rule 415 under the Securities Act of 1933, as amended, the alternative bidding procedures as permitted by HCAR No. 22623 (September 2, 1982); or (ii) in a negotiated transaction with underwriters or agents. SWEPCO therefore requests authority to enter into negotiations with potential underwriters with respect to the interest rate, redemption provisions and other terms and conditions applicable to the New Bonds. It may do so.

New England Electric System (70-8043)

New England Electric System ("NEES"), 25 Research Drive, Westborough, Massachusetts 01582, a registered holding company, has filed a declaration under sections 6(a), 7 and 12(c) of the Act and rule 42 thereunder.

By prior order dated September 21, 1990 (HCAR No. 25155), NEES was authorized to issue short-term promissory notes to banks up to a maximum aggregate principal amount outstanding at any one time not to exceed \$100 million. This borrowing authority expires on October 31, 1992.

NEES now proposes to issue short-term promissory notes to banks from time-to-time between November 1, 1992, and October 31, 1995. The maximum aggregate principal amount of such notes to be outstanding at any one time will not at any time exceed \$100 million. NEES currently does not expect to incur short-term borrowings during the applicable period, but believes the requested short-term borrowing authority is necessary in order for it to be prepared for unforeseen events.

The proposed borrowings by NEES will be evidenced by notes maturing in less than one year from the date of issuance. NEES will negotiate with banks the interest costs of such borrowings. NEES pays fees to the banks in lieu of compensating balance arrangements. The effective interest cost of borrowings from a bank will not exceed the greater of the bank's base or prime lending rate, or the rate published in the Wall Street Journal as the high federal funds rate, plus, in either case, one percent. Based on the current base lending rate of 6% and an equivalent or lower high federal funds rate, the effective interest costs of such borrowing would not exceed 7% per annum.

Certain of such borrowings may be without prepayment privileges. Payment of any short-term promissory notes prior to maturity will be made on the basis most favorable to NEES, taking into account fixed maturities, interest rates, and any other relevant financial consideration.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,
Deputy Secretary.

BILLING CODE 8010-01-M

[Release No. IC-18895; 811-6249]

Seahawk Capital Corp.; Application

August 14, 1992.

AGENCY: Securities and Exchange Commission ("SEC" or "Commission").

ACTION: Notice of application for deregistration under the Investment Company Act of 1940 (the "Act").

APPLICANT: Seahawk Capital Corporation ("Seahawk").

RELEVANT 1940 ACT SECTION: Section 8(f).

SUMMARY OF APPLICATION: Seahawk seeks an order declaring that its registration under section 8 of the Act has ceased to be in effect. Such an order would be retroactively effective as of February 6, 1992, the date on which Seahawk filed a Notification of Election to be Subject to section 55 through 65 of the Investment Company Act of 1940 Filed Pursuant to section 54(a) of the Act on Form N-54A.

FILING DATE: The application was filed on May 28, 1991 and amended on April 16, 1992 and July 10, 1992.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on September 8, 1992, and should be accompanied by proof of service on applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 5th Street, NW., Washington, DC 20549.

Applicant, 18552 MacArthur Boulevard, Suite 395, Irvine, California 92715.

FOR FURTHER INFORMATION CONTACT: Marilyn Mann, Special Counsel, at (202) 504-2259, or Barry D. Miller, Senior Special Counsel, at (202) 272-3018 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicant's Representations and Legal Analysis

1. Seahawk, a New Jersey corporation, was primarily an operating oil and gas company from its inception in 1979 until November 1989. Seahawk has 13,136,980 shares of common stock outstanding and approximately 4,500 shareholders.

2. In late 1989, after an extensive evaluation of industry changes and prospects for the oil and gas industry, the management and board of directors of Seahawk determined that Seahawk should discontinue its domestic operations as a small oil and gas development company. In November 1989, Seahawk sold substantially all of its domestic oil and gas properties, while retaining its interest in certain foreign oil and gas prospects in Belize, Central America and Sierra Leone, Africa. The sale of Seahawk's domestic oil and gas properties was approved by stockholders of Seahawk at a special meeting held on November 13, 1989.

3. A portion of the cash proceeds from its sale of domestic oil and gas properties were used by Seahawk to discharge transactional costs and expenses and to retire all of its outstanding indebtedness. In a proxy statement dated September 29, 1989, Seahawk stated that "[t]he corporate plan for [Seahawk] is to acquire a profitable, private company that will enable [Seahawk] to make maximum use of its approximately \$10,000,000 tax loss carry forward."

4. Pending location of such a business opportunity, Seahawk invested the remaining cash proceeds of the sale of its domestic oil and gas properties in, among other things, the common stock of Mobil Oil Corporation, in covered call options with respect to that stock, and in put options on Phillips Petroleum Company stock. Later, Seahawk disposed of its shares of oil company stock and related options and invested the proceeds in government securities, shares of money market funds, and other liquid assets. As of March 31, 1992, approximately 81% of Seahawk's assets

on a consolidated basis were invested in interest bearing money market checking accounts.

5. Notwithstanding active investigation and negotiations, business opportunities for reinvestment of Seahawk's cash proceeds were slower to develop than management had anticipated in late 1989. On November 29, 1990, Seahawk filed an application with the Commission for an order pursuant to section (3)(b)(2) of the Act declaring that Seahawk was not an investment company or, in the alternative, for an order under section 6(c) of the Act exempting Seahawk from all provisions of the Act. Seahawk withdrew this application on March 25, 1991.

6. On March 4, 1991, Seahawk filed a notification on Form N-8A of Seahawk's registration under section 8(a) of the Act. However, Seahawk believes that the amount of its assets are insufficient to enable it to economically justify the cost of registration or to adequately compensate a registered investment adviser. On May 28, 1991, Seahawk filed an application under section 8(f). On February 6, 1992, Seahawk filed an election on Form N-54A to be a business development company ("BDC") within the meaning of sections 55 through 65 of the Act. That action was authorized at a meeting of Seahawk's board of directors held on January 15, 1992.

7. Seahawk is currently operating as a closed-end diversified management investment company and a BDC,¹ and is engaged in exploring investment opportunities for the purpose of acquiring equity interests in privately-held business enterprises.

8. Seahawk's election to be a BDC, by virtue of section 6(f) of the Act, exempts Seahawk from the registration provisions of section 8 of the Act.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,
Deputy Secretary.

[FR Doc. 92-20143 Filed 8-21-92; 8:45 am]
BILLING CODE 8010-01-M

¹ The application contains certain statements regarding Seahawk's present compliance with the provisions of the Act relating to BDCs. Seahawk acknowledges, however, that the Division of Investment Management has not given any opinion or assurance with respect to Seahawk's present compliance, or ability to comply in the future, with the provisions of the Act relating to BDCs.

[Rel. No. IC—18894; 812-7800]

**Thomson Fund Group, et al.;
Application**

August 14, 1992.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application for Exemption under the Investment Company Act of 1940 (the "Act").

APPLICANTS: Thomson Fund Group ("TFG"); Cash Accumulation Trust ("CAT"); and Thomson Advisory Group L.P. (the "Adviser").

RELEVANT ACT SECTIONS: Order requested under section 6(c) exempting applicants from sections 13(a)(2), 13(a)(3), 17(a)(1), 18(f)(1), 22(f) and 22(g) and rule 2a-7 thereunder, and pursuant to section 17(d) and rule 17d-1 thereunder to permit certain joint transactions.

SUMMARY OF APPLICATION: Applicants seek an order under section 6(c) of the Act exempting them from sections 13(a)(2), 17(a)(1), 18(f)(1), 22(f) and 22(g) and rule 2a-7 thereunder, and under section 17(d) and rule 17d-1 thereunder that would permit TFG and CAT to offer deferred compensation agreements (the "Agreements") to their trustees who are not interested persons within the meaning of section 2(a)(19). To enable TFG and CAT to meet their obligations under the Agreements, the order would permit them to purchase their own shares and shares of affiliated investment companies, and to sell their shares to affiliated investment companies. The order also would exempt one series of TFG from section 13(a)(3) to enable it, without a shareholder vote, to purchase shares of affiliated investment companies to fulfill its obligations under the agreements, notwithstanding an investment policy that would not permit such purchases.

FILING DATES: The application was filed on October 9, 1991 and amended on March 17, 1992 and June 30, 1992.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on September 8, 1992, and should be accompanied by proof of service on the applicants, in the form of an affidavit, or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a

hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 5th Street, NW., Washington, DC 20549. Applicants, c/o J.B. Kittredge, Ropes & Gray, One International Place, Boston, Massachusetts 02110.

FOR FURTHER INFORMATION CONTACT: Maura A. Murphy, Staff Attorney, at (202) 272-7779 or Barry D. Miller, Senior Special Counsel, at (202) 272-3030 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicants' Representations

1. TFG and CAT are registered open-end management investment companies advised by the Adviser. TFG has ten series and CAT has three series. Applicants request that the exemptions it requests, other than the exemption from section 13(a)(3) (which, as described below, applies only to Thomson U.S. Government Fund) also apply to any registered open-end investment company for which the adviser subsequently serves as investment adviser.

2. Each of TFG and CAT has a board of trustees consisting on nine persons, seven of whom are not interested persons of the applicants within the meaning of section 2(a)(19). Trustees who are not interested persons receive annual fees for their services plus meeting attendance fees and additional fees for service on board committees. For 1992, TFG estimates that the aggregate amount paid to trustees for their services will be \$107,000 and CAT estimates that the aggregate amount paid to trustees for their services will be \$101,400, which in each case represents a *de minimis* amount of net assets. No trustee who is an interested person receives an remuneration from TFG or CAT.

3. TFG and CAT propose to enter into Agreements with individual trustees. The Agreements would permit the trustees to elect to defer receipt of their trustees' fees in order to defer payment of income taxes or for other reasons.

4. Under each Agreement, the deferred fees will be credited to a book reserve account (the "Deferred Fee Account"), established by TFG or CAT with respect to each of its series, as of the date the fees would have become payable to the trustee.

5. The value of the Deferred Fee Account on any day shall be equal to

the value it would have had if the deferred fees credited to it had been invested in certain designated securities (the "Underlying Securities") as of the date the fees were credited. The Deferred Fee Account shall be credited or charged with book adjustments representing all interest, dividends, and other earnings, and all gains and losses that would have been realized if the Deferred Fee Account had been invested in the Underlying Securities.

6. The underlying Securities will be shares of such series of either TFG or CAT as the Board of Trustees and the participating trustee shall have agreed upon in writing from time to time. Thus, for example, shares of a stock fund could be Underlying Securities with respect to deferred fees payable by a bond or money market fund, or vice versa.

7. Applicants also request an exemption from section 13(a)(3) to enable Thomson U.S. Government Fund (the "Government Fund"), a series of TFG, to purchase shares of affiliated investment companies as Underlying Securities without a shareholder vote. The Government Fund has an investment policy that prohibits it from investing, without shareholder approval, in any securities other than U.S. government securities, repurchase agreements relate thereto, put and call options thereon, futures contracts with respect to U.S. government securities, and options on such futures contracts. This policy would prevent the Government Fund from purchasing shares of any other series of TFG or any series of CAT without a shareholder vote.

8. Under deferred compensation arrangements now in existence, certain trustees have deferred receipt of their compensation on a basis similar to that proposed under the Agreements, except that under the existing arrangements each trustee is entitled to receive an amount equal to the amount that such deferred compensation would have had if it had been invested in the series to TFG or CAT for which the trustee rendered services. Applicants will not transfer any amounts from the existing deferred fee arrangements to any Deferred Fee Account created under the Agreements in reliance upon any order issued in connection with this application.¹

¹ Applicants have not requested, and any order will not grant, an exemption to allow the implementation or continuance of the existing deferred compensation arrangements.

9. The obligations to make payments from the Deferred Fee Accounts will be general unsecured obligations of the series of TFG and CAT, and payments from the Deferred Fee Accounts will be made from the series' general assets and property.

10. The Agreements will not obligate TFG or CAT to purchase, hold, or dispose of any investments, but, if TFG or CAT chooses to purchase investments to cover its obligations under the Agreements, then any and all such investments will continue to be a part of the general assets and property of TFG or CAT. As a matter of prudent risk management, both TFG and CAT intend and, with respect to any money market series that values its assets by the amortized cost method, undertake to purchase and maintain Underlying Securities in the amounts credited to the Deferred Fee Accounts.

11. Under the Agreements, a trustee may elect to defer payment of fees from TFG or CAT until: (a) The trustee dies or ceases to serve as a trustee; (b) the dissolution, liquidation, winding up, or disposition of all or substantially all assets of TFG or CAT; or (c) the merger or consolidation of TFG or CAT, unless the Board of Trustees determines in advance that the Agreements shall survive such merger or consolidation. Payments shall be made in a lump sum or in up to ten annual installments. In the event of the trustee's death, the deferred compensation will be paid to his or her designated beneficiary. In all other situations, the trustee's right to receive payments will be nontransferable.

12. Deferral of trustees' fees in accordance with the Agreements will have no effect on each series' net assets or net income per share because each series will hold Underlying Securities in an amount equal to the balance in the Deferred Fee Accounts, so that the amount of TFG's or CAT's liability for deferred fees will be exactly offset by the value of the Deferred Fee Accounts.

13. The Agreements will not obligate TFG or CAT to retain the services of any trustee, nor will they obligate TFG or CAT to pay any particular level of compensation to any trustee.

Applicants' Legal Analysis

1. Applicants believe that the Agreements are in the best interest, TFG, CAT, and their shareholders, and that the Agreements will enhance the ability of TFG and CAT to attract and retain qualified trustees to serve on their Boards of Trustees. Applicants believe that the proposed arrangements are necessary and appropriate in the public

interest, consistent with the protection of investors, and with the purposes fairly intended by the policy and provisions of the Act.

2. Section 18(f)(1) generally prohibits a registered open-end investment company from issuing senior securities. Section 13(a)(2) requires that an open-end company obtain shareholder authorization before issuing any senior security not contemplated by the recitals of policy in its registration statement. Applicants contend that the Agreements possess none of the characteristics of senior securities that led Congress to enact sections 18(f)(1) and 13(a)(2). The Agreements would not: (a) Induce speculative investments or provide opportunities for manipulative allocation of TFG's or CAT's expenses or profits; (b) affect control of TFG or CAT; (c) confuse investors or convey a false impression as to the safety of their investments; or (d) be inconsistent with the theory of mutuality of risk. All liabilities created by credits to Deferred Fee Accounts would be offset by equal amounts of assets that would not remain in TFG or CAT if the trustees' fees were paid on a current basis.

3. Section 22(f) bars undisclosed restrictions on transferability or negotiability of redeemable securities issued by open-end investment companies. The Agreements would set forth all such restrictions, which would be included primarily to benefit the participating trustees and would not adversely affect the interests of such trustees or of any shareholder.

4. Section 22(g) prohibits a registered open-end investment company from issuing any of its securities for services or for property other than cash or securities. This provision prevents the dilution of equity and voting power that can result when securities are issued for consideration that is not readily valued. Applicants assert that the Agreements would not dilute shareholders' equity or voting powers. In addition, although any trustees' fees would clearly be paid in return for services, the Agreements would provide for deferral of payment of such fees rather than for issuance of securities in return for services.

5. Section 17(a)(1) generally prohibits an affiliated person of a registered investment company, or any affiliated person of such person, from selling any security to such registered investment company. Pursuant to section 2(a)(3), the Adviser is an affiliated person of each series of TFG and CAT, so that each series is an affiliated person of an affiliated person of each other series and is subject to the prohibitions of section 17(a)(1). Applicants believe that an exemption from this provision would

facilitate the matching of each series' liability for deferred fees with the Underlying Securities that would determine the amount of such liability.

6. Section 13(a)(3) provides that no registered investment company shall, unless authorized by the vote of a majority of its outstanding voting securities, deviate from any investment policy that is changeable only if authorized by shareholder vote. Applicants believe that it is appropriate to exempt the Government Fund from section 13(a)(3) so as to enable it to invest in Underlying Securities without a shareholder vote. The value of the Underlying Securities will be *de minimis* in relation to the total net assets of the Government Fund, and will at all times equal the value of the Government Fund's obligations to pay deferred fees. Changes in the value of the Underlying Securities will not affect the value of shareholders' investments in the Government Fund. Thus, permitting the Government Fund to invest in Underlying Securities without obtaining the shareholder approval required by section 13(a)(3) would result in no harm to TFG or its shareholders.

7. Rule 2a-7 provides that the current price per share of a "money market fund" may be computed by use of the amortized cost method under certain circumstances. Two of these circumstances require that the money market fund: (1) Limit its investments to securities that have a remaining maturity of 397 days or less and that meet certain credit quality standards; and (2) maintain a dollar-weighted average portfolio maturity that does not exceed 90 days. Applicants request an exemption from rule 2a-7 to the limited extent necessary to permit the money market series of TFG and CAT to invest in Underlying Securities and to exclude Underlying Securities in calculating their dollar-weighted average maturities. Exempting the money market series of CAT and TFG from rule 2a-7 would permit exact matching of Underlying Securities with the deemed investments of the Deferred Fee Accounts, ensuring that the Agreements will not affect the net asset value of the money market series because any increase or decrease in the value of the Underlying Securities will be precisely offset by a simultaneous increase or decrease in each series' liability for deferred fees.

8. Section 17(d) and rule 17d-1 generally prevent a registered investment company's joint or joint and several participation with an affiliated person in any joint enterprise or other joint arrangement or profit-sharing plan on a basis different from or less

advantageous than that of the affiliated person. Under the Agreements, trustees will not receive a benefit, directly or indirectly, that would otherwise inure to TFG, CAT, or any of their shareholders. Participating trustees will receive tax deferral, but the Agreements otherwise will maintain the parties, viewed both separately and in their relationship to one another, in the same position as if the deferred fees were paid on a current basis. When all payments have been made to a trustee, the trustee will be no better off (apart from the effect of tax deferral) than if he or she had received trustees' fees on a current basis and invested them in Underlying Securities.

Applicant's Conditions

Applicants agree that any order granting the requested relief will be subject to the following conditions:

1. The balance sheet for each series will show liability and asset entries for deferred fees or will include a footnote explaining that such series has offset its liability for deferred fees with the assets that determine the amount of such series' liability.

2. With respect to the requested relief from rule 2a-7, any money market series that values its assets using the amortized cost method will buy and hold the Underlying Securities that determine the performance of Deferred Fee Accounts to achieve an exact match between such series' liability to pay deferred fees and the assets that offset that liability.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,
Deputy Secretary.

DEPARTMENT OF TRANSPORTATION

Aviation Proceedings; Agreements Filed During the Week Ended August 14, 1992

The following Agreements were filed with the Department of Transportation under the provisions of 49 U.S.C. 412 and 414. Answers may be filed within 21 days of date of filing.

Docket Number: 48290.

Date filed: August 10, 1992.

Parties: Members of the International Air Transport Association.

Subject: Mail Vote 587.

Air Cargo Rates Airport to Airport (EC requirements).

Proposed Effective Date: January 1, 1993.

Docket Number: 48291.

Date filed: August 10, 1992.

Parties: Members of the International Air Transport Association.

Subject: Comp MV/C 0359 dated July 15, 1992.

Mail Vote 579.

Revalidating/Amending Resos—Except Re US/USA Territories.

R-1-002 R-2-501 R-3-002.

Proposed Effective Date: October 1, 1992.

Docket Number: 48292.

Date filed: August 10, 1992.

Parties: Members of the International Air Transport Association.

Subject: TC12 Fares 0387 dated July 31, 1992.

USA-UK add-on amounts.

Proposed Effective Date: October 1, 1992.

Docket Number: 48294.

Date filed: August 12, 1992.

Parties: Members of the International Air Transport Association.

Subject: Comp MV/C 0360 dated July 15, 1992.

Mail Vote 580-TC31 Southeast Asia-USA/USTerr.

TC1-South Asian subcontinent via Atlantic.

BILLING CODE 4910-62-M

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q during the Week Ended August 14, 1992

The following Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier

Permits were filed under Subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 et seq.). The due date for Answers, Conforming Applications, or Motions to Modify Scope are set forth below for each application. Following the Answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Docket Number: 48295.

Date filed: August 13, 1992.

Due Date for Answers, Conforming Applications, or Motion to Modify Scope: September 10, 1992.

Description: Application of United Air Lines, Inc. pursuant to section 401 of the Act and Subpart Q of the Regulations, applies for an amendment to its certificate of public convenience and necessity for Route 632 to realign the points listed on segment 1 of this Route.

Docket Number: 48298.

Date filed: August 14, 1992.

Due Date for Answers, Conforming Applications, or Motion to Modify Scope: September 11, 1992.

Description: Application of Atlas Air, Inc., pursuant to section 401 of the Act and Subpart Q of the Regulations, applies for issuance of a certificate of public convenience and necessity, seeking (a) worldwide cargo charter authority and (b) scheduled service property and mail authority between points in the United States and Taipei/Kaoshiung.

Docket Number: 44505.

Date filed: August 11, 1992.

Due Date for Answers, Conforming Applications, or Motion to Modify Scope: September 8, 1992.

Description: Application of Haiti Air Freight International, S.A., pursuant to section 402 of the Act and Subpart Q of the Act, request renewal of its foreign air carrier permit authorizing it to engage in non-scheduled foreign air transportation of property and mail over the following segment: Between Port-au-Prince, Haiti and the terminal points Miami, Florida; New York, New York; San Juan, Puerto Rico; and the U.S. Virgin Islands.

Docket Number: 48075.

Date filed: August 10, 1992.

Due Date for Answers, Conforming Applications, or Motion to Modify Scope: September 8, 1992.

Description: First Amendment to the Application of Laker Airways (Bahamas) Limited, pursuant to section 402 of the Act and Subpart Q of the Regulations, of its foreign air carrier

permit, amending its authority to engage in the scheduled air transportation of persons, property and mail between Freeport, Bahamas, on the one hand, and the co-terminal points Chicago, IL; Cleveland, OH; Richmond, VA; Raleigh-Durham, NC; Orlando, FL; Cincinnati, OH; Fort Lauderdale, FL; Miami, FL; Nashville, TN; and West Palm Beach, FL, on the other hand.

Security of Aircraft and Safety of Passengers Transiting Lebanon

AGENCY: Department of Transportation.

ACTION: Notice.

SUMMARY: The Department of Transportation has issued an order granting an exemption to U.S. and foreign carriers from the Department's prohibition on the sale in the United States of any transportation by air which includes any type of stop in Lebanon to the extent necessary to permit the outward carriage of cargo to Lebanon. This action is in furtherance of Presidential Determination 92-41, August 17, 1992. All other prohibitions in Presidential Determination 85-14, including the prohibition on U.S. air carriers flying into Lebanon, and in Order 85-7-45, precluding the sale in the United States of passenger transportation by air to Lebanon, remain in effect.

Dated: August 18, 1992.

Jeffrey N. Shane,

Assistant Secretary for Policy and International Affairs.

Federal Aviation Administration

Advisory Circular 21-29A, Detecting and Reporting Suspected Unapproved Parts

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of Advisory Circular (AC) 21-29A, Detecting and Reporting Suspected Unapproved Parts. Advisory Circular 21-29A provides information and guidance to the aviation community for detecting and reporting suspected unapproved aircraft parts, and includes procedures for referral of such reports to the appropriate Federal Aviation Administration Office.

ADDRESSES: Copies of AC 21-29A can be obtained from the following: Federal Aviation Administration, Department of Transportation, Utilization and Storage Section, M443.2, 400 Seventh Street SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: David W. Broughton, Project Manager, Aircraft Manufacturing Division (AIR-200), 800 Independence Avenue SW., Washington, DC 20591, (202) 267-9575.

Issued in Washington, DC, on July 16, 1992.

Michael Fradette,

Acting Manager, Aircraft Manufacturing Division.

[FR Doc. 92-20176 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

Information Concerning FAA Procedures for Examining and Monitoring Foreign Air Carriers

AGENCY: Federal Aviation Administration (FAA), DOT.

SUMMARY: This notice provides a description of the FAA's program for gathering safety information concerning new and existing foreign air carriers operating into the United States. This notice describes the type of information sought by the FAA and how the information will be used to evaluate the safety oversight of those foreign air carriers by the appropriate civil aviation authority.

FOR FURTHER INFORMATION CONTACT: Mr. Jim Kenney, Flight Standards International Programs Office, FAA, 800

Independence Avenue, SW.,
Washington, DC 20591. Telephone (202)
267-3651.

SUPPLEMENTARY INFORMATION:

Background

The international requirements governing air safety are contained in the Convention on International Civil Aviation, 61 Stat. 1180 (Chicago Convention) and its related Annexes, primarily Annex 6 and Annex 8. A basic precept of the international scheme is that sovereign states that accept the Convention's obligations will comply with them.

If a particular foreign air carrier of a sovereign state desires to conduct foreign air transportation operations into the United States, it must file an application with the Office of the Secretary of Transportation (OST) for a foreign air carrier permit under section 402 of the Federal Aviation Act of 1958, as amended, or for an exemption under section 416(b) of the Act. Parts 211 and 302 of the Economic Regulations of OST (14 CFR parts 211 and 302) prescribe the requirements for issuance of these authorities. Consistently with international law, certain safety requirements for operation into the United States are prescribed by the FAA's part 129 (14 CFR part 129). Before OST issues a foreign air carrier permit or exemption, it notifies the FAA of the application and request the FAA's evaluation of the applicant's capability for safe operations. This practice and procedure has been in effect for many years. OST does not issue a foreign air carrier permit or exemption, and FAA does not issue part 129 operations specifications unless the FAA is satisfied that a foreign air carrier is capable of conducting safe operations within the United States.

New Applicants

When the FAA is notified of OST's receipt of a section 402 permit application, the FAA seeks certain information. That information includes, but is not limited to, the following:

1. Whether the foreign air carrier holds a proper Air Operator Certificate (AOC), issued by its Civil Aviation Authority (CAA);
2. Whether the CAA provides oversight of the foreign air carrier sufficient to ensure safe operations, in accordance with the Chicago Convention and any applicable bilateral air transport agreement; and
3. Whether the foreign air carrier has an organization, the personnel, the management, and equipment necessary to conduct safe air transportation operations into the United States.

In obtaining this information, the FAA meets with officials of the foreign air carriers and its CAA, and seeks copies of appropriate documents, certificates and other records.

If the FAA is satisfied that the foreign air carrier is capable of conducting safe operations, the FAA notifies OST. After OST issues the carrier its foreign air carrier permit or exemption, the FAA will issue part 129 operations specifications. Conversely, if the FAA is not satisfied, then the FAA notifies OST that a foreign air carrier permit or exemption should not be issued, and the FAA will not issue part 129 operations specifications to the foreign air carrier. The issuance of a foreign air carrier permit or exemption and part 129 operations specifications are conditions precedent to a foreign air carrier's ability to operate into the United States.

Foreign Air Carriers Now Operating Into the United States

OST and FAA also have responsibilities with respect to foreign air carriers now operating into the United States. The FAA monitors safety of operations. If the FAA learns of conditions indicating that a foreign air carrier may not be conducting its operations safely in compliance with applicable laws, the FAA will take appropriate action within its jurisdiction and will also notify OST as necessary and appropriate. In addition, the FAA will take all measures necessary, consistent with domestic and international law, to prevent further flights of unairworthy aircraft in United States airspace, regardless of the aircraft's country of registry. Failures to correct unsafe conditions can lead to loss of section 402 permits and operations specifications.

Technical Assistance

The FAA dedicates significant resources to international aviation. For example, it has an Office of International Aviation within which there is an International Assistance Division. The FAA's Flight Standards Service has an Office of International Programs. In appropriate cases, the FAA offers technical assistance to sovereign nations in the interest of solving specific safety problems.

Issued in Washington, DC, on August 18, 1992.

Anthony J. Broderick,

Associate Administrator for Regulation and Certification.

[FR Doc. 92-20165 Filed 8-21-92; 8:45 am]

BILLING CODE 4910-13-M

Guam International Air Terminal, Tamuning, GU; Intent To Rule on Application

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of intent to rule on application to impose and use the revenue from a passenger facility charge (PFC) at Guam International Air Terminal, Tamuning Guam.

SUMMARY: The Federal Aviation Administration (FAA) proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Guam International Air Terminal under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101-508) and 14 CFR part 158.

On August 7, 1992, the FAA determined that the application to impose and use the revenue from a PFC submitted by Guam Airport Authority was substantially complete within the requirements of § 158.25 of part 158. The FAA will approve or disapprove the application, in whole or in part, no later than November 7, 1992.

DATES: Comments must be received on or before September 23, 1992.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address:

Honolulu Airports District Office, P.O. Box 50244, Honolulu, HI 96850-0001; Street Address: 300 Ala Moana Blvd., room 7116, Honolulu, HI 96813.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Jess Q. Torres, Executive Manager of the Guam Airport Authority at the following address:

Guam Airport Authority, Guam International Air Terminal, P.O. Box 8770, Tamuning, Guam 96911.

Comments from air carriers and foreign air carriers may be in the same form as provided to the Guam Airport Authority under § 158.23 of part 158.

FOR FURTHER INFORMATION CONTACT:

Henry A. Sumida, Manager, Honolulu Airports District Office, 300 Ala Moana Blvd., room 7116, Honolulu, HI 96813; Mailing Address: P.O. Box 50244, Honolulu, HI 96850; Telephone: (808) 541-1230. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The following is a brief overview of the application.

Level of the proposed PFC: \$3.00.
Proposed charge effective date: September 1, 1992. Proposed charge expiration date: December 15, 1993.
Total estimated PFC revenue: \$5,632,360.00.

Brief description of proposed project(s):

- 102. Environmental Assessment—Terminal Renovation and Expansion.
- 303. Runway Improvements.
- 304. Environmental Assessment—Navy land Acquisition.
- 403. Aprons 1-9 Rehabilitation.
- 404. Aprons 11-13 Construction.

AVAILABILITY OF APPLICATIONS: Any person may inspect the application in person at the FAA office listed above and at the FAA regional Airports office located at:

Western-Pacific Region, Airports Division, room 3E24, 15000 Aviation Blvd., Hawthorne, CA 90261.

In addition, any person may, upon request, inspect the application, notice, and other documents germane to the application in person at the Guam Airport Authority.

Issued in Hawthorne, California, on August 7, 1992.

Herman C. Bliss,

Manager, Airports Division, Western-Pacific Region.

BILLING CODE 4910-13-M

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Supplement to Department Circular; Public Debt Series; No. 27-92]

Treasury Bonds of August 2022

Washington, August 14, 1992.

The Secretary announced on August 13, 1992, that the interest rate on the bonds designated Bonds of August 2022, described in Department Circular—Public Debt Series—No. 27-92 dated August 5, 1992, will be 7¼ percent. Interest on the bonds will be payable at the rate of 7¼ percent per annum.

Gerald Murphy,

Fiscal Assistant Secretary.

[FR Doc. 92-20151 Filed 8-21-92; 8:45 am]

BILLING CODE 4810-40-M

[Department Circular; Public Debt Series; No. 28-92; (CUSIP No. 912827 G6 3)]

Treasury Notes of August 31, 1994, Series AD-1994

Washington, August 19, 1992.

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of chapter 31 to title 31, United States Code, invites tenders for United States securities, as described above and in the offering announcement, hereafter referred to as Notes. The Notes will be sold at auction, and bidding will be on a yield basis. Payment will be required at the price equivalent of the yield of each accepted bid. The interest rate on Notes and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of the Notes may be issued to Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the Notes may also be issued at the average price of Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities.

2.1. The issue date and maturity date of the Notes are stated in the offering announcement. The Notes will accrue interest from the issue date. Interest will be payable on a semiannual basis as described in the offering announcement through the date that the principal becomes payable. The Notes will not be subject to call for redemption prior to maturity. In the event any payment date is a Saturday, Sunday, or other nonbusiness day, the amount due will be payable (without additional interest) on the next business day.

2.2. The Notes will be issued only in book-entry form in the minimum and multiple amounts stated in the offering announcement. They will not be issued in registered definitive or in bearer form.

2.3. The Department of the Treasury's general regulations governing United States securities, i.e., Department of the Treasury Circular No. 300, current revision (31 CFR part 306), as to the extent applicable to marketplace securities issued in book-entry form, and the regulations governing book-entry Treasury Bonds, Notes, and Bills, as adopted and published as a final rule to govern securities held in the Treasury Direct Book-Entry Securities System in Department of the Treasury Circular, Public Debt Series, No. 2-86 (31 CFR part 357), apply to the Notes offered in this circular.

3. Sales Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, DC 20239-1500. The closing times for the receipt of noncompetitive and competitive tenders are specified in the offering announcement. Noncompetitive tenders will be considered timely if postmarked (U.S. Postal Service cancellation date) no later than the day prior to the auction and received no later than close of business on the issue day.

3.2. The par amount of Notes bid for must be stated on each tender. The minimum bid is stated in the offering announcement, and larger bids must be in multiples of that amount.

3.3. Competitive bids must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.10%. Fractions may not be used. A single bidder, as defined in Treasury's single bidder guidelines contained in Attachment A to this circular, may submit bids at more than one yield. However, at any one yield, the Treasury will not recognize any amount tendered by a single bidder in excess of 35 percent of the public offering amount. A competitive bid by a single bidder at any one yield in excess of 35 percent of the public offering will be reduced to that amount.

3.4. Noncompetitive tenders do not specify a yield. A single bidder should not submit a noncompetitive tender for more than \$5,000,000. A noncompetitive bid by a single bidder in excess of \$5,000,000 will be reduced to that amount. A bidder, whether bidding directly or through a depository institution or a government securities broker/dealer, may not submit a noncompetitive bid for its own account in the same auction in which it is submitting a competitive bid for its own account. A bidder may not submit a noncompetitive bid if the bidder holds a position, in the Notes being auctioned, in "when-issued" trading, or in futures or forward contracts. A noncompetitive bidder may not enter into any agreement to purchase or sell or otherwise dispose of the security being auctioned, nor may it commit to sell the security prior to the designated closing time for receipt of competitive bids.

3.5. The following institutions may submit tenders for accounts of customers: Depository institutions, as described in section 19(b)(1)(A), excluding those institutions described in subparagraph (vii), of the Federal Reserve Act (12 U.S.C. 461(b)(1)(A)); and government securities broker/dealers

that are registered with the Securities and Exchange Commission or noticed as government securities broker/dealers pursuant to section 15C(a)(1) of the Securities Exchange Act of 1934. Others are permitted to submit tenders only for their own account. A submitter, if bidding competitively for customers, must include a customer list with the tender giving, for each customer, the name of the customer and the amount bid. A separate tender and customer list should be submitted for each competitive yield. For noncompetitive bids, the customer list must provide, for each customer, the name of the customer and the amount bid. For mailed tenders, the customer list must be submitted with the tender. For other than mailed tenders, the customer list should accompany the tender. If the customer list is not submitted with the tender, information for the list must be complete and available for review by the deadline for submission of noncompetitive tenders. The customer list should be received by the Federal Reserve Bank on auction day. All competitive and noncompetitive bids submitted on behalf of trust estates must provide, for each trust estate, the name or title of the trustee(s), a reference to the document creating the trust with the date of execution, and the employer identification number of the trust. Customer bids may not be aggregated on the customer list. The customer list must include customers and customers of those customers, where applicable.

3.6. A competitive single bidder must report its net long position if the total of all its bids for the security being offered and its net position in the security equals or exceeds \$2 billion, with the position to be determined as of one half-hour prior to the closing time for the receipt of competitive tenders. A net long position includes positions, in the security being auctioned, in "when-issued" trading, and in futures and forward contracts. Bidders who meet this reporting requirement and are customers of a depository institution or a government securities broker/dealer must report their positions through the institution submitting the bid on their behalf.

3.7. Tenders from bidders who are making payment by charge to a funds account at a Federal Reserve Bank and tenders from bidders who have an approved autocharge agreement on file at a Federal Reserve Bank will be received without deposit. In addition, tenders from States, and their political

subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; and Federal Reserve Banks will be received without deposit. Tenders from all others, including tenders submitted for Notes to be maintained on the book-entry records of the Department of the Treasury, must be accompanied by full payment for the amount of Notes applied for, or by a guarantee from a commercial bank or a primary dealer of 5 percent of the par amount applied for.

3.8. After the deadline for receipt of competitive tenders, there will be a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in section 4, noncompetitive bids will be accepted in full, and then competitive bids will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Bids at the highest accepted yield will be prorated if necessary. After the determination is made as to which bids are accepted, an interest rate will be established, at a $\frac{1}{8}$ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit. That stated rate of interest will be paid on all of the Notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive bids will pay the price equivalent to the weighted average yield of accepted competitive bids. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive bids received would absorb all or most of the offering, competitive bids will be accepted in an amount sufficient to provide a fair determination of the yield. Bids received from Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive bids.

3.9. No single bidder will be awarded securities in an amount exceeding 35 percent of the public offering. The determination of the maximum award to a single bidder will take into account the bidder's net long position, if the bidder has been obliged to report its position

per the requirements outlined in section 3.6.

3.10. Notice of awards will be provided by a Federal Reserve Bank or Branch or the Bureau of the Public Debt to bidders who have submitted accepted competitive bids, whether for their own account or for the account of customers. Those submitting noncompetitive bids will be notified only if the bid is not accepted in full, or when the price at the average yield is over par. No later than 12 noon local time on the day following the auction, the appropriate Federal Reserve Bank will notify each depository institution that has entered into an autocharge agreement with a bidder as to the amount to be charged to the institution's funds account at the Federal Reserve Bank on the issue date. Any customer that is awarded \$500 million or more of securities must furnish, no later than 10 a.m. local time on the day following the auction, written confirmation of its bid to the Federal Reserve Bank or Branch where the bid was submitted. A depository institution or government securities broker/dealer submitting a bid for a customer is responsible for notifying its customer of this requirement if the customer is awarded \$500 million or more of securities as a result of bids submitted by the depository institution or government securities broker/dealer.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all bids in whole or in part, to allot more or less than the amount of Notes specified in the offering announcement, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this section is final.

5. Payment and Delivery

5.1. Settlement for the Notes allotted must be made timely at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on Notes allotted will be made by a charge to a funds account or pursuant to an approved autocharge agreement, as provided in section 3.7. Settlement on Notes allotted to institutional investors and to others whose tenders are accompanied by a guarantee as provided in section 3.7, must be made or completed on or before the issue date. Payment in full must accompany tenders submitted by all other investors.

Payment must be in cash; in other funds immediately available to the Treasury; in Treasury notes or bonds maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors by the time stated in the offering announcement. When payment has been submitted with the tender and the purchase price of the Notes allotted is over par, settlement for the premium must be completed timely, as specified above. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the par amount of Notes allotted may, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered definitive securities tendered in payment for the Notes allotted and to be held in Treasury Direct are not required to be assigned if the inscription on the registered definitive security is identical to the registration of the Note being purchased. In any such case, the tender form used to place the Notes allotted in Treasury Direct must be completed to show all the information required thereon, or the Treasury Direct account number previously obtained.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized, as directed by the Secretary of the Treasury, to receive tenders, to make allotments, to issue such notices as may be necessary, to receive payment for, and to issue, maintain, service, and make payment on the Notes.

6.2. The Secretary of the Treasury may at any time supplement or amend provisions of this circular if such supplements or amendments do not adversely affect existing rights of holders of the Notes. Public announcement of such changes will be promptly provided.

6.3. The Notes issued under this circular shall be obligations of the United States, and, therefore, the faith of the United States Government is pledged to pay, in legal tender, principal and interest on the Notes.

6.4. Attachment A and the offering announcement are incorporated as part of this circular.

John A. Kilcoyne,

Acting Fiscal Assistant Secretary.

Attachment A

Treasury's Single Bidder Guidelines for Noncompetitive Bidding in All Treasury Security Auctions

The investor categories listed below defined what constitutes a single noncompetitive bidder.

(1) *Bank Holding Companies and Subsidiaries*—A bank holding company (includes the company and/or one or more of its subsidiaries, whether or not organized as separate entities under applicable law).

(2) *Banks and Branches*—A parent bank (includes the parent and/or one or more of its branches, whether or not organized as separate entities under applicable law).

(3) *Thrift Institutions and Branches*—A thrift institution, such as a savings and loan association, credit union, savings banks, or other similar entity (includes the principal or parent office and/or one or more of its branches, whether or not organized as separate entities under applicable law).

(4) *Corporations and Subsidiaries*—A corporation (includes the corporation and/or one or more of its majority-owned subsidiaries, i.e., any subsidiary more than 50 percent of whose stock is owned by the parent corporation or by any other of its majority-owned subsidiaries).

(5) *Families*—A married person (includes his or her spouse, and any unmarried adult children, having a common address and/or household).

Note: A minor child, as defined by the law of domicile, is not permitted to submit tenders individually, or jointly with an adult bidder. (A minor's parent acting as natural guardian is not recognized as a separate bidder.)

(6) *Partnerships*—Each partnership (includes a partnership or individual partner(s), acting together or separately, who own the majority or controlling interest in other partnerships, corporations, or associations).

(7) *Guardians, Custodians, or other Fiduciaries*—A guardian, custodian, or similar fiduciary, identified by (a) the name or title of the fiduciary, (b) reference to the document, court order, or other authority under which the fiduciary is acting, and (c) the taxpayer identifying number assigned to the estate.

(8) *Trusts*—A trust estate, which is identified by (a) the name or title of the trustee, (b) a reference to the document

creating the trust, e.g., a trust indenture, with date of execution, or a will, (c) the IRS employer identification number (not social security account number).

(9) *Political Subdivisions*—(a) A state government (any of the 50 states and the District of Columbia).

(b) A unit of local government (any county, city, municipality, or township, or other unit of general government, as defined by the Bureau of the Census for statistical purposes, and includes any trust, investment, or other funds thereof).

(c) A commonwealth, territory, or possession.

(10) *Mutual Funds*—A mutual fund (includes all funds that comprise it, whether or not separately administered).

(11) *Money Market Funds*—A money market fund (includes all funds that have a common management).

(12) *Investment Agents/Money Managers*—An individual, firm, or association that undertakes to service, invest, and/or manage funds for others.

(13) *Pension Funds*—A pension fund (includes all funds that comprise it, whether or not separately administered).

Notes: The definitions do not reflect all bidder situations. "Single bidder" is not necessarily synonymous with "single entity".

Questions concerning the guidelines should be directed to the Office of Financing, Bureau of the Public Debt, Washington, DC 20239 (telephone 202/219-3350).

Auction of 2-Year and 5-Year Notes Totalling \$25,500 Million

The Treasury will auction \$15,000 million of 2-year notes and \$10,500 million of 5-year notes to refund \$12,298 million of securities maturing August 31, 1992, and to raise about \$13,200 million new cash. The \$12,298 million of maturing securities are those held by the public, including \$710 million currently held by Federal Reserve Banks as agents for foreign and international monetary authorities.

The \$25,500 million is being offered to the public, and any amounts tendered by Federal Reserve Banks as agents for foreign and international monetary authorities will be added to that amount. Tenders for such accounts will be accepted at the average prices of accepted competitive tenders.

In addition to the public holdings, Federal Reserve Banks, for their own accounts, hold \$1,131 million of the maturing securities that may be refunded by issuing additional amounts of the new securities at the average prices of accepted competitive tenders.

Details about each of the new securities are given in the attached

highlights of the offerings and in the official offering circulars.

BILLING CODE 4810-40-M

[Supplement to Department Circular; Public Debt Series; No. 26-92]

Treasury Notes, Series B-2002

Washington, August 13, 1992.

The Secretary announced on August 12, 1992, that the interest rate on the notes designated Series B-2002, described in Department Circular—Public Debt Series—No. 26-92 dated August 5, 1992, will be 6% percent. Interest on the notes will be payable at the rate of 6% percent per annum.

Gerald Murphy,

Fiscal Assistant Secretary.

Interest on the notes will be payable at the rate of 4% percent per annum.

Gerald Murphy,

Fiscal Assistant Secretary.

[FR Doc. 92-20149 Filed 8-21-92; 8:45 am]

BILLING CODE 4810-40-M

[Department Circular—Public Debt Series—No. 29-92 and CUSIP No. 912827 G7 1]

Treasury Notes of August 31, 1997, Series Q-1997

Washington, August 19, 1992.

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of Chapter 31 of Title 31, United States Code, invites tenders for United States securities, as described above and in the offering announcement, hereafter referred to as Notes. The Notes will be sold at auction, and bidding will be on a yield basis. Payment will be required at the price equivalent of the yield of each accepted bid. The interest rate on the Notes and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of the Notes may be issued to Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the Notes may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities

2.1. The issue date and maturity date of the Notes are stated in the offering announcement. The Notes will accrue interest from the issue date. Interest will be payable on a semiannual basis as described in the offering announcement through the date that the principal becomes payable. The Notes will not be subject to call for redemption prior to maturity. In the event any payment date is a Saturday, Sunday, or other nonbusiness day, the amount due will be payable (without additional interest) on the next business day.

2.2. The Notes will be issued only in book-entry form in the minimum and multiple amounts stated in the offering announcement. They will not be issued in registered definitive or in bearer form.

2.3. The Department of the Treasury's general regulations governing United States securities, i.e., Department of the Treasury Circular No. 300, current revision (31 CFR part 306), as to the extent applicable to marketable securities issued in book-entry form, and the regulations governing book-entry Treasury Bonds, Notes, and Bills, as adopted and published as a final rule to govern securities held in the TREASURY DIRECT Book-Entry Securities System in Department of the Treasury Circular, Public Debt Series, No. 2-86 (31 CFR Part 357), apply to the Notes offered in this circular.

[Supplement to Department Circular; Public Debt Series; No. 25-92]

Treasury Notes, Series Q-1995

Washington, August 12, 1992.

The Secretary announced on August 11, 1992, that the interest rate on the notes designated Series Q-1995, described in Department Circular—Public Debt Series—No. 25-92 dated August 5, 1992, will be 4% percent.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, DC 20239-1500. The closing times for the receipt of noncompetitive and competitive tenders are specified in the offering announcement. Noncompetitive tenders will be considered timely if postmarked (U.S. Postal Service cancellation date) no later than the day prior to the auction and received no later than close of business on the issue day.

3.2. The par amount of Notes bid for must be stated on each tender. The minimum bid is stated in the offering announcement, and larger bids must be in multiples of that amount.

3.3. Competitive bids must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.10%. Fractions may not be used. A single bidder, as defined in Treasury's single bidder guidelines contained in Attachment A to this circular, may submit bids at more than one yield. However, at any one yield, the Treasury will not recognize any amount tendered by a single bidder in excess of 35 percent of the public offering amount. A competitive bid by a single bidder at any one yield in excess of 35 percent of the public offering will be reduced to that amount.

3.4. Noncompetitive tenders do not specify a yield. A single bidder should not submit a noncompetitive tender for more than \$5,000,000. A noncompetitive bid by a single bidder in excess of \$5,000,000 will be reduced to that amount. A bidder, whether bidding directly or through a depository institution or a government securities broker/dealer, may not submit a noncompetitive bid for its own account in the same auction in which it is submitting a competitive bid for its own account. A bidder may not submit a noncompetitive bid if the bidder holds a position, in the Notes being auctioned, in "when-issued" trading, or in futures or forward contracts. A noncompetitive bidder may not enter into any agreement to purchase or sell or otherwise dispose of the security being auctioned, nor may it commit to sell the security prior to the designated closing time for receipt of competitive bids.

3.5. The following institutions may submit tenders for accounts of customers: Depository institutions, as described in Section 19(b)(1)(A), excluding those institutions described in subparagraph (vii), of the Federal Reserve Act (12 U.S.C. 461(b)(1)(A)); and government securities broker/dealers that are registered with the Securities

and Exchange Commission or noticed as government securities broker/dealers pursuant to section 15C(a)(1) of the Securities Exchange Act of 1934. Others are permitted to submit tenders only for their own account. A submitter, if bidding competitively for customers, must include a customer list with the tender giving, for each customer, the name of the customer and the amount bid. A separate tender and customer list should be submitted for each competitive yield. For noncompetitive bids, the customer list must provide, for each customer, the name of the customer and the amount bid. For mailed tenders, the customer list must be submitted with the tender. For other than mailed tenders, the customer list should accompany the tender. If the customer list is not submitted with the tender, information for the list must be complete and available for review by the deadline for submission of noncompetitive tenders. The customer list should be received by the Federal Reserve Bank on auction day. All competitive and noncompetitive bids submitted on behalf of trust estates must provide, for each trust estate, the name or title of the trustee(s), a reference to the document creating the trust with the date of execution, and the employer identification number of the trust. Customer bids may not be aggregated on the customer list. The customer list must include customers and customers of those customers, where applicable.

3.6. A competitive single bidder must report its net long position if the total of all its bids for the security being offered and its net position in the security equals or exceeds \$2 billion, with the position to be determined as of one half-hour prior to the closing time for the receipt of competitive tenders. A net long position includes positions, in the security being auctioned, in "when-issued" trading, and in futures and forward contracts. Bidders who meet this reporting requirement and are customers of a depository institution or a government securities broker/dealer must report their positions through the institution submitting the bid on their behalf.

3.7. Tenders from bidders who are making payment by charge to a funds account at a Federal Reserve Bank and tenders from bidders who have an approved autocharge agreement on file at a Federal Reserve Bank will be received without deposit. In addition, tenders from States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and

foreign states; and Federal Reserve Banks will be received without deposit. Tenders from all others, including tenders submitted for Notes to be maintained on the book-entry records of the Department of the Treasury, must be accompanied by full payment for the amount of Notes applied for, or by a guarantee from a commercial bank or a primary dealer of 5 percent of the par amount applied for.

3.8. After the deadline for receipt of competitive tenders, there will be a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive bids will be accepted in full, and then competitive bids will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Bids at the highest accepted yield will be prorated if necessary. After the determination is made as to which bids are accepted, an interest rate will be established at a $\frac{1}{8}$ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit. That stated rate of interest will be paid on all of the Notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive bids will pay the price equivalent to the weighted average yield of accepted competitive bids. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive bids received would absorb all or most of the offering, competitive bids will be accepted in an amount sufficient to provide a fair determination of the yield. Bids received from Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive bids.

3.9. No single bidder will be awarded securities in an amount exceeding 35 percent of the public offering. The determination of the maximum award to a single bidder will take into account the bidder's net long position, if the bidder has been obliged to report its position per the requirements outlined in Section 3.6.

3.10. Notice of awards will be provided by a Federal Reserve Bank or Branch or the Bureau of the Public Debt to bidders who have submitted accepted competitive bids, whether for their own

account or for the account of customers. Those submitting noncompetitive bids will be notified only if the bid is not accepted in full, or when the price at the average yield is over par. No later than 12 noon local time on the day following the auction, the appropriate Federal Reserve Bank will notify each depository institution that has entered into an autocharge agreement with a bidder as to the amount to be charged to the institution's funds account at the Federal Reserve Bank on the issue date. Any customer that is awarded \$500 million or more of securities must furnish, no later than 10:00 a.m. local time on the day following the auction, written confirmation of its bid to the Federal Reserve Bank or Branch where the bid was submitted. A depository institution or government securities broker/dealer submitting a bid for a customer is responsible for notifying its customer of this requirement if the customer is awarded \$500 million or more of securities as a result of bids submitted by the depository institution or government securities broker/dealer.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all bids in whole or in part, to allot more or less than the amount of Notes specified in the offering announcement, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for the Notes allotted must be made timely at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on Notes allotted will be made by a charge to a funds account or pursuant to an approved autocharge agreement, as provided in Section 3.7. Settlement on Notes allotted to institutional investors and to others whose tenders are accompanied by a guarantee as provided in Section 3.7, must be made or completed on or before the issue date. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury notes or bonds maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors by

the time stated in the offering announcement. When payment has been submitted with the tender and the purchase price of the Notes allotted is over par, settlement for the premium must be completed timely, as specified above. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the par amount of Notes allotted may, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered definitive securities tendered in payment for the Notes allotted and to be held in Treasury Direct are not required to be assigned if the inscription on the registered definitive security is identical to the registration of the Note being purchased. In any such case, the tender form used to place the Notes allotted in Treasury Direct must be completed to show all the information required thereon, or the Treasury Direct account number previously obtained.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized, as directed by the Secretary of the Treasury, to receive tenders, to make allotments, to issue such notices as may be necessary, to receive payment for, and to issue, maintain, service, and make payment on the Notes.

6.2. The Secretary of the Treasury may at any time supplement or amend provisions of this circular if such supplements or amendments do not adversely affect existing rights of holders of the Notes. Public announcement of such changes will be promptly provided.

6.3. The Notes issued under this circular shall be obligations of the United States, and, therefore, the faith of the United States Government is pledged to pay, in legal tender, principal and interest on the Notes.

6.4. Attachment A and the offering announcement are incorporated as part of this circular.

John A. Kilcoyne,
Acting Fiscal Assistant Secretary.

Attachment A

Treasury's Single Bidder Guidelines for Noncompetitive Bidding in all Treasury Security Auctions

The investor categories listed below define what constitutes a single noncompetitive bidder.

(1) *Bank Holding Companies and Subsidiaries*—A bank holding company (includes the company and/or one or more of its subsidiaries, whether or not organized as separate entities under applicable law).

(2) *Banks and Branches*—A parent bank (includes the parent and/or one or more of its branches, whether or not organized as separate entities under applicable law).

(3) *Thrift Institutions and Branches*—A thrift institution, such as a savings and loan association, credit union, savings banks, or other similar entity (includes the principal or parent office and/or one or more of its branches, whether or not organized as separate entities under applicable law).

(4) *Corporations and Subsidiaries*—A corporation (includes the corporation and/or one or more of its majority-owned subsidiaries, i.e., any subsidiary more than 50 percent of whose stock is owned by the parent corporation or by any other of its majority-owned subsidiaries).

(5) *Families*—A married person (includes his or her spouse, and any unmarried adult children, having a common address and/or household).

Note: A minor child, as defined by the law of domicile, is not permitted to submit tenders individually, or jointly with an adult bidder. (A minor's parent acting as natural guardian is not recognized as a separate bidder.)

(6) *Partnerships*—Each partnership (includes a partnership or individual partner(s), acting together or separately, who own the majority or controlling interest in other partnerships, corporations, or associations).

(7) *Guardians, Custodians, or other Fiduciaries*—A guardian, custodian, or similar fiduciary, identified by (a) the name or title of the fiduciary, (b) reference to the document, court order, or other authority under which the fiduciary is acting, and (c) the taxpayer identifying number assigned to the estate.

(8) *Trusts*—A trust estate, which is identified by (a) the name or title of the trustee, (b) a reference to the document creating the trust, e.g., a trust indenture, with date of execution, or a will, (c) the IRS employer identification number (not social security account number).

(9) *Political Subdivisions*—(a) A state government (any of the 50 states and the District of Columbia).

(b) A unit of local government (any county, city, municipality, or township, or other unit of general government, as defined by the Bureau of the Census for statistical purposes, and includes any

trust, investment, or other funds thereof).

(c) A commonwealth, territory, or possession.

(10) *Mutual Funds*—A mutual fund (includes all funds that comprise it, whether or not separately administered).

(11) *Money Market Funds*—A money market fund (includes all funds that have a common management).

(12) *Investment Agents/Money Managers*—An individual, firm, or association that undertakes to service, invest, and/or manage funds for others.

(13) *Pension Funds*—A pension fund (includes all funds that comprise it, whether or not separately administered).

Notes: The definitions do not reflect all bidder situations. "Single bidder" is not necessarily synonymous with "single entity".

Questions concerning the guidelines should be directed to the Office of Financing, Bureau of the Public Debt, Washington, DC 20239 (telephone 202/219-3350).

Auction of 2-Year and 5-Year Notes Totaling \$25,500 Million

The Treasury will auction \$15,000 million of 2-year notes and \$10,500 million of 5-year notes to refund \$12,298 million of securities maturing August 31, 1992, and to raise about \$13,200 million new cash. The \$12,298 million of maturing securities are those held by the public, including \$710 million currently held by Federal Reserve Banks as agents for foreign and international monetary authorities.

The \$25,500 million is being offered to the public, and any amounts tendered by Federal Reserve Banks as agents for foreign and international monetary authorities will be added to that amount. Tenders for such accounts will be accepted at the average prices of accepted competitive tenders.

In addition to the public holdings, Federal Reserve Banks, for their own accounts, hold \$1,131 million of the maturing securities that may be refunded by issuing additional amounts of the new securities at the average prices of accepted competitive tenders.

Details about each of the new securities are given in the attached highlights of the offerings and in the official offering circulars.

Sunshine Act Meetings

Federal Register

Vol. 57, No. 164

Monday, August 24, 1992

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

COMMODITY FUTURES TRADING COMMISSION

TIME AND DATE: 11:00 a.m., Friday, September 4, 1992.

PLACE: 2033 K St., N.W., Washington, D.C., 8th floor Hearing Room.

STATUS: Closed.

MATTERS TO BE CONSIDERED: Surveillance Matters.

CONTACT PERSON FOR MORE INFORMATION: Jean A. Webb, 254-6314.

Jean A. Webb,

Secretary of the Commission.

[FR Doc. 92-20291 Filed 8-20-92; 2:42 pm]

BILLING CODE 6351-01-M

COMMODITY FUTURES TRADING COMMISSION

TIME AND DATE: 11:00 a.m., Friday, September 11, 1992.

PLACE: 2033 K St., NW., Washington, DC., 8th Floor Hearing Room.

STATUS: Closed.

MATTERS TO BE CONSIDERED: Surveillance Matters.

CONTACT PERSON FOR MORE INFORMATION: Jean A. Webb, 254-6314.

Jean A. Webb,

Secretary of the Commission.

Corrections

Federal Register

Vol. 57, No. 164

Monday, August 24, 1992

This section of the FEDERAL REGISTER contains editorial corrections of previously published Presidential, Rule, Proposed Rule, and Notice documents. These corrections are prepared by the Office of the Federal Register. Agency prepared corrections are issued as signed documents and appear in the appropriate document categories elsewhere in the issue.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Parts 200, 201, 202, 210, 229, 230, 232, 239, 240, 249, 260, and 269

[Release Nos. 33-6944; 34-30951; 35-25587; 39-2285; IC-18862; File No. S7-21-92]

RIN 3235-AC48

Rulemaking for EDGAR System

Correction

In proposed rule document 92-17957 beginning on page 35070 in the issue of Friday, August 7, 1992, on page 35143, beginning in the first column, appendix E is reprinted in its entirety:

Appendix E—Division of Corporation Finance Phase-In Schedule for EDGAR

At least three months prior to phase-in, registrants should file a completed Form ID with the Commission. After becoming subject to EDGAR, a filer must submit all filings in electronic format unless exempted from doing so. Note: Once a registrant is required to file electronically, all persons or entities submitting a filing relating to that registrant, such as a tender offer schedule, proxy statement or Schedule 13D, must submit the filing in electronic format.

July 15, 1992—Pilot filers that so elect may convert to the EDGAR system. Persons or entities making filings with respect to such filers may, at their option, submit their filings on EDGAR.

April 1993—Pilot filers and any approved Division volunteers will commence mandated electronic filing (Group CF-01). This is the first of four subgroups that comprise the "significant test group." Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

July 1993—The group of 525 registrants listed in Group CF-02 of Appendix E, less any volunteers that moved to CF-01, must make all filings

via EDGAR on or after this date. This is the second of four subgroups that comprise the "significant test group." Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

October 1993—The group of 750 registrants listed in Group CF-03 of Appendix E must make all filings via EDGAR on or after this date. This is the third of four subgroups that comprise the "significant test group." Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

December 1993—The group of 1000 registrants in Group CF-04 of Appendix E must make all filings via EDGAR on or after this date. This is the last of the subgroups that comprise the "significant test group." Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

August 1994—The group of registrants listed as Group CF-05 in Appendix E must make all filings via EDGAR on or after this date. This is the first group of registrants following the "significant test group." Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

November 1994—The group of registrants listed in Group CF-06 of Appendix E must make all filings via EDGAR on or after this date. Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

May 1995—The group of registrants listed in Group CF-07 of Appendix E must make all filings via EDGAR on or after this date. Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

August 1995—The group of registrants listed in Group CF-08 of Appendix E must make all filings via EDGAR on or after this date. Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

November 1995—The group of registrants listed in Group CF-09 of Appendix E must make all filings via EDGAR on or after this date. Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

May 1996—The group of registrants listed in Group CF-10 of Appendix E, plus any other parties submitting materials to the Commission and not previously named in Appendix E, must make all filings via EDGAR on or after this date. Persons or entities making filings with respect to these registrants must begin to submit their filings on EDGAR.

Part II

Department of the Interior

Bureau of Indian Affairs

Indian Gaming; Approved Tribal-State
Compact; Notice

DEPARTMENT OF THE INTERIOR**Bureau of Indian Affairs****Indian Gaming**

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of approved tribal-state compact.

SUMMARY: Pursuant to 25 U.S.C. 2710, of the Indian Gaming Regulatory Act of 1988 (Pub. L. 100-497), the Secretary of

the Interior shall publish, in the **Federal Register**, notice of approved Tribal-State Compacts for the purpose of engaging in Class III (casino) gambling on Indian reservations. The Assistant Secretary—Indian Affairs, Department of the Interior, through his delegated authority has approved the Cocopah Indian Tribe and the State of Arizona Gaming Compact of 1992, executed on July 28, 1992.

DATES: This action is effective August 24, 1992.

ADDRESSES: Office of Tribal Services, Bureau of Indian Affairs, Department of the Interior, MS/MIB 4603, 1849 "C" Street, NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Chief, Division of Tribal Government Services, Bureau of Indian Affairs, Washington, DC 20240, (202) 208-7446.

Dated: August 17, 1992.

Eddie F. Brown,

Assistant Secretary—Indian Affairs.

LIST OF PUBLIC LAWS

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws**.

Last List August 20, 1992

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, stock numbers, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is \$620.00 domestic, \$155.00 additional for foreign mailing.

Mail orders to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954. All orders must be accompanied by remittance (check, money order, GPO Deposit Account, VISA, or Master Card). Charge orders may be telephoned to the GPO Order Desk, Monday through Friday, at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, or FAX your charge orders to (202) 512-2233.

¹ Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

² The July 1, 1985 edition of 32 CFR Parts 1-189 contains a note only for Parts 1-39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1-39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

³ The July 1, 1985 edition of 41 CFR Chapters 1-100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

⁴ No amendments to this volume were promulgated during the period Jan. 1, 1987 to Dec. 31, 1991. The CFR volume issued January 1, 1987, should be retained.

⁵ No amendments to this volume were promulgated during the period Apr. 1, 1990 to Mar. 31, 1991. The CFR volume issued April 1, 1990, should be retained.

⁶ No amendments to this volume were promulgated during the period Apr. 1, 1991 to Mar. 30, 1992. The CFR volume issued April 1, 1991, should be retained.

⁷ No amendments to this volume were promulgated during the period July 1, 1989 to June 30, 1992. The CFR volume issued July 1, 1989, should be retained.

⁸ No amendments to this volume were promulgated during the period July 1, 1990 to June 30, 1991. The CFR volume issued July 1, 1990, should be retained.

⁹ No amendments to this volume were promulgated during the period July 1, 1991 to June 30, 1992. The CFR volume issued July 1, 1991, should be retained.

Public Laws

102d Congress, 2nd Session, 1992

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 102d Congress, 2nd Session, 1992.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).
